A Letter on the West India Question Addressed to the British People

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as

true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

A Letter on the West India Question Addressed to the British People

This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy!

A Letter on the West India Question, addressed to the British people. By a Free Trader (N. P.).

Excerpt from Presbyter's Letters on the West India Question: Addressed to the Right Honourable Sir George Murray, G. C. B., M P., Colonial Secretary, &C. &C The principal substance of this little work originally appeared, under the signature of Presbyter, in the weekly columns of the Dumfries and Galloway Courier, a Provincial Newspaper of some celebrity. As these ephemeral productions attracted considerable attention, the Author has been induced carefully to revise them, and after enlarging them by filling up such parts as seemed to be defective, to give them to. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Presbyter's Letters on the West India Question

Probing at the very core of the American political consciousness from the colonial period through the early republic, this thorough and unprecedented study by Larry E. Tise suggests that American proslavery thought, far from being an invention of the slave-holding South, had its origins in the crucible of conservative New England. Proslavery rhetoric, Tise shows, came late to the South, where the heritage of Jefferson's ideals was strongest and where, as late as the 1830s, most slaveowners would have agreed that slavery was an evil to be removed as soon as possible. When the rhetoric did come, it was often in the portmanteau of ministers who moved south from New England, and it arrived as part of a full-blown ideology. When the South finally did embrace proslavery, the region was placed not at the periphery of American thought but in its mainstream.

Presbyter's Letters on the West India Question Addressed to the Right Honourable Sir George Murra

Following the publication of Adam Smith's *The Wealth of Nations*, nineteenth-century liberal economic thinkers insisted that a globally hegemonic Britain would profit only by abandoning the formal empire. British West Indians across the divides of race and class understood that, far from signaling an invitation to nationalist independence, this liberal economic discourse inaugurated a policy of imperial "neglect"—a way of ignoring the ties that obligated Britain to sustain the worlds of the empire's distant fellow subjects. In *Empire of Neglect* Christopher Taylor examines this neglect's cultural and literary ramifications, tracing how nineteenth-century British West Indians reoriented their affective, cultural, and political worlds toward the Americas as a response to the liberalization of the British Empire. Analyzing a wide array of sources, from plantation correspondence, political economy treatises, and novels to newspapers, socialist programs, and memoirs, Taylor shows how the Americas came to serve as a real and figurative site at which abandoned West Indians sought to imagine and invent postliberal forms of political subjecthood.

Letters in Vindication of the Rights of the British West India Colonies, Originally Addressed to the Editors of the Liverpool Mercury, in Answer to Mr. James Cropper's Letters to W. Wilberforce

Reprint of the original, first published in 1883.

British Museum Catalogue of printed Books

From sugar to indentured labourers, tobacco to reggae music, Europe and North America have been relentlessly consuming the Caribbean and its assets for the past five hundred years. In this fascinating book, Mimi Sheller explores this troublesome history, investigating the complex mobilities of producers and consumers, of material and cultural commodities, including: foodstuffs and stimulants - sugar, fruit, coffee and rum human bodies - slaves, indentured labourers and service workers cultural and knowledge products - texts, music, scientific collections and ethnology entire 'natures' and landscapes consumed by tourists as tropical paradise. Consuming the Caribbean demonstrates how colonial exploitation of the Caribbean led directly to contemporary forms of consumption of the region and its products. It calls into question innocent indulgence in the pleasures of thoughtless consumption and calls for a global ethics of consumer responsibility.

The Publishers' Circular and General Record of British and Foreign Literature

A Bibliography of Nineteenth Century Legal Literature

A History of the Peoples of the British Isles

The three volumes of *A History of the Peoples of the British Isles* weave together the histories of England, Ireland, Scotland, and Wales and their peoples. The authors trace the course of social, economic, cultural and political history from prehistoric times to the present, analyzing the relationships, differences and similarities of the four areas. Volume II focuses on the eighteenth and nineteenth centuries and its main themes are: * the formation of the British nation-state * the spread of English cultural influence and political power throughout the Briti.

The Peoples of the British Isles

"In three concise volumes ... presents the history of the people of England, Ireland, Scotland, and Wales from prehistoric times to the present. Through the frameworks of cultural, intellectual, and social history, the authors examine the conflicts, contrasts, and commonalities among four different peoples and their cultures ..."--Page 4 of cover.

The Peoples of the British Isles: From 1688 to 1870

The *Peoples of the British Isles* examines the conflicts and commonalities among the peoples of England, Ireland, Scotland, and Wales from prehistoric times to the present. The series focuses throughout on the lives of real people-how they made a living, organized their society and institutions, related to each other, and understood themselves and their world. The new edition of these books features a fuller treatment of the Celtic countries and expanded and integrated content on both popular culture and the changing roles of women in society throughout history. Volume I covers the development of the Four Nations of the British Isles from the prehistoric era up to the revolution of 1688.

Peoples of the British Isles

Presenting material on themes such as women's history, the family, religion, intellectual history, society, politics and the arts, these volumes provide a resource for students of the political and cultural heritage of the British Isles.

A History of the Peoples of the British Isles: From 1688 to 1914

Volume III deals with the 'long twentieth century'. Its main themes are: * the contraction of British industrial power and the shift to a service-based economy * the decline of Victorianism and the rise of Modernism * the climax of class society between the wars and the blurring of class lines after the 1960s * the impact of two world wars * the decline of British power and the empire * the partition of Ireland * the devolution of power to Wales and Scotland.

A History of the Peoples of the British Isles

"In three concise volumes ... presents the history of the people of England, Ireland, Scotland, and Wales from prehistoric times to the present. Through the frameworks of cultural, intellectual, and social history, the authors examine the conflicts, contrasts, and commonalities among four different peoples and their cultures ..."--Page 4 of cover.

The Peoples of the British Isles

Fort Peck Tribal Library does not hold volume 1 of this set.

A History of the Peoples of the British Isles

The Peoples of the British Isles

Fort Peck Tribal Library does not hold volume 1 of this set.

