The Old Man and Me

A sly, funny novel about an American girl trying to make it in 1960s London—and discovering that she's in over head. In *The Dud Avocado*, Elaine Dundy revealed the life of the young expatriate in Paris in all its hilarious and heartbreaking drama. With *The Old Man and Me*, written when Dundy was living in England in the early 1960s, she tackles the American girl in London, a bit older but certainly no wiser. Honey Flood (if that's her real name) arrives in London with only her quick wits and a scheme. To get what she wants, she'll have to seduce the city's brightest literary star, no matter how many would-be bohemians she has to charm, how many smoky jazz clubs she has to brave, or how many Lady Something-Somethings she has to humor. But with success within her reach, Honey finds that in making the Soho scene, she's made a big mistake.

The Old Man And Me

There's love, and there's revenge. Betsy Lou Saegessor is bent on revenge. Her father is dead, and to top it off, the vast fortune that should have been hers has ended up, through the second marriage of her now deceased stepmother, in the bank account of the legendary and elusive Englishman, C.D. McKee. So Betsy sets out from New York to seduce and betray him. C.D. is fat and ugly - but boy is he sexy. Betsy follows him through the night clubs of London, grooving to jazz, smoking hash - and plotting murder. A wickedly funny novel about falling in love -- with an Old Man and the Old World -- despite the best intentions.

Life Itself!

Author of the celebrated and hilarious *THE DUD AVOCADO*, the classic novel about a young American ingenue in Paris, Elaine Dundy was born in New York in the 1930s. Her first years were spent in an apartment on Park Avenue until the stock market crash wiped out most of the family's money. She went to university in the south where, among other studies, she worked hard at losing her virginity. Deciding the stage was her true home, Elaine Dundy headed first to Paris and then to London, where she met and married the famous theatre critic Kenneth Tynan. Though their union was intoxicating, it was far

from easy and the successful publication in 1958 of her novel finished off the marriage. But it was the opening of a new world of writers for Elaine Dundy, including friendships with Tennessee Williams, Hemingway and Gore Vidal. Extremely funny and extraordinarily honest this wonderfully remembered story of growing up in America is as much a tonic as life itself.

The Dud Avocado

'One of the funniest books I've ever read' - Gore Vidal * The Dud Avocado gained instant cult status on first publication and remains a timeless portrait of a woman hellbent on living. It is, as the Guardian observes, 'one of the best novels about growing up fast'. Sally Jay Gorce is a woman with a mission. It's the 1950s, she's young, and she's in Paris. Having dyed her hair pink, she wears evening dresses in the daytime and vows to go native in a way not even the natives can manage. Embarking on an educational programme that includes an affair with a married man (which fizzles out when she realises he's single and wants to marry her); nights in cabarets and jazz clubs in the company of assorted "citizens of the world"; an entanglement with a charming psychopath; and a bit part in a film financed by a famous matador. But an education like this doesn't come cheap. Will our heroine be forced back to the States to fulfill her destiny as a librarian, or can she keep up her whirlwind Parisian existence? * A champagne cocktail ... Rich, invigorating, and deceptively simple to the taste ... One falls for Sally Jay Gorce from a great height from the first sentence - Observer As delightful and delicate an examination of how it is to be twenty and in love and in Paris as I've ever read - Sunday Times I had to tell someone how much I enjoyed The Dud Avocado. It made me laugh, scream, and guffaw (which, incidentally, is a great name for a law firm). - Groucho Marx Books included in the VMC 40th anniversary series include: Frost in May by Antonia White; The Collected Stories of Grace Paley; Fire from Heaven by Mary Renault; The Magic Toyshop by Angela Carter; The Weather in the Streets by Rosamond Lehmann; Deep Water by Patricia Highsmith; The Return of the Soldier by Rebecca West; Their Eyes Were Watching God by Zora Neale Hurston; Heartburn by Nora Ephron; Memento Mori by Muriel Spark; A View of the Harbour by Elizabeth Taylor; and Faces in the Water by Janet Frame

The Dud Avocado

Having made a vow to go native in a way the natives never had the stamina for, Sally Jay Gorce is busy getting drunk, having affairs, losing her money, passport and pearls. This is the timeless account of a woman hell-bent on living.

