Walking the Bible

Both a heart-racing adventure and an uplifting quest, Walking the Bible describes one man's epic odyssey—by foot, jeep, rowboat, and camel—through the greatest stories ever told. From crossing the Red Sea to climbing Mount Sinai to touching the burning bush, Bruce Feiler's inspiring journey will forever change your view of some of history's most storied events.

Walking the Bible

Both a heart-racing adventure and an uplifting quest, Walking the Bible describes one man's epic odyssey—by foot, jeep, rowboat, and camel—through the greatest stories every told. From crossing the Red Sea to climbing Mount Sinai to touching the burning bush, Bruce Feiler's inspiring journey will forever change your view of some of history's most storied events.

Walking the Bible

Bruce Feiler's New York Times bestsellers Abraham, Walking the Bible, and Where God Was Born brilliantly explored the roots of faith. With America's Prophet, Feiler looks at Moses and the essential role the prophet has played in our nation's history and development. Bruce Feiler's most fascinating and thought-provoking book to date, America's Prophet delves deeply into how the Exodus story and America's true "Spiritual Founding Father" have inspired many of the most important figures and defining events in this country's history—from the Mayflower Pilgrims to the Civil Rights movement—and how Moses can provide meaning in times of national crisis, even today.

Walking the Bible

At a time when America debates its values and the world braces for religious war, Bruce Feiler, author of the New York Times bestsellers *Walking the Bible* and *Abraham*, travels ten thousand miles through the heart of the Middle East—Israel, Iraq, and Iran—and examines the question: Is religion tearing us apart ... or can it bring us together? *Where God Was Born* combines the adventure of a wartime chronicle, the excitement of an archaeological detective story, and the insight of personal spiritual exploration. Taking readers to biblical sites not seen by Westerners for decades, Feiler's journey uncovers little-known details about the common roots of Judaism, Christianity, and Islam, and affirms the importance of the Bible in today's world. In his intimate, accessible style, Feiler invites readers on a never-in-a-lifetime experience: Israel Feiler takes a perilous helicopter dive over Jerusalem, treks through secret underground tunnels, and locates the spot where David toppled Goliath. Iraq After being airlifted into Baghdad, Feiler visits the Garden of Eden and the birthplace of Abraham, and makes a life-threatening trip to the rivers of Babylon. Iran Feiler explores the home of the Bible's first messiah and uncovers the secret burial place of Queen Esther. In *Where God Was Born*, Feiler discovers that at the birth of Western religion, all faiths drew from one another and were open to coexistence. Feiler's bold realization is that the Bible argues for interfaith harmony. It cannot be ceded to one side in the debate over values. Feiler urges moderates to take back the Bible and use its powerful voice as a beacon of shared ideals. In his most ambitious work to date, Bruce Feiler has written a brave, uplifting story that stirs the deepest chords of our time. *Where God Was Born* offers a rare, universal vision of God that can inspire different faiths to an allegiance of hope.

America's Prophet

A magisterial project: a dual biography of the preeminent figures of Judeo-Christian civilization overturning conventional views of Moses and Jesus as humble men of faith. By reanimating the biographies of Moses and Jesus in their historical context, Rosenberg reads their narrative as a cultural—rather than religious—endeavor. He charges that Moses and Jesus were "educated" men, steeped in the literature and scholarship of their day. There were no old or new testaments for them, only a long history of writing and writers. When scholars and clergy quote Moses and Jesus, they routinely neglect to inform us that Jesus is quoting the Hebrew Bible, often in the manner that Moses quoted Egyptian medical texts. The remarkable ability of both men to recall and transform a wide range of sources is overlooked. Where did they get these profound educations? Part biography, part critical analysis, *An Educated Man* challenges us to envision what defines "an educated man or woman" today—and how understanding religious history is crucial to it. Rosenberg offers a sympathetic approach to why we need Judeo-Christianity—and ultimately convinces us that the life of Jesus is unthinkable without the model of Moses before him.