A History of the Peoples of the British Isles: From prehistoric times to 1688

For people-watchers everywhere, this is the definitive guide to one of the strangest peoples in existence: the British. Discover the weird, loveable and inexplicable variety of beings populating these isles, each with their own delightful quirks and oddities. Learn to spot the difference between landed gentry and oligarchs, amateur artist and hipster. Recognise the middle-aged couple on their way to Glastonbury and the Brit on holiday. Soon you'll be spying them everywhere.

The Peoples of the British Isles

In three concise volumes, *The Peoples of the British Isles: A Brief History* presents the history of the people of England, Ireland, Scotland, and Wales from prehistoric times to the present. Through the frameworks of cultural, intellectual, and social history, the authors examine the conflicts, contrasts, and commonalities among four different peoples and their cultures while recognizing that people of all social levels, women as well as men, deserve the attention of students of history. Volume II deals with the British Isles during the eighteenth and nineteenth centuries. Beginning with the formation of the British nation-state, Heyck follows the spread of English cultural influence and political power to the Celtic peoples and beyond. Material on the empire is included throughout to reflect the current historiographical trend emphasizing the role of the empire on British history in a manner that is both engaging and informative.

The Peoples of the British Isles: From prehistoric times to 1688

The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far-sighted planning and vision as coincidence, accident and failure. It is a history of revolts and reversal, familial bonds and enmity, the study of which does much to explain the underlying tension between the nations of modern day Britain. *The Making of the British*

Isles recounts the development of the nations of England, Scotland, Wales and Ireland from the time of the Anglo-French dual monarchy under Henry VI through the Wars of the Roses, the Reformation crisis, the reigns of Henry VIII and Elizabeth I, the Anglo-Scottish dynastic union, the British multiple monarchy and the Cromwellian Republic, ending with the acts of British Union and the Restoration of the Monarchy.

The Peoples of the British Isles

In three concise volumes, *The Peoples of the British Isles: A Brief History* presents the history of the people of England, Ireland, Scotland, and Wales from prehistoric times to the present. Through the frameworks of cultural, intellectual, and social history, the authors examine the conflicts, contrasts, and commonalities among four different peoples and their cultures while recognizing that people of all social levels, women as well as men, deserve the attention of students of history. Volume III traces the erosion of Victorianism and the subsequent rise of modernism. Updated to include the whole period from 1870 to 2007, the final chapter now covers the premiership of Tony Blair. Other important topics such as the issues of class in the 1920s and 1960s, the effects of both world wars on British life, and the independence of the Irish Republic and continued conflict in Northern Ireland are covered in the same detail that made earlier editions a favorite of students and professors alike.

The Peoples of the British Isles: From 1688 to 1870

Volume I of our three-volume survey of British history covers political, economic, intellectual, and social history from prehistoric times to 1688. The third edition is updated to reflect current scholarship and interdisciplinary findings, and includes a greater emphasis on archeology, linguistics, literature and law. This edition also includes an expanded coverage of Scotland, Ireland and Wales, providing both a comparative and contextual framework that firmly locates the history of the British Isles within the broader tradition of European history.

Census of the British Isles, 1871

In the last decades of the thirteenth century the British Isles appeared to be on the point of unified rule, dominated by the lordship, law and language of the English. However by 1400 Britain and Ireland were divided between the warring kings of England and Scotland, and peoples still starkly defined by race and nation. Why did the apparent trends towards a single royal ruler, a single elite and a common Anglicised world stop so abruptly after 1300? And what did the resulting pattern of distinct nations and extensive borderlands contribute to the longer-term history of the British Isles? In this innovative analysis of a critical period in the history of the British Isles, Michael Brown addresses these fundamental questions and shows how the national identities underlying the British state today are a continuous legacy of these years. Using a chronological structure to guide the reader through the key periods of the era, this book also identifies and analyses the following dominant themes throughout: - the changing nature of kingship and sovereignty and their links to wars of conquest - developing ideas of community and identity - key shifts in the nature of aristocratic societies across the isles - the European context, particularly the roots and course of the Hundred Years War This is essential reading for undergraduates studying the history of late Medieval Britain or Europe, but will also be of great interest for anyone who wishes to understand the continuing legacy of the late medieval period in Britain.

The Peoples of the British Isles: From 1870 to the present

From the earliest pre-history to 2002, Jeremy Black's narrative explores the rich historical influence of the British Isles and the varied stages through which they have passed to achieve their present identity. Giving proper weight to all four, often fractious, components of the British Isles, Black provides the reader with a balanced account political, social, economic and cultural of an extraordinary shared history. In the second edition of this text, each chapter has been thoroughly revised and updated in the light of recent scholarship.

The Peoples of the British Isles

Hugh Kearney's classic account of the history of the British Isles from pre-Roman times to the present is distinguished by its treatment of English history as part of a wider 'history of four nations'. Not only focusing on England, it attempts to deal with the histories of Wales, Ireland and Scotland in

their own terms, whilst recognising that they too have political, religious and cultural divides. This new edition endeavours to recognise and examine contemporary multi-ethnic Britain and its implications for 'four-nations' history, making it an invaluable case study for European nationhood of the past and present. Thoroughly updated throughout to take into account recent social, political and cultural changes within Britain and examine the rise of multi-ethnic Britain, this revised edition also contains a completely new set of illustrations, including sixteen maps.

The Peoples of the British Isles: From 1870 to the present

THE BRITISH ISLES have a long tradition of tales of gods, heroes and marvels, hinting at a mythology once as relevant to the races which settled the islands as the Greek and Roman gods were to the classical world. The tales drawn together in this book, from a wide range of medieval sources, span the centuries from the dawn of Christianity to the age of the Plantagenets. The Norse gods which peopled the Anglo-Saxon past survive in Beowulf; Cuchulainn, Taliesin and the magician Merlin take shape from Celtic mythology; and saints include Helena who brought a piece of the True Cross to Britain, and Joseph of Arimathea whose staff grew into the Glastonbury thorn. Tales of the British Arthur are followed by legends of later heroes, including Harold, Hereward and Godiva. These figures and many others were part of a familiar national mythology on which Shakespeare drew for Lear, Macbeth and Hamlet, creating the famous versions that are known today. Here the original stories are presented again. RICHARD BARBER's other books include King Arthur: Hero and Legend, Arthurian Legends: An Anthology, and The Knight and Chivalry; he is currently working on a study of the legend of the Holy Grail. Borders.com: England and the British Isles have a rich and still thriving tradition of myths and legends - and this wonderful volume collects together more than thirty of the best from a number of sources... an incredible insight into the fascinating yet complex history of the British Isles and its peoples... Those fascinated by mythology will want to add this wonderful book to their collections.