Elvis and Gladys

Who on the planet doesn't know that Elvis Presley gave electrifying performances and enthralled millions? Who doesn't know that he was the King of Rock 'n' Roll? But who knows that the King himself lived in the thrall of one dominant person? This was Gladys Smith Presley, his protective, indulgent, beloved mother. Elvis and Gladys, one of the best researched and most acclaimed books on Elvis's early life, reconstructs the extraordinary role Gladys played in her son's formative years. Uncovering facts not seen by other biographers, Elvis and Gladys reconstructs for the first time the history of the mother and son's devoted relationship and reveals new information about Elvis—his Cherokee ancestry, his boyhood obsession with comic books, and his early compulsion to rescue his family from poverty. Coming to life in the compelling narrative is the poignant story of a unique boy and the maternal tie that bound him. It is at once an intimate psychological portrait of a tragic relationship and a mesmerizing tale of the early years of an international idol. "For once, a legend is presented to us by the mind and heart of a literate, careful biographer who cares," wrote Liz Smith in the New York Daily News when Elvis and Gladys was originally published in 1985. This is the book, Smith says, "for any Elvis lover who wants to know more about what made Presley the man he was and the mama's boy he became." The Boston Globe called this thoughtful, informative biography of one of popular music's most enduring stars "nothing less than the best Elvis book yet."

"The memoirs of a celebrity costume designer describe her upbringing in the fashionable celebrity circles of her literary parents, her family's artistic but traumatizing approaches to shopping and how the fashion-savvy perspectives of her early years shaped her relationships and career, "--NoveList.

Contemporary Novelists

Alien Hearts was the last book that Guy de Maupassant finished before his death at the early age of forty-three. It is the most original and psychologically penetrating of his several novels, and the one in which he attains a truly tragic perception of the wounded human heart. André Mariolle is a rich, handsome, gifted young man who cannot settle on what to do with himself. Madame de Burne, a glacially dazzling beauty, wants Mariolle to attend her exclusive salon for artists, composers, writers, and other intellectuals. At first Mariolle keeps his distance, but then he hits on the solution to all his problems: caring for nothing in particular, he will devote himself to being in love; Madame de Burne will be his everything. Soon lover and beloved are equally lost within a hall of mirrors of their common devising. Richard Howard's new English translation of this complex and brooding novel—the first in more than a hundred years—reveals the final, unexpected flowering of a great French realist's art.

National Union Catalog

Set during World War I, this monumental philosophical novel about human despair inspired Albert Camus' own writing and prefigured the greater existential movement. *Blood Dark* tells the story of a brilliant philosopher trapped in a provincial town and of his spiraling descent into self-destruction. Cripure, as his students call him—the name a mocking contraction of Critique of Pure Reason—despises his colleagues, despairs of his charges, and is at odds with his family. The year is 1917, and the slaughter of the First World War goes on and on, with French soldiers not only dying in droves but also beginning to rise up in protest. Still haunted by the memory of the wife who left him long ago, Cripure turns his fury and scathing wit on everyone around him. Before he knows it, a trivial dispute with a complacently patriotic colleague has embroiled him in a duel.

Wear and Tear

On July 1, 1959, at Ypsilanti State Hospital in Michigan, the social psychologist Milton Rokeach brought together three paranoid schizophrenics: Clyde Benson, an elderly farmer and alcoholic; Joseph Cassel, a failed writer who was institutionalized after increasingly violent behavior toward his family; and Leon Gabor, a college dropout and veteran of World War II. The men had one thing in common: each believed himself to be Jesus Christ. Their extraordinary meeting and the two years they spent in one another's company serves as the basis for an investigation into the nature of human identity, belief, and delusion that is poignant, amusing, and at times disturbing. Displaying the sympathy and subtlety of a gifted novelist, Rokeach draws us into the lives of three troubled and profoundly different men who find themselves "confronted with the ultimate contradiction conceivable for human beings: more than one person claiming the same identity."

