The Arab of the Desert is truly a wealth of information, informed by personal insight and anecdotes.

The Arab of the Desert

This book provides information about the customs and people of Kuwait and Sau'di Arabia. It reveals all aspects of the lives of the nomadic desert Arabs, from social systems to marriage and children, from faith to food, sandstorms, warfare and hunting.

The Arab of the Desert

The author approaches his subject from the perspective of a historian of Arab history and Arabic literature. Originally published in Arabic in 1988, the book is based on a lifetime of experiences with the Syrian tribes of the Arab east and decades of research in Arabic literary sources, travelers' and explorers' accounts, modern studies, and archival resources. Many sources are here utilized for the first time, and of particular note are Jabbur's extensive use of ancient Arabic poetry to convey the spirit of his subject and his many observations on parallels with Old Testament accounts. The Bedouins and the Desert has been superbly translated from the Arabic by Lawrence I. Conrad, a historian of the early-Islamic period and translator of several other classics in Arabic scholarly literature. It includes a number of corrections and revisions made by the author after the publication of the Arabic text, and is profusely illustrated with photographs taken mostly by the author and the famous Beirut photographer Manoug Alemian during visits to the Syrian desert.

The Arab of the Desert

A unique and extraordinary collection, Desert Songs of the Night presents some of the finest poetry and prose by Arab writers, from the Arab East to Andalusia, over the last 1,500 years. From the mystical

imagery of the Qur'an and the colourful stories of *The Thousand and One Nights*, to the powerful verses of longing of Mahmoud Darwish and Nazik al-Mala'ika, this captivating collection includes translated excerpts of works by the major authors of the period, as well as by lesser known writers of equal significance. *Desert Songs of the Night* showcases the vibrant and distinctive literary heritage of the Arabs. Beautifully produced, this is the ideal book for lovers of world literature and for those who seek an acquaintance with gems of Arab thought and expression. 'Desert Songs of the Night is a wonderful introduction to fifteen centuries of a literature still largely unknown in the West, without which much of our civilizations would not have developed as they have, from the rediscovery of Aristotle by Arab commentators to the lyric poetry of Europe, from the magical world of the Arabian Nights to the modern revolutionary poets of Palestine. Absolutely essential reading for our troubled times.' Alberto Manguel 'At a time when the world is obsessing about violence and bloodletting in the Arab world, this remarkable anthology, which spans 1,500 years of Arab literary genius, is a stark reminder of the untold story we keep missing about the region.' Hanan al-Shaykh

The Arab of the Desert

Present situation in the Near East, with an interspersed of historical sketches to illuminate and clarify elements of the current crisis.

The Arab of the Desert

This book is a unique collaboration as practice meets theory. Frontline correspondents write exclusively on their experiences dodging the bullets and joining the anti-Gaddafi fighters as they stormed into Tripoli, Libya's capital. In addition, there's analysis by significant journo big name thinkers plus a rich mixture of 'hackademics' and their take from Britain and further afield.

The Arab of the Desert. A Glimpse Into Badawin Life in Kuwait and Sau'di Arabia. [With Plates, Including Portraits and Maps].

This collection of Arabic literature is "a joy to read. . . . a journey through eleven centuries of a lost world, with a surprise on almost every page" (Financial Times). Spanning the fifth to the sixteenth centuries, from Afghanistan to Spain, *Night & Horses & The Desert* includes translated extracts from all the major classics in an invaluable introduction to the subject of classical Arabic literature. Robert Irwin has selected a wide range of poetry and prose in translation, from the most important and typical texts to the very obscure. Alongside the extracts, Irwin's copious commentary and notes provide an explanatory history of the subject. What were the various genres and to what extent were they constrained by rules? What were the canons of traditional Arabic literary criticism? How were Arabic prose and poetry recited and written down? Irwin explores the literary environments of the desert, salon, mosque, and bookshop and provides brief biographies of the caliphs, princesses, warriors, scribes, dandies, and mystics who created such a rich and diverse literary culture. *Night & Horses & The Desert* gives western readers a unique taste of the sheer vitality and depth of the medieval Arab past. "Superb . . . a revelation." —The Washington Post "[A] treasure-house of a book. . . . Unequaled for scholarship and entertainment." —The Independent

