What was I going to do with myself? Every day I faced the daunting task of finding a new job, no easy feat during the great financial crash of 2008-2009 and the biggest economic downturn in my life. I'd heard of the possibilities of blogging. There were a few bloggers doing what I could only dream of doing. Making a living just for doing something they loved. I gave it some consideration and contacted some of them. Many were kind enough to answer my emails and some gave me some solid advice on getting started with my very own blog. Blogging for Beginners

Blogging For Beginners + \$149 worth of Bonus Imagine a job where you could get paid to share your opinions about things that you're passionate about, a job that you can do from your own home on completely your own hours that takes almost nothing in the way of upfront financial investment. For many people, that job is blogging. It's no wonder that close to 1% of American adults make at least a portion of their living by blogging. According to the Bureau of Labor Statistics, about 2 million people profit from blogging each year in America. Of those, about a quarter (452,000 people) use blogging as their primary source of income. If you want to become a blogging success story, this information is both uplifting and depressing. It is possible to make money blogging; lots of people are already doing it. But like with other creative professions like actors and musicians, the famous celebrities earning millions of dollars are far outnumbered by the people who don't make enough to quit their day job. I won't lie and say it's easy making your living as a blogger, but it is true that anyone can do it, so long as you have a subject you're passionate about and enough dedication to stay the course. Each chapter in this book focuses on a different element of blogging, from setting up your domain name to diversifying your income streams. At the end of each chapter, you'll find some wisdom from a person who started at nothing and has found success through blogging. But while blogging is a possible profit opportunity for anyone, let's first clear up some popular misconceptions about blogging. You will also get a \$149 worth of bonus at the end of the book to help you starting out your blog.

6-figure Blogging Secrets

"Whatever you can do or dream you can, begin it. Boldness has genius, power, and magic in it." Johann Wolfgang Goethe There are extraordinary success stories, stories that everyone knows: of great people who make great unrepeatable undertakings. But there are also lesser known and equally incredible stories, which have ordinary people as protagonists. Today I want to tell you my story, of how in just two years I realized my dream of living my greatest passions: It was the summer of 2013. I was lying in the sun on a beach in my beloved Florida. The heat cuddled me as I listened to the sound of the sea. I didn't know, but at that moment the plan that would change my life forever was taking shape in my head. I was 27 at the time and had a prestigious job in New York: I worked for a large multinational company and my salary was not bad at all; however, what I had was not enough. I dreamed of traveling the world and not spending my days indoors in my office. That day, on the beach, I decided to give myself an opportunity: I would try to follow my dreams! I would have saved money for the next few months and then fired and left. So I did but it was not easy: I had to sacrifice my outings, dinners with friends, and give up shopping for a while. On February 10, 2014 I was flying to Rome. Flying towards the realization of my dream. I left behind a secure job and the opinions of all my detractors. But I was determined! I decided to create a blog where I can tell my adventures. At the beginning, the blog had very few visits. At that time I didn't know anything about SEO, copywriting, webmarketing .. But after three months and after so many mistakes, one of my blog articles had positioned itself at the top of Google searches: it was a post on the most beautiful beaches in Italy. This gave me the motivation to continue writing and for the first time, I thought I had the opportunity to turn my passion into a business. It was then that I began to study and deepen the more technical aspects of the web, focusing mainly on SEO and Copywriting. With the latest savings, I decided to invest heavily in my personal training: I purchased and devoured the best books and masters in the sector: from Dan Kennedy, Clayton Makepeace to the great David Ogilvy. Today, my blog receives millions of visits per month and allows me to earn a 6 figure salary. In a short time but not with a few sacrifices, I realized my dream: to live traveling, to be independent and to earn with my passions. I believe this is the dream of millions and millions of people so today I want to share everything I have learned with you and thus give you the opportunity to live happily and freely like me. You need to have the courage to take action to make your dreams come true so what are you waiting for? Start taking your life in hand by purchasing my book now !!!

