The Bad Boy's Girl

Shifter and Vampire True Mates story. Alek's older brother, Justice--the Alpha Zenith--was the first shifter to mate with a vampire in many generations, and it was believed the rare, fated pairing would stop at him. But, it hadn't. Aleksei 'Alek' Volkov was second beta, next in succession to the most powerful shifter in the world. He was proud of his title and he took his duties seriously. It was all he had. Until his true mate literally showed up on his doorstep. While his brother--the overachiever--excelled at having a vampire as a mate, Alek wasn't that optimistic he would. He wasn't averse to love, and he'd often thought of how different his life could've turned out if he'd ever experienced the emotion. His life was a mess and he'd worn a mask of stability for a majority of that time, only showing his siblings and pack what they needed to see--a strong Volkov alpha. Not the damaged man he was, with a tortured soul and a rogue wolf. Alek dropped his heavy head in his hands. Now, for some reason, I've been granted a true vampire mate. And not just any vampire. The intimidating Belleron Liatos. Lord High to the King and the leader of his army. Belleron 'Bell' Liatos had come to the states for one reason--his best friend and Vampire King, Chadwick Bentley. He certainly didn't come to be pounced on by a wolf that could act independently of its master. Not only was his destined cherished a complicated and confused man; but he was also unaware of the powerful presence that lurked in the shadows of his soul. Bell didn't know he'd be the key to unlocking an exceptional triad that would play a critical role in fulfilling the prophesy. This story DOES NOT contain or even mention MPREG. No multiple pairings. No cliffhangers. Ends with a very HFN. Warning: This book is M/M paranormal: If you DO NOT like alpha men shifting into large wolves, or vampires feeding from their destined beloveds, than this may not be the novel for you.

The last words of the note both startle and confuse her especially since she saw her mate die in front of her very eyes. What happens when the mysterious stranger now comes to claim her? Vowed in Shadows

Still, to say that it all began when Sophie Mol came to Ayemenem is only one way of looking at it . . . It could be argued that it actually began thousands of years ago. Long before the Marxists came. Before the British took Malabar, before the Dutch Ascendancy, before Vasco da Gama arrived, before the Zamorin's conquest of Calicut. Before Christianity arrived in a boat and seeped into Kerala like tea from a teabag. That it really began in the days when the Love Laws were made. The laws that lay down who should be loved, and how. And how much.

Then Aubrey finds himself alone with Blake in a trailer...and what happens next turns London's heat wave into an inferno that leaves him breathless. Sam:It's the first day of summer break and I'm officially done with high school! My softball team just won the championship and it's my two year anniversary with Brett. When your soul is linked to another, rules go out the window, and nothing or no one can keep you apart. I've followed her scent to her front door and there's no turning back now - she will be mine. Storm and Silence

Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in

the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

The elders are making him hold these ridiculous parties to search for a mate. He doesn't want a mate, but he knows he needs a mate to finish the Alpha Circle. Without a mate, a Luna for the pack, his people would suffer. And what is he going to do when he stumbles across the girl that fate has chosen for him and he finds out she has no wolf? "This cannot be!" I roared. "There is no way that I can mate with a girl that does not even have a wolf. She will be too weak. She will be inferior. She will not be strong enough to be a Luna." "I simply could not accept her as my mate. Not fully. It wasn't safe for her. She would get herself killed. And she would bring my pack down with her." When these two meet, sparks will surely fly. But will it be from passion, or their constant fighting? Neither of them wanted a mate. Neither of them wants the mate that fate chose for them. And neither of them can make that mate bond go away. What are they going to do now that they're literally stuck with each other?

Scarred

An awesome, globe-spanning, and New York Times bestselling journey through the beauty and power of mathematics What if you had to take an art class in which you were only taught how to paint a fence? What if you were never shown the paintings of van Gogh and Picasso, weren't even told they existed? Alas, this is how math is taught, and so for most of us it becomes the intellectual equivalent of watching paint dry. In *Love and Math*, renowned mathematician Edward Frenkel reveals a side of math we've never seen, suffused with all the beauty and elegance of a work of art. In this heartfelt and passionate book, Frenkel shows that mathematics, far from occupying a specialist niche, goes to the heart of all matter, uniting us across cultures, time, and space. *Love and Math* tells two intertwined stories: of the wonders of mathematics and of one young man's journey learning and living it. Having braved a discriminatory educational system to become one of the twenty-first century's leading mathematicians, Frenkel now works on one of the biggest ideas to come out of math in the last 50 years: the Langlands Program. Considered by many to be a Grand Unified Theory of mathematics, the Langlands Program enables researchers to translate findings from one field to another so that they can solve problems, such as Fermat's last theorem, that had seemed intractable before. At its core, *Love and Math* is a story about accessing a new way of thinking, which can enrich our lives and empower us to better understand the world and our place in it. It is an invitation to discover the magic hidden universe of mathematics.

Play of Passion

The Kingdom of Askara has been torn apart by conflict for centuries, where humans exist as subservient beings to their werewolf masters. Legend says it will only be able to heal itself when an Alpha King and a pure omega are mated and crowned together, but a pure omega hasn't been born in over a thousand years. Luca is an Alpha-heir eagerly awaiting the choosing ceremony on his twenty-fifth birthday and the gifts granted by whichever omega he mates. His small pack is destitute due to the decisions of its ruling council, but being only an Alpha-heir, he has no authority to challenge them. Not until now-this moment he has waited a long time for. Kit grew up as a street-rat, an unlicensed human who would never be more than a slave for whichever master owns him. Then one day he came across a young Alpha-heir, attacked and dying of poison, and found out their fates were suddenly entwined. Luca needs to take over his pack and save his people. He cannot afford to be distracted. But when he meets Kit, he develops abilities indicating he is not just a pack Alpha, but the King his world has needed for a thousand years. Is Kit really the cause of Luca's newfound power, the true mate he needs? How is

it possible when the young man isn't even a werewolf, and as merely a human, a mating is not only forbidden, but for Kit, a sentence of death?