Where God Was Born

In this timely, provocative, and uplifting journey, the bestselling author of *Walking the Bible* searches for the man at the heart of the world's three monotheistic religions—and today's deadliest conflicts. At a moment when the world is asking "can the religions get along?" one figure stands out as the shared ancestor of Jews, Muslims, and Christians. One man holds the key to our deepest fears—and our possible reconciliation. Abraham is that man. Bruce Feiler set out on a personal quest to better understand our common patriarch. Traveling in war zones, climbing through caves and ancient shrines, and sitting down with the world's leading religious minds, Feiler uncovers fascinating, little known details of the man who defines faith for half the world. Both immediate and timeless, Abraham is a powerful, universal story, the first-ever interfaith portrait of the man God chose to be his partner. Thoughtful and inspiring, it offers a rare vision of hope that will redefine what we think about our neighbors, our future, and ourselves.

An Educated Man

An exploration of the way Adam and Eve introduced the idea of love into the world, and how they continue to shape our deepest feelings about relationships, family, and togetherness. Since antiquity, Adam and Eve have stood at the center of every conversation about men and women. Yet instead of celebrating them, history has blamed them for bringing sin, deceit, and death into the world. In this fresh retelling of their story, Bruce Feiler travels from the Garden of Eden in Iraq to the Sistine Chapel in Rome, discovering how Adam and Eve should be hailed as exemplars of a long-term, healthy, resilient relationship. At a time of discord and fear over the strength of our social fabric, Feiler shows how history's first couple can again be role models for unity, forgiveness, and love.

Abraham

This keepsake edition of Exodus was taken from the King James translation of the Bible. The King James Translation is a masterwork of style, and the most important book in the English language, it has been the driving force in shaping the English-speaking world for hundreds of years. The Book of Exodus tells of Israel's delivery from slavery in Egypt through the hand of Yahweh their god, their encounter with God on the holy mountain, and the divine indwelling of God with Israel.

The First Love Story

Mary appears only a few times in the Bible, but those few passages come at crucial moments. Catholics believe that Mary is the ever-virgin Mother of God, the Queen of Heaven and Earth. But she also was a human being--a woman who made a journey of faith through various trials and uncertainties and endured her share of suffering. Even with her unique graces and vocation, Mary remains a woman we can relate to and from whom we have much to learn. In *Walking with Mary*, Edward Sri looks at the crucial passages in the Bible concerning Mary and offers insight about the Blessed Mother's faith and devotion that we can apply in our daily lives. We follow her step-by-step through the New Testament account of her life, reflecting on what the Scriptures tell us about how she responded to the dramatic events unfolding around her. "This book is the fruit of my personal journey of studying Mary through the Scriptures, from her initial calling in Nazareth to her painful experience at the cross," writes Edward Sri "It is intended to be a highly readable, accessible work that draws on wisdom from the Catholic tradition, recent popes, and biblical scholars of a variety of perspectives and traditions. With the riches of these insights, we will ponder what her journey of faith may have been like in order to draw out spiritual lessons for our own walk with God." He add, "It is my hope, therefore, that whether you are of a Catholic, Protestant, or other faith background, this book may help you to know, understand, and love Mary more, and that it may inspire you to walk in her footsteps as a faithful disciple of the Lord in your own pilgrimage of faith."

Exodus

The Bible tells the story of God meeting real people in a real time and place, yet we rarely take the time to wonder, Why there? Maybe we have a hard time even picturing where there is. To begin to fully understand the Bible, we must understand the geographical settings of Scripture and how each place participates in the biblical story. With its colorful maps, *The Basic Bible Atlas* helps us link geography to Bible study so we can understand how place impacted events in the Bible. From Eden to Egypt, from the promised land to Persia, from Bethlehem to the New Jerusalem, *The Basic Bible Atlas* is a fascinating guide to the land of the Bible. Your Bible study will never be the same.

Life of Moses Study - Men

Bestselling author and New York Times family columnist Bruce Feiler found himself squeezed between caring for ageing parents and raising his children. So he set out on a three-year journey to find the smartest ideas and the most cutting-edge research about families of all varieties, novel solutions to make his own family happier. Instead of the usual psychologists and family 'experts', he sought out the most creative minds - from Silicon Valley to the set of *Modern Family*, from top negotiators to the army - and asked them what team-building exercises and problem-solving techniques they use. Feiler then tested these ideas with his wife and kids. The result is a fun, completely original look at how families can draw closer together. Feiler's life-changing discoveries include a radical plan to reshape your family in twenty minutes a week, Warren Buffett's guide for setting an allowance, and the Harvard handbook for resolving conflict. *The Secrets of Happy Families* is a timely, counterintuitive book that answers the questions countless parents are asking: how do we manage the chaos of our lives? How do we teach our kids values? How do we make our family happier? Written in a charming, accessible style, *The Secrets of Happy Families* is smart, funny and fresh, and will forever change how your family lives every day.

