Look What You Made Me Do

Not all abuse leaves a mark. For more than two years, BBC Radio 4's *The Archers* ran a disturbing storyline centred on Helen Titchener's abuse at the hands of her husband Rob. Not the kind of abuse that leaves a bruise, but the sort of coercive control that breaks your spirit and makes it almost impossible to walk away. As she listened to the unfolding story, Helen Walmsley-Johnson was forced to confront her own agonizing past. Helen's first husband controlled her life, from the people she saw to what was in her bank account. He alienated her from friends and family and even from their three daughters. Eventually, he threw her out and she painfully began to rebuild her life. Then, divorced and in her early forties, she met Franc. Kind, charming, considerate Franc. For ten years she would be in his thrall, even when he too was telling her what to wear, what to eat, even what to think. *Look What You Made Me Do* is her candid and utterly gripping memoir of how she was trapped by a smiling abuser, not once but twice. It is a vital guide to recognizing, understanding and surviving this sinister form of abuse and its often terrible legacy. It is also an inspirational account of how one woman found the courage to walk away. 'Powerful' Jane Garvey, *Woman's Hour* 'Compelling' Suzanne Moore

See What You Made Me Do

Every year in England and Wales alone, one in twenty adults suffer domestic abuse, two thirds of them women. Every week, two men kill a woman they were intimate with. And still we ask the wrong question: Why didn't she leave? Instead, we should ask: Why did he do it? Investigative journalist Jess Hill puts perpetrators - and the systems that enable them - in the spotlight. Her radical reframing of domestic abuse takes us beyond the home to explore how power, culture and gender intersect to both produce and normalise abuse. She boldly confronts uncomfortable questions about how and why society creates abusers, but can't seem to protect their victims, and shows how we can end this dark cycle of fear and control. *See What You Made Me Do* is a profound and bold confrontation of this urgent crisis and its deep roots. It will challenge everything you thought you knew about domestic abuse.

Coercive Control

Drawing on cases, Stark identifies the problems with our current approach to domestic violence, outlines the components of coercive control, and then uses this alternate framework to analyse the cases of battered women charged with criminal offenses directed at their abusers.

In Control

'Groundbreaking' OBSERVER 'Blows assumptions about abusive relationships out of the water' CAITLIN MORAN 'Offers a strategy for intervention that would save lives' INDEPENDENT Every four days in the UK, a woman is killed by her partner or ex-partner – and in the past year, domestic abuse has become an epidemic. For thirty years, Jane Monckton Smith has been fighting to change this. A former police officer and internationally renowned professor of public protection, she has developed her ground-breaking research into an eight-stage homicide timeline, laying out identifiable stages in which coercive relationships can escalate to violence and murder. Drawing on disciplines including psychology, sociology and law, Monckton Smith talks to victims, their families and killers to piece together the hows and whys of abuse – while shining a searching light onto the society and media that allow it to thrive.

But first they have to stop a serial killer. When thirteen bodies are discovered in their small town, people are shocked. Invisible Chains

When you are showered with attention, it can feel incredibly romantic and can blind you to hints of problems ahead. But what happens when attentiveness becomes domination? In some relationships, the desire to control leads to jealousy, threats, micromanaging—even physical violence. If you or someone you care about are trapped in a web of coercive control, this book provides answers, hope, and a way out. Lisa Aronson Fontes draws on both professional expertise and personal experience to help you: *Recognize controlling behaviors of all kinds. *Understand why this destructive pattern occurs. *Determine whether you are in danger and if your partner can change. *Protect yourself and your kids. *Find the support and resources you need. *Take action to improve or end your relationship. *Regain your freedom and independence.

The Invisible Woman

'Stylish and wittily written ... a brilliant read that should encourage us all to challenge the cult of youth, and learn to love ourselves a little more along the way.' My Weekly There's nothing middle-of-the-road about middle age. From coping with bodies that are 'heading south' to rampant ageism in the workplace, this time in our lives, in the words of Bette Davis, 'is no place for sissies'. From family, finances and work to cosmetics, fashion and sex, 60-year-old Helen Walmsley-Johnson – the irrepressible voice behind the much-loved Guardian column 'The Vintage Years' – shows, with warmth and a wicked sense of humour, how we can reinvent middle age for the next generation of women.

