AP Comparative Government and Politics Study Guide 2016: Review Book for the Advanced Placement Comparative Government and Politics Exam

Including 4 full length exams, structured and styled exactly like what you will find on the real AP Comparative Government and Politics test, this study guide is designed to increase and maximize scores for any student regardless of current subject knowledge and skills. By providing only the effective content a student needs, time is better spent meaning total study time is actually decreased, preventing "burn-out" and mental fatigue, thus allowing for better retention of the key concepts needed for the AP Comparative Government and Politics test. As with all of our study guides, we don't include any filler or fluff in our AP Comparative Government and Politics review. If you need to know it, it is in this book.

All concepts are covered in detail, including: Compare and contrast political concepts, themes, and generalizations across multiple governments and nations. - Describe and explain typical patterns of political processes and behaviors and their consequences on the people and government. - Compare and contrast political institutions and processes across countries and to make generalizations regarding political processes and governments. - Analyze and interpret basic data relevant to comparative government and politics.

AP Comparative Government and Politics 2015

This textbook offers a fresh approach to the study of comparative politics and public policy. Instead of concentrating on why countries differ, *Learning From Comparative Public Policy* explores how countries can learn from each other about the success and failure of policy initiatives. With its theory and practice focus, the lively narrative analyzes the cultural and resources problems involved in importing policies, and the roles of institutions, regulators, think tanks and experts. In addition to explaining the key tenets of policy analysis, the internationally renowned author offers a wide variety of international case studies and useful boxes to highlight examples. Invaluable reading for students of public policy, for policy makers and practitioners working in the public sector, it includes: * learning from comparison * defining a problem and creating awareness * where to look for lessons * applying the policy model * the problems of importing models * using terms to evaluate future consequences.

Learning From Comparative Public Policy

This Student Guide will help you to: * Identify key content for the exams with our concise coverage of topics * Avoid common pitfalls with clear definitions and exam tips throughout * Reinforce your learning with bullet-list summaries at the end of each section * Make links between topics with synoptic links highlighted throughout * Test your knowledge with rapid-fire knowledge check questions and answers * Find out what examiners are looking for with our Questions & Answers section

AP Comparative Government and Politics

Key content coverage is combined with practical tips to create a revision guide that students can rely on to review, strengthen and test their knowledge. With *My Revision Notes* every student can: - Plan and manage a successful revision programme using the topic-by-topic planner - Enjoy an interactive approach to revision, with clear topic summaries that consolidate knowledge and related activities that put the content into context - Build, practise and enhance exam skills by progressing through revision tasks and Test Yourself activities - Improve exam technique through exam-style questions and sample answers with commentary from expert authors and teachers - Get exam ready with extra quick quizzes and answers to the activities available online

Pearson Edexcel A-level Politics Student Guide 2: Government and Politics of the USA and Comparative Politics Second Edition

Carefully crafted by an Ivy League educated lawyer and former political journalist who has spent the past decade teaching U.S. Government and Politics and Comparative Government and Politics at elite Asian prep schools and online, the fully updated the "Worldwide Scholar Guide to AP(R) Comparative Government & Politics 2015 Edition" is designed to help students everywhere truly master the study of comparative politics. Through clear examples of the important themes and concepts covered on the AP(R) Comparative Government & Politics exam, concise summaries of the political situations in the AP(R) exam's six core countries and a quick review guide, this guide demystifies the study of comparative government and eliminates the unnecessary information overload so often associated with studying AP(R) Comparative Government, allowing students to fully grasp this seemingly complicated subject. It doesn't waste space -- or your time -- with test taking tips and tricks, worthless phony exam questions or ridiculous claims that it covers everything that could conceivably be tested on the AP(R) exam. It doesn't assume high school students already understand what political science is or why it matters. Instead it guides both political novices and political junkies to a deeper understanding of the study of political science, comparative politics, and the political and governmental systems in use in the six countries covered on the AP(R) Comparative Government exam. And in the end, really understanding the material tested is the true trick to success on the Advanced Placement Comparative Government and Politics exam.

