Environmental Systems and Societies

This course book presents a lively resource full of case studies, extracts, quotations, statistics and activities to allow students to fully understand complex and controversial issues. It follows an approach that includes the wider aims of the IB through connections to TOK, international-mindedness and the IB learner profile. It has been written by an IB Consultant and Examiner and has been extensively reviewed by teachers, consultants and the IB. With material integrated to include international and historical perspectives, students will be encouraged to think critically and make connections to other subjects and to world issues. New edition available now - ISBN 978-0-19-838914-9

Environmental Systems & Societies SL

The brand new, reworked Environmental Systems and Societies (SL) TestPrep Workbook is here! With essential exam practice questions for IB Environmental Systems and Societies revision, this book gives an accurate and exam-aligned experience for students. NEW in this second edition: Self assessment tables for students to mark themselves against each assessment objective! Find out which question types need more practice. With high quality support for both papers, this TestPrep book in the Revise IB series helps students to familiarise themselves with their ESS SL exams set by the International Baccalaureate. Find out information about the format of the papers and the types of exam questions that are set. Students practise answering the questions by writing directly into the book, just like they do in the real exam. In addition, as they work through, there are strategies, hints and support for answering the questions. From some excellent and unique practice questions for Paper 1 to invaluable advice from the experts on how to tackle Paper 2, this book provides essential exam practice support for students revising for their IB ESS SL exams. Students will... Understand what to expect from their ESS exam papers such as question types, how questions are assessed and how marks are assigned, plus information about the assessment objectives See example answers to Paper 1- and Paper 2-style questions - with brand new, unseen sample answers to exam-style questions and answer analysis from the point of view of an examiner. Test themselves - with FOUR complete sets of exam-style Environmental Systems and Societies practice papers (the first set includes loads of additional tips, examiner commentary and support to guide students to achieve high marks; the second and third sets have fewer helpful prompts; the last set has no additional help and is designed so students can have a go at it themselves!). Check answers - with fully-worked solutions in the back of the book. Practice exam papers are one of the best ways to make sure students feel confident, reassured and prepared for their exams. With full sets of exam-style papers to work through, Environmental Systems and Societies: TestPrep Workbook is the perfect resource for students to use as part of their exam revision - whether this is before the mock exams or before the real thing. This book can be used from the first year of the Diploma Programme.

Environmental Systems and Societies for the IB Diploma

Developed directly with the IB, dedicated assessment support straight from the IB builds confidence, and student samples drive critical thought on constructing strong responses. The most comprehensive coverage of the core content Being Human, this course book will help learners grasp complex philosophical ideas and develop crucial thinking skills · The most comprehensive coverage of the core content Being Human, developed directly with the IB · Engage learners in the course, with excerpts from a range of philosophers spurring critical discussion · Help students understand exam achievement levels and progress attainment with clear student samples · Assessment support straight from the IB cements assessment potential · Support all learning styles and simplify complex philosophical ideas using clear visuals and illustrations · Reinforce all key ideas with integrated activities helping extend and deepen understanding About the series: IB Diploma Course Books are essential resource materials designed in cooperation with the IB to provide students with extra support through their IB studies. Course Books provide advice and guidance on specific course assessment requirements, mirroring the IB philosophy and providing opportunities for critical thinking.

Environmental Systems and Societies

This comprehensive and engaging text, developed in cooperation with the IB, follows the new curriculum for first assessment in 2022. With accessible, engaging lessons students will actively relate economics to real-world issues and the global economy. The international examples and case studies encourage students to analyse economics in terms of present-day challenges and concerns. Conceptual links are provided to help students understand the over-arching big questions that relate economics to the multi-faceted challenges of the world economy including how it works and changes over time. Through inquiry-based tasks and links to TOK and ATL activities students will gain a deep understanding of economics. Practice activities will develop the skills required to succeed in the IB assessment including exam-style questions and data response questions. Clear explanations will help students achieve assessment success. About the Series: Oxford's IB Diploma Course Books are essential resource materials designed in cooperation with the IB to provide students with extra support through their IB studies. Course Books provide advice and guidance on specific course assessment requirements, mirroring the IB philosophy and providing opportunities for critical thinking.

Extended Essay for the IB Diploma: Skills for Success

NEW YORK TIMES BESTSELLER For the first time ever, an international coalition of leading researchers, scientists and policymakers has come together to offer a set of realistic and bold solutions to climate change. All of the techniques described here - some well-known, some you may have never heard of - are economically viable, and communities throughout the world are already enacting them. From revolutionizing how we produce and consume food to educating girls in lower-income countries,

these are all solutions which, if deployed collectively on a global scale over the next thirty years, could not just slow the earth's warming, but reach drawdown: the point when greenhouse gasses in the atmosphere peak and begin to decline. So what are we waiting for?

IB Psychology Course Book

A new book for Paper 1, Prescribed Subject 4: Rights and Protest The renowned IB Diploma History series, combining compelling narratives with academic rigor. An authoritative and engaging narrative, with the widest variety of sources at this level, helping students to develop their knowledge and analytical skills.