Brutally Honest

'Utterly absorbing and deeply affecting' – The Guardian As a Spice Girl, TV talent show judge and Broadway star, Mel B a.k.a Scary Spice, has been a global icon since her twenties. But behind the glittering façade of fame, the struggles and pain of this working-class, mixed-race girl from Leeds are laid bare in her critically acclaimed best-selling memoir, Brutally Honest. With deep personal insight, remarkable frankness and trademark Yorkshire humour, the book tells how she went from Girl Power to girl powerless during her ten-year emotionally abusive marriage. Tracing a path through the key moments in her life, she reflects on her childhood, rise to fame and her chilling downward spiral before she finally broke free. In this expanded edition, written with Louise Gannon, Mel brings her story up to date. With her trademark honesty, she tells the unfiltered story of piecing herself back together, dealing with trauma and new heartbreak whilst becoming a champion for survivors of abuse, performing once more with the Spice Girls and receiving her MBE from Prince William.

How He Wins

The World Health Organisation has described the global increase in incidences of domestic abuse due to lockdowns and isolation as a shadow pandemic. Dr Hans Henri P. Kluge, the WHO Regional Director for Europe, has warned that the world could see 31 million cases of gender-based violence if nothing is done, and has called for more action to be taken. This stark warning is an indictment of our failure, in Europe and elsewhere, to reduce the level of male intimate abuse, in spite of the extraordinary energy and dedication of thousands of practitioners and academics. In this challenging book, Don Hennessy examines our practices and procedures, our attitudes and our beliefs, in relation to coercive control. He demonstrates how we have made few inroads in this area – either into the prevalence of male intimate abuse, or in relation to the tactics that support the ability of the male intimate abuser to establish and maintain his control. It is vital that all agencies, both statutory and non-governmental, recognise that we need to change our position from one of support to one of protection. The protection that Hennessy promotes is not that of the physical refuge alone, but the mental safeguard which will allow each target-woman to follow her own intuition. *How He Wins*, by the best-selling author of *Steps to Freedom*, focuses in particular on the impact of abuse on the target-woman's family members, and features numerous powerful personal stories. It is essential reading for any woman who has been the target of domestic abuse and has found herself abandoned by the community.

Remembered Forever

Praise for Luke and Ryan Hart's memoir: 'A powerful, searing account from incredible brothers and an important contribution to our understanding of domestic abuse' Victoria Derbyshire '... a courageous account of domestic abuse and the devastating impact it has on families' Jeremy Corbyn MP 'Relevant and inspiring' Chris Green, White Ribbon UK On 19 July 2016, Claire and Charlotte Hart were murdered, in broad daylight, by the family's father. He shot his wife and daughter with a sawn-off shotgun before committing suicide. *REMEMBERED FOREVER* is the shocking story of what led to this terrible crime. Luke and Ryan Hart, the family's two surviving sons, lived under the terror of coercive control. Their father believed that his family members were simply possessions, never referring to them by their names ... just as Woman, Boy, Girl. Written by the boys, but laced with the voices of Claire and Charlotte, this gripping and moving account brings deeper understanding to the shocking crime of domestic abuse and homicide. Luke and Ryan Hart have become spokespeople for the victims who are so often silenced but must never be forgotten.

All the Twats I Met Along the Way

*All The Tw*ts I Met Along The Way* tells the tales of crappy boyfriends, sickening sexual encounters, manipulative men, love triangles, unsupportive and unsupported medical diagnoses... and that's just in the first few pages.

Why Don't You Just Leave Him?

This honest and open autobiography is the true story of a young woman trapped in a relationship that was violent and abusive. Coercive control drove her to the depths of despair. Stacey Jameson had a lack of self-esteem derived from her early childhood. Growing up and dealing with her parent's divorce, she felt nothing more than an inconvenience to her depressive mother. With severe feelings of inadequacy, she was desperate to be loved and feel that she belonged. When she was a teenager, she met a boy Leon, and fell in love. She had never felt so happy. They both had one common denominator they were both brought up in volatile homes, this was the foundation for a turbulent and destructive relationship. Stacey was welcomed with open arms into the wings of Leon's twisted family, naive and impressionable she finally felt secure and loved. Stacey's childhood had made her timid and compliant. Leon's childhood had made him controlling and narcissistic. Gradually Stacey found herself in an unhappy relationship where her partner thrived on being abusive, yet she still loved him. She was coercively controlled into doing things that just were not part of her character. She was so manipulated she believed she did not deserve any better. So often people look on with judgement at others who are in an abusive relationship, and say "Why don't they just leave?." Stacey's story describes her journey as to why it's just not so simple to do that. Stacey's story is one of millions of stories, of people who find themselves caught up in a destructive relationship that they just cannot find a way out of.

