3 LIES - (The Masters CIA Thriller Series Book 1)

At CIA headquarters, a young officer discovers that terrorists may have commandeered their computer systems to launch an unauthorized mission. Elsewhere, conspirators abduct nine people to manipulate the rules of their game. Two disparate ambitions – Clint Masters becomes the reluctant link in the chain of danger. Ever since Clint's almost ex-wife dumped him, he bobs along the Massachusetts coast in a sailboat with his black lab for company. He avoids all forms of technology, a counterintuitive effort for the burned-out founder of CatSat Laboratories. Tired of clutching the brass ring, he needed to untether, step off the corporate treadmill, and smell a flower. Fortunately, he met one, a beautiful, unspoiled woman who doesn't treat him like a commodity. His relationship with Beth offers more promise than his marriage ever did, even if she is on dialysis for her recovering kidneys, until she disappears. In spite of the evidence, her family refuses to admit she's in danger. Without routine dialysis, she won't survive. As Clint realizes that he loves Beth, damn-near ex-wife Paige sashays back into his life with disturbing news. While the CIA young gun tracks his quarry, Clint enlists the help of two men to find Beth, a blithe Brit named Merlin, and Todd, his playboy partner-in-tech. But Clint must find Beth before her kidneys fail. And before someone unloads a bullet in his head.

THE LEGACY DEVICE The British Army left Iraq in 2009 after a six-year campaign alongside coalition forces. What they left behind has remained a closely guarded secret – until now. Royal Engineer EOD operator Dan Taylor is on his last tour of duty when he is caught up in a conspiracy that will have consequences reaching far beyond the country's war-torn borders. With no choice but to follow orders, Dan realises that the legacy he and his commanding officer leave behind will have an unimaginable impact on the future of Iraq, and that of the British secret service. But first, he has to survive the mission.

WHITE GOLD A troubled past. A murdered friend. A bomb that will change the face of terrorism. When Sarah Edgewater's ex-husband is murdered by a wealthy organisation hell-bent on protecting their assets, she turns to Dan Taylor: geologist, ex-soldier, and lost cause. Plunged into a global quest for answers, Dan and Sarah aren't just chasing the truth - they're chasing a bomb that, if detonated, will change the future of alternative energy research and the centre of England's capital forever...

UNDER FIRE An explosion rocks a Qatari natural gas facility... a luxury cruise liner capsizes in the Mediterranean...and someone has stolen a submarine... Are the events connected? Dan Taylor doesn't believe in coincidences - all he has to do is convince his superiors they are next in the terrorists' line of fire. As Britain enters its worst winter on record, Dan must elude capture to ensure the country's energy resources are protected. At all costs. In an action-packed adventure, from the Middle East through the Mediterranean to London, Dan and his team are on a quest which will test every choice he makes. Assisted by the exotic Antonia Almasi, Dan realises he faces an adversary far greater than he ever imagined, and not everyone is going to survive.

THREE LIVES DOWN Dan Taylor has survived two attempts on his life. The rest of his team are missing, and now a terrorist group has stolen a radioactive isotope from a top secret government project. Can Dan survive long enough to prevent a nuclear disaster on British soil? With the Prime Minister determined to re-negotiate the country's place in the European Union, and deals being struck behind closed doors, Dan stumbles across a plot that will shake the country to its core. If his mission fails, his enemies will overthrow the British government, and Dan will be a wanted man. If he wants to succeed, he'll have to sacrifice everything...

BEHIND THE WIRE Dan Taylor is trying to keep a low profile when an old friend contacts the Energy Protection Group seeking his help. The man's daughter is alone in North Africa, and her life is in grave danger. Thrust back into active duty, Dan soon realises that getting Anna to safety is only half his problem. The forensic accountant holds the key to preventing Western Sahara from descending into chaos, and exposing the puppet masters behind an imminent coup d'état. With a group of militants in pursuit and willing to do anything to stop him, Dan must draw on old survival skills and luck to make his way across the desert landscape and ensure Anna and the evidence she has in her possession reach safety. Behind the wire lies a secret – a secret that people will kill to protect.

Direct Legacy

At the height of the Troubles, a young American Special Forces soldier must find and stop his vengeful former comrade-in-arms before he carries out a devastating terrorist strike for the IRA. Once friends, they are now pawns on opposite sides of an ugly war. It is the height of the Troubles and Northern Ireland lies under a shadow... When Neil Fitzpatrick, a rogue Green Beret soldier, is recruited by the Irish Republican Army to help prepare a terrorist attack, Paul Stavros, his former teammate, is sent to stop him and bring him home alive. Fitzpatrick, the American son of an Irish rebel who was forced to flee his birthplace, is a Special Forces demolitions expert. Fitzpatrick knows his trade and has a personal agenda with the IRA. Alarm bells erupt when the US government learns that Fitzpatrick has gone over to the IRA. The American public can't find out that one of its elite soldiers is involved in terrorism and the US government won't rely on the British to find him. They need someone who knows Fitzpatrick and how he operates. Who better than one of his former teammates? Paul Stavros is also a Special Forces veteran. He knows little of the Irish Troubles but is about to learn. What he does know is how to fix problems and Neil has just become his biggest headache. But before Stavros can go operational, he must endure an arduous and hazardous selection process to be accepted by the joint SAS-intelligence cell that will back him up. The British aren't happy with Stavros on their turf; they'd rather do the job themselves—quickly, cleanly, and terminally. Once, Fitzpatrick and Stavros were comrades and friends. Now they are pawns on opposite sides of an ugly war where all is fair and no one is innocent. The British want to kill one, the IRA wants to kill the other. It's a race to see who will be first.

The Thomas Kell Spy Series, Books 1-3

From the internationally acclaimed, New York Times bestselling author of The Trinity Six and Typhoon, the Thomas Kell series is a compelling, revealing tale of deceit and betrayal, conspiracy and redemption. Read the first three books in the series, now available in one ebook. **A Foreign Country** On the vacation of a lifetime in Egypt, an elderly French couple are brutally murdered. Days later, on the streets of Paris, a young French accountant is kidnapped. When Amelie Levene, who in six weeks is due to take over as the first female Chief of MI6, disappears without a trace while in the south of France, it is the gravest crisis MI6 has faced in more than a decade. Desperate not only to find her, but to keep the press from learning that she has gone missing, Britain's top intelligence agents turn to one of their own: disgraced former MI6 officer Thomas Kell. Tossed out of the Service only months before, Kell is given one final chance to redeem himself and find Amelia Levene at any cost. **A Colder War** A top-ranking Iranian military official, an investigative journalist, and an Iranian nuclear scientist are targeted in seemingly unrelated attacks, but they have one crucial link: Each of the three had been recently recruited by Western intelligence, before being removed or killed. When Paul Wallinger, MI6's most senior agent in Turkey, dies in a puzzling plane crash, Tom Kell discovers what Wallinger had already begun to suspect—that there's a mole somewhere in the Western intelligence, a traitor who has been systematically sabotaging scores of joint intelligence operations in the Middle East. **A Divided Spy** Tom Kell is offered an unexpected chance at revenge. Taking the law into his own hands, he embarks on a mission to recruit a top Russian spy who is in possession of a terrifying secret. As Kell tracks his man from Moscow to London, he finds himself in a high stakes game of cat and mouse in which it becomes increasingly difficult to know who is playing whom. As the mission reaches boiling point, the threat of a catastrophic terrorist attack looms over Britain, and Kell is faced with an impossible choice. Loyalty to MI6—or to his own conscience?