Adult Catalog: Title

Not so long ago James Mangan was a brilliant young poet. These days, however, he toils as a journalist and shivers in the shadow of his glamorous movie-star wife. And now she has left him for her lover. Adrift and depressed, Jamie takes refuge with his father, in whose house he turns up a 19th-century daguerreotype bearing the initials "J.M." and depicting a man who, as it happens, is Jamie's spitting image. Could this be the only existing photograph of his purported ancestor, the legendarily dissolute Irish poet James Clarence Mangan? Obsessed by this strange resemblance—and aided by an unexpected financial windfall—Jamie heads to Ireland thinking at last to discover that elusive entity: himself. Instead, in the dreary coastal village of Drishane, he meets the Mangans: derelict Eileen, sullen Dinny, drunken (and shrunken) Conor, and the sexy and very available Kathleen. They

know something, for sure—something to do with Jamie, and something they don't want him to find out. The Mangan Inheritance is melodrama at its most inventive and suggestive, an inquiry into the problem of identity and the nature of ancestry that beguiles the reader with dark deeds, wild humor, and weird goings-on, on its way towards a shocking and terrifying—and utterly satisfying—conclusion.

Time

On Being Blue is a book about everything blue—sex and sleaze and sadness, among other things—and about everything else. It brings us the world in a word as only William H. Gass, among contemporary American writers, can do. Gass writes: Of the colors, blue and green have the greatest emotional range. Sad reds and melancholy yellows are difficult to turn up. Among the ancient elements, blue occurs everywhere: in ice and water, in the flame as purely as in the flower, overhead and inside caves, covering fruit and oozing out of clay. Although green enlivens the earth and mixes in the ocean, and we find it, copperish, in fire; green air, green skies, are rare. Gray and brown and widely distributed, but there are no joyful swatches of either, or any of exuberant black, sullen pink, or acquiescent orange. Blue is therefore most suitable as the color of interior life. Whether slick light sharp high bright thin quick sour new and cool or low deep sweet dark soft slow smooth heavy old and warm: blue moves easily among them all, and all profoundly qualify our states of feeling.

Listener and BBC Television Review

A New York Review Books Original An uncompromising contrarian, a passionate polemicist, a man of quick wit and wide learning, an anarchist, a pacifist, and a virtuoso of the slashing phrase, Dwight Macdonald was an indefatigable and indomitable critic of America's susceptibility to well-meaning cultural fakery: all those estimable, eminent, prizewinning works of art that are said to be good and good for you and are not. He dubbed this phenomenon "Midcult" and he attacked it not only on aesthetic but on political grounds. Midcult rendered people complacent and compliant, secure in their common stupidity but neither happy nor free. This new selection of Macdonald's finest essays, assembled by John Summers, the editor of The Baffler, reintroduces a remarkable American critic and writer. In the era of smart, sexy, and everything indie, Macdonald remains as pertinent and challenging as ever.

The Listener and BBC Television Review

An NYRB Classics Original Basti is a beautifully written reckoning with the tragic history of Pakistan. Basti means settlement, a common place, and Intizar Husain's extraordinary novel begins with a mythic, even mystic, vision of harmony between old and young, man and woman, Muslim and Hindu. Then Zakir, the hero, wakes to the modern world. Crowds gather. Slogans echo. Cities burn. Whether hunkered down with family or furtively meeting to exchange news with friends in cafés, Zakir is alone in a country lost to the politics of loneliness.

Books of the Month

Winner of the Hemingway Foundation/PEN Award. When Speedboat burst on the scene in the late '70s it was like nothing readers had encountered before. It seemed to disregard the rules of the novel, but it wore its unconventionality with ease. Reading it was a pleasure of a new, unexpected kind. Above all, there was its voice, ambivalent, curious, wry, the voice of Jen Fain, a journalist negotiating the fraught landscape of contemporary urban America. Party guests, taxi drivers, brownstone dwellers, professors, journalists, presidents, and debutantes fill these dispatches from the world as Jen finds it. A touchstone over the years for writers as different as David Foster Wallace and Elizabeth Hardwick, Speedboat returns to enthrall a new generation of readers.