Walking with Mary

Reading the Bible doesn't need to be a difficult journey through strange and bewildering territory. *How to Read the Bible Book by Book* walks you through the Scriptures like an experienced tour guide, helping you understand each of its sixty-six books. For each book of the Bible, the authors start with a quick snapshot, then expand the view to help you better understand its message and how it fits into the grand narrative of the Bible. Written by two top evangelical scholars, this survey is designed to get you actually reading the Bible knowledgeably and understanding it accurately. In an engaging, conversational style,

Gordon Fee and Douglas Stuart take you through every book of the Bible using their unique approach: Orienting Data—Concise info bytes that form a thumbnail of the book. Overview—A brief panorama that introduces key concepts and themes and important landmarks in the book Specific Advice for Reading—Pointers for accurately understanding the details and message of the book in context with the circumstances surrounding its writing. A Walk Through—The actual section-by-section tour that helps you see both the larger landscape of the book and how its various parts work together to form the whole. How to Read the Bible Book by Book can be used as a companion to How to Read the Bible for All Its Worth. It also stands on its own as a reliable guide to reading and understanding the Bible for yourself.

Walking with Moses

A New York Times bestseller! A pioneering and timely study of how to navigate life's biggest transitions with meaning, purpose, and skill Bruce Feiler, author of the New York Times bestsellers *The Secrets of Happy Families* and *Council of Dads*, has long explored the stories that give our lives meaning. Galvanized by a personal crisis, he spent the last few years crisscrossing the country, collecting hundreds of life stories in all fifty states from Americans who'd been through major life changes—from losing jobs to losing loved ones; from changing careers to changing relationships; from getting sober to getting healthy to simply looking for a fresh start. He then spent a year coding these stories, identifying patterns and takeaways that can help all of us survive and thrive in times of change. What Feiler discovered was a world in which transitions are becoming more plentiful and mastering the skills to manage them is more urgent for all of us. The idea that we'll have one job, one relationship, one source of happiness is hopelessly outdated. We all feel unnerved by this upheaval. We're concerned that our lives are not what we expected, that we've veered off course, living life out of order. But we're not alone. *Life Is in the Transitions* introduces the fresh, illuminating vision of the nonlinear life, in which each of us faces dozens of disruptors. One in ten of those becomes what Feiler calls a lifequake, a massive change that leads to a life transition. The average length of these transitions is five years. The upshot: We all spend half our lives in this unsettled state. You or someone you know is going through one now. The most exciting thing Feiler identified is a powerful new tool kit for navigating these pivotal times. Drawing on his extraordinary trove of insights, he lays out specific strategies each of us can use to reimagine and rebuild our lives, often stronger than before. From a master storyteller with an essential message, *Life Is in the Transitions* can move readers of any age to think deeply about times of change and how to transform them into periods of creativity and growth.

The Basic Bible Atlas

Women desire to live well. However, living well in this modern world is a challenge. The pace of life, along with the new front porch of social media, has changed the landscape of our lives. Women have been told for far too long that being on the go and accumulating more things will make their lives full. As a result, we grasp for the wrong things in life and come up empty. God created us to walk with him; to know him and to be loved by him. He is our living well and when we drink from the water he continually provides, it will change us. Our marriages, our parenting, and our homemaking will be transformed. Mommy-blogger Courtney Joseph is a cheerful realist. She tackles the challenge of holding onto vintage values in a modern world, starting with the keys to protecting our walk with God. No subject is off-limits as she moves on to marriage, parenting, and household management. Rooted in the Bible, her practical approach includes tons of tips that are perfect for busy moms, including: Simple Solutions for Studying God's Word How to Handle Marriage, Parenting, and Homemaking in a Digital Age 10 Steps to Completing Your Husband Dealing With Disappointed Expectations in Motherhood Creating Routines that Bring Rest Pursuing the Discipline and Diligence of the Proverbs 31 Woman There is nothing more important than fostering your faith, building your marriage, training your children, and creating a haven for your family. *Women Living Well* is a clear and personal guide to making the most of these precious responsibilities.