A Field Guide to the Peoples of the British Isles

This work features stunning aerial photography from Britain's leading aerial photographer, Jason Hawkes, accompanied by text from award-winning travel writer, Mike Gerrard. Jason Hawkes, Britain's leading aerial photographer, has been taking to the skies with his camera for more than fifteen years. In this, his latest collection of aerial

The Peoples of the British Isles

For 7,000 years after the last ice age, the people of the British Isles subsisted by hunting wild game and gathering fruits of the forest and foreshore. Belonging to the late Upper Palaeolithic and Mesolithic periods, these hunter-gatherers have hitherto been viewed mainly in terms of stone tool typologies. late Stone Age Hunters of the British Isles departs from this conventional approach, reassessing the archaeological evidence and placing it within a wider ecological and geographical context. This well illustrated study, which includes case studies, maps and photographs, provides a balanced approach to the study of a period that demands multi-disciplinary treatment. It outlines a range of considerations that have a bearing on the study of early societies in the British Isles, and also forms a useful guide to communities themselves as represented by known archaeological sites.

The Making of the British Isles

This book explores the importance of history to Elizabethan and early Stuart gentry and how this led to a vibrant antiquarian culture. The family, town and county histories written by the community, which form the core of the study, had an influence on the development of local history in England which lasted into the twentieth century and is still felt today. Eschewing a narrow historiographical approach, the author examines a range of manuscript and published works and other material reflecting the gentry's interest in the past: pedigree rolls, antiquarian notebooks, heraldic displays and maps. The book provides a survey of the development of local history in England from its medieval origins to 1660. This is followed by chapters on the practicalities of local historical research: the national educational and institutional framework, the development of regional networks of local historians and the gentlemen who controlled access to their sources, and analysis of the source materials available. The final section features chapters on genealogy, didacticism and the physical world.

The Peoples of the British Isles

"Everyone should have two copies - one for the car and one for the house to plan journeys. . . a reminder to think more about the places you pass and less about your route, because every British journey is through rich history." (Edward Stourton) From much-loved historian Neil Oliver, comes this beautifully written, kaleidoscopic history of a place with a story like no other. The British Isles, this archipelago of islands, is to Neil Oliver the best place in the world. From north to south, east to west it cradles astonishing beauty. The human story here is a million years old, and counting. But the tolerant, easygoing peace we enjoy has been hard won. We have made and known the best and worst of times. We have been hero and villain and all else in between, and we have learned some lessons. The Story of the British Isles in 100 Places is Neil's very personal account of what makes these islands so special, told through the places that have witnessed the unfolding of our history. Beginning with footprints made in the sand by humankind's earliest ancestors, he takes us via Romans and Vikings, the flowering of religion, through civil war, industrial revolution and two world wars. From windswept headlands to battlefields, ancient trees to magnificent cathedrals, each of his destinations is a place where, somehow, the spirit of the past seems to linger.

The Peoples of the British Isles

The second edition of Steven Ellis's formidable work represents not only a survey, but also a critique of traditional perspectives on the making of modern Ireland. It explores Ireland both as a frontier society divided between English and Gaelic worlds, and also as a problem of government within the wider Tudor state. This edition includes two major new chapters: the first extending the coverage back a generation, to assess the impact on English Ireland of the crisis of lordship that accompanied the Lancastrian collapse in France and England; and the second greatly extending the material on the Gaelic response to Tudor expansion.

Disunited Kingdoms

Recounting stories and legends from the dark centuries of British prehistory to the 9th century AD, Ashe shows how they interrelate and take on fresh significance from historical and archaeological research.

The Island of England in the Fifteenth Century

The bestselling and controversial new history of the 'British Isles', including Ireland from the author of *Europe: A History*. Emphasizing our long-standing European connections and positing a possible break-up of the United Kingdom, this is agenda-setting work is destined to become a classic. 'If ever a history book were a tract for the times, it is *The Isles: A History* ... a masterwork.' Roy Porter, *The Times* 'Davies is among the few living professional historians who write English with vitality, sparkle, economy and humour. The pages fly by, not only because the pace is well judged but also because the surprises keep coming.' Felipe Fernandez-Armesto, *Sunday Times* 'A book which really will change the way we think about our past . marvellously rich and stimulating' Noel Malcolm, *Evening Standard* 'A historiographical milestone.' Niall Ferguson, *Sunday Times* 'The full shocking force of this book can only be appreciated by reading it.' Andrew Marr, *Observer* 'It is too soon to tell if [Norman Davies] will become the Macaulay or Trevelyan of our day: that depends on the reading public. He has certainly made a good try. This is narrative history on the grand scale - compulsively readable, intellectually challenging and emotionally exhilarating.' David Marquand, *Literary Review*

A History of the British Isles

THE TOP 10 SUNDAY TIMES BESTSELLER Shortlisted for the André Simon Food and Drink Book Awards for 2019 'A beautifully textured tour around the cheeseboard' Simon Garfield 'Full of flavour' *Sunday Times* 'A delightful and informative romp' Bee Wilson, *Guardian* 'His encounters with modern-day practitioners fizz with infectious delight' John Walsh, *Sunday Times* Every cheese tells a story. Whether it's a fresh young goat's cheese or a big, beefy eighteen-month-old Cheddar, each variety holds the history of the people who first made it, from the builders of Stonehenge to medieval monks, from the Stilton-makers of the eighteenth-century to the factory cheesemakers of the Second World War. Cheesemonger Ned Palmer takes us on a delicious journey across Britain and Ireland and through time to uncover the histories of beloved old favourites like Cheddar and Wensleydale and fresh innovations like the Irish Cashel Blue or the rambunctious Renegade Monk. Along the way we learn the craft and culture of cheesemaking from the eccentric and engaging characters who have revived and reinvented farmhouse and artisan traditions. And we get to know the major cheese styles - the blues, washed rinds, semi-softs and, unique to the British Isles, the territorials - and discover how best

to enjoy them, on a cheeseboard with a glass of Riesling, or as a Welsh rarebit alongside a pint of Pale Ale. This is a cheesemonger's odyssey, a celebration of history, innovation and taste - and the book all cheese and history lovers will want to devour this Christmas.

