Answering The Call Of The Lord

In the early twenty-first century it had become a cliché that there was a "God Gap" between a more religious United States and a more secular Europe. The apparent religious differences between the United States and western Europe continue to be a focus of intense and sometimes bitter debate between three of the main schools in the sociology of religion. According to the influential "Secularization Thesis," secularization has been an integral part of the processes of modernization in the Western world since around 1800. For proponents of this thesis, the United States appears as an anomaly and they accordingly give considerable attention to explaining why it is different. For other sociologists, however, the apparently high level of religiosity in the USA provides a major argument in their attempts to refute the Thesis. *Secularization and Religious Innovation in the North Atlantic World* provides a systematic comparison between the religious histories of the United States and western European countries from the eighteenth to the late twentieth century, noting parallels as well as divergences, examining their causes and especially highlighting change over time. This is achieved by a series of themes which seem especially relevant to this agenda, and in each case the theme is considered by two scholars. The volume examines whether American Christians have been more innovative, and if so how far this explains the apparent "God Gap." It goes beyond the simple American/European binary to ask what is "American" or "European" in the Christianity of the nineteenth and twentieth centuries, and in what ways national or regional differences outweigh these commonalities.

Secularization and Religious Innovation in the North Atlantic World

America's Destiny sets forth compelling evidence of America's divine origin and destiny—that it was a nation founded upon divine providence, not coincidence, as testified repeatedly by the Founding Fathers, respected historians, and statesmen. This revised edition also adds numerous scriptures and statements from prophets of God attesting to this truth. With that perspective, *America's Destiny* asks the question that should be on all of our minds, "What is the greatest challenge facing our nation today and how should we confront it in a way that pleases God?" The economy, national security, immigration, gun control, poverty, racism, crime, national pandemics, climate change? While each of these is a valid concern and deserves attention, none of them strikes at the heart of our greatest challenge, namely, finding a way to build stronger homes and bring about a return to family, God, and moral values. To put our prime focus on challenges other than these is to strike at the leaves, not the root of the problem. It is now our choice and America's choice - to place our trust in the wisdom of God or the wisdom of the world - to be a nation under God or without God. If we become a nation under God, then we become eligible to receive the promise: "Blessed is the nation whose God is the Lord." (Psalm 33:12)

Raising a Child Who Prays

Justin D. Garrison provides an original and groundbreaking analysis of Ronald Reagan's imagination as it was expressed mainly in his presidential speeches. He argues that the predominant strain of Reagan's

imagination is "chimeric," that is, imbued with a high degree of optimism, romantic dreaminess, naiveté, and illusion. Reagan spoke often about religion, democracy, freedom, conservatism, progress, America's role in the world, the American people, the American Founding, and peace. These are for him important symbols, which together express his general vision of politics and human existence. These symbols have to be analyzed in depth in order to understand who Reagan really was and what he represented to his admirers. The book concludes that Reagan's vision contains many dubious elements that present dangers for practical politics and claims that the popularity of Reagan's imagination among Americans suggests a problematic self-understanding. Surpassing, existing works on Reagan's ideas and speeches, this book systematically explains the general quality and major components of Reagan's vision, and it draws upon political theory, aesthetics, and American political thought to analyze his imagination.

Archbishop Michael Ramsey's archiepiscopate from 1961 to 1974 saw profound renegotiations of the relationship of the Church of England with its own flock, with the nation more widely, with the Anglican church worldwide, and with the other Christian churches. Drawing from unique source material in the Lambeth Palace Library archives and reproducing many original writings of Ramsey for the first time, this book explores key questions which surround Ramsey's tenure. How did Ramsey react to the rapid hollowing-out of the regular constituency of the church whilst at the same time seeing sweeping changes in the manner in which the church tried to minister to those members? What was his role in the widening of the church's global vision, and the growing porousness of its borders with other denominations? And how did the nature of the role of archbishop as figurehead change in this period?

