Aspects of the Novel

The renowned British novelist's "casual and wittily acute guidance" on reading—and writing—great fiction (Harper's Magazine). Renowned for such classics as *A Room with a View*, *Howards End*, and *A Passage to India*, E. M. Forster was one of Britain's—and the world's—most distinguished fiction writers, a frequent nominee for the Nobel Prize in Literature. In this collection of lectures delivered at Trinity College, Cambridge, in 1927, he takes a wide-ranging look at English-language novels—with specific examples from such masters as Dickens and Austen—discussing the elements they all have in common. Using a witty, informal tone and drawing on his extensive readings in French and Russian literature, Forster discusses his ideas in reference to such figures as Tolstoy, Dostoevsky, and Proust; explains the difference between "flat" and "round" characters and between plot and story; and ultimately provides an "admirable and delightful" education for anyone who appreciates the art of a good book (The New York Times).

Teach Yourself To Live is a self-help classic from a very distant age. Then, as now, the self-help world was dominated by energetic Americans preaching the secrets of limitless achievement. But from the off this delightfully dry, wise and pragmatic book offers something quite different - a sober, somewhat stern, but ultimately generous guide to living in a world blighted by modernity and taxes. Nostalgic, funny and charming, this book somewhat bad-temperedly insists the reader not get ideas above his or her station - yet it ends up delivering a bracing, empowering guide to knowing yourself and living well (despite it all). Oliver Burkeman called this book "a place of stability and solid ground amid the rushing omnibuses". Full of fascinating and unexpected revelations, Teach Yourself To Live flips self-help on its head and provides a marvelous insight into the way we used to feel about life and how to live it.

First delivered as a speech to schoolgirls in Kent in 1926, this enchanting short essay by the towering Modernist writer Virginia Woolf celebrates the importance of the written word. With a measured but ardent tone, Woolf weaves together thought and quote, verse and prose into a moving tract on the power literature can have over its reader, in a way which still resounds with truth today. I have sometimes dreamt, at least, that when the Day of Judgement dawns and the great conquerors and lawyers and statesmen come to receive their rewards – their crowns, their laurels, their names carved indelibly upon imperishable marble – the Almighty will turn to Peter and will say, not without a certain envy when he sees us coming with our books under our arms, "Look, these need no reward. We have nothing to give them here. They have loved reading."

How Should One Read a Book?

There are many brilliant books out there, which have not been published because their author has not been able to successfully navigate the minefield that is finding a publisher. In many cases, authors make basic mistakes in their submissions, which ensure that they do not even get read by the correct person. Even if they do reach someone with decision-making power, they often fail to clearly explain the proposition of their book, or the target market. Claire Gilman is the perfect person to help you find a publisher for your manuscript. She has done it successfully, having had twenty of her own books published. She has spoken to many commissioning editors and agents about what they look for (and look to avoid) in a submission. And she has worked as a literary consultant, helping all sorts of authors to improve their proposals. Now, she combines all this wisdom into one book, explaining clearly 50 common mistakes which authors make, and how you can avoid them and ensure that your work receives the attention and the publisher that it deserves.