Ernest Renan was one of the intellectual giants of the second half of the nineteenth century in France, the man who first opened up the study of nationalism. In this book, Shlomo Sand, the author of the best-selling *The Invention of the Jewish People*, demonstrates the complexity of Renan's thought. Sand shows the relationship of Renan's work to that of key twentieth-century thinkers on nationalism, such as Raymond Aron and Ernest Gellner, and argues for the continued importance of studying Renan. Alongside his essay, Sand presents two classic lectures by Renan: the first, the renowned "What Is a Nation?"

The Invention of the Jewish People

A historical tour de force that demolishes the myths and taboos that have surrounded Jewish and Israeli history, *The Invention of the Jewish People* offers a new account of both that demands to be read and reckoned with. Was there really a forced exile in the first century, at the hands of the Romans? Should we regard the Jewish people, throughout two millennia, as both a distinct ethnic group and a putative nation—returned at last to its Biblical homeland? Shlomo Sand argues that most Jews actually descend from converts, whose native lands were scattered far across the Middle East and Eastern Europe. The formation of a Jewish people and then a Jewish nation out of these disparate groups could only take place under the sway of a new historiography, developing in response to the rise of nationalism throughout Europe. Beneath the biblical backfill of the nineteenth-century historians, and the twentieth-century intellectuals who replaced rabbis as the architects of Jewish identity, *The Invention of the Jewish People* uncovers a new narrative of Israel's formation, and proposes a bold analysis of nationalism that accounts for the old myths. After a long stay on Israel's bestseller list, and winning the coveted Aujourd'hui Award in France, *The Invention of the Jewish People* is finally available in English. The central importance of the conflict in the Middle East ensures that Sand's arguments will reverberate well beyond the historians and politicians that he takes to task. Without an adequate understanding of Israel's past, capable of superseding today's opposing views, diplomatic solutions are likely to remain elusive. In this iconoclastic work of history, Shlomo Sand provides the intellectual foundations for a new vision of Israel's future.

How I Stopped Being a Jew

Shlomo Sand was born in 1946, in a displaced person's camp in Austria, to Jewish parents; the family later migrated to Palestine. As a young man, Sand came to question his Jewish identity, even that of a "secular Jew." With this meditative and thoughtful mixture of essay and personal recollection, he articulates the problems at the center of modern Jewish identity. *How I Stopped Being a Jew* discusses the negative effects of the Israeli exploitation of the "chosen people" myth and its "holocaust industry." Sand criticizes the fact that, in the current context, what "Jewish" means is, above all, not being Arab and reflects on the possibility of a secular, non-exclusive Israeli identity, beyond the legends of Zionism.

The State, the Nation, and the Jews

The State, the Nation, and the Jews is a study of Germany's late nineteenth-century antisemitism dispute and of the liberal tradition that engendered it. The Berlin Antisemitism Dispute began in 1879 when a leading German liberal, Heinrich von Treitschke, wrote an article supporting anti-Jewish activities that seemed at the time to gel into an antisemitic "movement." Treitschke's comments immediately provoked a debate within the German intellectual community. Responses from supporters and critics alike argued the relevance, meaning, and origins of this "new" antisemitism. Ultimately the Disput.

One Nation

Part of the Jewish Encounter series Taking in everything from the Kingdom of David to the Oslo Accords, Ruth Wisse offers a radical new way to think about the Jewish relationship to power. Traditional Jews believed that upholding the covenant with God constituted a treaty with the most powerful force in the universe; this later transformed itself into a belief that, unburdened by a military, Jews could pursue their religious mission on a purely moral plain. Wisse, an eminent professor of comparative literature at Harvard, demonstrates how Jewish political weakness both increased Jewish vulnerability to scapegoating and violence, and unwittingly goaded power-seeking nations to cast Jews as perpetual targets. Although she sees hope in the State of Israel, Wisse questions the way the strategies of the Diaspora continue to drive the Jewish state, echoing Abba Eban's observation that Israel was the only nation to win a war and then sue for peace. And then she draws a persuasive parallel to the United

States today, as it struggles to figure out how a liberal democracy can face off against enemies who view Western morality as weakness. This deeply provocative book is sure to stir debate both inside and outside the Jewish world. Wisse's narrative offers a compelling argument that is rich with history and bristling with contemporary urgency.

Jews and Power

Noah Prylucki (1882-1941), a leading Jewish cultural and political figure in pre-Holocaust Eastern Europe, was a proponent of Yiddishism, a movement that promoted secular Yiddish culture as the basis for Jewish collective identity in the twentieth century. Prylucki's dramatic path - from russified Zionist raised in a Ukrainian shtetl, to Diaspora nationalist parliamentarian in metropolitan Warsaw, to professor of Yiddish in Soviet Lithuania - uniquely reflects the dilemmas and competing options facing the Jews of this era as life in Eastern Europe underwent radical transformation. Using hitherto unexplored archival sources, memoirs, interviews, and materials from the vibrant interwar Jewish and Polish presses, Kalman Weiser investigates the rise and fall of Yiddishism and of Prylucki's political party, the Folkists, in the post-World War One era. *Jewish People, Yiddish Nation* reveals the life of a remarkable individual and the fortunes of a major cultural movement that has long been obscured.

