The New Rules of Work

The world of work has changed. People in previous generations tended to pick one professional path and stick to it. Switching companies every few years wasn't the norm, and changing careers was

even rarer. Today's career trajectories aren't so scripted and linear. Technology has given rise to new positions that never before existed, which means we are choosing from a much broader set of career options—and have even more opportunities to find work that lights us up. However, we don't discover and apply for jobs the same way anymore, and employers don't find applicants the way they used to. Isn't it about time we had a playbook for navigating it all? Kathryn Minshew and Alexandra Cavoulacos, founders of the popular career website TheMuse, offer the definitive guide to the modern workplace. Through quick exercises and structured tips, you will learn:

- The New Rules for finding the right path: Sift through, and narrow today's ever-growing menu of job and career options, using the simple step-by-step Muse Method.
- The New Rules for landing the perfect job: Build your personal brand, and communicate exactly how you can contribute and why your experience is valuable in a way that is sure to get the attention of your dream employer. Then ace every step of the interview process, from getting a foot in the door to negotiating your offer.
- The New Rules for growing and advancing in your career: Mastering first impressions, the art of communication, networking, managing up and other "soft" skills – and make it obvious that whatever level you're at, you're ready to get ahead.

Whether you are starting out in your career, looking to advance, navigating a mid-career shift, or anywhere in between, this is the book you need to thrive in the New World of Work.

A Business Rule

Many of these rules are hushed secrets, unspoken truths hidden from the staff, - or assumed common sense. They do exist; and If you know the rules of this game we call "work," you stand a chance of surviving and even thriving. This book is helpful, snarky, funny, cynical, topical, witty, and incredibly pertinent to anyone attempting to carve out a career in the cut-throat world of the competitive workplace. It is the kind of book you can open up to any page and pick up something that will make you a better employee or dodge a pitfall that could imperil your job. This is the book that every business school should have as required reading.

The Unspoken Truths for Career Success

A leading workplace expert provides an inspirational, practical, and forward-looking career playbook for recent grads, career changers, and transitioning professionals looking to thrive in today's rapidly evolving workplace. Covid-19 has heightened career uncertainty in a work landscape dominated by turbulence and change, and it is directly impacting how people are entering—or re-entering—the workplace.

But as Lindsey Pollak makes clear, the pandemic merely accelerated career and hiring trends that have been building. Changes that were once slowly spreading have been rapidly implemented across all industries. This means that the old job hunting and career success rules no longer apply. Job seekers of all generations and skill sets must learn how to thrive in this “new normal,” which will include a hybrid of remote and in-person experiences, increased reliance on virtual communication and automation, constant disruption, and renewed employer emphasis on workers’ health and well-being. While this new world is complicated and constantly evolving, you won’t have to navigate it alone. For twenty years, Pollak has been following the trends and successfully advising young professionals and organizations on workplace success. Now, she guides you through the changes currently happening—and those to come. Combining insights from both experts and professionals across generations, she provides encouraging, strategic, and actionable advice on making lifelong decisions about education; building a resilient personal brand; using virtual communication to remotely interview, network, and work; skilling and reskilling for the future; and maintaining self-care and mental health. Like your personal GPS, Pollak equips you to handle workplace obstacles, helping you see them as challenges to navigate rather than impossible roadblocks. There is no perfect path to a dream career, but with *Recalculating* you’ll be prepared with the necessary skills and tools to succeed.

Recalculating

We are drowning in paper. We keep stacks of it on the kitchen counter, stash it in drawers, and stuff file cabinets full of documents (just one file cabinet can hold 18,000 sheets of paper - yikes). Despite this clear crisis of paper, there hasn't been a book devoted to managing and organizing this single most abundant item in our homes - until now. In *The Paper Solution*, Lisa Woodruff delivers a proven, step-by-step guide to decluttering the paper in our lives and sorting what's left behind into easily accessible, structured, and, most importantly, manageable files. The system Woodruff offers isn't based on unrealistic advice, such as 'touch a piece of paper only once'. Instead, it accounts for paper's unique qualities: its sentimental value, ability to accumulate astonishingly fast, the generational differences in how it's treated, and the fact that it's not going anywhere despite the popularity of minimalism movements such as Kon Mari. Woodruff's approach is doable, effective, and compassionate. Much more than simply cleaning out your files, *The Paper Solution* will help you organize your paperwork with a purpose—removing the heavy burden of a chaotic mess and giving you the space and time to enjoy what you love and discover a sense of peace.

The Paper Solution

Drawing on her 18 years of experience working remotely, plus original interviews with managers, employees, and free agents who've perfected their remote routines, Laura Vanderkam shares strategies for productivity, creativity, and health in the new corner office. How do you do great work while sitting near the same spot where you watch Netflix? How can you be responsive without losing the focus necessary for getting things done? How can you maintain and grow your network when you spend less time face to face? The key is to detach yourself from old ways of working and adopt new habits to match your new environment. Long before public health concerns pushed many of us indoors, some of the most successful people fueled their careers with carefully perfected work-from-home routines. Drawing on those profiles and her own insights, productivity expert and mother of five Laura Vanderkam reveals how to turn "being cooped up" into the ultimate career advantage. Her hacks include: • Manage by task, not time. Going to an office for 8 hours makes you feel like you've done something, even if you haven't. Remote workers should set 3-5 ambitious goals for each day and consider the work day done when these are crossed off. • Get the rhythm right. A well-planned day features time for focused work, interactive work, and rejuvenating breaks. In place of a commute, a consciously chosen shut down ritual keeps work from continuing all night. • Nurture connections. Wise remote workers can build broader and more effective networks than people sitting in the same cubicle five days a week. Whether you're an introvert or an extrovert, a self-starter or someone who prefers detailed directions, you can do your clearest thinking and deepest work at home--and have more energy left over to achieve personal goals or fuel bigger professional ambitions. In fact, soon you might find it hard to imagine working any other way.

