Wishing You a Happy, Successful, Incredible Life!: Positive Words about All the Things That Matter Most

This delightful book is a must for anyone who would love to have a reminder of how rich and wonderfully abundant your everyday life can be. Author Douglas Pagels has it right when he says, "Success is so much more than most people imagine it to be." Every person who has a reason to feel grateful for the day--in some special way--already knows that money doesn't always equate with happiness... but there are many things that do. In terms of real success, nothing compares with the priceless things that make us smile inside and that bring goodness and gratitude in our lives. Pagels' wise, insightful words celebrate all the gifts that can bring us true and lasting happiness... the people we hold dear, the deeply meaningful ways we can be, and the beautiful blessings we can all receive. In a positive, supportive way, the author takes us through a wonderful checklist of the things that matter most, and he gives us a heartwarming look at all the things we have to look forward to.

Happiness Through Hardship

Does your diagnosis have you desperate as to what to do next? Shocked, scared and practically paralyzed with your next steps? Help is here in this brilliant, quick and simplified book backed with the best advice from a two-time cancer survivor who walked in similar shoes. Like a good friend holding your hand, Caryn Sullivan's Happiness through Hardship is written in support of cancer patients, their caregivers and/or friends who need direction during the first few weeks after diagnosis. This cancer-surviving guide book empowers readers to take immediate steps for being prepared, less-stressed and able to find a little joy within the journey. Happiness through Hardship directs those

facing an initial cancer diagnosis with positivity and hope. Structured with thoughtful tips and anecdotes, this short book provides gentle guidance from the first few days to the thickness of treatments, and includes a journal and note-taking pages to be used as a reference during doctor appointments and meetings. After her own cancer diagnosis, Caryn understands the importance of a book that's easily digestible and not overwhelmingly long. Her insight provides a little light during the darker days. The first few weeks after diagnosis are often most challenging. Caryn was blessed to have three angels, Ellen Cavauiolo, Mary Ann Wasil and Meghan Zucker guide her throughout the early days. This book is dedicated to them and half the proceeds will be donated to metastatic breast cancer research through The Cancer Couch Foundation.

The Sunday Times Bestseller 'Really brilliant and just crammed with wisdom and insight. It will genuinely make a difference to me and the way I think about myself.' Stephen Fry ____ Everyone says they want to be happy. But that's much more easily said than done. What does being happy actually mean? And how do you even know when you feel it? In Happy Derren Brown explores changing concepts of happiness - from the surprisingly modern wisdom of the Stoics and Epicureans in classical times right up until today, when the self-help industry has attempted to claim happiness as its own. He shows how many of self-help's suggested routes to happiness and success - such as positive thinking, self-belief and setting goals - can be disastrous to follow and, indeed, actually cause anxiety. Happy aims to reclaim happiness and to enable us to appreciate the good things in life, in all their transient glory. By taking control of the stories we tell ourselves, by remembering that 'everything's fine' even when it might not feel that way, we can allow ourselves to flourish and to live more happily. ____ What readers are saying: ***** 'Immensely positive and life-affirming' ***** 'This is the blue print to a good life' ***** 'Thought provoking and potentially life-changing.'

Happy

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will

be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.
