Intro

Why we focus on faith, family, and science

Acknowledging what we do, do not, and are not meant to know

When Jesus met the Pharisees, the central principle

We manifest proportional realities to fit our damaged personal truths

"My father never said he was proud of me"

Be who you are on purpose and live with intention

If you're an immature hedonist...

Negotiate toward everyone's best outcome

Consciously choose which voices in your life deserve attention

Who are you? Getting past the default answers

Why your sexual identity is not "who you are"

Base your secular thoughts on empirical fact

It's incredibly difficult to breach a well structured delusion

Why change is so hard: "after tyranny waits the desert"

The difference between questioning and deconstructing

We don't all use the same currency, Chris Voss and negotiation techniques

Bottom up learning, parenting, and relationships

We screwed up during the pandemic, "hell, Lassie could figure this one out"

Meritocracy vs. the fringe, the psychopathy of virtualization

The obvious contagion effect of transgenderism

It's more than just silence, the medical establishments complicit and lying

Governments are creating social contagions via progressive policies

Why are academics, doctors, and experts backing pseudo-science?

Dr. Phil is a danger to the mainstream narrative... good.