Cal Newport's clearly-written manifesto flies in the face of conventional wisdom by suggesting that it should be a person's talent and skill - and not necessarily their passion - that determines their career path. Newport, who graduated from Dartmouth College (Phi Beta Kappa) and earned a PhD. from MIT, contends that trying to find what drives us, instead of focusing on areas in which we naturally excel, is ultimately harmful and frustrating to job seekers. The title is a direct quote from comedian Steve Martin who, when once asked why he was successful in his career, immediately replied: "Be so good they can't ignore you" and that's the main basis for Newport's book. Skill and ability trump passion. Inspired by former Apple CEO Steve Jobs' famous Stanford University commencement speech in which Jobs urges idealistic grads to chase their dreams, Newport takes issue with that advice, claiming that not only is this advice Pollyannish, but that Jobs himself never followed his own advice. From there, Newport presents compelling scientific and contemporary case study evidence that the key to one's career success is to find out what you do well, where you have built up your 'career capital,' and then to put all of your efforts into that direction.

So Good They Can't Ignore You

A New York Times bestseller! In this motivational handbook—both a business how-to and self-help guide—the New York Times bestselling author of *Dot Complicated* takes on the fallacy of the “well-balanced” life, arguing that the key to success is learning to be well-lopsided. Work. Sleep. Fitness. Family. Friends. Pick Three. In an increasingly demanding world, we’ve been told that we can do everything—maintain friendships, devote ourselves to work, spend time with family, stay fit, and get enough sleep. We just need to learn to balance it all. Randi Zuckerberg doesn’t believe in being well-balanced. We can’t do it all every day, she contends, and trying to do so only leaves us frustrated and feeling inadequate. But we can succeed if we Pick Three. Randi first introduced the concept of Pick Three in a tweet—“The Entrepreneur’s Dilemma”—that went viral. Now, in this book, she expands on her philosophy and inspires others to follow her lead. From entrepreneurs to professionals, busy parents to students, Randi can help everyone learn to reject the unrealistic burden of balance and enjoy success in their own lives—by picking the most important areas to focus on in any given day. This practical handbook includes stories from Randi’s career learning that there’s no such thing as a perfect balance—as well as insights and examples from other professionals at the top of the biggest businesses in Silicon Valley, new moms searching for permission to focus on family, and recent graduates convinced they should have it all under control, including Arianna Huffington, Reshma Saujani, Laurie Hernandez, and Brad Takei. We can’t have it all every day, and that’s okay, Randi reminds us. Pick Three is her much-needed guide to learning to embrace the well-lopsided life.

The “necessary and incisive” (Roxane Gay) account of the discrimination case that “has blown open a conversation about the status of women” in the workplace (The New York Times) **SHORTLISTED FOR THE 2017 FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR | NAMED A BEST FALL BOOK BY ELLE AND BUSTLE** In 2015, Ellen K. Pao sued a powerhouse Silicon Valley venture capital firm, calling out workplace discrimination and retaliation against women and other underrepresented groups. Her suit rocked the tech world—and exposed its toxic culture and its homogeneity. Her message overcame negative PR attacks that took aim at her professional conduct and her personal life, and she won widespread public support—Time hailed her as “the face of change.” Though Pao lost her suit, she revolutionized the conversation at tech offices, in the media, and around the world. In *Reset*, she tells her full story for the first time. The daughter of immigrants, Pao was taught that through hard work she could achieve her dreams. She earned multiple Ivy League degrees, worked at top startups, and in 2005 was recruited by Kleiner Perkins, arguably the world’s leading venture capital firm at the time. In many ways, she did everything right, and yet she and other women and people of color were excluded from success—cut out of decisive meetings and email discussions, uninvited to CEO dinners and lavish networking trips, and had their work undercut or appropriated by male executives. It was time for a system reset. After Kleiner, Pao became CEO of reddit, where she took forceful action to change the status quo for the company and its product. She banned revenge porn and unauthorized nude photos—an action other large media sites later followed—and shut down parts of reddit over online harassment. She and seven other women tech leaders formed Project Include, an award-winning nonprofit for accelerating diversity and inclusion in tech. In her book, Pao shines a light on troubling issues that plague today’s workplace and lays out practical, inspiring, and achievable goals for a better future. Ellen K. Pao’s *Reset* is a rallying cry—the story of a whistleblower who aims to empower everyone struggling to be heard, in Silicon Valley and beyond. Praise for *Reset* “Necessary and incisive . . . As Ellen Pao detailed her experiences, while also communicating her passion for the work men often impeded her from doing, I was nothing short of infuriated. It was great to see a highly accomplished woman of color speaking out like this, and hopefully this book will encourage more women to come forward, give voice to their experiences in the workplace, and contribute to meaningful change.”—Roxane Gay

An honest, sharp-witted, practical guide to help you get and keep the job you want—from an outsider whose been there and done it, a woman who went from being a broke, divorced, college dropout to running some of the biggest websites in the world. Jennifer Romolini started her career as an awkward twenty-seven-year-old misfit, navigated her way through New York media and became a boss—an editor-in-chief, an editorial director, and a vice president—all within little more than a decade. Her book, *Weird In A World That's Not*, asserts that being outside-the-norm and achieving real, high-level success are not mutually exclusive, even if the perception of the business world often seems otherwise, even if it seems like only office-politicking extroverts are set up for reward. Romolini helps you face down your fears, find a career that's right for you, and get and keep a job.
