The White Album

New York Times Bestseller: An "elegant" mosaic of trenchant observations on the late sixties and seventies from the author of *Slouching Towards Bethlehem* (The New Yorker). In this landmark essay collection, Joan Didion brilliantly interweaves her own "bad dreams" with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the "giddily splendid" Getty Museum in Los Angeles, the cool mountains of Bogotá, and the Jordanian Desert, where Bishop James Pike went to walk in Jesus's footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—"toy garden cities in which no one lives but everyone consumes"—and exposes the contradictions and compromises of the women's movement. In the iconic title essay, she documents her uneasy

state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in “a voice like no other in contemporary journalism,” *The White Album* is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award–winning author of *The Year of Magical Thinking* (The New York Times Book Review). Its power to electrify and inform remains undiminished nearly forty years after it was first published.

Collected Essays

Three essential works that redefined the art of journalism by “one of our sharpest and most trustworthy cultural observers” (The New York Times). In these masterpieces of razor-sharp reportage, the National Book Award–winning and New York Times–bestselling author proves herself one of the premier essayists of the twentieth century, “an articulate witness to the most stubborn and intractable truths of our time” (Joyce Carol Oates, The New York Times Book Review). *Slouching Towards Bethlehem*: America in the 1960s—a pivotal era of social change and generational divide. Here is Joan Didion on the “misplaced children” of Haight-Ashbury as well as John Wayne in Hollywood; folk singer Joan Baez and reclusive billionaire Howard Hughes; the extremes of both Death Valley and Las Vegas. Named to Time magazine’s list of the one hundred best and most influential nonfiction books, this is “a rare display of some of the best prose written today in this country” (The New York Times Book Review). *The White Album*: A New York Times bestseller, this landmark essay collection confronts the dark aftermath of the 1960s. From a jailhouse visit to Huey Newton, cofounder of the Black Panther Party, to a recording session with The Doors, from the culture of shopping malls to the contradictions of the women’s movement, Joan Didion captures the paranoia and absurdity of the era with irony and insight. And in the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. *After Henry*: Whether reporting on a Hollywood murder or the “sideshows” of foreign wars, Joan Didion crystalizes her reputation as a brilliant essayist. Highlights include a portrait of the White House under the Reagans, two “actors on location”; an unexpected meditation on the Patty Hearst case; and an exposé on the racial divisions and class fault lines of New York City following the rape of the Central Park jogger. An indispensable collection from a writer on whom we can rely “to get the story straight” (Los Angeles Times).

We Tell Ourselves Stories in Order to Live

Publisher description

Magic Circles

No one expressed the heart and soul of the Sixties as powerfully as the Beatles did through the words, images, and rhythms of their music. In *Magic Circles* Devin McKinney uncovers the secret history of a generation and a pivotal moment in twentieth-century culture. He reveals how the Beatles enacted the dream life of their time and shows how they embodied a kaleidoscope of desire and anguish for all who listened—hippies or reactionaries, teenage fans or harried parents, Bob Dylan or Charles Manson. The reader who dares to re-enter the vortex that was the Sixties will appreciate, perhaps for the first time, much of what lay beneath the social trauma of the day. Delving into concerts and interviews, films and music, outtakes and bootlegs, Devin McKinney brings to bear the insights of history, aesthetics, sociology, psychology, and mythology to account for the depth and resonance of the Beatles’ impact. His book is also a uniquely multifaceted appreciation of the group’s artistic achievement, exploring their music as both timeless expression and visceral response to their historical moment. Starting in the cellars of Liverpool and Hamburg, and continuing through the triumph of Beatlemania, the groundbreaking studio albums, and the last brutal, sorrowful thrust of the *White Album*, *Magic Circles* captures both the dream and the reality of four extraordinary musicians and their substance as artists. At once an entrancing narrative and an analytical montage, the book follows the drama, comedy, mystery, irony, and curious off-ramps of investigation and inquiry that contributed to one of the most amazing odysseys in pop culture.

Blue Nights

From one of America’s greatest and most iconic writers: an honest and courageous portrait of age and motherhood.

Let Me Tell You What I Mean

Twelve early pieces never before collected that offer an illuminating glimpse into the mind and process of Joan Didion.