The Arab of the Desert

'Beautifully written and deeply researched' The Observer Upon victory in 1945, Britain still dominated the Middle East. But her motives for wanting to dominate this crossroads between Europe, Asia and Africa were changing. Where 'imperial security' – control of the route to India – had once been paramount, now oil was an increasingly important factor. So, too, was prestige. Ironically, the very end of empire made control of the Middle East precious in itself: on it hung Britain's claim to be a great power. Unable to withstand Arab and Jewish nationalism, within a generation the British were gone. But that is not the full story. What ultimately sped Britain on her way was the uncompromising attitude of the United States, which was determined to displace the British in the Middle East. Using newly declassified records and long-forgotten memoirs, including the diaries of a key British spy, James Barr tears up the conventional interpretation of this era in the Middle East, vividly portraying the tensions between London and Washington, and shedding an uncompromising light on the murkier activities of a generation of American and British diehards in the region, from the battle of El Alamein in 1942 to Britain's abandonment of Aden in 1967. Reminding us that the Middle East has always served as the arena for great power conflict, this is the tale of an internecine struggle in which Britain would discover that her most formidable rival was the ally she had assumed would be her closest friend. 'Bustles

impressively with detail and anecdote' Sunday Times 'Consistently fascinating' The Spectator 'Barr draws on a rich and varied trove of sources to knit a sequence of dramatic episodes into an elegant whole. Great events march through these pages' Wall Street Journal

Among the Arabs: Adventures in the Desert, and Sketches of Life and Character in Tent and Town, Etc. [With Plates.]

"Drawing on a wide range of Arabic and Western sources and his own experiences, and providing in-depth comparisons of six key Arab states--Algeria, Egypt, Iraq, Jordan, Kuwait, and Saudi Arabia--Faour challenges the notion that Desert Storm solved more problems than it created. The human costs, he demonstrates have been appalling. The economic costs have likewise been enormous. And the already precarious state of inter-Arab relations has atomized, with old disputes reviving and new antipathies thriving. What the Gulf War did not change was the potential for political instability. Although authoritarian regimes remained intact, the war both spurred popular demands for democracy and encouraged militant Islamic movements"--back cover.

The Bedouins and the Desert

An authoritative account of the 1916 revolt in Arabia and T. E. Lawrence's lesser-known role in key events draws on previously unavailable archival material to offer insight into the uprising's complexities and contributions to modern Middle East conflicts. Reprint.

Desert Songs of the Night

_____ 'Packs as much punch as one of Lawrence's train-blowing explosives' - Sunday Times 'Barr's cogent, vividly written book puts Lawrence centre stage but does not lose sight of the uprising's larger historical context' - Financial Times '[Barr] introduces fresh materials to give new context to Lawrence and the present difficulties in Iraq' - The Times _____ The full story behind the desert revolt made famous by T.E. Lawrence in *Seven Pillars of Wisdom* and the film *Lawrence of Arabia* It is 1916. The Allies are struggling in the Great War. The Ottoman Sultan calls for a pan-Islamic jihad against all non-Muslims except Germans. But Sharif Husein, ruler of the holy city of Mecca, is smarting under Turkish rule, fomenting Arab nationalism and lobbying the British to support him. It seems to the British a good idea secretly to encourage an Arab revolt. *Setting the Desert on Fire* is a masterly account of this key moment made legendary by T. E. Lawrence, but here filled with a wide range of characters including the British Prime Minister Lloyd George, whose desire to capture 'Jerusalem by Christmas' had consequences that reverberate to this day.

