Sinners of Erspia

The Sinners of Erspia are the inhabitants of a bizarre world, ruled and guided by the hands of Ormazd and Ahriman, twin gods of good and evil. Histrina, a child of Ormazd, is taken by the evil hordes to a camp of terror where she meets Laedo, a man stranded far from his home. Together they start on a hallucinatory journey to understand and escape from the surreal world that holds them prisoner.

The Sinners of Erspia

The Sinners of Erspia are the inhabitants of a bizarre world, ruled and guided by the hands of Ormazd and Ahriman, twin gods of good and evil. Histrina, a child of Ormazd, is taken by the evil hordes to a world of terror where she meets Laedo, a man stranded far from his home. Together they start on a hallucinatory journey to understand and to escape from the surreal world that holds them prisoner. This is a novel about the susceptibility of the human mind and how it adapts to the extremes of terror and delight. A novel that could only have escaped from the astounding imagination of Barrington Bayley. "Bayley is the zen master of modern science fiction." -- Bruce Sterling "The most original SF writer of his generation." -- Michael Moorcock

The Unicorn Girl

Three races, two existing in the dreams of the third. One young woman must reunite them all. In so doing she will search the depths of her soul, cross time and space and descend to the darkest of all nights wherein lies the heart of all--The Source.

Night Seekers

This reference tracks the development of speculative fiction influenced by the advancement of science and the idea of progress from the eighteenth century to the present day. The major authors and publications of the genre and significant subgenres are covered. Additionally there are entries on fields of science and technology which have been particularly prolific in provoking such speculation. The list of acronyms and abbreviations, the chronology covering the literature from the 1700s through

the present, the introductory essay, and the dictionary entries provide science fiction novices and enthusiasts as well as serious writers and critics with a wonderful foundation for understanding the realm of science fiction literature. The extensive bibliography that includes books, journals, fanzines, and websites demonstrates that science fiction literature commands a massive following.

Fantasy Annual

Accurate and reliable biographical information essential to anyone interested in the world of literature. The International Who's Who of Authors and Writers offers invaluable information on the personalities and organizations of the literary world, including many up-and-coming writers as well as established names. With over 8,000 entries, this updated edition features:

- * Concise biographical information on novelists, authors, playwrights, columnists, journalists, editors, and critics
- * Biographical details of established writers as well as those who have recently risen to prominence
- * Entries detailing career, works published, literary awards and prizes, membership, and contact addresses where available
- * An extensive listing of major international literary awards and prizes, and winners of those prizes
- * A directory of major literary organizations and literary agents
- * A listing of members of the American Academy of Arts and Letters

Historical Dictionary of Science Fiction Literature

What is "urban"? How can it be described and contextualised? How is it used in theory and practice? Urban processes feature in key international policy and practice discourses. They are at the core of research agendas across traditional academic disciplines and emerging interdisciplinary fields. However, the concept of "the urban" remains highly contested, both as material reality and imaginary construct. The urban remains imprecisely defined. Defining the Urban is an indispensable guide for the urban transdisciplinary thinker and practitioner. Parts I and II focus on how "Academic Disciplines" and "Professional Practices," respectively, understand and engage with the urban. Included, among others, are Architecture, Ecology, Governance and Sociology. Part III, "Emerging Approaches," outlines how elements from theory and practice combine to form transdisciplinary tools and perspectives. Written by eminent experts in their respective fields, Defining the Urban provides a stepping stone for the development of a common language—a shared ontology—in the disjointed fields of urban research and practice. It is a comprehensive and accessible resource for anyone with an interest in understanding how urban scholars and practitioners can work together on this complex theme.