The Secrets of Happy Families

The exodus—the story of God leading his chosen people out of slavery in Egypt—stands as a pivotal event in the Old Testament. But if you listen closely, you will hear echoes of this story of redemption all throughout God's Word. Using music as a metaphor, the authors point us to the recurring theme of the exodus throughout the entire symphony of Scripture, shedding light on the Bible's unified message of salvation and restoration that is at the heart of God's plan for the world.

How to Read the Bible Book by Book

How can creatures made from dust become members of God's household "forever"? In this New Studies in Biblical Theology volume, Michael Morales explores the narrative context, literary structure and theology of Leviticus, following its dramatic movement from the tabernacle to the temple—and from the earthly to the heavenly Mount Zion in the New Testament.

Life Is in the Transitions

The Path is the story of the Bible, excerpted from the New Revised Standard Version so that it is clear and easy to read.

Women Living Well

A revised workbook to accompany Grasping God's Word textbook on reading, interpreting, and applying the Bible for college students and other serious readers.

Echoes of Exodus

What would it be like for modern readers to sit down beside Jesus as he explained the Bible to them? What life-changing insights might emerge from such a transformative encounter? Lois Tverberg knows the treasures that await readers willing to learn how to read the Bible through Jewish eyes. By helping them understand the Bible as Jesus and his first-century listeners would have, she bridges the gaps of time and culture in order to open the Bible to readers today. Combining careful research with engaging prose, Tverberg leads us on a journey back in time to shed light on how this Middle Eastern people approached life, God, and each other. She explains age-old imagery that we often misinterpret, allowing us to approach God and the stories and teachings of Scripture with new eyes. By helping readers grasp the perspective of its original audience, she equips them to read the Bible in ways that will enrich their lives and deepen their understanding.

Who Shall Ascend the Mountain of the Lord?

Origen was one of the most influential pre-Nicene church fathers, whose exegetical method shaped much of subsequent interpretation of the Old Testament. Some of his theological speculations were condemned in the 6th century, but his influence as a Christian scholar and Old Testament exegete remain undiminished. This book offers a fresh, contemporary translation of Origen's 28 homilies on the book of Numbers.

The Path

As outspoken in his day as Richard Dawkins or Christopher Hitchens are today, American freethinker and author ROBERT GREEN INGERSOLL (1833-1899) was a notorious radical whose uncompromising views on religion and slavery (they were bad, in his opinion), women's suffrage (a good idea, he believed), and other contentious matters of his era made him a wildly popular orator and critic of 19th-century American culture and public life. First published in 1879, this audaciously titled volume is a collection of short essays challenging the concept of biblical inerrancy. Focusing on the first five books of the Bible, once popularly believed to have been written by Moses, Ingersoll highlights the savageries, absurdities, injustices, and scientific inaccuracies of the writings considered noble and true by so many. As enjoyable a read as it is a provocative one, this is the lost classic of a true American original.

Grasping God's Word

THE ROYAL ROAD TO ROMANCE in which a gay young romanticist goes laughing and beating and fighting his vagabond way into the glamorous corners of the world. Richly illustrated throughout. "Impetuous to utter recklessness, laughing at hardships, dreaming of beauty, ardent for adventure, Richard Halliburton has managed to sing into the pages of this glorious book his own exultant spirit of young and freedom."—Chicago Post "The mad, exhilarating, and joyous spirit of Richard Halliburton's Royal Road to Romance is the very incarnation of youth, with its horizons of rainbows and its sparkling, unquenchable, enthusiastic extravagances."—Boston Transcript "This wild young American who recently conquered the unruly waters of the classic Hellespont writes as impetuously and as dramatically as he swims."—Memphis Commercial Appeal "Richard Halliburton's tale of travel and adventure is one of the most fascinating books of its kind ever written. It is a glorious story of the irresponsibility of youth, of dauntless spirit of the age, told with a captivating charm and a swing and a dash that take one's breath away."—Detroit News

Reading the Bible with Rabbi Jesus

Chronicling nearly two thousand years of history, this panoramic saga follows the destiny of Abraham, a Jewish scribe, and his descendants from the burning of Jerusalem under the Romans to the 1943 battle of the Warsaw ghetto.