Heritage of the Desert

Bedouins, who refer to themselves simply as Arabs (originally, "Arab" was synonymous with "Bedouin"), are nomads who live in the desert, mainly on the Arabian Peninsula, raising sheep, camels and goats. Unencumbered by excessive possessions, and without most amenities, including electricity and running water, they pursue their lives in peace, practicing an ethic of mutual assistance, devotion to family, respect for the elderly and self-discipline. What they may lack in material goods is compensated by their fulfilling and meaningful way of life. The cultures of the Arab world and the desert environment, depicted so vividly in T. E. Lawrence's accounts of his experiences there, have long captured Megumi Yoshitake's imagination. But it is the ancient culture of the Bedouins that attracted the photographer's deepest interest. Over the past seventeen years that interest has become a passion, as she has devoted much of her time to photographing Bedouin families in Syria: this volume tells their stories through pictures.

Heritage of the Desert

This is the first comprehensive survey of all the deserts of Arabia, based largely on the author's 50 years of experience there. The text deals with every kind of desert in the region, from vast sand seas to clay pans and stony plains to volcanic flows. Along with dune types unique to the region the author outlines climatic changes, current ecology and human influence on desertification.

Mirage in the Desert? Reporting the 'Arab Spring'

Night & Horses & The Desert

A new study of Captain T. E. Lawrence "of Arabia," his ideas on warfare, and the context of the military campaigns, the peace settlements, and the legacies that followed. One hundred years ago, Captain Lawrence and an unlikely band of Arab irregulars captured the strategic port of Aqaba after an epic journey through waterless tracts of desert. Their attacks on railways during the Great War are well known and have become the stuff of legend, but while Lawrence himself has been the subject of fascinating biographies, as well as an award-winning film, the context of his war in the desert, and his ideas on war itself, are less well-known. This new title offers a high-paced evaluation of T. E. Lawrence "of Arabia" and the British military operations in the Near East, revising and adding to conventional narratives in order to tell the full story of this influential figure, as well as the Ottoman-Turkish perspective, and the Arabs' position, within the context of the war. It is also a study of warfare and the manner in which Lawrence, and others, made their assessments of what was changing, what was distinctive, and what was unique to the desert environment. This book sets Lawrence in context, examines the peace settlement he participated in, and describes how Lawrence's legacy has informed and inspired those partnering and mentoring local forces to the present day.

Lords of the Desert

The late British explorer and travel writer recounts his travels in the "Empty Quarter" of Arabia between 1945 and 1950, and describes the vanishing way of life of the Bedouins. Reissue. 10,000 first printing.

The Arab World After Desert Storm

The extraordinary memoir of global oil's former central banker Ali Al-Naimi is the former Saudi oil minister - and OPEC kingpin - a position he held for the two decades between August 1995 and May 2016. In this time, Al-Naimi's briefest utterances moved markets. But it wasn't always that way. Al-Naimi was born into abject poverty as a nomadic Bedouin in the 1930s, just as US companies were discovering vast quantities of oil under the baking Arabian deserts. From his first job as a shepherd boy, aged four, to his appointment to one of the most powerful political and economic jobs in the world, *Out of the Desert* charts Al-Naimi's extraordinary rise to power. Described by Alan Greenspan as 'the most powerful man you've never heard of', Al-Naimi's incredible journey proves that anyone can make it - even a poor Bedouin shepherd boy. This is his exclusive inside story of power, politics and oil. His Excellency Ali Ibrahim Al-Naimi is the former Minister of Petroleum and Mineral Resources for the Kingdom of Saudi Arabia. One of the most powerful economic and political jobs in the world, he held this post from August 1995 to May 2016. Prior to that he held a wide range of leadership positions in the Kingdom's national oil company, Saudi Aramco. He was the first Saudi national to be named President of the company in 1984 and became the first Saudi CEO in 1988. Al-Naimi joined the company, then called Aramco, as an office boy in 1947. A Bedouin, he was born in the deserts of eastern Arabia in 1935.