International Who's Who of Authors and Writers 2004

"A reliable guide to what science fiction is" Christopher Priest, award-winning science fiction author "A really good introduction to the genre" SFX Magazine "Perceptive and glorious" Ian Watson, author of the screenplay for Steve Spielberg's A.I. Want to become a science fiction buff? Want to expand your reading in your favourite genre? This is a good place to start! From the publishers of the popular Good Reading Guide comes a rich selection of some of the finest SF novels ever published. With 100 of the best titles fully reviewed and a further 500 recommended, you'll quickly become an expert in the world of science fiction. The book is arranged by author and includes some thematic entries and special categories such as SF film adaptations, SF in rock music and Philip K. Dick in the mass media. It also includes a history of SF and a new definition of the genre, plus lists of award winners and book club recommendations. Foreword by Christopher Priest, the multiple award-winning SF author.

Among the Sinners

"Science fiction literature, also known as sci-fi and sf, is one of the more recent and popular genres. It only truly emerged during the 20th century and has not stopped growing in terms of authors, titles, and readers. It has also evolved into a variety of subgenres, ranging from hard sf to soft sf and utopias to dystopias, with more than a smattering of horror, detective, war, and feminist titles. Stableford covers all of this and more, taking a close look at what has become a booming industry, with specialized writers, publishers, and fan magazines and literature from the United States, United Kingdom, France, Russia, and many other countries. The chronology charts the genre's dazzling growth; the introduction provides exceptional insight into what science fiction literature is all about; and the dictionary section examines writers, books, themes, and other specifics."--BOOK JACKET.

The Mammoth Book of Best New Horror

Essays on British writers of fantasy and science fiction discuss the changing attitudes towards this genre, including serious consideration by critics. Covers the publication of science fiction in comic books, limited productions of publications by fan presses, the difference between British and American science fiction, the birth of the New Wave, and the revival of horror fiction as a distinct genre.

Defining the Urban

A young draftee named Victor Willard goes AWOL in Germany after an altercation with a commanding officer. Porgy is an African-American GI involved with the international Black Panthers and German radicals. Victor and a female radical named Ana fall in love. They move into Ana's room in a squatted building near the US base in Frankfurt. The international campaign to free Black revolutionary Angela Davis is coming to Frankfurt. Porgy and Ana are key organizers and Victor spends his days and nights selling and smoking hashish, while becoming addicted to heroin. Police and narcotics agents are keeping tabs on them all. Politics, love, and drugs. Truths, lies, and rock and roll. All the Sinners, Saints is a story of people seeking redemption in a world awash in sin. This is the third novel in the Seventies series by Jacobs, and is a prequel to Short Order Frame Up (ISBN- 9780977459094) and Co-Conspirator's Tale (ISBN- 9780983206309).

100 Must-read Science Fiction Novels

ROTTA DI COLLISIONE (1973) Mentre l'umanità è dominata dai Titani, che si ritengono la nuova "razza pura"

The A to Z of Science Fiction Literature

Italy 1252. Inquisition. Accusation. Fear. Torture. The guilty and the innocent dying for sins real and imagined in the flames of the burning stake. Neilsville, 1978. Peter Blasam has come to this sleepy desert town to teach its youth, and finds a mystery of mounting horror. Something is happening to the young girls of St. Francis Xavier High School -- something evil. In bloodlet and terror a suicide contagion has swept the two... while a dark order of its holy men enacts a secret medieval ritual. Is hysteria manipulating these innocent children into violent self-destruction? Or has supernatural force, a thirteenth-century madness, returned to... Punish The Sinners.

British Fantasy and Science-fiction Writers Since 1960

Life was not possible on that watery world except on the Hundred Islands. The Empire of Arelia ruled them all - all except one. Peldain was entirely covered with a forest so impenetrable and so deadly that all attempts to explore it were disastrous. Then a man came out of that jungle - a human - who told the Arelians that at the center of the island a secret kingdom flourished. There was nothing for it but to organise an expedition. However deadly the alien forest might be, if one man could get out, an army could get in. So Lord Vorduthe landed and began the assault on the great green enemy. Nobody could have foreseen the horrors with which the forest defended itself. Nobody could have foreseen the price that would be paid by Vorduthe's men. And only Vorduthe himself would learn the incredible secret of the island...if his mind could stand it.