Live and Learn

Live and Learn comprises three of the personal essay collections that established Joan Didion as a major figure in the modern canon ? arranged in chronological order so that readers can appreciate not only the qualities of the essays per se, but also their evolution over time. It also includes a new introduction by Joan Didion herself. modern classic, capturing the mood of 1960s America and especially the center of its counterculture, California. The cornerstone essay, an extraordinary report on San Francisco's Haight-Ashbury, sets the agenda for the rest of this book ? depicting and America where, in some way or another, things are falling apart and 'the center cannot hold'. The White Album (1979) is a syncopated, swirling mosaic of the 60s and 70s, covering people and artifacts from the Black Panthers and the Manson family to John Paul Getty's museum. Sentimental Journeys (1992) shifts its perspective slightly to take in Vietnamese refugee camps in Hong Kong, the Reagan campaign trail, and the inequities of Los Angeles real estate. Joan Didion, and an essential reference for readers old and new. It confirms the power of this uniquely unbiased, moving writer, and showcases her artful yet simple prose.

Scenes from Prehistoric Life

An invigorating journey through Britain's prehistoric landscape, and an insight into the lives of its inhabitants. 'Highly compelling' Spectator, Books of the Year 'An evocative foray into the prehistoric past' BBC Countryfile Magazine 'Vividly relating what life was like in pre-Roman Britain' Choice Magazine 'Makes life in Britain BC often sound rather more appealing than the frenetic and anxious 21st century!' Daily Mail In Scenes from Prehistoric Life, the distinguished archaeologist Francis Pryor paints a vivid picture of British and Irish prehistory, from the Old Stone Age (about one million years ago) to the arrival of the Romans in AD 43, in a sequence of fifteen profiles of ancient landscapes. Whether writing about the early human family who trod the estuarine muds of Happisburgh in Norfolk c.900,000 BC, the craftsmen who built a wooden trackway in the Somerset Levels early in the fourth millennium BC, or the Iron Age denizens of Britain's first towns, Pryor uses excavations and surveys to uncover the daily routines of our ancient ancestors. By revealing how our prehistoric forebears coped with both simple practical problems and more existential challenges, Francis Pryor offers remarkable insights into the long and unrecorded centuries of our early history, and a convincing, well-attested and movingly human portrait of prehistoric life as it was really lived.

The Year of Magical Thinking

From one of America's iconic writers, a portrait of a marriage and a life – in good times and bad – that will speak to anyone who has ever loved a husband or wife or child. A stunning book of electric honesty and passion.

After Henry

Incisive essays on Patty Hearst and Reagan, the Central Park jogger and the Santa Ana winds, from the New York Times–bestselling author of South and West. In these eleven essays covering the national scene from Washington, DC; California; and New York, the acclaimed author of Slouching Towards Bethlehem and The White Album “capture[s] the mood of America” and confirms her reputation as one of our sharpest and most trustworthy cultural observers (The New York Times). Whether dissecting the 1988 presidential campaign, exploring the commercialization of a Hollywood murder, or reporting on the “sideshow” of foreign wars, Joan Didion proves that she is one of the premier essayists of the twentieth century, “an articulate witness to the most stubborn and intractable truths of our time” (Joyce Carol Oates, The New York Times Book Review). Highlights include “In the Realm of the Fisher King,” a portrait of the White House under the stewardship of Ronald and Nancy Reagan, two “actors on location;” and “Girl of the Golden West,” a meditation on the Patty Hearst case that draws an unexpected and insightful parallel between the kidnapped heiress and the emigrants who settled California. “Sentimental Journeys” is a deeply felt study of New York media coverage of the brutal rape of a white investment banker in Central Park, a notorious crime that exposed the city’s racial and class fault lines. Dedicated to Henry Robbins, Didion’s friend and editor from 1966 until his death in 1979,

After Henry is an indispensable collection of “superior reporting and criticism” from a writer on whom we have relied for more than fifty years “to get the story straight” (Los Angeles Times).

Slouching Towards Bethlehem

The “dazzling” and essential portrayal of 1960s America from the author of *South and West* and *The Year of Magical Thinking* (The New York Times). Capturing the tumultuous landscape of the United States, and in particular California, during a pivotal era of social change, the first work of nonfiction from one of American literature’s most distinctive prose stylists is a modern classic. In twenty razor-sharp essays that redefined the art of journalism, National Book Award–winning author Joan Didion reports on a society gripped by a deep generational divide, from the “misplaced children” dropping acid in San Francisco’s Haight-Ashbury district to Hollywood legend John Wayne filming his first picture after a bout with cancer. She paints indelible portraits of reclusive billionaire Howard Hughes and folk singer Joan Baez, “a personality before she was entirely a person,” and takes readers on eye-opening journeys to Death Valley, Hawaii, and Las Vegas, “the most extreme and allegorical of American settlements.” First published in 1968, *Slouching Towards Bethlehem* has been heralded by the New York Times Book Review as “a rare display of some of the best prose written today in this country” and named to Time magazine’s list of the one hundred best and most influential nonfiction books. It is the definitive account of a terrifying and transformative decade in American history whose discordant reverberations continue to sound a half-century later.

