The House of Silk

For the first time in its one-hundred-and-twenty-five-year history, the Arthur Conan Doyle Estate has authorized a new Sherlock Holmes novel. Once again, The Game's Afoot... London, 1890. 221B Baker St. A fine art dealer named Edmund Carstairs visits Sherlock Holmes and Dr John Watson to beg for their help. He is being menaced by a strange man in a flat cap - a wanted criminal who seems to have followed him all the way from America. In the days that follow, his home is robbed, his family is threatened. And then the first murder takes place. Almost unwillingly, Holmes and Watson find themselves being drawn ever deeper into an international conspiracy connected to the teeming criminal underworld of Boston, the gaslit streets of London, opium dens and much, much more. And as they dig, they begin to hear the whispered phrase-the House of Silk-a mysterious entity that connects the

highest levels of government to the deepest depths of criminality. Holmes begins to fear that he has uncovered a conspiracy that threatens to tear apart the very fabric of society. The Arthur Conan Doyle Estate chose the celebrated, #1 New York Times bestselling author Anthony Horowitz to write *The House of Silk* because of his proven ability to tell a transfixing story and for his passion for all things Holmes. The game is once again afoot in this thrilling mystery from the bestselling author of *The House of Silk*, sanctioned by the Conan Doyle estate, which explores what really happened when Sherlock Holmes and his arch nemesis Professor Moriarty tumbled to their doom at the Reichenbach Falls. Internationally bestselling author Anthony Horowitz's nail-biting new novel plunges us back into the dark and complex world of detective Sherlock Holmes and Moriarty—dubbed the Napoleon of crime” by Holmes—in the aftermath of their fateful struggle at the Reichenbach Falls. Days after the encounter at the Swiss waterfall, Pinkerton detective agent Frederick Chase arrives in Europe from New York. Moriarty's death has left an immediate, poisonous vacuum in the criminal underworld, and there is no shortage of candidates to take his place—including one particularly fiendish criminal mastermind. Chase and Scotland Yard Inspector Athelney Jones, a devoted student of Holmes's methods of investigation and deduction originally introduced by Conan Doyle in “The Sign of Four”, must forge a path through the darkest corners of England's capital—from the elegant squares of Mayfair to the shadowy wharfs and alleyways of the London Docks—in pursuit of this sinister figure, a man much feared but seldom seen, who is determined to stake his claim as Moriarty's successor. A riveting, deeply atmospheric tale of murder and menace from the only writer to earn the seal of approval from Conan Doyle's estate, Moriarty breathes life into Holmes's dark and fascinating world.

Hawthorne needs a ghost writer to document his life; a Watson to his Holmes. He chooses Anthony Horowitz. Hawthorne is brusque, temperamental and annoying but even so his latest case with its many twists and turns proves irresistible. The writer and the detective form an unusual partnership. 'A brilliant and important book ... Five Stars!' Mark Dolan, talkRADIO 'An important new book' Daily Express An alternative history of the world that exposes some of the biggest lies ever told and how they've been used over time. Lincoln did not believe all men were created equal. The Aztecs were not slaughtered by the Spanish Conquistadors. And Churchill was not the man that people love to remember. In this fascinating new book, journalist and author Otto English takes ten great lies from history and shows how our present continues to be manipulated by the fabrications of the past. He looks at how so much of what we take to be historical fact is, in fact, fiction. From the myths of WW2 to the adventures of Columbus, and from the self-serving legends of 'great men' to the origins of curry – fake history is everywhere and used ever more to impact our modern world. Setting out to redress the balance, English tears apart the lies propagated by politicians and think tanks, the grand narratives spun by populists and the media, the stories on your friend's Facebook feed and the tales you were told in childhood. And, in doing so, reclaims the truth from those who have perverted it. Fake History exposes everything you weren't told in school and why you weren't taught it.

Alex Rider: Secret Weapon

In the early 20th century, in the English-speaking world, Arthur Conan Doyle and Harry Houdini were two of the most feted and famous men alive. And their relationship is extraordinary: As strange as it may seem Arthur Conan Doyle, the creator of the ultra-rational detective Sherlock Holmes, was a believer in Spiritualism. He came to his belief, that one could communicate with the dead, after his son was killed in World War I, and became an expert in the field. Harry Houdini, the world's foremost magician, was a friend of Conan Doyle's, but was sceptical of his belief in the supernatural. Houdini took every opportunity to use his knowledge of illusion to expose psychics who he thought were fakes, particularly incensed by their exploitation of grief and insecurity. Based on original research, this sensational dual biography of two popular geniuses conjures up the early 20th century and the fame, personality and competing beliefs.