Jewish People, Yiddish Nation

"... an excellent book ... provides valuable insights into a broad range of cutting-edge topics in the social sciences such as ethnic and identity politics, nation building, transnationalism and diasporas." —Choice "This book will take its place as a classic in the field ..." —Journal of Church and State "... a lucid formulation of post-Zionist ideology for the generation of the 1980s and 1990s." —International Journal of Middle East Studies "It is ... a remarkable experience to read Evron's thoughtful book. He finds much to criticize in the conventional reading of Jewish history and argues that Israel should be thought of not as a state for the Jewish people but as a territorial state much like others, with full rights for all its inhabitants." —Foreign Affairs "... an extremely erudite, brilliant and powerful book with a novel approach: a sober secular conception of Judaism." —Maariv "A provocative post-Zionist critique of the fundamental concepts of Jewish peoplehood, Zionism, and Israeli nationalism." —Choice "This compelling book conveys the reader straight to the frontline of the battle raging in Israel over the proper boundaries of the national identity. Evron's radical post-Zionist critique of Israel's conceptual foundations calls in question the core link between Israel and Judaism and between Israel and the Jewish diaspora. His penetrating analysis challenges the muddled ideological bearings of Israel's public self-images and points the way toward what may be a more realistic adaptation to its Middle Eastern environment." —Noah Lucas, Oxford Centre for Hebrew and Jewish Studies "Boas Evron is one of the most important and innovative contemporary Jewish-Israeli thinkers and writers. ... For the English-speaking reader, Evron's book is a unique opportunity to understand the new secular Israeli nationalism, written by one of its most critical yet optimistic representatives." —Baruch Kimmerling, The Hebrew University Boas Evron concludes that Israel should become a territorial state that would accommodate its sizeable non-Jewish minority in a truly democratic way.

Jewish State or Israeli Nation?

Excerpt from *History of the Jewish Nation: From the Earliest Times to the Present Day* The history of no nation is so intimately connected with the welfare of the whole human race as that of the Jews. "Immanuel was a Jew," and for this reason, if for no other, mankind would have an interest in tracing the narrative of the race to which that mighty Personage belonged. The Jews are the people of promise, to whom the Divine Word stands pledged, in a sense which is true of no other nationality. They stand nearer to God, in certain respects, than any other people. The Jews are the people of prophecy. The things foretold concerning them in one age are fulfilled in another. Prophecy and its fulfillment are in them joined closely together. History, within a certain limited range, exists and is written for their sakes. In their gradually developing history, the word of Jehovah stands, as it were, on trial; and the reverent mind takes the deepest interest in inquiring what is the issue of this test. Is the Divine word, in the gradual unfolding of the ages, fulfilled? And he who worthily sets forth the materials for the answering of this question, does a service to theology, to learning, to history, and to every curious inquirer. God made promises to the Hebrew nation from the days of Abraham till the close of the Old Testament Scripture. He threatened evil to them as the fruit of rebellion and sin. Have the good things promised, and has the evil threatened come to the nation in alternating succession, in proportion to their varying deserts? The Jews who lived in the times of the incarnation of Christ imprecated curses upon themselves and

their children for the share they chose to take in compassing the death of the Son of God. Has the curse rested upon the people? Do they feel, in their present separation from the nations of the earth, in the lack of respect with which they are, as a general rule, regarded, in the cruel persecutions which have been visited upon them, and in their stubborn blindness to the light of the Gospel, the awful effect of Divine displeasure? These questions, as they are continuously solved by history, hold an important relation to the theology of the world. While the Divine omnipresence is a truth universally conceded, and which needs no argument, we find in the Jewish nation and its history, the most convincing illustration of that doctrine. In the Jewish history God stands forth before men, an acknowledged, a present God, - a jealous God, visiting the iniquities of the fathers upon the children, unto the third and fourth generations of them that hate him. If other histories are so written as to seem like events without a God, the Jewish history is a history with God everywhere embodied, and everywhere apparent. The history of the Jewish people is a commentary on the Divine faithfulness and veracity, and in it God brings himself very near to men. The history embraced in this volume extends from the commencement of the race of the Jews, as a separate people, in Abraham, through the entire narrative of the Old Testament, and the period intervening between the first and second dispensations, and traces them in their dispersion among the kingdoms of the earth, down to the present time. The original work has been carefully revised and condensed, needless phrases and statements stricken out, and everything of real value, including the engravings, retained. As now presented to the public, it forms a fitting and reliable chronicle of the Jewish race, prepared with earnest and pains-taking investigation, and is an admirable contribution to our historical literature. History of the Jewish Nation

First published in Hebrew in Tel Aviv in 1969. First English translation by Weidenfeld and Nicholson in 1976.

A History of the Jewish People

A deeply moving invitation to understand God's prophetic heart for Israel and how blessing can be unleashed for the church in our time.

Why Care about Israel?

The unique, almost mysterious connection between the land of Israel and the Jewish people is at the heart of this remarkable collection of essays. Author Nathan Lopes Cardozo addresses questions such as How is it that contrary to all the laws of history, the Jewish people outlived so many powerful empires? How has such a tiny nation been able to make an unprecedented contribution to the well-being of all of humankind? Why did the Jewish people become a source of endless irritation to those who opposed their ethical teachings? and How can the State of Israel rediscover its Jewish identity as the source of its greatest blessing and hope? As he explores these issues, Lopes Cardozo explains how the Jews, even in their exile, were able to develop almost a portable homeland, taking the spirit and the concept of Israel with them wherever they went.