The Illustrated Virago Book of Women Travellers

Women move through the world differently from men. The constraints and perils, the perceptions and complex emotions women journey with are different. For many women, the inner landscape is as important as the outer. This does not mean that the woman traveller is not politically aware, historically astute or in touch with the customs and language of the place, but it does mean that a woman cannot travel and not be aware of her body and the limitations her sex presents.

Salvador

El Salvador, 1982, is at the height of a ghastly civil war. Joan Didion travels from battlefields to body dumps, interviews a puppet president, considers the distinctly Salvadorean meaning of the verb ‘to disappear’ and trains a merciless eye not only on the terror there but also on the depredations and evasions of US foreign policy. *Salvador* is a restless and unflinching masterclass in the art of reportage by one of the great literary stylists of the twentieth century.

South and West: From A Notebook

From one of the most important chroniclers of our time, come two extended excerpts from her never-before-seen notebooks—writings that offer an illuminating glimpse into the mind and process of a legendary writer.

The White Album

This comprehensive edition brings together three seminal collections by legendary essayist and journalist Joan Didion: *Slouching toward Bethlehem*, *White Album* and *Sentimental Journeys*. **WE TELL OURSELVES STORIES IN ORDER TO LIVE** Looking for plausible stories as the Sixties are about to implode, Joan Didion sets out, notebook in hand, on a now-legendary journey into the hinterland of the American psyche: she kills time waiting for Jim Morrison to show up, parties with Janis Joplin, visits the Black Panthers in prison, watches a campus combust, dines with Tate and Polanski, buys dresses with Charlie Manson’s girls, and gravitates towards biker movies ‘because there on screen was some news I was not getting from the New York Times’. She and her reader emerge, cauterized, from this devastating tour of the myths and realities of that age of self-discovery into the harsh light of the morning after...

Political Fictions

NATIONAL BESTSELLER • In these coolly observant essays, the iconic bestselling writer looks at the American political process and at “that handful of insiders who invent, year in and year out, the narrative of public life.” Through the deconstruction of the sound bites and photo ops of three presidential campaigns, one presidential impeachment, and an unforgettable sex scandal, Didion

reveals the mechanics of American politics. She tells us the uncomfortable truth about the way we vote, the candidates we vote for, and the people who tell us to vote for them. These pieces build, one on the other, into a disturbing portrait of the American political landscape, providing essential reading on our democracy.

Where I Was From

A memoir of land, family and perseverance from one of the most influential writers in America.

Sentimental Journeys

In this latest foray into the ailing American psyche, Joan Didion takes her scalpel to inauthenticity and dogma, and lays bare the discrepancies between urban realities and the images peddled by America's attendant quack doctors. Like its great predecessors, 'Slouching Towards Bethlehem' and 'The White Album', 'Sentimental Journeys' is a thoroughly astringent, bracing report on the State of the Union.

Postmodern Humanism in Contemporary Literature and Culture

Davis and Womack investigate the emerging gaps between literary scholarship and the reading experience. The idea of reconciling the void - the locus of our sociocultural disillusionment and despair in an uncertain world - concerns explicit artistic attempts to represent the ways in which human beings seek out meaning, hope and community.

The David Foster Wallace Reader

His nonfiction includes Consider the Lobster and A Supposedly Fun Thing I'll Never Do Again. He died in 2008.

