I work at a low-paying job and have ho-hum missionary sex with my long-term boyfriend, who calls me "pear shaped" (and not in a good way). I've never been with more than one man or explored myself sexually. That's for sexy, skinny girls. Girls with exciting lives. Girls I'm not. When a series of events send my life into a tailspin, I find myself at a mansion in the Hollywood Hills, locking eyes with a gorgeous, sexy stranger who sends my heart racing. Our first night together is one I'll never forget. Or the next. Shockingly, he wants to pay me lots of money just to have me as his personal sex goddess. Best of all, he's not the only one. Soon, I'm discovering my sexuality for the first time, caught up in the exciting, glamorous world of high-class escorting. I'm also discovering myself: the independent, sexy, confident woman I was meant to be. Trouble is, I can't give my body without giving my heart. I'm falling in love with more than one man, and they with me. I can't choose just one . . . Or can I? SET INCLUDES THE FOLLOWING BOOKS: BOOK 1: Ariella meets Brant, a sexy Olympic millionaire ski racer who rocks her world. But does he have a secret side? BOOK 2: Ariella continues her relationship with Brant, the sexy Olympic ski racer with a secret. But the lure of a mysterious billionaire beckons... BOOK 3: Ariella meets Sterling, the mysterious billionaire with a dark side. Will her feelings for him be enough to overcome his past? And what happens when Brant shows up again? BOOK 4: Ariella seduces Westcott, the wealthy, brooding artist who promises her the world. But when a man from her past shows up, who will she choose? BOOK 5: Ariella meets sexy identical twins who wine her and dine her... and more. But what happens when two men from her past reappear? And what will she say when one proposes? BOOK 6: Ariella must choose between the rich, sexy men who love her, each with his own (ahem) attributes. Which man finally wins her heart? Or does she walk away from them all? BOOK 7: Ariella finally chooses the man she will spend the rest of her life with. He's rich, sexy, successful, and gives her the best sex of her life. But can she forget the other men who also stole her heart? BOOK 8 (SOLD SEPARATELY): Ariella's love life is everything she's ever dreamed of: hot, steamy, and romantic. Life is perfect . . . until she meets her fiance's parents. Will they approve of her? And if they don't, will her relationship survive?

Jessica isn't half as innocent as she looks. She's a college student in a relationship with not one, but two handsome jocks who have extraordinarily little self-control. They want her all the time and aren't afraid to make their intentions known and she hasn't learned how to say no to either of them yet. This puts her in many, many compromising situations with both of them at the same time in many public places. It all started when she's dared to run through the hallways of her dorm wearing nothing, and then it just spirals to surrendering her first time in the library while someone watches, humiliating adventures in a moving car, and being touched on a hiking path. ~~~~~ PG Excerpt ~~~~~ Jessica can pinpoint the exact moment her exhibitionist kink started. In fact, she even remembers who started it. His name is John and he's just a guy in her school. She never really gets to know him beyond that point, but she remembers he was the one who jump started her kinks. The spinning bottle between them comes to a stop with the mouth pointed directly at her and John says, "I dare you to run across the hall naked." All nine pairs of eyes are on her suddenly. Her mouth opens and closes a few times. "I didn't say whether I wanted to do truth or dare," she argues. Her pulse races. "So you're going to chicken out?" one of the others teases. The other girls before her have been much braver, taking on their dares without batting an eye. Kendra's panties are still in front of her and Lawrence isn't wearing anything at all. It's only understandable that he has his hands folded in front of him, hiding his junk from view. Natalie still hasn't put her shirt back on from her challenge earlier. She's wearing her lace bra that is a size or two too small and Jessica thinks it's not really the guy's fault that their eyes keep drifting towards her. She's finding it hard not to look at her too. Her breasts are spilling out from the bra, pink nipple peeking from the edge. Nobody's looking at her now. They're all looking at Jessica.

Leaving Mac Behind

"My first telegram came Sep. 3 1942 that my son was missing in action. And the next telegram came Aug. 18 1943 that he was Declared Dead. Till this day I do not know what happened to him." Mrs. Ann M. Lyons, August 7, 1957. Between 1942 and 1944, nearly four hundred Marines virtually vanished in the jungles, seas, and skies of Guadalcanal. They were the victims of enemy ambushes and friendly fire, hard fighting and poor planning, their deaths witnessed by dozens or not at all. They were buried in field graves, in cemeteries as unknowns, or left where they fell. They were classified as "missing," as "not recovered," as "presumed dead." And in the years that followed, their families wondered at their fates and how an administrative decision could close the book on sons, brothers, and husbands without healing the wounds left by their absence. 'Leaving Mac Behind' reconstructs the lives, last moments, and legacies of some of these men. Original records, eyewitness accounts, and recent discoveries shed new light on the lost graves of Guadalcanal's missing Marines--and the ongoing efforts to bring them home.