The Wealthy Blogger

If you want to make a comfortable living, blogging online with no strings attached, you need to click read more... A friend of mine once told me he was getting into blogging, and he believed it would make him rich beyond his wildest dream. I did not believe him because I always thought was blogging was a way to express oneself. I did not think it could ever make you money. In reality, this was far from the case. Knowledge one can leverage as a weblog writer is formidable from an empirical and scientific perspective. Statistically speaking, you will rarely find anything that encourages you to pursue this profession, and if you do, it usually talks about how challenging blogging is. All the while, riskier ventures that are promoted online contain far fetch ideologies. And getting rich quick schemes that are overcrowding the YouTube Ad space are frankly a waste of resources for the average hard-working people. For instance, "businessinsider.com" reported it "within those who attempt to become professional traders, only six percent succeed". What is more appealing? Spending thousands of dollars you do not have, betting away your hopes, dreams, and finances in the equity market. Or taking your passion for writing and expressing yourself and sharing it with the world. These were my friend's exact words as he started rolling substantial traffic to his blogging pages He is now living his dream life with enough money to spend on anything he wants. You might be like the old me who thought blogging was a waste of time and certainly cannot be a source of income. Let me tell you it is possible to live very comfortably as a "travel blogger," a blogger who is able to travel and see the world while work on their own schedule without being tied to their computer screen. In this book, you will discover, Why working less on your blog business is better for growth How you can become a motivated and compelling influencer that you'd wish you were your own customer How to employ empirical and scientific slants to be leaders in developing better blogging tactics Three SEO tips you absolutely need to know if you want to compete Why having an annoying uncle is helpful for your business in terms of ROI The one-step you need to make in your business that will generate thousands per month Whether you are already a blogger or you are just thinking about being one (for entertainment or money). Perhaps you might just want to get some background information about the field or looking to impress your friends like I was. Even if you often feel unmotivated and you have very little to no writing skills, and you have no intention of starting a business, you CAN make it in this field. You can outsource your business to the point where you essential have zero work to do. If you want to be the next 7-figure blogger, you need to scroll up and click the Add to Cart button.

Who am I and where do I come to write this book? I feel it necessary to address all aspects of motherhood, so I decided to include both the sweetness and delight plus the shadow side of motherhood in this book. Some challenging life situations occur that are vital for us to consider, so I am including some disquieting statistics. Because many women (and men) have refrained from checking within themselves or making an examination on emotional, mental, physical and spiritual planes about having children, hardships have been created, both personally and planetary.

Attract Money Subconsciously (EasyRead Super Large 18pt Edition)

A strategy and marketing guide for growth companies Growth at any price can be exhausting for B-2-B companies and professional service providers who want to win more clients. Many entrepreneurs watch their bank accounts grow, but sacrifice too much in the process. Since 2001, wealth has taken on a whole new meaning. In this tell-all marketing guidebook, Lisa Nirell reveals a contemporary, contrarian, and field-tested view of marketing and planning. Successful growth and exit planning aren't about maximizing revenues or launching Internet marketing campaigns. Instead, they're about creating a compelling vision of the future, winning clients' hearts and minds, and defining the "wealth quotient" in a holistic way. This practical, real-world guide shows readers how to develop a strategic marketing plan that really works—and avoid the attitudes that sabotage great ideas.

