[electronic communication by roddy and coolen free](#)

Electronic Communication - Electronic Communication by Terk's Small Business Academy 8,371 views 8 years ago 1 minute - Don't let **electronic communication**, be a time drain on your productivity at work.

Electronic Communications - Electronic Communications by GreggU 2,398 views 2 years ago 3 minutes, 22 seconds - Computers and other **electronic**, information processing and **communications**, devices are ubiquitous in the workplace and ...

DEVICES Computers and other electronic information processing and communications devices are ubiquitous in the workplace and elsewhere.

Most employees spend a good part of their workday, and often their nonwork time as well, tethered to electronic communications and information processing devices.

MONITORING This reliance on electronic communication devices opens new avenues for the monitoring and surveillance of employees and poses profound privacy issues

ELECTRONIC COMMUNICATION The distinction between intercepting electronic communications and accessing stored communications has proved troublesome to apply to communications such as email and Internet sites.

INTERCEPTION Courts have generally held that the stricter penalties associated with interception apply only when a communication is obtained at the same time it is sent. There are some notable exceptions to the ECPA's general requirements.

CONSENT Interceptions are legal if prior consent to them was granted. Providers of wire or electronic communication services are exempted from the law's requirements if it is necessary to render service or protect their rights and property.

In the context of telephone conversations, employers can use additional extensions on business phones to monitor business calls for service quality or other business purposes but cannot listen in on personal calls.

MESSAGES Under the stored communications provisions of the ECPA, only the provider of the electronic communication service on which the message is stored and users of that service can authorize the accessing of stored communications.

PROVIDER Overall, employees are well advised to not assume that their e-mails and other electronic communications will not be read by their employers, particularly when the employers are the providers of the communication system

While criminal cases are different from cases involving public employees, judicial appreciation of the need for privacy in electronic communications seems to be growing.