Homilies on Numbers

In a time of social distancing and isolation, a meditation on the beauty of solitude from renowned Buddhist writer Stephen Batchelor "Whatever a soul is, the author goes a long way toward soothing it. A very welcome instance of philosophy that can help readers live a good life."—Kirkus Reviews "Elegant and formally ingenious."—Geoff Wisner, Wall Street Journal When world renowned Buddhist writer Stephen Batchelor turned sixty, he took a sabbatical from his teaching and turned his attention to solitude, a practice integral to the meditative traditions he has long studied and taught. He aimed to venture more deeply into solitude, discovering its full extent and depth. This beautiful literary collage documents his multifaceted explorations. Spending time in remote places, appreciating and making art, practicing meditation and participating in retreats, drinking peyote and ayahuasca, and training himself to keep an open, questioning mind have all contributed to Batchelor's ability to be simultaneously alone and at ease. Mixed in with his personal narrative are inspiring stories from solitude's devoted practitioners, from the Buddha to Montaigne, from Vermeer to Agnes Martin. In a hyperconnected world that is at the same time plagued by social isolation, this book shows how to enjoy the inescapable solitude that is at the heart of human life.

Some Mistakes of Moses

It's easy to get lost in the busyness of every day. But taking a walk and discovering God's presence along the way will bring you back to where you need to be. The Walking Bible Study, a series of short readings and meditations, is your field guide to learning more about Scripture as you travel through nature and life. Wherever you walk, take it along with you and follow the paths of God. "Walking changes us; it can transport our spirits from being weighed down by life into the joy of God's presence." - Becca Stevens Each study consists of four sessions. Sessions include prayer, Scripture, Becca's thoughts and stories, questions to think about or discuss, and activities. The Path of Love The world was created when God took the two chaotic elements of the universe that do not allow life---the deep and the darkness---and encompassed them into a loving creation that is called Good. The story of Love is rooted in creation and is so powerful that in its culminating act, it rolls the stone away at the break of Easter morning.

The Royal Road to Romance

The heartfelt memoir of Ravi Zacharias. Follow along with his journey to discover that God is the author of our destinies, no matter how dark the shadows that hide the light. Ravi Zacharias lived an extraordinary life. In this touching memoir, Zacharias shares an intimate look into his formative years, inviting you to follow him all the way back to his roots and journey with him through his life: to see and smell the neighborhood in India where he grew up, to feel a mother's love and the consternation of a harsh father, and the lure of friends and sports. He also tells about his long search for truth in wrestling with Eastern thought and the newer ideas of Christianity, the cry for help in a dark moment when he tried to take his own life--and the dramatic turning point that led to a life lived for Christ. Zacharias

recalls his early days as a new convert, what it was like to find a new life in the Western world, and the eventual birth and growth of a worldwide ministry. He has traveled from the East to the West, and then back again to answer skeptics' penetrating questions about the meaning of life and the existence of a God who is there for his children. This is a story about an amazing man. Yet it is also everyone's story about belief--how it begins, how it grows, and the struggles associated with it.

The Book of Abraham

"Rise up, O men of God! Have done with lesser things. Give heart and mind and soul and strength to serve the King of Kings." With our culture and families seemingly in a meltdown, do you often feel helpless, wondering if there is anything a man should or could be doing? This book will prove encouraging, insightful, and instructive for you! It's deep enough but short, simple, and to-the-point, the way men like it. The gist of it is this: be a man, be a friend, be a leader, understand your times and what you should be doing. We'll look to the Bible and David's Mighty Men for insight, instruction, and motivation. Let your journey to insight and action begin!

The Art of Solitude

The study of Israel's journey from Egypt to the Promised Land is in reality a picture of the spiritual progression of a believer from new born babes in Christ to becoming mature fathers and mothers in the faith. Dr. Bailey will take you on a journey, where you will be given keys to attaining ever-greater heights in your relationship with Christ, until you come unto spiritual Mount Zion, and can say with the Apostle Paul, "I press toward the mark for the prize of the high calling of God in Christ Jesus."