No Visible Bruises

AN ESQUIRE AND NEWYORK TIMES BOOK OF THE YEAR An award-winning journalist's exploration of the domestic violence epidemic, and how to combat it. An average of 137 women are killed by familial violence across the globe every day. In the UK alone, two women die each week at the hands of their partners, and in the US domestic violence homicides have risen by 32 percent since 2017. The WHO deems it a 'global epidemic'. Yet public understanding of this urgent problem remains catastrophically low. Journalist Rachel Louise Snyder was no exception. Despite years of experience reporting on international conflicts, when it came to violence in the domestic sphere, she believed all the common assumptions: that it was a fate for the unlucky few, a matter of bad choices and cruel environments. That if things were dire enough, victims would leave. That violence inside the home was private. And, perhaps most of all, that unless you stand at the receiving end of a punch, it has nothing to do with you. All this changed when Snyder began talking to the victims and perpetrators whose stories she tells in this book. Fearlessly reporting from the front lines of the epidemic, in *No Visible Bruises* she interviews men who have murdered their families, women who have nearly been murdered, and people who have grown up besieged by familial aggression, painting a vivid and nuanced picture of its reality. She talks to experts in violence prevention and law enforcement, revealing how domestic abuse has its roots in our education, economic, health, and justice systems, and how by tackling these origins we can render it preventable.

Bonsheá

Just when you thought you knew what was going on in your community, here comes a story that just may shatter the security of your American Dream. This is a story about abuse, survival, false religion and dubious court systems in a state that may be advanced on some levels, but sometimes proves to be a miserable failure in terms of equity and fairness and conventional thinking. – Tim King, Editor/Salem-News.com, War Correspondent, Author, "BETRAYAL: Toxic Exposure of U.S. Marines, Murder and Cover-Up" BONSHEÁ pierces through the darkness that hides the legal system's routine abuse of mothers and children. It is a work of immense courage, a true tale of heartbreak and salvation. Not a single particle of the wisdom Coral shares misses the mark. - Maureen T. Hannah, Ph.D., Chair, Battered Mother's Custody Conference, Albany, New York BONSHEÁ illustrates the degree to which the legal system can also be used as a vehicle to further perpetuate abuse even after the victim has chosen to take a stand against the abuse. – John Haroldson, District Attorney, Benton County District Attorney's Office, Corvallis, Oregon Coral Theill's BONSHEÁ is intense in its effort to "open the doors" behind which many domestic violence perpetrators have stood for so long in the name of "privacy." At every level, family and friends, key people in her community, the health care system, the legal and judicial system, and the culture which socializes us all, she met with adversity and re-victimization. In the telling of her recovery, which is truly remarkable given her circumstances, the reader gets a vivid sense of the indominability of her spirit and light. I recommend this book for health care providers, those in the criminal justice system, and volunteers or helpers of any kind to get insights and clarity about the complex dynamics of domestic violence and its toxic effects to individuals and society---and what needs to be done to eradicate this pandemic problem." – Barbara A. May, PhD, RN, Professor Emerita of Nursing, Linfield College, Portland, Oregon