Setting the Desert on Fire: T. E. Lawrence and Britain's Secret War in Arabia, 1916-1918

Archaeologist, spy, Arabist, linguist, author, poet, photographer, mountaineer and nation builder, Gertrude Bell was born in 1868 into a world of privilege and plenty, but she turned her back on all that for her passion for the Arab peoples, becoming the architect of the independent kingdom of Iraq and seeing its first king Faisal safely onto the throne in 1921. *Queen of the Desert* is her story, vividly told and impeccably researched, drawing on Gertrude's own writings, both published and unpublished. Previously published as *Daughter of the Desert*, this is a compelling portrait of a woman who transcended the restrictions of her class and age and in so doing created a remarkable and enduring legacy. 'What a great Oscar-laden biopic this will make ...the combination of epic scenes and personal drama makes Georgina Howell's saga a winner' *Daily Express* 'Howell sketches in the gradations of colour and emotion that have been lacking in hitherto monochrome accounts of Bell's life ... Exemplary' *Sunday Times* 'Riveting ... few women have had a life more worth reading about.' *Diana Athill, Literary Review*

Setting the Desert on Fire

Examines how the Persian Gulf War affected the people of the region a year after the war has ended.

Arabs

The Ways of the Desert, translated from the French, offers an introduction to the North African Arab nomads—their way of life, customs, dress, and religion. The companion to this volume, The Horses of the Sahara, provides a detailed description and history of the great breeds of Arab horses. While part of this book is devoted to descriptions of the various animals that are both hunted and used for hunting, its appeal goes well beyond its attraction for those with a special interest in the lore of desert hunt and chase. General Daumas and his major collaborator-informant, the Emir Abd-el-Kader, together provide sensitive insights into the total culture of the North African desert people of the nineteenth century. Both spiritual and material aspects of desert life are encompassed in this work, which ranges from translations of Arab poetry to descriptions of the uses of the fat and remains of the ostrich. The patterns of conviction and conduct described form an important part of the rich cultural heritage of the modern Maghreb nations. The way of life described in this book is often presented from what comes very close to being an inside point of view. Occasionally Daumas feels obliged to disapprove of certain practices or beliefs or to criticize his Arab friends, but in large part his underlying sympathy for the Arab people permits his informants to speak clearly through his pen. General Melchior Joseph Eugene Daumas took part in the conquest of Algeria by France and, for his distinguished service, was named Director of the Bureau of Algerian Affairs in the French Ministry of War. During the campaigns and the occupation that followed, he studied and attempted to understand the native peoples with an objectivity and sympathy unusual among the colonialists of the period. He recorded a way of life that has changed much since the nineteenth century, and much of what he recorded has since been lost. His account, as well as being an important source for the historian and ethnographer, provides for the general reader a fascinating record of the vanishing ways of the desert.

Arabian Deserts

This book discusses the history of Arab integration attempts from the late Ottoman period to the creation of the Gulf Cooperation Council (GCC). Although there is significant scholarship on the history of pan-Arab nationalism and the drive for disparate Arab nations to integrate, precious little literature seeks to explain efforts at increased Gulf integration in that context. The long history amongst Arabs, with an awareness of a common cultural and social fabric that should integrate politically and economically, necessitates a fresh review of this topic. This book argues convincingly that, despite the failure of the more politically impassioned "unionist" attempts at Arab integration, the GCC model will be the template for future Arab efforts at unification. Also part of series: International Studies Library; 27.

