Through close readings of five Italian collections of novellas written over a 500-year period, Martin Marafioti explores the literary tradition of storytelling, and particularly its efficacy as a healing tool following traumatic visitations from the plague. In this study, Giovanni Boccaccio's Decameron provides the framework for later authors. Although Boccaccio was not the first writer to deal with pestilence or epidemics in a literary work, he was the first to unite the topos of a life-threatening context with a public health disaster like the Black Death, and certainly the first author to propose storytelling as a means of prophylaxis in times of plague. Marafioti goes on to analyze Franco Sacchetti's Trecento Novelle, Giovanni Sercambi's Novelliere, Celio Malespini's Duecento Novelle, and Francesco Argelati's Decamerone, following in its *longue-durée* the ups and down, structurally and thematically, of the realistic novella as a genre.

A History of Architectural Conservation expands knowledge about the conservation of ancient monuments, works of art and historic buildings. It includes the origins of the interest in conservation within the European context, and the development of the concepts from Antiquity and the Renaissance to the present day. Jokilehto illustrates how this development has influenced international collaboration in the protection and conservation of cultural heritage, and how it has formed the principal concepts and approach to conservation and restoration in today's multi-cultural society. This book is based on archival research of original documents and the study of key restoration examples in countries that have influenced the international conservation movement. Accessible and of great interest to students and the general public it includes conservation trends in Europe, the USA, India, Iran and Japan.

Gower's achievement in writing substantially in all three primary languages of his time-Anglo-French, English, and Latin-was a source of pride to others and, undoubtedly, to him too: into the final years of his life he continued to produce poetry in all three languages. Certainly there is reason to know these poems for the light they shed on the intense partisanship and events of great moment surrounding the usurpation 1399-1400. It was during these parlous times that Gower composed most of the poems included here. All are important documents historically; but they are also poems admirable equally for their skill and craft. In Praise of Peace is in the same position as the shorter Latin works edited and translated in this volume: ignored, neglected, reduced, or relegated to the dusty realm of footnotes. But there is far more at work in this complex poem, as Gower's verse deftly weaves in and out of the historical, political, social, and religious contexts and controversies of its day. In tone, In Praise of Peace is, if not triumphant, determinedly optimistic. In this light, we might view the poem as a coda to Gower's long career, restating and reinvigorating his famously moral principles about just rule of self and society.