Assume Nothing

"Selvaratnam very bravely and compellingly uses her personal experience to shine a light on the global crisis of violence against women. An important book for the women's rights movement, *Assume Nothing* demonstrates that violence against women exists across race, class, economic status and education levels, and may be perpetrated by those we think of as allies! It dispels the myth that there are certain types of victims and perpetrators. It will help a lot of people, and particularly those who hesitate to identify as a victim/survivor for fear of losing their grounding both publicly and privately."—Yasmeen Hassan, Global Executive Director, Equality Now "This courageous and terrifying book charts the author's descent into an abusive relationship and also her emergence from it in taut, seductive prose. Selvaratnam explains how—even as an educated, sophisticated, liberal feminist—she was enthralled by her lover's fame and tolerated escalating personal violence. Her narrative is vivid and bracingly frank, a tour-de-force of self-revelation and, ultimately, of redemption."—Andrew Solomon, National Book Award-winning author of *Far from the Tree* and *The Noonday Demon* Award-winning filmmaker Tanya Selvaratnam bravely recounts the intimate abuse she suffered from former New York State Attorney General Eric Schneiderman, using her story as a prism to examine the domestic violence crisis plaguing America. When Tanya Selvaratnam met then New York State Attorney General Eric Schneiderman at the Democratic National Convention in July 2016, they seemed like the perfect match. Both were Harvard alumni; both studied Chinese; both were interested in spirituality and meditation, both were well-connected rising stars in their professions—Selvaratnam in entertainment and the art world; Schneiderman in law and politics. Behind closed doors, however, Tanya's life was anything but ideal. Schneiderman became controlling, mean, and manipulative. He drank heavily and used sedatives. Sex turned violent, and he called Tanya—who was born in Sri Lanka and grew up in Southern California—his "brown slave." He isolated and manipulated her, even threatening to kill her if she tried to leave. Twenty-five percent of women in America are victims of domestic abuse. Tanya never thought she would be a part of this statistic. Growing up, she witnessed her father physically and emotionally abuse her mother. Tanya knew the patterns and signs of domestic violence, and did not see herself as remotely vulnerable. Yet what seemed impossible was suddenly a terrifying reality: she was trapped in a violent relationship with one of the most powerful men in New York. Sensitive and nuanced, written with the gripping power of a dark psychological thriller, *Assume Nothing* details how Tanya's relationship devolved into abuse, how she found the strength to leave—risking her career, reputation, and life—and how she reclaimed her freedom and her voice. In sharing her story, Tanya analyzes the insidious way women from all walks of life learn to accept abuse, and redefines what it means to be a victim of intimate violence.

Orientalism

'A stimulating, elegant yet pugnacious essay'—Observer In this highly acclaimed seminal work, Edward Said surveys the history and nature of Western attitudes towards the East, considering Orientalism as a powerful European ideological creation—a way for writers, philosophers and colonial administrators to deal with the 'otherness' of Eastern culture, customs and beliefs. He traces this view through the

writings of Homer, Nerval and Flaubert, Disraeli and Kipling, whose imaginative depictions have greatly contributed to the West's romantic and exotic picture of the Orient. In the Afterword, Said examines the effect of continuing Western imperialism.

Dispatches

With an introduction by Kevin Powers. A groundbreaking piece of journalism which inspired Stanley Kubrick's classic Vietnam War film Full Metal Jacket. We took space back quickly, expensively, with total panic and close to maximum brutality. Our machine was devastating. And versatile. It could do everything but stop. Michael Herr went to Vietnam as a war correspondent for Esquire. He returned to tell the real story in all its hallucinatory madness and brutality, cutting to the quick of the conflict and its seductive, devastating impact on a generation of young men. His unflinching account is haunting in its violence, but even more so in its honesty. First published in 1977, Dispatches was a revolutionary piece of new journalism that evoked the experiences of soldiers in Vietnam and has forever shaped our understanding of the conflict. It is now a seminal classic of war reportage.

In My Gut, I Don't Believe

In My Gut, I Don't Believe is an intimate coming of age memoir, set in Mount St Mary's, a Catholic seminary, in 1980s Dublin. Making extensive use of contemporaneous private journals, Joe Armstrong shows his personal, psychological, emotional, sexual and intellectual growth, from boy to young man, escaping a difficult mother and a Church demanding the submission of his mind, body and will. Torn between faith and doubt, safety and risk, love and fear, the memoir is a portrait of the young man trying to live the vow of celibacy while becoming aware of his need for affection, intimacy and love. It shows his efforts to live the vow of obedience while awakening to his need to obey himself. It provides an authentic, peerless, fly-on-the-wall insight into Catholic seminary life. This is a story of learning to listen to and trust yourself, discarding other voices, and making the hardest decision of your life. It shows that nobody knows you better than you know yourself. It illustrates how hard it is to grow beyond the worldview you were born into. It's a siren call to listen to your feelings, thoughts and hunches - not those of other people - if you are to become yourself. Set in the decade before the clerical scandals of priests fathering children in secret became known to the public and before the crimes of paedophile priests and their cover-up by the hierarchy caused many to lose their faith, Joe Armstrong's personal journey from belief to doubt anticipates and articulates the experience of millions. Praise for 'In My Gut, I Don't Believe' 'A fascinating, courageous and moving account of an individual leaving the trammels of religion for the good light of humanism - an educative story on many levels, well told.' - Professor A. C. Grayling