Lost Fleet

The Alliance woke Captain John "Black Jack" Geary from cryogenic sleep to take command of the fleet in the century-long conflict against the Syndicate Worlds. Now Admiral Geary's victory has earned him the adoration of the people--and the enmity of politicians convinced that a living hero can be a very inconvenient thing. The war may be over, but Geary and his newly christened First Fleet have been ordered back into action to investigate the aliens occupying the far side of Syndic space and to determine how much of a threat they represent to the Alliance. And while the Syndic Worlds are no longer united, individually they may be more dangerous than ever before. Geary knows that members of the military high command and the government question his loyalty to the Alliance and fear his staging a coup--so he can't help but wonder if the fleet is being deliberately sent on a suicide mission."

The Lost Fleet: Courageous

The Lost Fleet continues its perilous journey home. Badly damaged and low on supplies, the Alliance Fleet is raiding Syndic mines for raw materials--and Captain "Black Jack" Geary hopes they can continue to remain one step ahead of their enemies. But the Syndics are the least of Geary's worries when he learns of the existence of aliens with the power to annihilate the human race.

The Odyssey of Sergeant Jack Brennan

"Jack Brennan is a Marine Corps sergeant whose infantry squad has been cleared to return home from a grueling deployment to Afghanistan. A few years prior, Sergeant Brennan lost one of his closest friends, a young combat veteran, to suicide and has vowed to do everything in his power to keep his Marines from a similar fate. On their last night in-country, Brennan shares his version of The Odyssey to help prepare his squad for the transition back to the home front. By retelling Homer's epic about Odysseus' difficult journey home after the Trojan War, and weaving in the stories of contemporary Marines, The Odyssey of Sergeant Jack Brennan powerfully conveys the profound challenges today's veterans face upon returning from combat even as it tells the oldest war story of all time."

The Lost Fleet: Beyond the Frontier: Dreadnaught

The Alliance woke Captain John “Black Jack” Geary from cryogenic sleep to take command of the fleet in the century-long conflict against the Syndicate Worlds. Vulcan's Forge

It begins deep beneath the Pacific Ocean, where a nuclear bomb strikes at the fiery hot heart of the earth. Churning, spewing boiling lava, a volcano rises with unnatural speed from the ocean floor -- the source of a new mineral that promises clean, limitless nuclear power. It continues in hot spots around the globe: Hawaii, where a secessionist movement is about to turn violent and the American army may be asked to fire on U.S. citizens; Washington, D.C., where the subway system becomes the site of a running gun battle; the Far East, where disrupted diplomatic negotiations jeopardize world peace; a rogue Russian submarine, circling the infant volcano. Caught in the middle is Philip Mercer, a geologist and a one-time commando with shady contacts in all the right (or is it wrong?) places. When Mercer learns that the daughter of an old friend is being kept under armed guard in a local hospital, he vows to rescue her, not knowing that this is the first step in unraveling the fantastic secrets of Vulcan's Forge.

Spear of the Emperor

Great new novel from Aaron Dembski-Bowden chronicling the story of the Emperor's Spears, a Space Marine Chapter on the edge of destruction, last watchmen over the Elara's Veil nebula. Now, the decisions of one man, Amadeus Kaias Incarius of the Mentor Legion, will determine the Chapter's fate... The scattered worlds of the Elara's Veil nebula were once protected by the oath of unity sworn by three mighty Chapters of the Adeptus Astartes. The Star Scorpions were undone by flaws in their genetic coding. The Celestial Lions were ravaged by the Inquisition for sins they did not commit. Now, after hundreds of years, only the Emperor's Spears still keep their vigil. They are barbarian watchmen against the Outer Dark; bloodied but unbroken in their long duty. Amadeus Kaias Incarius, a brother of the Mentor Legion, is commanded to cross the Great Rift and assess the Spears' war-readiness, only to be drawn into the chaotic plight of a depleted crusade on the Imperium's benighted frontier. The decisions he makes, far from the God-Emperor's light, will decide the fate of the war-torn Chapter.

One Lost Soul

"When a body is found on a lonely cliff top path, the angelic face of a murdered teenager lies facing the rising sun. Air Force Magazine

The Gurus came in peace, bearing gifts. They were a highly advanced, interstellar species who brought amazingly useful and sophisticated technology to the human race. There was, of course, a catch. The Gurus warned of a far more malevolent life form, beings who have hounded the Gurus from sun to sun, planet to planet, across the cosmos. Pundits have taken to calling them the Antagonists - or Antags - and they have already established a beachhead on Mars. In exchange for all they've done for us, the Gurus would now like our help. Enter Master Sergeant Michael Venn, a veteran Skyrine (a Marine who is specially trained for off-world combat) who is dropped onto the Red Planet with his band of brothers on a mission to take down as many Antags as possible. But from the moment they're dropped through the thin Martian atmosphere, their mission goes horribly, terribly wrong. From a group of female special ops Skyrynes with secret orders, to mysterious humans who've settled on Mars, to the overwhelming and highly-reinforced Antags themselves, Venn and his brothers will face impossible odds just to survive - let alone make it home alive.

