Every book in the New Testament, with the exception of Philemon, contains warnings about false teachings. Wolves in sheep's clothing pose a real threat to believers, and Scripture teaches us to mark and avoid them (Romans.18). However, there is substantial disagreement within the church regarding the biblical definitions of a "false teacher" and "false prophet". This debate is tied to differing views on the nature and continuation of the Holy Spirit's gifts, particularly the gifts of healing, prophecy, and tongues.

The Elephant to Hollywood

'Uproarious and unflinching' Mail on Sunday 'A truly incredible life story' The Sun 'Most memorable . . . told in a voice as distinctive as his spoken one' Independent 'Brims with his gift for genial anecdote' The Sunday Times * * * From the author of the bestselling *Blowing the Bloody Doors Off*, the original, definitive autobiography of British screen icon and legend Sir Michael Caine. It's been a long journey for Maurice Micklewhite - born with rickets in London's poverty-stricken Elephant & Castle - to the bright lights of Hollywood. With a glittering career spanning more than five decades and starring roles which have earned him two Oscars, a knighthood, and an iconic place in the Hollywood pantheon, the man now known to us as Michael Caine looks back over it all. Funny, warm, honest, Caine brings us his insider's view of Hollywood (where there's neither holly nor woods). He recalls the films, the legendary stars, the off-screen moments with a gift for story-telling only equalled by David Niven. Hollywood has been his home and his playground. But England is where his heart lies. And where he blames the French for the abundance of snails in his garden. A plaque now celebrates him at the Elephant in London. His handprint is one of only 200 since 1927 to decorate the hallowed pavement outside that mecca of Hollywood stars, Grauman's Chinese Theatre. A very British star, *The Elephant to Hollywood* is the remarkable full circle of Michael Caine's life.

What's It All About?

From Alfred to Zulu, Michael Caine has been Britain's best-loved actor for half a century. Now, for the first time, he reveals the truth behind his remarkable life. From his time as an evacuee during the Blitz to his front-line military service in the Korean War, from his early days as an assistant stagehand to becoming Peter O'Toole's understudy, from walk-on parts in local theatres to blowing the bloody doors off with his legendary roles in Zulu and The Italian Job, Caine's life was never simple or easy. Discussing his little-known childhood and family alongside his hard-fought journey from London to Hollywood, Caine writes with astonishing candour about the good years and the lean years, bringing his unique charm and humour to his anecdotes and memories of a sprawling movie-making career. If you worked in Hollywood in the last few decades, you've probably worked with Michael Caine - and his accounts of his relationships with other superstars, both on and offscreen, make this autobiography essential reading for any fan not just of Michael Caine, but of film in general.

A Life in Parts

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—American Journal of Psychiatry

West With the Night is the 1942 memoir by Beryl Markham, chronicling her experiences growing up in Kenya in the early 1900s, leading to a career as a bush pilot there. Markham chronicled her many adventures in this memoir. After living for many years in the United States, Markham moved back to Kenya in 1952, becoming for a time the most successful horse trainer in the country.

'Coveney is the only writer who could get under Smith's skin, capturing her steeliness and vulnerability' INDEPENDENT ON SUNDAY From her days as a star of West End comedy and revue, Dame Maggie's path has led to international renown and numerous accolades including two Academy Awards. Recently she has been as prominent on our screens as ever, with high-profile roles as the formidable Dowager Countess of Grantham in DOWNTON ABBEY, as Professor Minerva McGonagall in the HARRY POTTER movie franchise and as the eccentric Miss Shepherd in the film version of THE LADY IN THE VAN by Alan Bennett. Paradoxically she remains an enigmatic figure, rarely appearing in public and carefully guarding her considerable talent. Drawing on personal archives, interviews and encounters with the actress, as well as conversations with immediate family and dear friends, Michael Coveney's biography is a captivating portrait of the real Maggie Smith.

He was one of the world's true superstars, and the silver screen's most beloved James Bond. Sir Sean Connery - a proud Scotsman born in 1930 to a working-class family - died at home in the Bahamas on October 31, 2020. He left behind him a legacy to rival any actor. Connery bestrode Hollywood like a Colossus. He commanded some of the highest fees in the industry and was lauded by critics and the public alike. In July 2000, his unique contribution to the world of film was recognized when he was accorded a knighthood. John Parker traces the astonishing rise to stardom of a tough street kid from Edinburgh. The part of 007 became a monster that threatened to kill Connery as an actor; he escaped to establish himself as one of the world's most magnetic and commanding character actors, winning an Oscar for his role in iconic crime drama The Untouchables. The author has drawn on reminiscences of famous friends and colleagues, including Honor Blackman, Robert Hardy and Eric Sykes, to create an authoritative and entertaining portrait of a talented, complex actor - and, above all else, a magnificent man.

Piranesi lives in the House. Perhaps he always has. In his notebooks, day after day, he makes a clear and careful record of its wonders: the labyrinth of halls, the thousands upon thousands of statues, the tides that thunder up staircases, the clouds that move in slow procession through the upper halls. On Tuesdays and Fridays Piranesi sees his friend, the Other. At other times he brings tributes of food and waterlilies to the Dead. But mostly, he is alone. Messages begin to appear, scratched out in chalk on the pavements. There is someone new in the House. But who are they and what do they want? Are they a friend or do they bring destruction and madness as the Other claims? Lost texts must be found; secrets must be uncovered. The world that Piranesi thought he knew is becoming strange and dangerous

MORE HOPE. MORE HEART . . . MORE FOOL YOU. Matt and Sophia live in the same city, but they come from opposite sides of the track. By rights they should never have met. They definitely should never have fallen in love at first sight, of all clichés. But, to their great surprise, they do. That's the easy part. It's what to do next that they struggle with. Friends, family and circumstance are mostly against them. They betray themselves; then they betray each other. And in the end they learn, the hard way,

what it takes for love to survive. It's true what they say. Everybody hurts sometimes. But sometimes, too, the pain is worth it.

The Midnight Library

Winner of the National Book Awards Autobiography of the Year The long-awaited autobiography of one of Britain's best-loved actors Born the son of a Billingsgate market porter at the height of the Second World War, David Jason spent his early life dodging bombs and bullies, both with impish good timing. Giving up on an unloved career as an electrician, he turned his attention to acting and soon, through a natural talent for making people laugh, found himself working with the leading lights of British comedy in the 1960s and '70s: Eric Idle, Michael Palin, Bob Monkhouse and Ronnie Barker. Barker would become a mentor to David, leading to hugely successful stints in *Porridge* and *Open All Hours*. It wasn't until 1981, kitted out with a sheepskin jacket, a flat cap, and a clapped-out Reliant Regal, that David found the part that would capture the nation's hearts: the beloved Derek 'Del Boy' Trotter in *Only Fools and Horses*. Never a one-trick pony, he had an award-winning spell as TV's favourite detective Jack Frost, took a country jaunt as Pop Larkin in the *Darling Buds of May*, and even voiced a crime-fighting cartoon rodent in the much-loved children's show *Danger Mouse*. But life hasn't all been so easy: from missing out on a key role in *Dad's Army* to nearly drowning in a freak diving accident, David has had his fair share of ups and downs, and has lost some of his nearest and dearest along the way. David's is a touching, funny and warm-hearted story, which charts the course of his incredible five decades at the top of the entertainment business. He's been a shopkeeper and a detective inspector, a crime-fighter and a market trader, and he ain't finished yet. As Del Boy would say, it's all cushty.