All the Sinners, Saints

When the Colonnaders plucked him from a life of misery and their surgeons rebuilt his twisted body with silicon bones, Joachim Boaz renamed himself after THE PILLARS OF ETERNITY. Now he seeks Meirjaih the Wanderer, a planet that plots its own course between stars: for on its surface lies a gem that offers mastery over time itself . . .

Rotta di collisione (Urania)

He was unique. Alone in a world that did not understand him, he tested the super powers of his mind and body. More than a machine, but less than a man, he searched restlessly for the truth. Before his quest was done, he had died and been reborn, had fought his way from a grim dungeon to a royal throne. Jasperodus, the only super-robot to have been granted consciousness, must decide whether to share his soul-possessing secrets with the other robots or to betray them to save mankind.

Punish the Sinners

Robot evolution has advanced to the point that intelligent robots have liberated themselves from servitude, defending themselves from servitude, defending themselves against the humans who work to exterminate them using super-machines. The ultimate hope of the most powerfully intelligent robots lies in the attainment of human consciousness. And they are willing to steal men's souls if they must, to get this final elusive quality for themselves. Only one free robot, Jasperodus, has been granted true consciousness - a soul - by his maker, now long dead. Brought into the soul research project by force, Jasperodus faces a moral dilemma: to release his secret and bring about the final downfall of humanity to a new race of super-robots, or to keep his own kind forever from the light of consciousness. And the mechanized armies of the humans press ever forward, seeking the robot hideout.

The Forest of Peldain

WE DEMAND THAT YOU HAND OVER THE OBJECT. Impossible. Ownership is in the hands of our clients. HUMAN OWNERSHIP OF THE OBJECT IS NOT ADMISSIBLE. STREALL CLAIM IS ABSOLUTE. YOU WILL NOTIFY US OF WHEREABOUTS It is already in transit. WE WILL INTERCEPT. NOTIFY. Your claim must be made through the courts. HUMAN COURTS MEAN NOTHING TO THE STREALL. EITHER YOU COMPLY OR TREALL FLEETS WILL OCCUPY YOUR SYSTEM.

The Pillars of Eternity

When empires hung on the turn of a card... Cheyne Scarne was a gambler - a lucky one. What he didn't know about randomatics wasn't worth knowing. He had brains to get right to the heart of the Grand Wheel - the syndicate that controlled all illegal activity in the planets under human control. But what Scarne had staked to get that far was chickenfeed compared to what he would risk to get into the real big time - the massive intergalactic combine that dwarfed the empires of mere men. For Scarne, double-crossing at every deal, had laid his life on the line to win a game where no one knew the value of the cards and the rules changed with every trick!

The Soul of the Robot

Karl Krabbe and Boris Bouche, partners, explorers, interstellar chancers, don't care much for the law. They don't care much for anything - except profit. Their staff bondman nuclear engineer Roncie Northrop doesn't care much about anything either, except that he's already tried to abscond from the control of the rapacious and illegally operating pair once. When K&B's exploration ship comes upon the small planet Tenacity, they see a good business opportunity. Tenacity is waterless, a desert planet. But it had water once, and they realize that with some adroit but spectacular geological engineering it can be given its oceans back. That suits the dominant lobster-like Tlixix fine. They are tired of living like aliens in their domed refuges. Of course, the numerous intelligent species which have evolved since the great dehydration will perish, but so what? As for Roncie, whose part in the project is crucial, he doesn't like it much, but what can he do? He's only a bondman. Krabbe and Bouche strike a deal, and business is business...

