Haiku Mind

A collection of 108 haiku poems to heighten awareness and deepen our appreciation for the ordinary in everyday life. Haiku, the Japanese form of poetry written in just three lines, can be miraculous in its power to articulate the profundity of the simplest moment—and for that reason haiku can be a useful tool for bringing us to a heightened awareness of our lives. Here, the poet Patricia Donegan shares her experience of the haiku form as a way of insight that anyone can use to slow down and uncover the beauty of ordinary moments. She presents 108 haiku poems—on themes such as honesty, transience, and compassion—and offers commentary on each as an impetus to meditation and as a key to unlocking the wonder in what we find right before us.

Travels with Myself

The haiku that punctuate Joachim Matschoss' travels work as luminous mile-markers, cryptic road signs and legends on maps that trail off into myth and legend. Matschoss understands that the language of intimacy between humans extends to interactions with landscape, history, animals and weather. These haiku find the sum of their many parts in a palpable immediacy and longing. - Anthony Lawrence Matschoss devotes himself to an ancient art form that captures the moment before it escapes, and he does it with humour, insight, whimsy, a keen ear, and a sharp eye. In publishing so many haikus, he shares his unique take on the world. Reading them, you may be inspired to create and share yours. - Arnold Zable Travels with Myself is a perfect title for this brilliant Haiku collection by theatre-maker, poet and playwright, Joachim Matschoss. A busy life is hauled back again and again to quiet moments – to pictures in rich words. - Irish poet, Terry McDonagh What is never lost in Travels with Myself is the primacy of experience and the direct way of finding its expression. These haikus are clear-eyed, meditative and full of surprises. - Frank Rulow This book is a phantasmagoria of words beautifully crafted to engage the senses of the reader. As one turns each page, words fall into place, and the journey begins through the neon-lit streets of the poet's mind. He entices us into his reality festooned with irony, futility and an acceptance of life with all its surprises. Truly a travel book for those that rarely leave or have never left home even when they travel. - Mark Ulyseas

At age sixty-two, Marsha Pincus finds the container of "wife-mother-teacher," which held her life together for the past thirty years, breaking into pieces. She begins a practice of composing one haiku a day and sharing them on Facebook, attracting hundreds of followers who comment and write their own haiku in response. The haiku become a way for Pincus-empty nester, retired educator, and restless wife-to capture and rearrange the fragments of her shattered identity. In Finding Beauty in a Broken

World, nature writer and memoirist Terry Tempest Williams writes, "A mosaic is a conversation between what is broken." Pincus, a collage and mosaic artist, breaks her life into shards of seventeen syllables, allowing them to re-member themselves in new and surprising ways. Part divination, part creative inspiration, part spiritual journey, *Holding Up the Moon* invites readers to engage the slivers of Pincus' story and use the haiku for bibliomancy, writing prompts, or inspiration for their own self-discovery and creative expression. ----- Marsha Pincus awakens us to the power of brevity in storytelling-how much can be said in so few words, and how beautifully. Her memoir is as much about the power and mystery of language and imagery as it's the story of how one woman moves through life, with a heart that's both broken and brave enough to love still and again. Keep oxygen nearby, because every page will steal your breath away! Jennifer Leigh Selig, co-author of *Deep Creativity: Seven Ways to Spark Your Creative Spirit* I feel such gratitude for Marsha's haikus. They are an invitation: a poetic exploration of the evolution of Marsha's soul, and an invitation to the images that connect us all. Carla A. Baker, Singer/Songwriter Marsha writes with such beauty that I am overwhelmed with a sense of gluttony. She invites us to dream along with her as she writes of family images buried in our flesh, the scars of lovers inscribed on our hearts, and the ever-persistent emotional desires rolling in our gut. Her haiku remind me of a Canto Hondo, a Flamenco-style song that emanates from the very depth of a person's soul. Shirley Munoz, Ed.D., Teachers College, Columbia University, Educator

Yeats' interest in the 'noh' play, Ezra Pound's imagism, and the influence of Zen aesthetics on Western poetry. The Western writers discussed range from Americans, including Emerson, Thoreau, Faulkner, Wright, and Snyder, to Europeans, such as Marcel Proust. The Eastern writers include Basho, Tanizaki, Lao Tzu, Wan Wei, Tagore, and Yone Noguchi.

In this intriguing literary experiment, Ian Marshall presents a collection of nearly three hundred haiku that he extracted from Henry David Thoreau's *Walden* and documents the underlying similarities between Thoreau's prose and the art of haiku. Although Thoreau would never have encountered the Japanese haiku tradition, the way in which the most important ideas in *Walden* find expression in the

most haikulike language suggests that Thoreau at Walden Pond and the haiku master Basho at his "old pond" might have drunk at the same well. Walden and the tradition of haiku share an aesthetic that embodies ideas in natural images, dissolves boundaries between self and world, emphasizes simplicity, and honors both solitude and humble, familiar objects. Marshall examines each of these aesthetic principles and offers a relevant collection of "found" haiku. In the second part of the book, he explains his process of finding the haiku in the text, breaking down each chapter of Walden to highlight the imagery and poetic language embedded in the most powerful passages. Marshall's exploration not only provides a fresh perspective on haiku, but also sheds new light on Thoreau's much-studied text and lays the foundation for a clearer understanding of the aesthetics of American nature writing.

There are deep black nationalist roots for many of the images and ideologies of contemporary racial justice efforts. This collection reconsiders the Black Aesthetic and the revolutionary art of the Black Arts Movement (BAM), forging connections between the recent past and contemporary social justice activism. Focusing on black literary and visual art of the Black Arts Movement, this collection highlights artists whose work diverged from narrow definitions of the Black Aesthetic and black nationalism. Adding to the reanimation of discourses surrounding BAM, this collection comes at a time when today's racial justice efforts are mining earlier eras for their iconography, ideology, and implementation. As numerous contemporary activists ground their work in the legacies of mid-twentieth century activism and adopt many of the grassroots techniques it fostered, this collection remembers and re-envision the art that both supported and shaped that earlier era. It furthers contemporary conversations by exploring BAM's implications for cultural and literary studies and its legacy for current social justice work and the multiple arts that support it.

"The International Appalachian Trail runs north from Mount Katahdin seven hundred miles to the end of the Gaspé Peninsula. Inspired by Basho, Ian Marshall hiked it for six summers, probing the poetics of haiku while exploring a vast and beautiful wilderness little known in the US. Marshall is an engaging trail companion and a superb story teller, with a self deprecating wit and sharp intellect that spice up his observations and ideas. Like Basho, he finds the miraculous in the common and elevates the

humble walk into a spiritual practice, sprinkling his narrative with lovely original haiku that seem to have condensed in the moment, like droplets of dew. Backpackers will appreciate his pungent descriptions of life on the trail, and ecocritics will savor his abundant insights on poetry, nature, and culture. This lively book serves up a classic blend of high adventure, literary pilgrimage, and self discovery.