Play It as It Lays

A "scathing novel" of one woman's path of self-destruction in 1960s Hollywood—by the New York Times—bestselling author of The White Album (The Washington Post Book World). Spare, elegant, and terrifying, Play It as It Lays is the unforgettable story of a woman and a society come undone. Raised in the ghost town of Silver Wells, Nevada, Maria Wyeth is an ex-model and the star of two films directed by her estranged husband, Carter Lang. But in the spiritual desert of 1960s Los Angeles, Maria has lost the plot of her own life. Her daughter, Kate, was born with an "aberrant chemical in her brain." Her long-troubled marriage has slipped beyond repair, and her disastrous love affairs and strained friendships provide little comfort. Her only escape is to get in her car and drive the freeway—in the fast lane with the radio turned up high—until it runs out "somewhere no place at all where the flawless burning concrete just stopped." But every ride to nowhere, every sleepless night numbed by pills and booze and sex, makes it harder for Maria to find the meaning in another day. Told with profound economy of style and a "vision as bleak and precise as Eliot's in 'The Wasteland'," Play It as It Lays ruthlessly dissects the dark heart of the American dream (The New York Times). It is a searing masterpiece "from one of the very few writers of our time who approaches her terrible subject with absolute seriousness, with fear and humility and awe" (Joyce Carol Oates, The New York Times Book Review).

Miami

An astonishing account of Cuban exiles, CIA informants, and cocaine traffickers in Florida by the New York Times—bestselling author of South and West. In Miami, the National Book Award—winning author

of *The Year of Magical Thinking* looks beyond postcard images of fluorescent waters, backlit islands, and pastel architecture to explore the murkier waters of a city on the edge. From Fidel Castro and the Bay of Pigs invasion to Lee Harvey Oswald and the Kennedy assassination to Oliver North and the Iran–Contra affair, Joan Didion uncovers political intrigues and shadowy underworld connections, and documents the US government's "seduction and betrayal" of the Cuban exile community in Dade County. She writes of hotels that offer "guerrilla discounts," gun shops that advertise Father's Day deals, and a real-estate market where "Unusual Security and Ready Access to the Ocean" are perks for wealthy homeowners looking to make a quick escape. With a booming drug trade, staggering racial and class inequities, and skyrocketing murder rates, Miami in the 1980s felt more like a Third World capital than a modern American city. Didion describes the violence, passion, and paranoia of these troubled times in arresting detail and "beautifully evocative prose" (*The New York Times Book Review*). A vital report on an immigrant community traumatized by broken dreams and the cynicism of US foreign policy, *Miami* is a masterwork of literary journalism whose insights are timelier and more important than ever.

A Life of Picasso Volume IV

'A masterpiece' *Sunday Times* 'Magisterial... thrilling' *Guardian* 'Terrifically enjoyable' *Daily Telegraph*
The beautifully illustrated, long-awaited final volume of John Richardson's magisterial *Life of Picasso*, drawing on original research from interviews and never-before-seen material in the Picasso family archives. The *Minotaur Years* opens in 1933 with a visit by the Hungarian-French photographer Brassai to Picasso's château in Normandy, Boisgeloup, where he would take his iconic photographs of the celebrated plaster busts of Picasso's lover Marie-Thérèse Walter. Picasso was contributing to André Breton's *Minotaur* magazine and spending time with the likes of Man Ray, Salvador Dalí, Lee Miller, and the poet Paul Éluard, in Paris and the south of France. It was during this time that Picasso began writing surrealist poetry and became obsessed with the image of himself as the mythic Minotaur. Richardson shows us the artist being as prolific as ever, painting Walter, as well as the surrealist photographer Dora Maar, who became a muse, collaborator and lover. The bombing of *Guernica* in April 1937 would inspire Picasso's vast masterwork of the same name, which he painted in just a few weeks for the Spanish Pavilion at the Paris World's Fair. When the Nazis occupied Paris in 1940, Picasso chose to remain in the city despite the threat that his art would be confiscated. In 1943, Picasso met Françoise Gilot who would replace Maar and inspire a brilliant new sequence of paintings. As always, Richardson tells Picasso's story through his work, analysing how it shows what the artist was feeling and thinking. His fascinating and illuminating narrative immerses us in one of the most exciting moments in twentieth-century cultural history, and brings to a close the definitive and critically acclaimed biography of one of the world's most celebrated artists.

Ghostlier Demarcations

Why do modern poets quote from dictionaries in their poems? How has the tape recorder changed the poet's voice? What has shopping to do with Gertrude Stein's aesthetics? These and other questions form the core of *Ghostlier Demarcations*, a study of modern poetry as a material medium. One of today's most respected critics of twentieth-century poetry and poetics, Michael Davidson argues that literary materiality has been dominated by an ideology of modernism, based on the ideal of the autonomous work of art, which has hindered our ability to read poetry as a socially critical medium. By focusing on writing as a palimpsest involving numerous layers of materiality—from the holograph manuscript to the printed book—Davidson exposes modern poetry's engagement with larger historical forces. The palimpsest that results is less a poem than an arrested stage of writing in whose layers can be discerned ghostly traces of other texts. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1997.