This Month

The first-ever collection of essays from across Elizabeth Hardwick's illustrious writing career, including works not seen in print for decades. Elizabeth Hardwick wrote during the golden age of the American literary essay. For Hardwick, the essay was an imaginative endeavor, a serious form, criticism worthy of the literature in question. In the essays collected here she covers civil rights demonstrations in the 1960s, describes places where she lived and locations she visited, and writes about the foundations of American literature—Melville, James, Wharton—and the changes in American fiction, though her reading is wide and international. She contemplates writers' lives—women writers, rebels, Americans abroad—and the literary afterlife of biographies, letters, and diaries. Selected and with an introduction

by Darryl Pinckney, the *Collected Essays* gathers more than fifty essays for a fifty-year retrospective of Hardwick's work from 1953 to 2003. "For Hardwick," writes Pinckney, "the poetry and novels of America hold the nation's history." Here is an exhilarating chronicle of that history.

General Catalogue of Printed Books

To celebrate the 20th anniversary of NYRB Classics, a handpicked anthology of selections from the series. In Greek mythology, Ariadne gave Theseus a ball of red thread to guide him through the labyrinth, and the Red Thread offers a path through and a way to explore the ins and outs and twists and turns of the celebrated NYRB Classics series, now twenty years old. The collection brings together twenty-five pieces drawn from the more than five hundred books that have come out as NYRB Classics over the last twenty years. Stories, essays, interviews, poems, along with chapters from novels and memoirs and other longer narratives have been selected by Edwin Frank, the series editor, to chart a distinctive, entertaining, and thought-provoking course across the expansive and varied terrain of the Classics series.

The British National Bibliography

Rachel Waring is deliriously happy. Out of nowhere, a great-aunt leaves her a Georgian mansion in another city—and she sheds her old life without delay. Gone is her dull administrative job, her mousy wardrobe, her downer of a roommate. She will live as a woman of leisure, devoted to beauty, creativity, expression, and love. Once installed in her new quarters, Rachel plants a garden, takes up writing, and impresses everyone she meets with her extraordinary optimism. But as Rachel sings and jokes the days away, her new neighbors begin to wonder if she might be taking her transformation just a bit too far. In *Wish Her Safe at Home*, Stephen Benatar finds humor and horror in the shifting region between elation and mania. His heroine could be the next-door neighbor of the Beales of *Grey Gardens* or a sister to Jane Gardam's oddball protagonists, but she has an ebullient charm all her own.

Alien Hearts

A best-selling, autobiographical depiction of class privilege, bad romance, and political intrigue during World War II in China. Now available in English for the first time, Eileen Chang's dark romance opens with Julie, living at a convent school in Hong Kong on the eve of the Japanese invasion. Her mother, Rachel, long divorced from Julie's opium-addict father, saunters around the world with various lovers. Recollections of Julie's horrifying but privileged childhood in Shanghai clash with a flamboyant, sometimes incestuous cast of relations that crowd her life. Eventually, back in Shanghai, she meets the magnetic Chih-yung, a traitor who collaborates with the Japanese puppet regime. Soon they're in the throes of an impassioned love affair that swings back and forth between ardor and anxiety, secrecy and ruin. Like Julie's relationship with her mother, her marriage to Chih-yung is marked by long stretches of separation interspersed with unexpected little reunions. Chang's emotionally fraught, bitterly humorous novel holds a fractured mirror directly in front of her own heart.

American Book Publishing Record

Diva Mawrdew Czegowchwz (pronounced "Mardu Gorgeous") bursts like the most brilliant of comets onto the international opera scene, only to confront the deadly malice and black magic of her rivals. Outrageous and uproarious, flamboyant and serious as only the most perfect frivolity can be, James McCourt's entrancing send-up of the world of opera has been a cult classic for more than a quarter-century. This comic tribute to the love of art is a triumph of art and love by a contemporary American master.

The National Union Catalogs, 1963-

A slim but powerful work of metafiction by a Nobel Prize-winning French writer and intellectual. André Gide is the inventor of modern metafiction and of autofiction, and his short novel *Marshlands* shows him handling both forms with a deft and delightful touch. The protagonist of *Marshlands* is a writer who is writing a book called *Marshlands*, which is about a reclusive character who lives all alone in a stone tower. The narrator, by contrast, is anything but a recluse: He is an indefatigable social butterfly, flitting about the Paris literary world and always talking about, what else, the wonderful book he is writing, *Marshlands*. He tells his friends about the book, and they tell him what they think, which is not exactly flattering, and of course those responses become part of the book in the reader's hand. *Marshlands*

is both a poised satire of literary pretension and a superb literary invention, and Damion Searls's new translation of this early masterwork by one of the key figures of twentieth-century literature brings out all the sparkle of the original.