Attract Money Subconsciously (EasyRead Super Large 20pt Edition)

The formula is simple: take a passion--something you love to do, something you're good at, something you already have expertise and interest in--and use it as the basis of a way to generate income. This Passion Profit strategy could be your "plan B" during an economic downturn (or pandemic)! Yes,

you CAN make money doing what you love. Steps: 1. Find your purpose. 2. Discover your passion. 3. Create a product. 4. Market it for profit. (338 pages; 7" x 10"; ISBN:978-0974531328) Read more at www.passionprofit.com Read more at : <https://www.waltgoodridge.com/books/>

Attract Money Subconsciously (EasyRead Super Large 24pt Edition)

It's time to get paid what you're truly worth Although you may not realise it, the knowledge and knowhow you have acquired in your life to date is a truly marketable asset. You've made valuable distinctions because of your passions and have unique empathy and understanding because of your pains. Through this book you will come to understand how other people are ready and willing to pay you money to know what you already know and to do what you can already do. You don't need to be qualified, certified or have letters after your name. Your qualification to do this work is your life experiences, your passion for helping others and your determination to make a difference. Andy Harrington has worked with Richard Branson, Tony Robbins, Robert Kiyosaki, Brian Tracy, Bob Proctor and even Former President of the United States Bill Clinton, and through this book he will show you how to find and shape the message inside of you, and importantly, in such a way that you get paid for sharing your advice. You will also discover how to: Position yourself as an expert so you are seen as an authority. Prepare your advice so it's easy for others to follow. Package your knowledge into programs, workshops, and books. Promote yourself intelligently so you get paid what you are really worth. Perform like a professional with confidence, congruency and charisma. In his debut book Andy shows you how to harness your experiences and turn them into advice for others whilst becoming a person of influence, impact and inspiration. "You have incredible untapped potential – residing within yourself – in your own talents and abilities. This book shows you how to achieve all your goals by focusing on making a difference with what you already have." Brian Tracy, Brian Tracy International

The Mother's Manual

From the clothes we wear to the cars we drive, we design our lives every minute of every day. Doing this consciously lets us create the life we desire. Successful brands know what they want, and they know how to get it. They design the future they want and create the process to reach it. At the heart of this process lies the logo. Without it, we would not recognise the brand, and we could not display our allegiance to it. The logo identifies and calls us to the brand dream. Our ancient ancestors used the same elements of colours and symbols to draw their visions on cave walls, and early languages were considered sacred. This time-proven tool has been honed by modern designers and is available to us all. A logo effectively holds the imprint of a business and conveniently straddles the world of our imagination and of our solid world of manifestation. Like visual ambassadors, logos deliver our dreams to the world so they might become reality. This book shows you how.

El regalo para que tú y tus hijos aprendan nuevas maneras de ser. El arte de educar pone en tus manos la responsabilidad de crear niños sanos, seguros, creativos, empáticos con sus necesidades y las de otros. Nosotros, los padres, somos acompañantes de esas almas que son nuestros hijos; nuestra responsabilidad es conocerlos, caminar con ellos a lo largo de sus vidas. Si logramos ver la grandeza de sus espíritus, si nos volvemos verdaderos compañeros, daremos el primer gran paso: construir una relación sana. ¿En qué lugar quedamos cuando regañamos a nuestros hijos? ¿Cuántas veces nos hemos sentado con ellos realmente a escucharlos, a mostrarnos curiosos por lo que están viviendo sin tratar de imponernos? ¿Cuál es nuestro lenguaje corporal frente a ellos y cómo nos perciben? Éstas y muchas otras preguntas nos hace Alejandra Llamas a lo largo de su libro para que reflexionemos acerca de nuestra postura y para que aprendamos a desarrollar nuevas herramientas que nos enseñen a ser padres que nutren. El arte de educar pone en tus manos la responsabilidad de crear niños sanos, seguros, creativos, empáticos con sus necesidades y las de otros. Éste es el propósito: convertirnos en padres-guía y maestros de nuestros niños, pero también en sus alumnos para tener la capacidad de aprender lo que nos vienen a enseñar. Este libro, en pocas palabras, puede ser el gran regalo para que tú y tus hijos aprendan nuevas maneras de ser.