The Book of Joshua

How do I get more out of my Bible reading? What was going on during the gap between the Old and New Testaments? How do all the books of the Bible fit together as a whole? This book answers these questions and puts clear, readable Bible study aids at your fingertips. It contains thirteen essays from some of today's best evangelical scholars including C. John Collins, Thomas Schreiner, Gordon Wenham, and Darrell Bock, and will help you to: See the big-picture storyline of the Bible Understand the theology of the Old and New Testaments Read the different sections of Scripture effectively Know what happened between the testaments In addition to essays on each genre of the Bible, the book addresses the general Greco-Roman world and specific Jewish groups at the time of the New Testament. To aid in putting Bible passages in context, it also includes timelines of the Old and New Testaments and intertestamental events. Useful as both a general overview of the Bible and as a tool for more specific reference and training, this book will help you grow in your understanding of Scripture and your ability to apply the Bible to life.

The Path of Love

The Wonder Book of Bible Stories is a collection of Bible stories from both Old and New Testament written for the youth. This book is not meant to replace the Bible but functions as a appetizer. This edition is large font(Arial 16) for the visually impaired.

The Route of the Exodus

The book, "" Antiquities of the Jews; Book - I ""\

Walking from East to West

Wayuunaiki

A Friend of the King

The first five books of the Old Testament were written centuries before the birth of Jesus. Yet they intricately involve him. Here Vern S. Poythress explores Genesis through Deuteronomy, demonstrating how the sacrifices and traditions of the Hebrews graphically foreshadow Christ's relationship with his people. Dr. Poythress also explains how the penalties of the law prefigure the destruction of sin and guilt through Jesus. -- Publisher's statement

The Journey of Israel

Now available in the timeless King James Version, the Archaeological Study Bible features a full-color interior, over 500 full-color photographs, in-text maps, detailed charts, study notes, and cultural facts that bring the ancient biblical world to life.

Latin Literature of the Fourth Century (Routledge Revivals)

This volume, offering an insight into the literary world of Rome in the fourth century AD, reflects an increased interest in the writers of the 150 years before the collapse of the Western Empire, who have long been over-shadowed by the pre-eminence accorded since the eighteenth century to the Golden and Silver ages. Among the writers examined are Ausonius, the poet, Imperial official and tutor to Gratian; Claudian, the last major 'classical' poet; Prudentius, and Paulinus of Nola, two of the founders of Christian Latin poetry; Symmachus, the letter writer and supporter of die-hard paganism; and St. Augustine, whose influence on Christian thought and the Middle Ages is incalculable. These essays consider how such writers responded to a world where vitality was ebbing from the old forms of political life, religion and literature, giving way to new institutions, modes of life and horizons of reflection.

Latin Literature of the Fourth Century

Professor Dihle sees the Greek and Latin literature between the 1st century B.C. and the 6th century A.D. as an organic progression. He builds on Schlegel's observation that art, customs and political life in classical antiquity are inextricably entwined and therefore should not be examined separately. Dihle does not simply consider narrowly defined 'literature', but all works of cultural socio-historical

significance, including Jewish and Christian literature, philosophy and science. Despite this, major authors like Seneca, Tacitus and Plotinus are considered individually. This work is an authoritative yet personal presentation of seven hundred years of literature.

A History of Later Latin Literature from the Middle of the Fourth to the End of the Seventeenth Century

This work provides an assessment of the ancient and modern evidence on Latin prose rhythm. It covers the theories of Greek and Roman rhetoricians and literary critics, and includes discussions of the methodologies crafted by German, French, and Italian scholars since 1881 to analyze prose rhythm.

Greek and Latin Literature of the Roman Empire

Challenging ideas about the declining social role and impact of literature in Late Antiquity, *Literature and Society in the Fourth Century AD* demonstrates how Greek and Latin literature of the fourth century AD continued to play an important role in public performance and debate, the creation of reality, and self-presentation.

Prose Rhythm in Latin Literature of the Roman Empire

This is volume 12 of the Catholic Library of Religious Knowledge.

Literature and Society in the Fourth Century AD

"Early Christian Greek and Latin literature examines early Christian writings with particular attention paid to their literary characteristics and their effect on the development of Western culture."--Cover.