Kautilya or an Exposition of his Social Ideal & Political Theory

Polymer Nanocomposites Containing Graphene: Preparation, Properties and Applications provides detailed up-to-date information on the characterization, synthesis, processing, properties and application of these materials. Key topics that are covered in the book include: the methods of synthesis and preparation of graphene as well as different processes and methods of functionalization and modification of graphene for improving composite properties. The preparation techniques focus on which method is advantageous for getting improvements in properties along with their drawbacks. The structure and property relationships are also discussed in detail. The issues related to graphene dispersion in polymer matrices is also addressed as well as the use of graphene as reinforcement in thermoset resins. The different properties of the composites like mechanical, electrical, dielectric, thermal, rheological, morphology, spectroscopy, electronic, optical, and toxicity are reviewed from the geometrical and functional point of view. Applications cover electrical and electronic fields, flame and fire retardancy, structural, sensing and catalysis, membrane, in fuel cell and solar energy, hydrogen production, aerospace engineering, packaging, and biomedical/bioengineering fields. Up-to-date patents on graphene-polymer nanocomposites are also covered. Those working in graphene-based materials will benefit from the detailed knowledge presented in this book on graphene synthesis, composite preparation methods, and the related problems associated with them. The book will enable researchers to select the appropriate composite as per their respective field of application. Presents novel approaches for the preparation of graphene, its modification and nanocomposites with enhanced properties for state-of-the-art applications. Special attention is given to how graphene is synthesized through different routes, their functionality, dispersion related matters and structural aspects controlling the composite properties for various applications. All synthesis methodology and functionalization procedure for graphene is discussed.

Chandra Shekhar, the Survivor

This book discusses the sequential development of population research in India, focusing on contemporary issues like demography, population studies, geography, sociology, urban studies and many more. It describes the problems related to the underdeveloped regions in India, Nepal and Bangladesh and includes tabular representations of the analyzed data as well as visual representations/illustrations in the form of graphs and maps. Further, it features fascinating case studies on primary field-research experiences. Presenting interdisciplinary contributions, the book is divided into four sections: the first part examines social issues related to health, while the second explores social sustainability, lifestyles, and cultural aspects. The third and fourth sections address migration and quality of life, respectively. The book is of interest to students studying demography, as well as researchers and policymakers in the fields of population studies, geography and sociology.

Polymer Nanocomposites Containing Graphene

The world is currently experiencing changes in climate and environment that often lead to natural disasters. Nearly three million people worldwide may have been killed in the past 20 years by natural disasters. In total, 90% of the natural disasters and 95% of all disaster-related deaths occur in the developing countries. Recently such problems have accelerated due to LULC change, biodiversity degradation, increased tourism, urbanization and climate change. This book, consisting of 27 chapters, explores the topics of climate, environment and natural disasters in developing countries. It is essential to discuss these diverse issues in the field of geography as it encompasses interdisciplinary topics. The range of issues on national, regional and local dimensions is not only confined to geography but also concerned to other disciplines as well. Therefore, this book is a valuable source for scientists and researchers in allied fields such as climatology, disaster management, environmental science,

hydrology, agriculture, and land use studies, among other areas. Furthermore, this book can be of immense help to the planners and decision-makers engaged in dealing with the problems of climate, environmental change and natural disasters in developing countries.

Population Dynamics in Contemporary South Asia

Agriculture is the backbone of our economic system. It provides not only food and raw material but also employment opportunities to a very large number of people. Higher atmospheric temperature has an impact on crop yields while the changes in rainfall could affect both crop quality and quantity. Climate change, therefore, could increase the prices of major crops in some regions. For the most vulnerable people, lower agricultural output means lower income. In addition, climate change is expected to increase the risk of illness and death from extreme heat and poor air quality. Recent evidence is the COVID-19 pandemic. Furthermore, climate change also affects the occurrence of other infectious diseases. A number of well-known diseases are climate-sensitive - malaria, dengue fever, and cholera among others. Tourism is considered as an industry and alternative contributor to a nation's income. It can generate employment opportunities and boost up the economy. This book, consisting of 26 chapters, focuses on the issues of agriculture, tourism and health for livelihood enhancement. It is essential to discuss these diverse issues in the field of geography as it encompasses interdisciplinary topics. The range of concerns at the national, regional and local levels is not confined to geography only but also involves other disciplines as well. Therefore, this book is a valuable source for scientists and researchers in allied fields such as livelihood, agriculture, land use, tourism management, health care and tribal studies. Furthermore, this book can be of immense help to the researchers, planners and decision makers engaged in solving problems in these areas in developing countries and beyond.