War Dogs

A young fleet officer and a Marine stand together to defend their colony in the continuation of the powerful and action-packed *Genesis Fleet* saga from New York Times bestselling author Jack Campbell. In the three years since former fleet officer Rob Geary and former Marine Mele Darcy led improvised forces to repel attacks on the newly settled world of Glenlyon, tensions have only gotten worse. When one of Glenlyon's warships is blown apart trying to break the blockade that has isolated the world from the rest of human-colonized space, only the destroyer *Saber* remains to defend it from another attack. Geary's decision to take *Saber* to the nearby star Kosatka to safeguard a diplomatic mission is a risky interpretation of his orders, to say the least. Kosatka has been fighting a growing threat from so-called rebels--who are actually soldiers from aggressive colonies. When a "peacekeeping force" carrying thousands of enemy soldiers arrives in Kosatka's star system, the people of that world, including Lochan Nakamura and former "Red" Carmen Ochoa, face an apparently hopeless battle to

retain their freedom. It's said that the best defense is a good offense. But even if a bold and risky move succeeds, Geary and Darcy may not survive it...

Raven Sharpe

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Why I Write

In August 1943, to meet in secret with Major General Julian C. Smith and his principal staff officers of the 2d Marine Division, Vice Admiral Raymond A. Spruance, commanding the Central Pacific Force, flew to New Zealand from Pearl Harbor. Spruance told the Marines to prepare for an amphibious assault against Japanese positions in the Gilbert Islands in November. The Marines knew about the Gilberts. The 2d Raider Battalion under Lieutenant Colonel Evans F. Carlson had attacked Makin Atoll a year earlier. Subsequent intelligence reports warned that the Japanese had fortified Betio Island in Tarawa Atoll, where elite forces guarded a new bomber strip. Spruance said Betio would be the prime target for the 2d Marine Division.

Desolation Island (Aubrey-Maturin, Book 5)

Wells, the famous, bestselling author of such sensations as *The Time Machine* and *War of the Worlds* had actually invented a time machine. When H.G. Wells showed his friends his fantastic time machine he never suspected that his college friend, Leslie John Stevenson, was in truth the Jack the Ripper. But, when Scotland Yard detectives show up at Wells's house looking for Stevenson, he steals the machine and flees to the future 1979 San Francisco. Knowing that he was responsible for the infamous murderer's escape, Wells pursues the Ripper into the future. Once in San Francisco, Wells realizes that he must now save a city, and a particular lovely young woman, from a new reign of horror at the hands of the feared Terror of Whitechapel.

Avenging Son

The publication of *Jarhead* launched a new career for Anthony Swofford, earning him accolades for its gritty and unexpected portraits of the soldiers who fought in the Gulf War. It spawned a Hollywood movie. It made Swofford famous and wealthy. It also nearly killed him. Now with the same unrelenting intensity he brought to his first memoir, Swofford describes his search for identity, meaning, and a reconciliation with his dying father in the years after he returned from serving as a sniper in the Marines. Adjusting to life after war, he watched his older brother succumb to cancer and his first marriage disintegrate, leading

him to pursue a lifestyle in Manhattan that brought him to the brink of collapse. Consumed by drugs, drinking, expensive cars, and women, Swofford lost almost everything and everyone that mattered to him. When a son is in trouble he hopes to turn to his greatest source of wisdom and support: his father. But Swofford and his father didn't exactly have that kind of relationship. The key, he realized, was to confront the man—a philandering, once hard-drinking, now terminally ill Vietnam vet he had struggled hard to understand and even harder to love. The two stubborn, strong-willed war vets embarked on a series of RV trips that quickly became a kind of reckoning in which Swofford took his father to task for a lifetime of infidelities and abuse. For many years Swofford had considered combat the decisive test of a man's greatness. With the understanding that came from these trips and the fateful encounter that took him to a like-minded woman named Christa, Swofford began to understand that becoming a father himself might be the ultimate measure of his life. Elegantly weaving his family's past with his own present—nights of excess and sexual conquest, visits with injured war veterans, and a near-fatal car crash—Swofford casts a courageous, insistent eye on both his father and himself in order to make sense of what his military service meant, and to decide, after nearly ending it, what his life can and should become as a man, a veteran, and a father.