The Last Thing He Wanted

The first novel in over a decade from perhaps the most admired writer in America.

Black Swans

"Babitz's talent for the brilliant line, honed to a point, never interferes with her feel for languid pleasures." —The New York Times Book Review A new reissue of Babitz's collection of nine stories that look back on the 1980s and early 1990s—decades of dreams, drink, and glimpses of a changing world. Black Swans further celebrates the phenomenon of Eve Babitz, cementing her reputation as the voice of a generation. With an introduction by Stephanie Danler, bestselling author of *Sweetbitter*. "On the page, Babitz is pure pleasure—a perpetual-motion machine of no-stakes elation and champagne fizz." —The New Yorker

The Routledge Handbook of Literature and Space

The "spatial turn" in literary studies is transforming the way we think of the field. The Routledge Handbook of Literature and Space maps the key areas of spatiality within literary studies, offering a comprehensive overview but also pointing towards new and exciting directions of study. The interdisciplinary and global approach provides a thorough introduction and includes thirty-two essays on topics such as: Spatial theory and practice Critical methodologies Work sites Cities and the geography of urban experience Maps, territories, readings. The contributors to this volume demonstrate how a variety of romantic, realist, modernist, and postmodernist narratives represent the changing social spaces of their world, and of our own world system today.

The Hero And the Blues

In this visionary book, Murray takes an audacious new look at black music and, in the process, succeeds in changing the way one reads literature. Murray's subject is the previously unacknowledged kinship between fiction and the blues. Both, he argues, are virtuoso performances that impart information, wisdom, and moral guidance to their audiences; both place a high value on improvisation; and both fiction and the blues create a delicate balance between the holy and the obscene, essential human values and cosmic absurdity. Encompassing artists from Ernest Hemingway to Duke Ellington, and from Thomas Mann to Richard Wright, *The Hero and the Blues* pays homage to a new black aesthetic.

The Last Love Song

In *The Last Love Song*, Tracy Daugherty, the critically acclaimed author of *Hiding Man* (a New Yorker and New York Times Notable book) and *Just One Catch*, and subject of the hit documentary *The Center Will Not Hold* on Netflix delves deep into the life of distinguished American author and journalist Joan Didion in this, the first printed biography published about her life. Joan Didion lived a life in the public and private eye with her late husband, writer John Gregory Dunne, whom she met while the two were working in New York City when Didion was at *Vogue* and Dunne was writing for *Time*. They became wildly successful writing partners when they moved to Los Angeles and co-wrote screenplays and adaptations together. Didion is well-known for her literary journalistic style in both fiction and non-fiction. Some of her most-notable work includes *Slouching Towards Bethlehem*, *Run River*, and *The Year of Magical Thinking*, a National Book Award winner and shortlisted for the Pulitzer Prize. It dealt with the grief surrounding Didion after the loss of her husband and daughter. Daugherty takes readers on a journey back through time, following a young Didion in Sacramento through to her adult life as a writer interviewing those who know and knew her personally, while maintaining a respectful distance from the reclusive literary great. *The Last Love Song* reads like fiction; lifelong fans, and readers learning about Didion for the first time will be enthralled with this impressive tribute.

Run River

The iconic writer's electrifying first novel is a story of marriage, murder and betrayal that only she could tell with such nuance, sympathy, and suspense—from the bestselling, award-winning author of *The Year of Magical Thinking* and *Let Me Tell You What I Mean*. Everett McClellan and his wife, Lily, are the great-grandchildren of pioneers, and what happens to them is a tragic epilogue to the pioneer experience—a haunting portrait of a marriage whose wrong turns and betrayals are at once absolutely idiosyncratic and a razor-sharp commentary on the history of California.

Vintage Didion

The perfect introduction to one of our greatest modern writers: Joan Didion "has the instincts of an exceptional reporter and the focus of a historian, [with] a novelist's appreciation of the surreal" (Los Angeles Times Book Review). Whether she's writing about civil war in Central America, political scurrility in Washington, or the tightly-braided myths and realities of her native California, Joan Didion expresses an unblinking vision of the truth. Vintage Didion includes three chapters from Miami; an excerpt from Salvador; and three separate essays from After Henry that cover topics from Ronald Reagan to the Central Park jogger case. Also included is "Clinton Agonistes" from Political Fictions, and "Fixed Opinions, or the Hinge of History," a scathing analysis of the ongoing war on terror.