Her parachutes failed to open and she plummeted 4,000 feet to the ground, sustaining life-threatening injuries. Miraculously, she survived. Then the police arrived at her door. Someone had tampered with her parachute and they suspected Emile. In *I Survived* Victoria describes how she fell for Emile, and how the charming man she thought she knew gradually revealed a darker side, chipping away at her self-worth until she found it impossible to sift truth from lies. Powerful and honest, *I Survived* is the story of a woman who was put through hell and yet found the strength to forge a new life for herself and her children.

Nuclear Weapons and Coercive Diplomacy

Are nuclear weapons useful for coercive diplomacy? This book argues that they are useful for deterrence but not for offensive purposes.

Who Controls the Internet?

Is the Internet erasing national borders? Will the future of the Net be set by Internet engineers, rogue programmers, the United Nations, or powerful countries? Who's really in control of what's happening on the Net? In this provocative new book, Jack Goldsmith and Tim Wu tell the fascinating story of the Internet's challenge to governmental rule in the 1990s, and the ensuing battles with governments around the world. It's a book about the fate of one idea--that the Internet might liberate us forever from government, borders, and even our physical selves. We learn of Google's struggles with the French government and Yahoo's capitulation to the Chinese regime; of how the European Union sets privacy standards on the Net for the entire world; and of eBay's struggles with fraud and how it slowly learned to trust the FBI. In a decade of events the original vision is uprooted, as governments time and time again assert their power to direct the future of the Internet. The destiny of the Internet over the next decades, argue Goldsmith and Wu, will reflect the interests of powerful nations and the conflicts within and between them. While acknowledging the many attractions of the earliest visions of the Internet, the authors describe the new order, and speaking to both its surprising virtues and unavoidable vices. Far from destroying the Internet, the experience of the last decade has led to a quiet rediscovery of some of the oldest functions and justifications for territorial government. While territorial governments have unavoidable problems, it has proven hard to replace what legitimacy governments have, and harder yet to replace the system of rule of law that controls the unchecked evils of anarchy. While the Net will change some of the ways that territorial states govern, it will not diminish the oldest and most fundamental roles of government and challenges of governance. Well written and filled with fascinating examples, including colorful portraits of many key players in Internet history, this is a work that is bound to stir heated debate in the cyberspace community.

See what You Made Me Do

Women are abused or killed by their partners at astonishing rates- in Australia, almost 17 per cent of women over the age of fifteen - one in six - have been abused by an intimate partner. In this confronting and deeply researched account, journalist Jess Hill uncovers the ways in which abusers exert control in the darkest - and most intimate - ways imaginable. She asks- What do we know about perpetrators? Why is it so hard to leave? What does successful intervention look like? What emerges is not only a searing investigation of the violence so many women experience, but a dissection of how that violence can be enabled and reinforced by the judicial system we trust to protect us. Combining exhaustive research with riveting storytelling, *See What You Made Me Do* dismantles the flawed logic of victim-blaming and challenges everything you thought you knew about domestic and family violence.

Any Ordinary Day

As a journalist, Leigh Sales often encounters people experiencing the worst moments of their lives in the full glare of the media. But one particular string of bad news stories--and a terrifying brush with her own mortality--sent her looking for answers about how vulnerable each of us is to a life-changing event. What are our chances of actually experiencing one? What do we fear most and why? And when the worst does happen, what comes next? In this wise and layered book, Leigh talks intimately with people who've faced the unimaginable, from terrorism to natural disaster to simply being in the wrong place at the wrong time. Expecting broken lives, she instead finds strength, hope, even humor. Leigh brilliantly condenses the cutting-edge research on the way the human brain processes fear and grief, and poses the questions we too often ignore out of awkwardness. Along the way, she offers an unguarded account of her own challenges and what she's learned about coping with life's unexpected blows. Warm, candid, and empathetic, this book is about what happens when ordinary people, on ordinary days, are forced to suddenly find the resilience most of us don't know we have.