The Cambridge History of Classical Literature

This history of Latin literature offers a comprehensive survey of the 1000 year period from the origins of Latin as a written language to the early Middle Ages. It offers a wide-ranging panorama of all major Latin authors.

Latin Literature

For a host of reasons, traditionalist scholarship has failed to give a full and positive account of the formal, aesthetic and religious transformations of ancient poetics in Late Antiquity. This collection of new essays attempts to capture the vibrancy of the living ancient tradition reinventing itself in a new context in the hands of a series of great Latin writers of the fourth and fifth centuries AD.

A History of Later Latin Literature from the Middle of the Fourth to the End of the Seventeenth Century

Latin Fiction provides a chronological study of the Roman novel from the Classical period to the Middle Ages, exploring the development of the novel and the continuity of Latin culture. Essays by eminent and international contributors discuss texts including: * Petronius, *Satyricon* and *Cena Trimalchionis* * Apuleius, *Metamorphoses* (*The Golden Ass*) and *The Tale of Cupid and Psyche* * The History of Apollonius of Tyre * The Trojan tales of Dares Phrygius and Dictys Cretensis * The Latin Alexander * Hagiographic fiction * Medieval interpretations of Cupid and Psyche, Apollonius of Tyre and the Alexander Romance. For any student or scholar of Latin fiction, or literary history, this will definitely be a book to add to your reading list.

The Christian Latin Literature of the First Six Centuries

It explores how the texts from classical Greece and Rome have survived and gives an account of the reasons why it was thought worthwhile to preserve them for future generations. In this 4th edition adjustments have been made to the text and the notes have been revised in order to take account of advances in scholarship over the last twenty years.

Early Christian Greek and Latin Literature

A body of Greek literature collected in an attempt to draw attention to often underrated literary excellence.

Latin Literature

Beyond the Fifth Century brings together 13 scholars from various disciplines (Classics, Ancient History, Mediaeval Studies) to explore interactions with Greek tragedy from the 4th century BC up to the Middle Ages. The volume breaks new ground in several ways: in its chronological scope, the various modes of reception considered, the pervasive interest in interactions between tragedy and society-at-large, and the fact that some studies are of a comparative nature.

A History of Later Latin Literature

Originally published in 1901, this book examines life in the Roman Empire in the late fourth century through 'the writings of a series of typical men' from the period, focusing on literature rather than scientific writings. Glover analyses the works of Ammianus Marcellinus, Julian, Quintus of Smyrna, Ausonius, Symmachus, Macrobius, Claudian, Prudentius, Sulpicius Severus, Palladas, Synesius and the Confessions of St Augustine. A review of the work of women pilgrims and some Greek and early Christian novels is also included. This book will be of value to anyone with an interest in this often-overlooked period of literary history or in the history of the Late Roman Empire more generally.

Studies in Latin Literature and Roman History

The most up-to-date history of Greek literature from its Homeric origins to the age of Augustus. This magisterial survey by one of the leading European authorities on classical literature is establishing itself as the standard account.

The Poetics of Late Latin Literature

A Companion to Latin Literature gives an authoritative account of Latin literature from its beginnings in the third century BC through to the end of the second century AD. Provides expert overview of the main periods of Latin literary history, major genres, and key themes. Covers all the major Latin works of prose and poetry, from Ennius to Augustine, including Lucretius, Cicero, Catullus, Livy, Vergil, Seneca, and Apuleius. Includes invaluable reference material – dictionary entries on authors, chronological chart of political and literary history, and an annotated bibliography. Serves as both a discursive literary history and a general reference book.

Latin Fiction

In the second edition of this classic work a section of notes was included, and a new chapter was added which dealt with some aspects of scholarship since the Renaissance. For this third edition the authors have responded to the urgent need to take account of the very large number of discoveries in this rapidly advancing field of knowledge by substantially revising or enlarging certain sections.

A History of Later Latin Literature

This book is a historical novel by the American classical scholar, Frank Frost Abbot. It deals with the lives of the Roman common people, their language and literature, their occupations and amusements, and with their social, political and economic conditions. We are interested in the common people of Rome because they made the Roman Empire what it was. They carried the Roman standards to the Euphrates and the Atlantic: they lived abroad as traders, farmer and soldiers to Romanize the provinces. Or they stayed at home, working in different professions to supply the needs of the capital.