Everyman's Library American Contemporaries

This collection of beautiful, enduring hardcover editions features modern American masterpieces, including works by Nobel Prize and National Book Award winners. With elegant cloth sewn bindings, gold stamped covers, and silk ribbon markers, these classics are an essential for any home library. Titles included: *Beloved* by Toni Morrison *The Border Trilogy* by Cormac McCarthy *Rabbit Angstrom* by John Updike *Revolutionary Road*; *The Easter Parade*; *Eleven Kinds of Loneliness* by Richard Yates *We Tell Ourselves Stories in Order to Live* by Joan Didion

The Year of Magical Thinking

[In this book, the author] explores an intensely personal yet universal experience: a portrait of a marriage - and a life, in good times and bad - that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later - the night before New Year's Eve - the Dunnes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This ... book is Didion's attempt to make sense of the "weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself."--Jacket.

Joan Didion: The 1960s & 70s (LOA #325)

Library of America launches a definitive collected edition of one of the most original and electric writers of our time with a volume gathering her five iconic books of the 1960s & 70s Joan Didion's influence on postwar American letters is undeniable. Whether writing fiction, memoir, or trailblazing journalism, her gifts for narrative and dialogue, and her intimate but detached authorial persona, have won her legions of readers and admirers. Now Library of America launches its multi-volume edition of Didion's collected writings, prepared in consultation with the author, that brings together her fiction and nonfiction for the first time. Collected in this first volume are Didion's five iconic books from the 1960s and 1970s: *Run River*, *Slouching Towards Bethlehem*, *Play It As It Lays*, *A Book of Common Prayer*, and *The White Album*. Whether writing about countercultural San Francisco, the Las Vegas wedding industry, Lucille Miller, Charles Manson, or the shopping mall, Didion achieves a wonderful negative sublimity without condemning her subjects or condescending to her readers. Chiefly about California, these books display Didion's genius for finding exactly the right language and tone to capture America's broken twilight landscape at a moment of headlong conflict and change.

The Cross of Redemption

"Baldwin on race is Baldwin on the white American psyche.... The Cross of Redemption becomes an absorbing portrait of Baldwin's time—and of him." —New York Review of Books A revelation by an American literary master: a gathering of essays, articles, polemics, reviews, and interviews

that have never before appeared in book form. James Baldwin was one of the most brilliant and provocative literary figures of the past century, renowned for his fierce engagement with issues haunting our common history. In *The Cross of Redemption* we have Baldwin discoursing on, among other subjects, the possibility of an African-American president and what it might mean; the hypocrisy of American religious fundamentalism; the black church in America; the trials and tribulations of black nationalism; anti-Semitism; the blues and boxing; Russian literary masters; and the role of the writer in our society. Prophetic and bracing, *The Cross of Redemption* is a welcome and important addition to the works of a cosmopolitan and canonical American writer who still has much to teach us about race, democracy, and personal and national identity. As Michael Ondaatje has remarked, "If van Gogh was our nineteenth-century artist-saint, Baldwin [was] our twentieth-century one."

Abroad

A book about the meaning of travel, about how important the topic has been for writers for two and a half centuries, and about how excellent the literature of travel happened to be in England and America in the 1920s and 30s.

Democracy

From the bestselling, award-winning author of *The Year of Magical Thinking* and *Let Me Tell You What I Mean*—a gorgeously written, bitterly funny look at the relationship between politics and personal life. Moving deftly between romance, farce, and tragedy, from 1970s America to Vietnam to Jakarta, *Democracy* is a tour de force from a writer who can dissect an entire society with a single phrase. Inez Victor knows that the major casualty of the political life is memory. But the people around Inez have made careers out of losing track. Her senator husband wants to forget the failure of his last bid for the presidency. Her husband's handler would like the press to forget that Inez's father is a murderer. And, in 1975, America is doing its best to lose track of its one-time client, the lethally hemorrhaging republic of South Vietnam. As conceived by Joan Didion, these personages and events constitute the terminal fallout of democracy, a fallout that also includes fact-finding junkets, senatorial groupies, the international arms market, and the Orwellian newspeak of the political class.