Climate, Environment and Disaster in Developing Countries

This book is a compilation of recent global measures to conserve bio-resources and manage biotic and abiotic stresses. It highlights emerging issues related to agriculture, abiotic and biotic stress factors, ethnic knowledge, climate change and global warming, as well as natural resources and their sustainable management. It also focuses on the consolidated efforts of scientists and academics engaged in addressing a number of issues related to resource management and combating stresses in order to protect the Earth. Crop production and productivity have been significantly improved, however, there have been no corresponding practical advances in sustainable agriculture. This book offers a wide range of affordable approaches to managing bio-resources with a focus on sustainability. Lastly, it describes research highlights and future areas of research.

Livelihood Enhancement Through Agriculture, Tourism and Health

The omnipresence of diverse microorganisms in the environment is valuable in many ways. Their presence in the vicinity of plants benefits as a result of positive plant-microbe interaction. Phytostimulating microorganisms or plant growth-promoting microorganisms (PGPMs) are a certain group of microbes that includes rhizobacteria, endophytes, actinomycetes, fungi, arbuscular mycorrhizal fungi, etc. They are colonized in different parts of plants (as endophytes) or the close contact outside the plants' root-surface (rhizosphere and rhizoplane) attracted by certain plant exudates or secondary metabolites for nutrition. In return, PGPMs directly or indirectly assist their host plants by secreting plant growth-promoting substances, increase nutrient bioavailability of insoluble or less-soluble compounds in soils, and also confronts invading phytopathogens. A major group of these microorganisms takes an active part in soil metal bioremediation, an essential concern in the current scenario for the reclamation of metal-contaminated agricultural fields.

Bioresource and Stress Management

Geomorphological study with reference to South-Western Midnapore, West Bengal, India.

Heavy Metal(loid) Stress-alleviating and Phytostimulating Microorganisms: Dual-performing Warhorses in Soil-bioremediation

Political biography of Subhas Chandra Bose, 1897-1945.

Transformation of Land

In India, indigenous tribal communities are the most backward sections of the society and they have been a matter of great concern for the Government. More than 87 per cent of the country's tribal population is confined to 11 states, among which Odisha has the largest number of tribal communities and Mayurbhanj district has the highest concentration of tribes. Throughout the history of development, tribal communities were trapped in a vicious circle of exploitation. This led to social discontent and unrest, resulting in extremist activities, which can be prevented only by more meaningful development of the tribal areas. This book is divided into 10 chapters, each dealing with very crucial and relevant issues. It will be useful for policy makers dealing with livelihood issues, social exclusion and tribal development-related projects.

Annual Report

"Chandini - You Are All My Reasons is nothing but a poetic diary. The poems are based on real situations and rendering them will connect the readers to situations they may have experienced. The poet's inspiration is his lady love, who, unlike the beautiful moon up above, is spotless, divine and graceful and the poet does not miss an opportunity to convey these attributes to his readers. He is also inspired by some of his dear friends namely Unnikrishnan, Tamil poets Muthumani and Vinoth who have helped him in bringing out this book."

Kautilya Or an Exposition of His Social Ideal & Political Theory

During recent decades, tremendous progress and innovations have been made in rice science with the goal of increasing production to meet the world's growing demands. This new volume provides a concise overview of rice, covering the background and importance of rice; origin, evolution, and domestication of rice; and the world rice production. It goes on to provide new and important recent research advances on many different aspects of rice science and production. The authors look at advances in rice ideotypes, abiotic stress management techniques, biotic stress affecting crop productivity, new methods and technology for cultivation, and new methods and techniques in rice grain quality analysis and processing. It also describes new rice varieties, new hybrid rice technology, and new breeding methods for rice.