For the Love of Israel and the Jewish People

Excerpt from History of the Jewish Nation: From the Earliest Times to the Present Day The history of no nation is so intimately connected with the welfare of the whole human race as that of the Jews. Immanuel was a Jew, and for this reason, if for no other, mankind would have an interest in tracing the narrative of the race to which that mighty Personage belonged. The Jews are the people of promise, to whom the Divine Word stands pledged, in a sense which is true of no other nation ality. They stand nearer to God, in certain respects, than any other people. The Jews are the people of prophecy. The things foretold concerning them in one age are fulfilled in another. Prophecy and its fulfillment are in them joined closely together. History, within a certain limited range, exists and is written for their sakes. In their gradually developing history, the word of Jehovah stands, as it were, on trial; and the reverent mind takes the deepest interest in inquiring what is the issue of this test. Is the Divine word, in the gradual unfolding of the ages, fulfilled? And he who worthily sets forth the materials for the answering of this question, does a service to theology, to learning, to history, and to every curious inquirer. God made promises to the Hebrew nation from the days of Abraham till the close of the Old Testament Scripture. He threatened evil to them as the fruit of rebellion and sin. Have the good things promised, and has the evil threatened come to the nation in alternating succession, in proportion to

their varying deserts? The Jews who lived in the times of the incarnation of Christ imprecated curses upon themselves and their children for the share they chose to take in compassing the death of the Son of God. Has the curse rested upon the people? Do they feel, in their present separation from the nations of the earth, in the lack of respect with which they are, as a general rule, regarded, in the cruel persecutions which have been visited upon them, and in their stubborn blindness to the light of the Gospel, the awful effect of Divine displeasure? These questions, as they are continuously solved by history, hold an important relation to the theology of the world. While the Divine omnipresence is a truth universally conceded, and which needs no argument, we find in the Jewish nation and its history, the most convincing illustration of that doctrine. In the Jewish history God stands forth before men, an acknowledged, a present God, a jealous God, visiting the iniquities of the fathers upon the children, unto the third and fourth generations of them that hate him. If other histories are so written as to seem like events without a God, the Jewish history is a history with God every where embodied, and everywhere apparent. History of the Jewish Nation

This important volume explores the state of contemporary Jewish life and the unprecedented opportunity for meaningful Jewish-Christian dialogue that America's unique cultural context presents. Selected from the pages of "First Things" and written by recognized authors almost all of whom are Jewish, the essays and commentaries gathered here take up the broad array of viewpoints, questions, and disputes that comprise the story of Judaism in America. Philosophy, law, psychology, history, anti-Semitism, proselytism, intermarriage, public policy, the State of Israel, and whether Christians can be trusted: these and other subjects are addressed in lively, diverse, and frequently provocative ways. Especially valuable are two concluding documents on Jewish-Christian dialogue, one a Jewish statement on Christians and Christianity, the other a reflection on Christians, Jews, and anti-Semitism by the editors of "First Things." For Christian readers, this book will be an enlightening introduction to the distinctive Jewish world. For Jewish readers, this book is an invitation to reflect thoughtfully on the ongoing experience of living as a chosen people in an almost chosen nation. CONTRIBUTORS: Elliot Abrams, Hadley Arkes, Matthew Berke, Midge Decter, Marc Gellman, Milton Himmelfarb, Clifford E. Librach, Stephen Miller, Alan L. Mittleman, Richard John Neuhaus, David Novak, Jakob J. Petuchowski, Isaac C. Rottenberg, Jonathan D. Sarna, Edward S. Shapiro, David Singer, Marc D. Stern, Aaron Wildavsky, Ruth R. Wisse, Nicholas Wolfson.

The Chosen People in an Almost Chosen Nation

This volume contains the first broad selection of essays made available in English by Ber Borochov, one of the leading intellectuals of the early Zionist movement. Borochov founded the Labor Zionist party in 1906, and was the pillar of the Israeli Labor party from whose ranks arose such figures as David Ben-Gurion and Itzhak Ben-Tsvi. He is best remembered for his ability to synthesize socialism and nationalism. Borochov argues that early Marxist theory failed to understand the causes of nationalism and views it only as a temporary phenomenon. Borochov tried to synthesize socialism with Jewish nationalism. Zionism was a movement necessary to free oppressed Eastern European Jews and permit them to further socialist ideals in their own nation-state. The dilemma is that socialist internationalism requires national culture to be of no further value once a socialist victory occurs in a country. Borochov's essays provide an important, if largely unknown perspective on these questions.

Class Struggle and the Jewish Nation

This book explores why English Christians, from the early modern period onwards, believed that their nation had a special mission to restore the Jews to Palestine. It examines English support for Jewish restoration from the Whitehall Conference in 1655 through to public debates on the Jerusalem Bishopric in 1841. Rather than claiming to replace Israel as God's "elect nation", England was "chosen" to have a special, but inferior, relationship with the Jews. Believing that God "blessed those who bless" the

Jewish people, this national role allowed England to atone for ill-treatment of Jews, read the confusing pathways of providence, and guarantee the nation's survival until Christ's return. This book analyses this mode of national identity construction and its implications for understanding Christian views of Jews, the self, and "the other". It offers a new understanding of national election, and of the relationship between apocalyptic prophecy and political action.

Christian Zionism and English National Identity, 1600–1850

Index.

History of the Jewish People

Maristella Botticini and Zvi Eckstein show that, contrary to previous explanations, this transformation was driven not by anti-Jewish persecution and legal restrictions, but rather by changes within Judaism itself after 70 CE--most importantly, the rise of a new norm that required every Jewish male to read and study the Torah and to send his sons to school. Over the next six centuries, those Jews who found the norms of Judaism too costly to obey converted to other religions, making world Jewry shrink. Later, when urbanization and commercial expansion in the newly established Muslim Caliphates increased the demand for occupations in which literacy was an advantage, the Jews found themselves literate in a world of almost universal illiteracy. From then forward, almost all Jews entered crafts and trade, and many of them began moving in search of business opportunities, creating a worldwide Diaspora in the process.

The Chosen Few

Occasionally one comes across a book, which is unexpected, delights and inspires. Surinam, known as the 'Jewish Savannah', where a vibrant Jewish community was granted full and equal rights two hundred years before the Jews of other communities in the region. St Eustatius, where the economically successful Jewish community was plundered during the British occupation in 1781. Curacao, named the 'Mother of Jewish communities in the New World', where a prosperous Jewish community comprised nearly half of Curacao's non-slave population and was the center of Jewish life in the region. For all their economic and local political power, the Jews were little more than pawns in the 200-year struggle for control of the Caribbean by Holland, Great Britain, France and Spain. Eventually growing tired of this chess game, the Jews of the Caribbean drifted into assimilation or immigrated to the United States, where life was more secure. An ideal resource and captivating read for those traveling to the region or people with an interest in Jewish history, this is an exceptional book that brings the Jewish communities of the Caribbean to life, with intensity, and with a heartbeat so strong as to secure their proper and rightful place in recorded Jewish history.

