[#action research nursing](#) [#healthcare quality improvement](#) [#clinical practice change](#) [#evidence-based nursing](#) [#participatory research healthcare](#)

Action research in nursing and healthcare is a dynamic, collaborative methodology where professionals investigate their own practice to identify issues, implement changes, and evaluate outcomes. This cyclical process empowers nurses and healthcare providers to enhance patient care, improve service delivery, and foster a culture of continuous quality improvement and evidence-based practice directly within clinical and administrative settings.