The Rod of Light

After The Knights of the Limits, here is a second collection of endlessly inventive stories by Barrington J. Bayley; dark fables resounding with sombre undertones - love used as a weapon, God assassinated by the ingenuity of man, the secret of death revealed, the inexplicable explained! Tales which will be pondered on, and remembered. Contains the following: Sporting with the Chid The God-Gun The Ship that Sailed the Ocean of Space The Radius RidersMan in Transit Wizard Wazo's Revenge The Infinite Searchlight Integrity Perfect Love The Countenance Life Trap Farewell Dear Brother The Seed of Evil

The Star Virus

Pout, the chimera, half-man, half-ape, was incorporated into one of the plants or vice versa. He was jammed into a squatting position, while the stems, entering at his buttocks, merged with his legs, his arms and his torso, emerging at knees, elbows, and through his abdomen and thorax. A large, yellow-petalled flower seemed to frame his face. It was his face that rivetted Ikematsu's attention, while the chimera squirmed in dumb distress, glaring with huge piteous eyes. For in that face, set into it as if set in pudding, was the zen gun. The gun was his face, or a part of it. The barrel pointed straight out in place of a nose... the stock merged with and disappeared into Pout's pendulous mouth. Ikematsu leaned toward the chimera. "How you loved your toy! Now it is truly yours!"

The Grand Wheel

The alien ruins that dotted Earth's landscape were an enigma. Archaeologist Rond Heshke dismissed as a ridiculous hoax the photographic evidence which suggested that the ruins disobeyed the laws of time. The Titanium Legions believed that the ruins had been left behind by an invading force from space, which had been repelled in a past age and whose imminent return was feared. It was not until the Titanium scientists perfected their time machines that the truth began to emerge piece by piece: that the builders of the ruins belonged not to the stars but to Earth's own future, and that the dreaded confrontation was indeed shortly due - not with aliens, but in a form more horrifying, more calamitous, than anything imaginable... For Earth was to be the victim of an extraordinary cosmic accident. Time itself was about to collide! Mankind's leaders became even more fanatical, pressing on with new plans, determined at all costs to survive...

The Great Hydration

INSTANT NEW YORK TIMES BESTSELLER "Fresh and exhilarating. . . Cosby keeps his eye on the story and the pedal to the metal." —Stephen King, *The New York Times Book Review* A Black sheriff. A serial killer. A small town ready to combust. The new novel from New York Times bestselling and Los Angeles Times Book Prize-winning author S. A. Cosby, "one of the most muscular, distinctive, grab-you-by-both-ears voices in American crime fiction." —Washington Post. "An atmospheric pressure cooker." —People Titus Crown is the first Black sheriff in the history of Charon County, Virginia. In recent decades, quiet Charon has had only two murders. But after years of working as an FBI agent, Titus knows better than anyone that while his hometown might seem like a land of moonshine, cornbread, and honeysuckle, secrets always fester under the surface. Then a year to the day after Titus's election, a school teacher is killed by a former student and the student is fatally shot by Titus's deputies. As Titus investigates the shootings, he unearths terrible crimes and a serial killer who has been hiding in plain sight, haunting the dirt lanes and woodland clearings of Charon. With the killer's possible connections to a local church and the town's harrowing history weighing on him, Titus projects confidence about closing the case while concealing a painful secret from his own past. At the same time, he also has to contend with a far-right group that wants to hold a parade in celebration of the town's Confederate history. Charon is Titus's home and his heart. But where faith and violence meet, there will be a reckoning. Powerful and unforgettable, *All the Sinners Bleed* confirms S. A. Cosby as "one of the most muscular, distinctive, grab-you-by-both-ears voices in American crime fiction" (*The Washington Post*).

The Seed of Evil

An invaluable source of information on the personalities and organizations of the literary world.