Manifesto

'This honest, engaging memoir shares such gems . . . the perfect read for anyone who dreams big' The Times and Sunday Times, Books of the Year The powerful, urgent memoir and manifesto on never giving up from Booker prize-winning trailblazer, Bernardine Evaristo In 2019, Bernardine Evaristo became the first black woman to win the Booker Prize since its inception fifty years earlier - a revolutionary landmark for Britain. Her journey was a long one, but she made it, and she made history. *Manifesto* is her intimate and fearless account of how she did it. From a childhood steeped in racism from neighbours, priests and even some white members of her own family, to discovering the arts through her local youth theatre; from stuffing her belongings into bin bags, always on the move between temporary homes, to exploring many romantic partners both toxic and loving, male and female, and eventually finding her soulmate; from setting up Britain's first theatre company for Black women in the eighties to growing into the trailblazing writer, theatre-maker, teacher, mentor and activist we see today - Bernardine charts her rebellion against the mainstream and her life-long commitment to community and creativity. And, through the prism of her extraordinary experiences, she offers vital insights into the nature of race, class, feminism, sexuality and ageing in modern Britain. Bernardine Evaristo's life story is a manifesto for courage, integrity, optimism, resourcefulness and tenacity. It's a manifesto for

anyone who has ever stood on the margins, and anyone who wants to make their mark on history. It's a manifesto for being unstoppable. Fixed It

On average, at least one woman is murdered by a current or former partner every week in Australia. Far too many Australian women have experienced physical or sexual violence. Only rarely do these women capture the attention of the media and the public. What can we do to stem the tide of violence and tragedy? Finally, we are starting to talk about this epidemic of gendered violence, but too often we are

doing so in a way that can be clumsy and harmful. Victim blaming, passive voice and over-identification with abusers continue to be hallmarks of reporting on this issue. And, with newsrooms drastically cutting staff and resources, and new business models driven by rapid churn and the 24 hour news cycle journalists and editors often don't have the time or resources bring new ways of thinking into their newsrooms. Fixed It demonstrates the myths that we're unconsciously sold about violence against women, and undercuts them in a clear and compelling way. This is a bold, powerful look at the stories we are told – and the stories we tell ourselves – about gender and power, and a call to action for all of us to think harder and do better.

The Age of Surveillance Capitalism

THE TOP 10 SUNDAY TIMES BESTSELLER Shortlisted for the FT Business Book of the Year Award 2019 'Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas.' - Zadie Smith, *The Guardian* The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices: allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. *The Age of Surveillance Capitalism* is a deeply-reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

How Saints Die

'What a glorious, beautiful sea-shanty of a book this is. A fairy tale of wild, sea-swept children and wolfish fear. Written in a compelling, rushing language.' Daisy Johnson, author of the Man Booker-longlisted *Everything Under* Ellie Fleck has a question for everything, except the one she cannot ask. Where have they taken her mother? Ten years old and irrepressibly curious, Ellie lives with her fisherman father, Peter, on the wild North Yorkshire coast. It's the 1980s and her mother's breakdown is discussed only in whispers, with the promise 'better by Christmas' and no further explanation. Steering by the light of her dad's sea-myths, her mum's memories of home across the water, and a fierce spirit all her own, Ellie begins to learn – in these sudden, strange circumstances – who she is and what she can become. By the time the first snowdrops show, her innocence has been shed, but at great cost.

The Mother Wound

'A magnificent and devastating work of art. There is a raging anger here, and a deep sorrow, but at the core Haydar gives us truths about love. This is one of the most important books I've ever read.' Bri

Lee 'I am from a family of strong women.' Amani Haydar suffered the unimaginable when she lost her mother in a brutal act of domestic violence perpetrated by her father. Five months pregnant at the time, her own perception of how she wanted to mother (and how she had been mothered) was shaped by this devastating murder. After her mother's death, Amani began reassessing everything she knew of her parents' relationship. They had been unhappy for so long - should she have known that it would end like this? A lawyer by profession, she also saw the holes in the justice system for addressing and combating emotional abuse and coercive control. Amani also had to reckon with the weight of familial and cultural context. Her parents were brought together in an arranged marriage, her mother thirteen years her father's junior. Her grandmother was brutally killed in the 2006 war in Lebanon, adding complex layers of intergenerational trauma. Writing with grace and beauty, Amani has drawn from this a story of female resilience and the role of motherhood in the home and in the world. In *The Mother Wound*, she uses her own strength to help other survivors find their voices.