My Revision Notes: AQA A-level Politics: US and Comparative Politics: Second Edition

This deeply informed text sets the government and politics of Britain firmly in the context of Britain's enduring membership in the European Union. Michael L. Mannin thoroughly applies the concept of "Europeanization" across the political system to explore how far change is a product of Britain's interdependent relationship with the EU. Ideal for courses in British and European politics, this book breaks new ground in exploring the complex interdependence that the EU should bring to the study of European political systems.

Let our study guides guide you along the path to the professional career of your dreams!

AP Comparative Government and Politics Study Guide

'Bara and Pennington's edited volume successfully fills a huge void in the market for introductory textbooks to comparative politics which previously offered either descriptions of political processes and systems or overviews of the methodology of comparative analysis. By applying major political science theories to overviews of the core elements of political systems, the authors both enhance our understanding of these elements and provide readers an excellent introduction to comparative explanation' - Dr David Howarth, University of Edinburgh 'What is distinctive about this authoritative and comprehensive book on comparative politics is the way in which it is underpinned throughout by a theoretical analysis centred on a new institutionalist approach' - Professor Wyn Grant, University of Warwick 'Comparative Politics takes a fresh and original approach to the field... it examines the role of structures, rules and norms in regulating the individual and collective behaviour of political actors. Each chapter provides a critical bibliography and key questions which will be particularly useful for students approaching Comparative Politics for the first time. Altogether this is a comprehensive and useful read which I warmly recommend' - Ian Budge, Professor Emeritus Professor of Government, University of Essex 'This is a most useful book. Teachers of comparative politics often scramble around, with out-of-date textbooks and photocopies of more or less compatible articles. Here is a new book that gives an up-to-date, comprehensive and systematic introduction to the major strands of institutional thought and applies these to the major institutions, processes and policy areas. It will be a great help for many of us, academics and students alike' - Peter Kurrild-Klitgaard, Professor of Comparative Politics, University of Copenhagen This book provides a distinctive new introduction to the study of comparative politics at undergraduate level. Rich in case study material and global in coverage, Comparative Politics sets out the basic theoretical and methodological foundations for studying different political systems as well as the key structures and actors of which they are comprised. Part One explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across different political systems. Part Two examines the institutional structures of the modern state, outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states. Part Three analyzes the role of key actors, such as voters and parties, interest groups and social movements, the bureaucracy and the judiciary. This book will be an essential primer for students on first-year courses in comparative government and politics as well as introductory courses in political science concepts and methods. Judith Bara is Senior Lecturer in Politics at Queen Mary, University of London and Research Fellow in Government, University of Essex. David S. Bell is Professor of French Government and Politics and Head of Social Studies and Law at the University of Leeds. Jocelyn Evans is Reader in Politics at the European Studies Research Institute, University of Salford. Catherine Needham is Lecturer in Politics at Queen Mary, University of London. Brendan O'Duffy is Senior Lecturer in Politics at Queen Mary, University of London. Mark Pennington is Senior Lecturer in Politics at Queen Mary, University of London. David Robertson is Professor of Politics, University of Oxford and Vice Principal, St Hugh's College, Oxford.

Comparative Politics

Democracy is the most widely used way of organizing politics in the contemporary world. Comparative Democratic Politics brings together a team of renowned international scholars to provide a comprehensive review of theory and research in this essential area of comparative study. A key aim to the book is to introduce and understand representative democracy as a political process and contemporary system of governance in need of constant attention and scrutiny. Four important themes include: · the contribution of comparative politics as a distinct field within political science to our understanding of democracy, democratic politics and democratic theory · what we can learn from a comparative analysis of the role, functioning and behaviour of the principal actors (electorate, parties and institutions) across nations · the relationship between politics and public policy formation and processes of democratic decision-making and corresponding policy-making capacity · how we measure contemporary democracy or democratic performance in both a procedural and material sense. Comparative Democratic Politics will afford new and important insights to the contemporary study of representative democracy. It will be essential reading for all students and academics of political science and public policy seeking a deeper understanding of both the world's so called established and emerging democracies.