Desert Kingdoms to Global Powers

[World War One In The Desert Illustration Pack- Includes 92 photos and illustrations with 19 maps spanning the Desert campaigns 1914-1918] Lieutenant-Colonel T. E. Lawrence has often been pictured as many differing characters; crank, madman, genius, visionary, man "gone native", pawn, military leader, highly strung, sensitive, arrogant. In fact even in his own writings he is a multi-faceted man of many talents and not a few failings; but what cannot be doubted is the importance of his actions during the First World War at the head of the Arab revolt in the Arabian Desert. At the time the Arabs were loosely affiliated, tribal and disunited; even the most senior Prince Faisal did not command uniform loyalty, and most firmly under the heel of the organized Turks of the Ottoman Empire. With the Turkish declaration of War against the Allies the British set about seeing if they could raise ferment and revolt on the long desert flank of their enemy. They sent the then Lieutenant Lawrence, a bookish classist and archaeologist but with knowledge of the area and the language of the Arabs, to be part of the British Mission. He had suddenly found his element among the Arabs who were captivated by his dashing inspired leadership as he led them from victory to victory over their oppressors. El Orens, as he was known to his men, became front page news in England and around the world, a merciful antidote to the long casualty lists from the mud of Flanders. Lawrence wrote of his experiences with the British military mission first as "The Seven Pillars of Wisdom", but finding it to be a huge and cumbersome work, with many snap judgements that he had reason to regret, he edited his memoirs to form the more readable "Revolt in the Desert". The result is a marvellous work filled with the action, hardship and privation of the desert campaigns that made him a legend as Lawrence of Arabia.

Arabian Journey and Other Desert Travels

Story of five years of travel with the nomad Arabs in the unknown deserts of Southern Arabia.

Lawrence of Arabia on War

Abundance from the Desert provides a comprehensive introduction to classical Arabic poetry, one of the richest of poetic traditions. Covering the period roughly of 500-1250 c.e., it features original translations and illuminating discussions of a number of major classical Arabic poems from a variety of genres. The poems are presented chronologically, each situated within a specific historical and literary context. Together, the selected poems suggest the range and depth of classical Arabic poetic expression; read in sequence, they suggest the gradual evolution of a tradition. Moving beyond a mere chronicle, Farrin outlines a new approach to appreciating classical Arabic poetry based on an awareness of concentric symmetry, in which the poem's unity is viewed not as a linear progression but as an elaborate symmetrical plot. In doing so, the author presents these works in a broader, comparative light, revealing connections with other literatures. The reader is invited to examine these classical Arabic works not as isolated phenomena—withstanding their uniqueness and their association with a discrete tradition—but rather as part of a great multicultural heritage. This pioneering book marks an important step forward in the study of Arabic poetry. At the same time, it opens the door to this rich tradition for the general reader.

Arabian Sands

"But his greatest discovery was an old, poor, illiterate and unruly Bedouin, the poet ad-Dindan, whose magnificent poetry offered contemporary proof of the authenticity of the great pre-Islamic tradition in Arabian oral poetry." "Kurpershoek's expedition and encounters are recorded in detail in this part travelogue, part book of poems and study of traditional Saudi society."--BOOK JACKET.

The Arab World After Desert Storm

New illustrated edition of T.E Lawrence's most accessible and engaging account of the war against the Turks in the desert that made him an international hero, better known as 'Lawrence of Arabia'.

Out of the Desert

In the desert sands of southern Jordan lies a once-hidden conflict landscape along the Hejaz Railway. Built at the beginning of the twentieth-century, this narrow-gauge 1,320 km track stretched from Damascus to Medina and served to facilitate participation in the annual Muslim Hajj to Mecca. The discovery and archaeological investigation of an unknown landscape of insurgency and counter-insurgency along this route tells a different story of the origins of modern guerrilla warfare, the exploits of T. E. Lawrence, Emir Feisal, and Bedouin warriors, and the dramatic events of the Arab Revolt of 1916-18. Ten years of research in this prehistoric terrain has revealed sites lost for almost 100 years: vast campsites occupied by railway builders; Ottoman Turkish machine-gun redoubts; Rolls Royce Armoured Car raiding camps; an ephemeral Royal Air Force desert aerodrome; as well as the actual site of the Hallat Ammar railway ambush. This unique and richly illustrated account from Nicholas Saunders tells, in intimate detail, the story of a seminal episode of the First World War and the reshaping of the Middle East that followed.
