The Advanced Guide to Real Estate Investing

If you're interested in real estate investing, you may have noticed the lack of coverage it gets in mainstream financial media, while stocks, bonds, and mutual funds are consistently touted as the safest and most profitable ways to invest. On the other hand, real estate investment is something you can do on your own--without a large amount of money up front. Picking up where he left off in the bestselling ABC's of Real Estate Investing, McElroy reveals the next essential lessons and information that no serious investor can afford to miss. Building on the foundation of real estate investment 101, McElroy tells readers: How to think--and operate--like a real estate mogul How to identify and close expert deals Why multifamily housing is the best real estate investment out there How to surround yourself with a team that will help maximize your money How to avoid paying thousands in taxes by structuring property sales wisely Important projections about the future of real estate investment

The previous edition of this book is *The Complete Idiot's Guide to Real Estate Investing, Second Edition*. The book focuses heavily on commercial real estate investing, but given the absence of the word commercial in the title and elsewhere within the book, it was purchased by many whose interests in real estate were of a much smaller scale and involved residential income properties, as opposed to commercial real estate development. *The Complete Idiot's Guide to Commercial Real Estate Investing, Third Edition*, is retitled and slightly refocused to better target the intended audience aspiring commercial real estate investors/developers. What little coverage of residential income properties that existed in previous editions has been cut, and the remaining content has been updated to clearly reflect the focus on buying and selling commercial properties.

Unfortunately, many new agents set themselves up for failure by this approach to the business. A real estate professional's goal is to list and sell real estate. One of the primary keys to being successful is to identify those people who truly want or need to move, and find a way to meet with them. This concept of identifying and targeting likely buyers and sellers is called prospecting, and it is a process, not an event.