AP Comparative Government and Politics

Updated for 2014, The "Worldwide Scholar Guide to AP Comparative Government & Politics" is a clear, concise guide that fully prepares students to succeed on the Advanced Placement Comparative Government and Politics exam. Through detailed examples of the important themes and concepts covered on the exam, concise summaries of the political situations in the exam's six core countries, and a quick review guide, this book demystifies the study of comparative government, allowing students to fully grasp this seemingly complicated subject. Essentials of Comparative Government

Adapted from the groundbreaking bestseller Principles of Comparative Politics, Third Edition! Foundations of Comparative Politics presents a scientific approach to the rich world of comparative inquiry, research, and scholarship, providing you a guide to cross-national comparison and why it matters. This condensed, more accessible format introduces you to the key questions in comparative politics, using brief insights from tools such as decision, social choice, and game theory to help you understand clearly why some explanations for political phenomena are stronger than others. Foundations concentrates on describing the core features of regimes and institutions and on analyzing how these fundamental attributes drive variation in the economic and political outcomes we care about most. This approach more closely replicates what comparative scholars do: constructing and testing theories on political phenomena over basic memorization of country-specific facts—to explain, rather than describe. Illustrated with current examples that show the application of theory, you will gain invaluable real-world skills in critical thinking and empirical analysis that you will carry with you long after the course is over.

AP Comparative Government and Politics Study Guide

Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.

Foundations of Comparative Politics

The Routledge Handbook of Comparative Political Institutions (HCPI) is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context. It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes, drawing on the perspective of comparative politics. The Handbook is organized into three sections: The first section, consisting of six chapters, is organized around broad theoretical and empirical challenges affecting the study of institutions. It highlights the major issues that emerge among scholars defining, measuring, and analyzing institutions. The second section includes fifteen chapters, each of which handles a different substantive institution of importance in comparative politics. This section covers traditional topics, such as electoral rules and federalism, as well as less conventional but equally important areas, including authoritarian institutions, labor market institutions, and the military. Each chapter not only provides a summary of our current state of knowledge on the topic, but also advances claims that emphasise the research frontier on the topic and that should encourage greater investigation. The final section, encompassing seven chapters, examines the relationship between institutions and a variety of important outcomes, such as political violence, economic performance, and voting behavior. The idea is to consider what features of the political, sociological, and economic world we understand better because of the scholarly attention to institutions. Featuring contributions from leading researchers in the field from the US, UK, Europe and elsewhere, this Handbook will be of great interest to all students and scholars of political institutions, political behaviour and comparative politics. Jennifer Gandhi is Associate Professor, Department of Political Science, Emory University. Rubén Ruiz-Rufino is Lecturer in International Politics, Department of Political Economy, King's College London.

Politics Review Magazine Volume 29, 2019/20 Issue 1

This book provides a distinctive new introduction to the study of comparative politics at undergraduate level. Rich in case study material and global in coverage, Comparative Politics sets out the basic theoretical and methodological foundations for studying different political systems as well as the key structures and actors of which they are comprised. Part I explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across different political systems. Part 2 examines the institutional structures of the modern state, outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states. Part 3 analyses the role of key actors, such as voters and parties, interest groups and social movements, the bureaucracy and the judiciary. This book will be an essential primer for students of comparative government and politics as well as introductory courses in political science concepts and methods.

Comparative Government and Politics (AP-26): Passbooks Study Guide

Aimed at politics students in their final year of secondary education or beginning their degrees, this highly readable book is the ideal introduction to politics. Doing Politics is a detailed guide to both the study and the activity of politics, which explores why we study politics, what is involved in a politics degree, and the skills and mindset that are needed to tackle the subject. Key questions are answered, including: • Just what is politics and how does it affect us? • Why does politics, and why do politicians, get a bad press? • How do we study non-traditional forms of politics? Assuming no prior knowledge, this lively and engaging guide is the perfect introduction to the academic study of politics.