Kantilya Or an Exposition of His Social Ideal & Political Theory

With new discoveries and inventions in science, application of botany has attained many dimensions. Besides the conventional application of botanical sciences, forensic botany; nanobotany; phytoremediation and phytomining; environmental impact assessment, seed quality enhancement through priming are the new dimensions of applied botany. The industrial applications of botany are in paper pulp, rubber, dye and gum industries. At social front, besides providing the livelihood and employment through cultivation of crops, the branches of botany like community forestry are playing major role in the upliftment of folks. Use of mechanisms of carnivorous plants in plant protection; and management of invasive plants for economic gains and conservation of biodiversity are new challenges in applied botany.

Accounts of India and Kashmir in the Dynastic Histories of the T'ang Period

"Akashvani" (English) is a programme journal of ALL INDIA RADIO, it was formerly known as The Indian Listener. It used to serve the listener as a Bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it used to be published by All India Radio, New Delhi. From 1950, it was turned into a weekly journal. Later, The Indian Listener became "Akashvani" (English) w.e.f. January 5, 1958. It was made fortnightly journal again w.e.f. July 1, 1983. NAME OF THE JOURNAL: AKASHVANI LANGUAGE OF THE JOURNAL: English DATE, MONTH & YEAR OF PUBLICATION: 01 JUNE, 1975 PERIODICITY OF THE JOURNAL: Weekly NUMBER OF PAGES: 48 VOLUME NUMBER: Vol. XL. No. 22 BROADCAST PROGRAMME SCHEDULE PUBLISHED (PAGE NOS): 11-46 ARTICLE: 1. Yesterday and Today 2. Administration—An Art by Itself 3. Nutrition and Brain Development 4. Life Around AUTHOR: 1. K. P. S. Menon 2. M. Vaithalingam, I. A. S. 3. Dr. P. S. Sastry 4. Ashwini Kumar KEYWORDS : 1. Strange experience, cruel joke, age of tension, nearer to

dust 2. Feeling of importance, criticism is ineffective, no arguments please !, friendly human relations
3. Once-for-all nature, growth spurt, growth controlling mechanism, altered motivation 4. Chandini - You Are All My Reasons

IAU Transactions XXII B summarizes the work of the XXII Ind General Assembly. The discourses given during the Inaugural and Closing Ceremonies are reproduced in Chapters I and III, respectively. The proceedings of the two sessions of the General Assembly will be found in Chapter II, which includes the Resolutions and the report of the Finance Committee. The Statutes, Bye-Laws and a few working rules of the Union are published in Chapter IV. The Accounts and other aspects of the administration of the Union are recorded in Chapter V, together with the report of the Executive Committee for this last triennium, and provide the permanent record for the Union in the period 1991-1994. This volume also contains the Commission reports from The Hague compiled by the Presidents of the Commissions (Chapter VI). Finally, Chapter VII contains the list of countries adhering to the Union and the alphabetical, geographical and commission membership lists of about 8000 individual members. The IAU still appears to be unique among the scientific Unions in maintaining this category of individual membership which contributes in a crucial way to the spirit and the aims of the Union.

Bh rata K R japatra

The XXth General Assembly of the International Astronomical Union was held in Baltimore, Maryland USA from August 02 to 11, 1988. The Inaugural Ceremony on August 02 was held in the presence of representatives of the United States Government, the State of Maryland, the City of Baltimore and the host institution -the Johns Hopkins University- as well as of the National and Local Organising Committees. The scientific programme maintained the high standards of the Union and the scientific proceedings may be found either in this volume or in volume 8 of Highlights of Astronomy. The scientific programme was organised by the 40 Commission Presidents and coordinated by the General Secretary (1985-1988), Dr. J.-P. Swings. The local arrangements were effectively made through the National Organising Committee under the Chairmanship of Prof. F. Drake and the Local Organising Committee under the co-Chairmanship of Prof. A. Oavidsen and Dr. R. Giacconi. The smooth day to day operation of the meeting resulted from the incomparable dedication of Karen Weinstock and Harold Screen.

Bh ratera Pratibe[+]

Iswar Chandra Vidyasagar, 1820-1891, Indian educationist and social reformer.

