

Modeling And Control In Air Conditioning Systems Energy And Environment Research In China

[#AC systems modeling](#) [#HVAC control strategies](#) [#energy efficient air conditioning](#) [#environmental impact HVAC](#) [#China research climate control](#)

This study delves into advanced modeling and control strategies specifically tailored for air conditioning systems. It examines their crucial role in enhancing energy efficiency and mitigating environmental impact, with a particular focus on current research and developments within China's rapidly evolving climate control sector.
