Strategies for Writers 2003

Each of the twenty chapters in Developing Writing is introduced by a topical reading selection incorporating the lesson's model structures, mechanics, and grammar points. Following each reading are activities designed for students to study composition, vocabulary, and spelling. The goal of this book is to take the student from the mechanics of basic sentence writing to the ability to construct a simple paragraph. Appendices include an irregular verb list, grammar rule index, and answer keys.

Developing Writing

This practice book for grammar and writing covers most content areas. Beginning with sentences and concluding with creative writing, students reinforce skills through a variety of exercises and tests.

Strategies for Writers 2003

If you are a teacher of grades K-6, you might be asking, "Should I teach grammar in my class on a daily basis? How would I go about doing this? And how can I teach grammar so it isn't boring to my kids?" In *Grammar Matters*, Lynne Dorfman and Diane Dougherty answer these questions and more. Using mentor texts as the cornerstone for how best to teach grammar, this book provides teachers with almost everything they need to get kids not only engaged but excited about learning grammar. Divided into four parts--Narrative Writing, Informational Writing, Opinion Writing, and Grammar Conversations--this hand reference provides practical teaching tips, assessment ideas, grammar definitions, and specific mentor texts to help students learn about parts of speech, idioms, usage issues, and punctuation. Through "Your Turn Lessons," conversations, conferences, and drafting, revising, and editing exercises, students will learn not only specific concepts but also how to reflect upon and transfer what they have learned to other writing tasks, no matter the subject. The "Treasure Chest of Children's Books" provides an extensive list of both fiction and nonfiction books that fit naturally into grammar instruction. Eight appendices provide even more resources, including information on homophones, using mentor texts to teach grammar and conventions, checklists, comma rules, help for ELL students, and a glossary of grammar terms. *Grammar Matters* links instruction to the Common Core State Standards and features quality, classroom-tested tools that help teachers provide their students with the gifts of grammar and literacy.

Strategies for Writers 2003

"Strongly recommend the book: a must-have" "Chapeau! Already on our trainee reading list." "Absolutely loving this! Inspirational, practical, so sensible and backed up by research. Well done, gentlemen, and thank you." The *Language Teacher Toolkit* is designed with both practising and trainee (pre-service) teachers in mind and uniquely bridges the gap between research and classroom practice. It is a comprehensive and clearly written handbook, particularly useful for teachers of modern foreign languages (world languages) who work in high schools (secondary education). Written by two highly-experienced teachers with an interest in research and theory, it offers a reflective approach along with many practical classroom activities which can immediately be applied in daily teaching. The book closes with sample lessons for French, German and Spanish. Chapters include: - methods - classroom oral techniques - teaching in the target language - developing spontaneous talk - teaching grammar and vocabulary - listening, reading and writing - subject knowledge - using song, drama and games - assessment - using pictures - teaching advanced level students - technology - behaviour and motivation - evaluating and writing resources - translation - lesson planning - example lesson plans The busy languages teacher can quickly find ideas for enhancing practice, while insightful consideration of research helps create a basis for personal development in the field. The authors are two internationally well-known bloggers in the field of language teaching and applied linguistics: Steve Smith is a former Head of Languages, taught languages for over 30 years, holds an MA in applied linguistics, writes the very popular resources site frenchteacher.net and the widely-read blog frenchteacher.net.com Dr Gianfranco Conti has taught languages for over twenty years, holds a PhD in applied linguistics, is an award-winning blogger and resource writer for TES and runs the popular interactive website language-gym.com
