Sustainable Development Policy Directory

This Directory means that a whole range of built environment professionals need never be caught out by the perversities of policy – in its formulation or on its journey into the real life of you and me. To have in one place the means of not only burrowing down into any one policy, but also of exploring the interconnections is a precious resource for any professional - 'sustainability literate' or not. Today, nobody who delivers our built environment can be excused from taking responsibility for the future. Armed with this Directory their contribution can only be made more effective. Sara Parkin OBE Forum for the Future This desk-top reference on sustainable development provides essential information for all who need to be up-to-date and familiar with the implications of the legal, fiscal and planning frameworks around the global and local sustainability agenda. It is relevant to a range of organisations and individuals - from national and local authorities, professional bodies, built environment professions, academia, environmental consultancies, non-governmental organisations and others. Carefully designed to facilitate access for a diverse range of stakeholders, it covers international, European, British and local policies in key built environment themes, and develops their inter-relationship to sustainable development. The Directory addresses each theme in a series of tables which summarise the policy purpose and also provide web-links to view the specific policy documents. The themes covered are: · Biodiversity · Climate Change · Construction · Energy · Environment · Planning · Pollution · Social Issues · Sustainable Development Policy and Practice · Transport · Urban Development · Waste Management · Water Other books of interest: The Green Guide to Specification Anderson ISBN: 1405119616 Smart & Sustainable Built Environments Yang Hardback ISBN: 1405124229 Sustainable Property Development Keeping Paperback ISBN: 0632058048 Previously Developed Land Syms Paperback 1405106972 Evaluating Sustainable Development Brandon 0632064862 Cover design by Garth Stewart www.thatconstructionsite.com

In the late 1940s, the Labour government faced a birthrate perceived to be in decline, massive economic dislocations caused by the war, a huge national debt, severe labor shortages, and the prospective loss of international preeminence. Simultaneously, it subsidized the emigration of Britons

to Australia, Canada, and other parts of the Empire, recruited Irish citizens and European refugees to work in Britain, and used regulatory changes to dissuade British subjects of color from coming to the United Kingdom. Paul contends post-war concepts of citizenship were based on a contradiction between the formal definition of who had the right to enter Britain and the informal notion of who was, or could become, really British.

Local lists play an essential role in building and reinforcing a sense of local character and distinctiveness in the historic environment, as part of the wider range of designation. They enable the significance of any building or site on the list (in its own right and as a contributor to the local planning authority's wider strategic planning objectives), to be better taken into account in planning applications affecting the building or site or its setting. The advice supports local authorities and communities to introduce a local list in their area or make changes to an existing list, through the preparation of selection criteria, thereby encouraging a more consistent approach to the identification and management of local heritage assets across England. A local list can celebrate the breadth of the historic environment of a local area by encompassing the full range of heritage assets that make up the historic environment and ensure the proper validation and recording of local heritage assets. They also provide a consistent and accountable way of identifying local heritage assets, to the benefit of owners and developers who need to understand local development opportunities and constraints.