The Jewish Nation of the Caribbean

This history of the Jews in Europe examines the role played by the Jews themselves, across the whole of Europe, during the century and a half leading up to the birth of the nation of Israel, and the state-sponsored genocide of the Holocaust.

A People Apart

A source book containing 117 documents (with short explanatory texts) dealing with Christian-Jewish relations in Europe throughout the centuries. Most of the documents reflect highly anti-Jewish feelings and describe persecution of the Jews. Points out, though, that the book is not meant to be a history of antisemitism; rather, people have a tendency to record the lurid, the sensational, and the unusual. The notes describe the documents' historical context and explain how these writings affected Jewish life. The documents are divided into six main sections: The Genesis of Christian Attitudes toward Jews; The Jewish Middle Ages; Ritual Murder Accusations and Other Charges; Emancipation, Repression, and the Growth of Organized Anti-Semitism; Change, Hope, and Tragedy: The Challenges of Communism, Zionism, and Nazism; The Post-Holocaust World: Jewry in the Latter Half of the 20th Century.

Scattered Among the Nations

'A Jewish State' is a book written by Theodor Herzl. He was an Austro-Hungarian Jewish lawyer, journalist, playwright, political activist, and writer who was the father of modern political Zionism. Herzl

formed the Zionist Organization and promoted Jewish immigration to Palestine in an effort to form a Jewish state.

A Jewish State

What is a homeland and when does it become a national territory? Why have so many people been willing to die for such places throughout the twentieth century? What is the essence of the Promised Land? Following the acclaimed and controversial *The Invention of the Jewish People*, Shlomo Sand examines the mysterious sacred land that has become the site of the longest-running national struggle of the twentieth and twenty-first centuries. *The Invention of the Land of Israel* deconstructs the age-old legends surrounding the Holy Land and the prejudices that continue to suffocate it. Sand's account dissects the concept of "historical right" and tracks the creation of the modern concept of the "Land of Israel" by nineteenth-century Evangelical Protestants and Jewish Zionists. This invention, he argues, not only facilitated the colonization of the Middle East and the establishment of the State of Israel; it is also threatening the existence of the Jewish state today.

The Invention of the Land of Israel

Is there an Israeli nation? How is it related to the historical "Jewish People"? How is it related to the Zionist movement? Under what conditions could non-Jews become equal members of this nation? These and other questions stand at the center of the Moshe Berent's "A Nation Like All Nations: Towards the Establishment of an Israeli Republic." The mission of the Zionist movement was to work toward the normalization of Jewish existence: to become "a nation like all nations." Israel, contrary to that aspiration, is not a normal nation-state, since according to the formal national ethos it belongs to the "Jewish people" and there is no recognized Israeli nation. Dr. Berent asserts that the fusion of nationality and religion, together with the absence of a normal nation-state are the source of Israel's basic problems and are responsible for Israel's powerlessness to solve problems - i.e. the status of religion in public life; The relations between seculars and religious; the status of non-Jews, especially Arabs; the absence of a constitution; the inability to agree about borders, or to decide about peace and war. "A Nation Like All Nations: Towards the Establishment of an Israeli Republic" makes the case that a separation between nationality and religion, the recognition in the existence of an Israeli nation, and the establishment of Israel as a republic - as the State of the Israeli nation is a pre-condition for finding the solution of all of these problems.

A Nation Like All Nations

The distinguished historian of the Jewish people, Howard M. Sachar, gives us a comprehensive and enthralling chronicle of the achievements and traumas of the Jews over the last four hundred years. Tracking their fate from Western Europe's age of mercantilism in the seventeenth century to the post-Soviet and post-imperialist Islamic upheavals of the twenty-first century, Sachar applies his renowned narrative skill to the central role of the Jews in many of the most impressive achievements of modern civilization: whether in the rise of economic capitalism or of political socialism; in the discoveries of theoretical physics or applied medicine; in "higher" literary criticism or mass communication and popular entertainment. As his account unfolds and moves from epoch to epoch, from continent to continent, from Europe to the Americas and the Middle East, Sachar evaluates communities that, until lately, have been underestimated in the perspective of Jewish and world history—among them, Jews of Sephardic provenance, of the Moslem regions, and of Africa. By the same token, Sachar applies a master's hand in describing and deciphering the Jews' unique exposure and functional usefulness to totalitarian movements—fascist, Nazi, and Stalinist. In the process, he shines an unsparing light on the often widely dissimilar behavior of separate European peoples, and on separate Jewish populations, during the Holocaust. A distillation of the author's lifetime of scholarly research and teaching experience, *A History of the Jews in the Modern World* provides a source of unsurpassed intellectual richness for university students and educated laypersons alike.

A History of the Jews in the Modern World

Amnon Rubinstein and Alexander Yakobson explore the nature of Israel's identity as a Jewish state, how that is compatible with liberal democratic norms and is comparable with a number of European states.

The End of the Jewish People?

The twentieth century has seen both the greatest triumph of Jewish history and its greatest tragedy: the birth of the nation of Israel, and the state-sponsored genocide of the Holocaust. *A People Apart* is the first study to examine the role played by the Jews themselves, across the whole of Europe, during the century and a half leading up to these events. David Vital explores the Jews' troubled relationship with Europe, documenting the struggles of this 'nation without a territory' to establish a place for itself within an increasingly polarized and nationalist continent. He examines the clash within the Jewish community between politically neutral traditionalists and a new group of activists, whose unprecedented demands for national and political self-determination were stimulated both by increasing civil emancipation and the mounting effort to drive the Jews out of Europe altogether. Controversially, Professor Vital concludes that the history of the Jewish people was indeed in crucial respects although certainly not all of their own making; at times by their own autonomous action and choice; at others by inaction and default. This powerful and stimulating new analysis represents a watershed in our understanding of the history of the Jews in Europe.