Scribes and Scholars

Literary Texts and the Roman Historian looks at literary texts from the Roman Empire which depict actual events. It examines the ways in which these texts were created, disseminated and read. Beside covering the major Roman historical authors such as Livy and Tacitus, he also considers the contributions of authors in other genres like: * Cicero * Lucian * Aulus Gellius. Literary Texts and the Roman Historian provides an accessible and concise introduction to the complexities of Roman historiography.

Later Greek Literature

Decimus Magnus Ausonius of Bordeaux, whose life spanned the greater part of the fourth century AD, was one of the most significant literary and political figures of his age. After an academic career in his native Gaul he was appointed tutor to the future emperor Gratian, a position through which he achieved

great power for himself and his family. He was made consul in 379 and later lived to enjoy a ripe old age as the grand old man of Latin letters. In this modern edition of Ausonius' short poems, collected together under the general heading of epigrams, N.M. Kay gives a line-by-line commentary dealing with points of literary, linguistic, historical and other interest. The epigrams throw light on many aspects of Ausonius' life, career and attitudes as well as on fourth-century Latin literature, and will thus be of interest to students of the fourth-century western world, of Latin literature, and of the epigram form in particular. This edition includes both Latin text and translation.

A History of Later Latin Literature, from the Middle of the Fourth to the Fourth to the End of the Seventeenth Century

From the archaic period onwards, ancient literary authors working within a range of genres discussed and quoted a variety of inscriptions. This volume offers a wide-ranging set of perspectives on the diversity of epigraphic material present in ancient literary texts, and the variety of responses, both ancient and modern, which they can provoke.

Beyond the Fifth Century

This collection of essays was published in 1989 in celebration of C. O. Brink, formerly Kennedy Professor of Latin at Cambridge University. Ten leading scholars of contribute papers on Latin literature, Roman history and the manuscript tradition.

Life and Letters in the Fourth Century

Discover the essential works of Latin literary masters with this A-to-Z reference guide spanning from ancient Rome to the Renaissance. In *Dictionary of Latin Literature*, classics scholar and translator James H. Martinband provides students and curious readers with an authoritative, accessible, and wide-ranging reference book. It includes detailed entries on significant works and authors as well as important terms and concepts. Covering the history of Latin literature from the early Roman Republic to the Middle Ages and the Renaissance, this single volume offers a treasure trove of fascinating information.

A History of Greek Literature

In *The Space That Remains*, Aaron Pelttari offers the first systematic study of the major fourth-century poets since Michael Robert's foundational *The Jeweled Style*. It is the first book to give equal attention to both Christian and Pagan poetry and the first to take seriously the issue of readership. As Pelttari shows, the period marked a turn towards forms of writing that privilege the reader's active involvement in shaping the meaning of the text. In the poetry of Ausonius, Claudian, and Prudentius we can see the increasing importance of distinctions between old and new, ancient and modern, forgotten and remembered. The strange traditionalism and verbalism of the day often concealed a desire for immediacy and presence. We can see these changes most clearly in the expectations placed upon readers. The space that remains is the space that the reader comes to inhabit, as would increasingly become the case in the literature of the Latin Middle Ages.

A Companion to Latin Literature

"Here is a superb new translation of Books 6 to 10 of Livy's monumental history of Rome, covering the period when Rome, in a series of ever greater wars, imposed mastery over virtually the entire Italian peninsula. Livy paints vivid portraits of all the notable figures, such as young Manlius Torquatus, victor in a David-versus-Goliath duel with a Gallic chieftain, and Appius Claudius who built Rome's first major highway, the Appian Way. Livy's blend of factual narrative and imaginative recreation brings to life a key moment in the rise of Rome, and the one complete account we have, as the city passes from the mists of legend into the light of history. J. C. Yardley's translation gives a vivid sense of the energy, variety, and literary skill of Livy's great work. Dexter Hoyos's Introduction sets Livy in the context of Roman historiography and deftly explains why this period was so critical an era for the rise of Rome. The most up-to-date edition, drawing on the latest scholarship, this major work of Roman literature and history includes comprehensive notes that clarify problems of historical content, topography, and chronology, a detailed glossary of Roman technical terms, an appendix on the Roman legion of the time, and two maps."--Publisher's website.