In "How To Be A Billionaire" erfahren Sie, wie sich manche Leute in einem ganz bestimmten Bereich menschlichen Strebens hervorgetan haben, nämlich im Streben nach Geld. Hier geht es nicht um das halbe Prozent der amerikanerikanischen Bevölkerung, das über einen Kapitalwert von einer Million Dollar verfügt. Hier geht es um Amerikaner, die 1.000 bis 40.000 Millionen Dollar ihr eigen nennen. In diesem Buch wird zum ersten Mal diese massive Anhäufung von privatem Vermögen ausführlich untersucht. Hierbei stützt sich Fridson verstärkt auf Biographien und journalistische Reportagen, die die Findigkeit, den Elan und die Rücksichtslosigkeit dokumentieren, auf die sich diese Vermögen gründen. Er enthüllt die wichtigsten Taktiken, Prinzipien und Strategien, die die Reichen superreich gemacht haben, wie z. B: "Verstoße gegen die Regeln"

Passion, Profit & Power

¿No sabes poner límites? ¿Te sometes a relaciones que no te hacen feliz? ¿Regalas tu poder o tu trabajo? ¿Al mirarte al espejo sólo ves tus fallas y no tu pureza? ¿No has logrado perdonarte ni

perdonar a otros? ¿No vives en paz y tus miedos te gobiernan? ¡Libérate! te hace las preguntas correctas, te induce a la reflexión y te da ejercicios para que puedas encontrar el camino a casa, el camino a la libertad. En este libro, Alejandra Llamas nos enseña a trascender el dolor para vivir en el amor puro con el fin de desterrar la vergüenza, la culpa y los profundos temores que hemos aprendido. La desvaloración de nosotros, la falta de empatía, de compasión y no saber cómo acceder a un perdón verdadero se han convertido en un veneno que nos duerme y nos aleja de nuestra más pura esencia. Por ello, debemos ser conscientes de esas telarañas mentales que nos enredan y nos someten a estados de tristeza y nostalgia, que nos hacen sentir inadecuados y nos alejan de crear relaciones funcionales, y eliminarlas para alcanzar la plenitud y la alegría de ser. Como invitada especial en este libro, Marisa Gallardo, también coach de vida, cierra cada capítulo con conclusiones precisas y nos regala, como anexo, un gimnasio de la liberación en 21 días. Si tu voluntad ahora es experimentar una dimensión en la cual reconoces que tú eres la vida, en la que la paz es tu sendero, ¡Libérate! es para ti.

How to be a Billionaire

As parents, we are companions of these souls; our responsibility is to know them, walk with them for the extent of their lives. The art of parenting places the responsibility of raising healthy, safe, creative kids with you, empathetic with their needs and those of others. If you are able to see the grandeur of their spirits, and become true companion, soul to soul, you will take the great first step towards building a sane relationship with them. Where do we end up when we scold? How many times have we sat with our kids to truly listen to them, to be curious about the life they are living, without imposing ourselves? How is our body language like and how do we appear in front of them? Alejandra Llamas asks these and many other questions, to reflect upon our stance as parents and to develop new tools to become parents who nurture. The purpose is: to become parents-guides and teachers of our children, but also to become their students, to be able to learn what we have come to teach. This book, in short, can be a great gift so you and your children can learn new ways to be.

Do What You Love, Love What You Do

Kant was one of the inventors of anthropology, and his lectures on anthropology were the most popular and among the most frequently given of his lecture courses. This volume contains the first translation of selections from student transcriptions of the lectures between 1772 and 1789, prior to the published version, *Anthropology from a Pragmatic Point of View* (1798), which Kant edited himself at the end of his teaching career. The two most extensive texts, *Anthropology* Friedländer (1772) and *Anthropology* Mrongovius (1786), are presented here in their entirety, along with selections from all the other lecture transcriptions published in the Academy edition, together with sizeable portions of the *Menschenkunde* (1781–2), first published in 1831. These lectures show that Kant had a coherent and well-developed empirical theory of human nature bearing on many other aspects of his philosophy, including cognition, moral psychology, politics and philosophy of history.