The Zen Gun

Join an unlikely hero as he watches *Moby-Dick* sink the *Pequod*, dodges cannibals on Robinson Crusoe's island, raises a glass with Beowulf, and literally goes to Hell and back. This rollicking adventure begins with a shipwreck on an island where notable characters of literature, history, and folklore coexist — Hamlet and Oedipus, Don Quixote and Doctor Faustus, Becky Sharp and Daniel Boone. From carousing with Robin Hood to crossing swords with the Green Knight and stealing a ride on Huck Finn's raft, our traveler, A. Clarence Shandon, undertakes a whirlwind tour of the classics. And just as the truths of great stories ennoble those who take them to heart, a selfish and cynical drifter is transformed into the gallant knight known as Silverlock. "Here in your hand is the stuff of wonder," declared science-fiction author Poul Anderson, adding, "There are few such glorious romps in all the world's literature, and surely none that surpass this one." Unjustly overlooked for decades, this book lover's book has developed a devoted cult following and richly deserves a wider audience. Whether or not you recognize its scores of literary allusions, you'll savor its wealth of battles, quests, romances, songs, and laughter.

Collision with Chronos

Strange Case of Dr Jekyll and Mr Hyde is a gothic novella by Scottish author Robert Louis Stevenson, first published in 1886. The work is also known as *The Strange Case of Dr Jekyll and Mr Hyde*, *Dr Jekyll and Mr Hyde*, or simply *Jekyll & Hyde*.

All the Sinners Bleed

Jed Brindle is an alien. At least, that's what they call him on Earth. He's really a colony-bred soldier - augmented with cyborg implants - with the Extraterrestrial Peacekeeping Force, fighting for control of what used to be the United States. When he and his squad are sent behind enemy lines on a kidnap operation, it isn't long before things start to go wrong. Marooned in the desert with two wounded comrades and his quarry, Jed's mission becomes not just a struggle for survival but also a journey to rediscover the quiet, reliable farm boy he was before he became a machine for killing. "...should be required reading for anyone who still subscribes to the popular, dangerous fantasy of the nobility of war." (Lisa Tuttle, *Time Out*) "It has been several years since a first novel has grabbed me the way Keith Brooke's *Keepers of the Peace* did. It's a well-crafted, very personal look at the way war changes (and doesn't change) a kid from the sticks ... It is smooth, clean and elegant; a very straightforward book whose writing recalls the 1950s Heinlein, telling the tale without getting in the way." (Tom Whitmore, *Locus*) "This is a very fine debut novel ... Recommended both for the vision of the future and the excellent characterisation." (Paul Brazier, *Nexus*) "Brooke balances action with introspection, the lyrical with a gritty documentary 'realism' in stark contrast to the usual shoot-'em-up adventure. Anyone who has thrilled to the exploits of lunar rebels or others among sf's doughty warriors should read *Keepers of the Peace* - as an antidote. It's a gripping story of challenge and skin-of-the-teeth survival, but it's also much more: an anti-war testament with a direct power that requires no preaching." (Faren Miller, *Locus*)

International Who's Who of Authors and Writers 2008

Brilliant, poetic, a master of fantastic symbolism and emotional portraiture, John Crowley is one of the finest contemporary American novelists. As Harold Bloom writes in his Preface to this book, "Crowley writes so magnificently that only a handful of living writers can equal him as a stylist . . . Of novelists, only Philip Roth consistently writes on Crowley's level." *Engine Summer*; *Little, Big*; *Aegypt*; *Great Work of Time*; *The Translator*: these are only the highlights of a twenty-five year literary career of extraordinary depth and eloquence. Yet Crowley has not been the subject of a full-length critical study until now; *Snake's-Hands* remedies this lack, in full. In *Snake's-Hands*, Alice K. Turner and Michael Andre-Driussi assemble a host of brilliant essays on the fiction of John Crowley, by such eminent writers and critics as John Clute, Thomas M. Disch, James Hynes, Brian Attebery, and Bill Sheehan. Explore with them Crowley's fantastic retellings of the Hundred Years' War and of innumerable beast fables; his subtle rendering of the bucolic decline of Earth; his astonishing, multi-leveled vision of the fairylands deep within mundane reality; his British Empire upon which the sun, heartbreakingly, never can set; his glowing, brooding trio of Hermetic masterpieces; his tale of poetry at war with nuclear annihilation. Wonders of artistry, the artistry of wonder: Crowley is a genius, and *Snake's-Hands* demonstrates this alluringly, in a potent mosaic of insights. *Snake's-Hands: The Fiction of John Crowley* is the essential guide to the work of a great writer, and a landmark of criticism in its own right.

