If you want something you never had, You must be willing to do Something you've never done.
Behind every successful man there's a lot of unsuccessful years.

Try not to become a man of succes, but rather try to become a man of value.

The only place where success comes before work is in the dictionary.

SUCCESS is on the same road as FAILURE. Success is just a little further down the road.

If you don't build your dream someone will hire you to help build theirs.

Parting Words. a Discourse...

Excerpt from Parting Words: A Discourse Delivered in the North Church, Hartford, July 3, 1859 He affirms it even of a bad man, though not that it will be, of course, his sentiment. He is such a man as may well enough be much afraid to die, and he may naturally hope that he will somehow be restored to his country and throne. It is only the prophet's own sentiment, knowing that he will not. Far more clear were the truth of it, if he were a good man, consciously ready to die. He could well enough go home to God; but to be separated from the acquaintances, and scenes, and works, in which he has lived, without going home, is a very different matter. He loses the mortal state, without gaining the immortal; goes away alive into exile from his own life itself, the associations it has constructed, the works it has done, the sympathies it has attracted, the very seeds it has planted and fondly hopes to see in their growth. In tracing briefly the truth of this sentiment, far be it from us to speak lightly of death. To close one's eyes on all that is earthly, to sunder all the ties of mortal love, to wind up the grand affair of trial that we call life, and enter on the fixed result of it, makes the point of death a center where so many mountain like thoughts crowd heavily in, that we may not think of it as being otherwise than a most trying ordeal to pass. We are only to see that there may be a separation more trying even than this. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Parting Words: a discourse [on 1 Cor. iii. 7.] ... on closing a ministry of twenty-five years

This collection captures the voice and the vision of a treasured preacher, pastor, and bishop. And so for these past thirteen-plus years, if there has been one watchword on my lips it has been, "Please be patient with me, 'cause God isn't through with me yet." And God still is not finished with me. Nor is God through with any of us yet. So I pray that you will continue to go from strength to strength, in God's joyful service as you are reshaped, remolded, reequipped and re-empowered in the days and weeks and months and years ahead.

Practice Interpretation takes the everyday social conditions of people as they are described in the Bible and looks at emerging issues that confront today's interpreters in daily life. This volume in the Practice Interpretation series deals with the Farewell Discourses of Jesus in the Gospel of John. The key element and dynamic in the Johannine practice reflections in this volume is that John's Gospel sometimes explicitly, often implicitly, sets forth a continuing Jesus-style practice by Jesus' followers, in the gospel time, in the longer term behaviour of early Christian communities, and in contemporary Christian disciples and communities today. Each contributor indicates this at work in very different contexts and happenings. The contributors are: Leslie Francis, David Blatherwick, Sarah Pullin, David McLoughlin, Ian Wallis, Nirmal Fernando, John Vincent and Alan Saxby.

Von Speyr continues her wonderful reflections on the Gospel of John, concentrating here on The Farewell Discourses of Jesus, which reveal both the heart of John's Gospel and the Heart of Our Lord. Adrienne von Speyr was a contemporary Swiss convert, mystic, wife, medical doctor and author of some 70 books on spirituality and theology. She entered the Church under the direction of one of the greatest theologians and spiritual writers of the 20th century, Fr. Hans Urs von Balthasar, who became her spiritual director and confessor for the last 30 years of her life. Her writings, recognized as a major contribution to the great mystical writings of the Church, are being translated and published by Ignatius Press. Among her most important works are Book of All Saints, Confession, The World of Prayer, Handmaid of the Lord, and The Passion from Within.

Parting Words

Draws upon the best of recent biblical, historical, and theological sources to explore how Christ is present in the celebration of the Eucharist in the assembly, presiding minister, biblical word, and ritual sacrament