An Empire of Ideals

Through personal stories and scriptural principles, Hontz brings new insight to the practice of listening as a spiritual discipline, and provides practical suggestions for cultivating two-way conversation with God.

This investigation into the prophetic dimension of the Psalms shows how the postexilic period and especially the world of the Chronicler around 300 BCE provide the main setting for the Psalms, even royal psalms. The Levitical singers of the Second Temple 'made up for the silence of the classical prophets': an idealized David, musician and prophet, is depicted as leader of the cultic prophets and of the entire inspired community. In this way theophanic descriptions and oracular material in the style of the classical prophets were developed and preserved through the Psalms.

The Prayer-Saturated Church

“Once I got started, I couldn't stop.” The history of e-Jeanne began around 1999, really ramped up when 9/11 hit our nation, became more organized and intentional thereafter, and continued until ... 2005? You see, e-Jeanne was a precursor of currently popular “blogs,” although we called her an “e-zine.” She was assembled early in the morning (right after my morning devotions – in fact, I realize that many of my morning devotions somehow crept into the e-Editorials), and then forwarded by e-mail to over 300 people all around the world. I did this two or three days a week for 10 years. Like I said, maybe I am a little crazy. ... This is not a book you can rush through (unless you are only looking for jokes), and I am astonished how small the font has to be in order to fit everything in; you’re going to need a bookmark to help mark your spot. Always, my goal was to fulfill: Let your good works shine out for all to see, so that everyone will praise your Heavenly Father.” (Matthew 5:16)

God's Answer to the Growing Crisis

Kingdom Calling offers a compelling theological grounding for the vocation, ministry and discipleship of the whole people of God. Building creatively on previous studies, it challenges all of us to change so that the whole church can serve the whole mission of God in the whole of life. Kingdom Calling provides a thorough diagnosis of the theological factors that have prevented such a vision being realised over previous decades. These factors are embedded in the social realities of our everyday life and in the sometimes hidden assumptions that shape our thinking in the church. By setting out a sustained proposal for the renewal of our theological imagination, the report points the way to address some deep running fault lines in our common life. Written in an accessible style, Kingdom Calling looks in turn at the vocation, ministry and discipleship of all God's people, asking what kind of theological thinking and imagining might most help us to flourish together. It affirms and celebrates the vital lay and ordained ministry roles that support the church in God's mission, and it identifies changes in practice that can better foster the vocation, ministry and discipleship of the whole people of God.

The Poster

From Protest to Challenge rescues from obscurity the voices of protest in South Africa through the publication of rare documents housed in the collections of the Hoover Institution Library & Archives. These excerpts from political ephemera, radical newspapers, and other materials provide a documentary history of opposition groups in South Africa. They bear witness not only to a remarkable period in South African history but also to the vital need for the preservation of historical documents as an essential tool of scholarship. These materials are as relevant today as when they were first published, graphically demonstrating the South African struggle for peace, freedom, and equality. Volume 2 covers the years 1935 to 1952, a period framed by the All-African Convention, arranged in response to proposed legislation limiting the rights of native Africans, and the launch of the Defiance Campaign protesting apartheid laws.

The NIH Record

On 11 October 1899, Britain was officially at war in South Africa against the Transvaal Republic and the Orange Free State. While the war was thousands of kilometres away, and Canada's contribution of over 7,000 troops to the imperial cause was relatively small, the war is considered to be one of the critical events in the nation-building process of the young dominion. Gordon Heath's *A War with a Silver Lining* is a ground-breaking analysis of why the Canadian Protestant churches enthusiastically supported the war effort. Extensive archival research allows Heath to show how the churches' concern for international justice, the development of the nascent nation Canada, the unifying and strengthening of the empire, and the spreading of missions led to passionate and widespread support for the war effort. Providing a valuable link between Victorian and twentieth-century Protestantism, war, and the British Empire, "A War with a Silver Lining" is a revealing account of the significant role that churches played in nineteenth-century Canadian public life.