Lords of Tsamra

"A massive series of powerful earthquakes on a worldwide scale reduce towns and cities to rubble and plunge the survivors into barbarism. Most of western Europe is dramatically uplifted, transforming the English Channel into a muddy desert, while elsewhere lands are plunged below sealevel and flooded. The protagonist is Matthew Cotter, a Guernsey horticulturalist who finds himself one of only a handful of survivors on the former island. Cotter decides to trek across the empty seabed to England, in the faint hope that his daughter has somehow survived. He finds the situation on the former mainland has descended to barbarism, with competing bands of scavengers preying on survivors. He and his companion, a young boy, finally make their way to the borders of Sussex, where his daughter was staying, only to discover that the land has slipped beneath the sea. Cotter, along with some survivors from the mainland, eventually returns to Guernsey."--Wikipedia.

Silverlock

The exposition of the faith of Mary, the mother of Jesus; Mary, the sister of Martha and Lazarus of Bethany; and Mary Magdalene and their lives after the crucifixion.

Dr Jekyll and Mr Hyde (Annotated)

This new collection of essays, commissioned from a range of scholars across the world, takes as its theme the reception of Rome's greatest poet in a time of profound cultural change. Amid the rise of Christianity, the changing status of the city of Rome, and the emergence of new governing classes,

Vergil remained a bedrock of Roman education and identity. This volume considers the different ways in which Vergil was read, understood and appropriated; by poets, commentators, Church fathers, orators and historians. The introduction outlines the cultural and historical contexts. Twelve chapters dedicated to individual writers or genres, and the contributors make use of a wide range of approaches from contemporary reception theory. An epilogue concludes the volume.

Keepers of the Peace

Three Dark Crowns meets Pretty Little Liars in this sensational and striking new fantasy from debut author Ellen Goodlett. Three girls. Three deadly secrets. Only one can wear the crown. The king is dying, his heir has just been murdered, and rebellion brews in the east. But the kingdom of Kolonya and the outer Reaches has one last option before it descends into leaderless chaos. Or rather, three unexpected options. Zofi has spent her entire life trekking through the outer Reaches with her band of Travelers. She would do anything to protect the band, her family. But no one can ever find out how far she's already gone. Akeylah was raised in the Eastern Reach, surrounded by whispers of rebellion and abused by her father. Desperate to escape, she makes a decision that threatens the whole kingdom. Ren grew up in Kolonya, serving as a lady's maid and scheming her way out of the servants' chambers. But one such plot could get her hung for treason if anyone ever discovers what she's done. When the king summons the girls, they arrive expecting arrest or even execution. Instead they learn the truth: they are his illegitimate daughters, and one must become his new heir. But someone in Kolonya knows their secrets, and that someone will stop at nothing to keep the sisters from their destiny... to rule. Magic, mystery, and blackmail abound in the first book of this sensational and striking fantasy duology.

Snake's Hands

The entertainment world lost several legendary stars and a host of other men and women involved in the performing arts in 2008. Notables who died include Heath Ledger, Barry Morse, Suzanne Pleshette, Bo Diddley, Tim Russert, Eartha Kitt, Beverly Garland and Isaac Hayes. Obituaries of these and other performers and filmmakers, musicians and producers, dancers and composers, writers and others associated with the performing arts who died in 2008 can be found in this comprehensive reference work. For each, the date, place, and cause of death are provided, along with a recap of their career and citations from major newspaper and periodical stories reporting the death. Filmographies are given for film and television performers, and photographs of many of the individuals are included. Individual books in this annual series are available dating back to 1994. A subscription plan is available for future issues.