Illustrations, Expository and Practical, of the Farewell Discourse of Jesus

This book seeks to discuss John's references to Jesus' emotions in the light of the current debate regarding Johannine Christology. The Fourth Gospel refers to Jesus' love, joy, and zeal. At times it also portrays him as troubled, deeply moved, and in tears. Do these expressions of emotion underscore Jesus' humanity or his divinity? The study is set against the background of the emotions of God as found in earlier Jewish literature, as well as against that of the emotions of Jesus in the Synoptics and the remainder of the New Testament. Voorwinde argues that the covenant provides the most consistent perspective for viewing both the emotions of Yahweh in the Old Testament and the emotions of Jesus in the Gospels. The Johannine Jesus is found to fulfil the hitherto incompatible roles of covenant Lord and covenant sacrifice. Rather than being expressive only of his humanity Jesus' emotions are also found to underscore his divinity. This is due to the unique genius of this Gospel with its paradoxical presentation of Jesus whose divinity is manifested most eloquently in his weakness, suffering, and death. Only his tears at the grave of Lazarus can be explained as a human emotion pure and simple. All the other emotions, because of their strong connections to the cross, highlight both Jesus' humanity and divinity, albeit for various reasons and in highly nuanced ways. JSNTS 284>

Upbuilding or edification, is the central theme of Søren Kierkegaard's authorship: only the truth that builds up is truth for you (E02:354). Somewhere along the way, Søren Kierkegaard developed a plan to publish some upbuilding discourses to 'accompany his pseudonymous works. These Eighteen Upbuilding Discourses are the focus of the edifying commentaries in this volume.

"While education might be the door to success, exam is the key to that door." The Exam Passport is perhaps one of the most important books written in the twenty-first century in academic history. Globally, the Exam Passport is a study guide written like never before. Beginning with a revelation of what exam is and its impact, the Exam Passport cleverly sets out the significant importance of exam taking in our current educational system around the world. The Exam Passport is a study guide that is laid out in a way that makes study and revision more urgent, more entertaining, more easy to follow, more thoroughly engaging, and a little more philosophical and novel-like. It is embedded with a real-life scenario and outlines common errors during an exam that all students can associate with. For example, it reveals scenarios that underpin an explainable cause of bad grades and proposes better study techniques that are detailed and concise to overcome bad grades. Among other things, it also explains the relevance of gathering only relevant information for revision, taking effective note. It touches on the role of our memory before and during the exam day. It also reveals that despite being intelligent, motivated, and hardworking, most students still struggle to remember much after hours of studying for an exam. One plausible answer is, the information we might want to retain has not made it into the long-term memory bank. It also consists of topics such as the following: —Accountability —Learning style —Memory —Significance of forgetting —Preparation and planning —Achieving top grade —And many other topics This study guide will help each student handle difficult exam situations and prevent academic failure.

Skills in learning and studying are vital to ensure success in higher education study, whether at undergraduate or postgraduate level, in university, college or in the workplace. Skills are needed in reflection, analysis, communication and recording information to produce good work, to engage effectively in a group, to carry out a project or perform well in exams; personal skills are needed to handle time and pressure and to relate to others on a course or in the workplace. This new guide builds on the hugely successful materials the authors have developed over the last 15 years. Along with highly practical guidance on traditional learning skills, The Guide to Learning and Study Skills provides direction for students on learning in a blended environment; the increased use of personal and professional development planning, continuing professional development and work-based learning.

The Guide to Learning and Study Skills

This is a practically-oriented text that utilizes current issues as a way to engage students and illustrate the relevance and importance of assessment. This text focuses on a teacher's needs and on assessment solely in the classroom environment. Since many assessment texts today are written by experts in statistics and cover the topic of assessment in many settings with complicated terminology, the practical approach of ASSESSMENT IN THE CLASSROOM appeals to instructors who find it difficult to get their students interested in the subjects of testing and measurement. The authors detail traditional testing methods as well as newer forms of alternative assessment, which evaluates students on their abilities to use their knowledge in realistic situations. Areas covered include: the history of measurement in education, basic concepts, how to assess, what to assess, assessment procedures, and external testing programs, as well as how to set up and measure the latest portfolio assessment method. Many sample forms and examples of various types of assessment provided."

The Exam Skills Handbook

The IELTS General Training Reading Practice Tests series has been developed to help students to have more tests to practise with. It has been recommended by a number of IELTS academics that students engage in practicing for the IELTS exam daily, at least six months in advance, to give them a better chance at getting the score they need. Of course, that means you're going to need LOTS of IELTS practice tests to help you get prepared! Through practicing these questions, and other questions in the series, you'll be able to become more familiar with the types of questions asked in the exam, and be better able to answer confidently.