Israel--nation and People

This classic survey of the main features of the Jewish historical landscape exposes students to the rich scholarly literature on Jewish history, theology, philosophy, mysticism, and social thought that has been produced in the last century and a half. It shows Judaism as a creative response to ultimate issues of human concern by members of a group that has faced a unique concatenation of political, economic, and geographical circumstances. -- From product description.

Israel and the Family of Nations

As a youth, the author, who had two Jewish grandparents, was defined as a Jew by Vichy France; his parents, however, refused to register the family as Jews. (In March 1944 Corcos and his brother fled to Spain and joined the Allied Forces in North Africa.) States that antisemites consider Jewishness to be inherited and to embody inferior, evil traits. This view is based on two false biological premises: that there are pure races of humans, and that some races are superior to others. Rejects these premises by considering modern biology and Jewish history. The latter indicates that the Jews cannot be a race, due to their lack of sexual isolation; diversity among Jews is a result of both intermarriage and proselytism. Sees the Spanish "limpieza de sangre" statutes and the Inquisition as precursors of Nazi racism. Observes that sometimes Jews have joined antisemites in accepting biological determinism. Intermarriage in countries such as China, India, and the USA has led to considerable biological diversity among Jews and to the reduction of diversity between Jews and non-Jews, if such diversity existed at all. Stresses that if antisemites have worried about "contamination" of their "race" by the Jews they have already missed the boat since Jews have mixed with non-Jews for many centuries.

A People Apart

Winner of the Jewish Book of the Year Award The first comprehensive yet accessible history of the state of Israel from its inception to present day, from Daniel Gordis, "one of the most respected Israel analysts" (The Forward) living and writing in Jerusalem. Israel is a tiny state, and yet it has captured the world's attention, aroused its imagination, and lately, been the object of its opprobrium. Why does such a small country speak to so many global concerns? More pressingly: Why does Israel make the decisions it does? And what lies in its future? We cannot answer these questions until we understand Israel's people and the questions and conflicts, the hopes and desires, that have animated their conversations and actions. Though Israel's history is rife with conflict, these conflicts do not fully communicate the spirit of Israel and its people: they give short shrift to the dream that gave birth to the state, and to the vision for the Jewish people that was at its core. Guiding us through the milestones of Israeli history, Gordis relays the drama of the Jewish people's story and the creation of the state. Clear-eyed and erudite, he illustrates how Israel became a cultural, economic and military powerhouse—but also explains where Israel made grave mistakes and traces the long history of Israel's deepening isolation. With Israel, public intellectual Daniel Gordis offers us a brief but thorough account of the cultural, economic, and political history of this complex nation, from its beginnings to the present. Accessible, levelheaded, and rigorous, Israel sheds light on the Israel's past so we can understand its future. The result is a vivid portrait of a people, and a nation, reborn.

Jewish People, Jewish Thought

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

The Myth of the Jewish Race

The epic 4000-year story of the Jews, from the ancient patriarchs and kings through centuries-long persecution to the growth of a worldwide culture.

Israel

Presents a history of the Jewish people throughout the ages.

The Jewish Nation

This book explains why the best way to understand the Jewish historical experience is to look at Jewish people, not just as a religious or ethnic group or a nation or "people," but, as bearers of civilization. This approach helps to explain the greatest riddle of Jewish civilization, namely, its continuity despite destruction, exile, and loss of political independence. In the first part of the book, Eisenstadt compares Jewish life and religious orientations and practices with Hellenistic and Roman civilizations, as well as with Christian and Islamic civilizations. In the second part of the book, he analyzes the modern period with its different patterns of incorporation of Jewish communities into European and American societies; national movements that developed among Jews toward the end of the nineteenth century, especially the Zionist movement; and specific characteristics of Israeli society. The major question Eisenstadt poses is to what extent the characteristics of the Jewish experience are distinctive, in comparison to other ethnic and religious minorities incorporated into modern nation-states, or other revolutionary ideological settler societies. He demonstrates through his case studies the continuous creativity of Jewish civilization.

An Illustrated History of the Jewish People

Just as the moon waxes and wanes, so too civilizations pass through stages of birth, growth, and decline. But only the Jewish nation has continued this cycle from generation to generation, mimicking the eternal cycles of the moon. This fact-filled volume explores the history of the Jewish people in a unique and readable way, taking us from Biblical times to the present. Each of the phases deals with 500 years of history and depicts not only the political, economic and social forces that kept the Jewish people alive and vibrant, but also the leading figures who significantly affected the course of Jewish history. The authors take us from the period of the Patriarchs through Moses, David, and the birth of the Jewish People, then on to the period of the prophets and kings, Ezra and the Great Assembly, the Talmudic period, the Geonim, Rishonim, the Inquisition, Achronim, the two World Wars, and the State of Israel.

Who are the Jews?

Discover the rich history and culture of the Jewish people with this classic work by Josephus. Drawing on his own experiences and the writings of earlier historians, Josephus offers a comprehensive account of Jewish customs and practices, from their religious rituals to their political and social systems. A must-read for anyone seeking to understand the roots of Jewish identity and tradition. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Amazing Adventures of the Jewish People

A NEW YORK TIMES BOOK REVIEW EDITORS' CHOICE A SAN FRANCISCO CHRONICLE BEST-SELLER In AD 70, when the Second Temple was destroyed, a handful of visionaries saved Judaism

by reinventing it, taking what had been a national religion and turning it into an idea. Whenever a Jew studied—wherever he was—he would be in the holy city, and his faith preserved. But in our own time, Zionists have turned the book back into a temple, and unlike an idea, a temple can be destroyed. With exuberance, humor, and real scholarship, *Israel is Real* offers "a serious attempt by a gifted storyteller to enliven and elucidate Jewish religious, cultural, and political history . . . A powerful narrative" (Los Angeles Times).