Advances in Rice Science

Vegetables are rich and cheaper sources of vitamins. They supply good taste and palatability, increase appetite, provide fibres for digestion and prevent constipation. They also play an important role in neutralizing acids produced during digestion of proteinaceous and fatty foods and provides valuable roughages which help in the movement of food in intestine. On the other hand, tuber crops are rich sources of carbohydrates, energy and nutrients. No other books are available which deal with various

aspects of crop productivity, physiology and post-harvest technology. In the world, many vegetables and tuber crops are grown and harvested for the supplying nutrients to mankind. This book deals with utilization, production technology, water and nutrient management, weed and pest management, disease management, physiological basis of crop productivity, abiotic stress factors affecting crop productivity and post-harvest technology of several vegetables and tuber crops. It deals with pre- and harvest technologies influencing the productivity of both world vegetables and world crops. The book contains an insight, Solanaceous vegetables, cucurbit vegetables, cole crops, leafy vegetables, root and tuber crops, bulb crops, leguminous crops and several other ones. The book will be highly useful to students and researchers working on various aspects of vegetables and tuber crops.

APPLIED BOTANY

This volume is a comprehensive guide to the industrial use of polymer composites. Edited contributions demonstrate the application of these materials for different industrial sectors. The book covers the benefits, future potential, and manufacturing techniques of different types of polymers. Contributors also address challenges in using nanopolymers in these industries. Readers will find valuable insights into the current demand and supply of polymer composites and future scope for research and development in this field of polymer science. The volume presents seven chapters, each exploring a different application of polymer composites. Chapter 1 discusses the use of polymer additives for improving classical concrete and the workability and durability of polymer composite concrete. Chapter 2 explores the use of polymer nanocomposites in packaging, including smart/intelligent packaging, modified atmosphere packaging, and vacuum packaging. Chapter 3 delves into the use of polymer composites in tissue engineering, including manufacturing techniques and various applications. Chapter 4 explores energy storage applications for polymer composites, while Chapter 5 discusses their use in microbial fuel cells. Chapter 6 explores the use of carbon nanotubes in polymer composite gas sensors. Finally, Chapter 7 discusses the use of polymer composites in automotive applications. This is an ideal reference for researchers, scientists, engineers, and professionals in the fields of materials science, polymer science, engineering, and nanotechnology. The content is also suitable for graduate and postgraduate students studying industrial manufacturing.

AKASHVANI

"Performing the Ramayana Tradition: Enactments, Interpretations, and Arguments, edited by Ramayana scholar Paula Richman and Rustom Bharucha, scholar of Theater and Performance Studies, examines diverse retellings of the Ramayana narrative as interpreted and embodied through a spectrum of performances. Unlike previous publications, this book is neither a monograph on a single performance tradition nor a general overview of Indian theatre. Instead, it provides context-specific analyses of selected case studies that explore contemporary enactments of performance traditions and the narratives from which they draw: Kutiyattam, Nangyarkuttu and Kathakali from Kerala; Kattaikkuttu and a "mythological" drama from Tamilnadu; Talamaddale from Karnataka; avant-garde performances from Puducherry and New Delhi; a modern dance-drama from West Bengal; the monastic tradition of Sattriya from Assam; anti-caste plays from North India; and the Ramnagar Ramlila. Apart from the editors' two introductions, which orient readers to the history of Ramayana narratives by Tulsidas, Valmiki, Kamban, Sankaradeva, and others, as well as the performance vocabulary of their enactments, the volume includes many voices, including those of directors, performers, scholars, connoisseurs, and the scholar-abbot of a monastery. It also contains two full scripts of plays, photographs of productions, interviews, conversations, and a glossary of Indian terms. Each essay in the volume, written by an expert in the field, is linked to several others, clustered around shared themes: the politics of caste and gender, the representation of the anti-hero, contemporary re-interpretations of traditional narratives, and the presence of Ramayana discourse in everyday life"--

Kautilya, Or, an Exposition of His Social Ideal & Political Theory

"Experiments on fire and combustion date back to prehistoric age, gathering more and more impetus with progress of time. But with the advent of aircraft gas turbines and the science of rocketry, necessitating the development of high output combustion chambers, the scope and tempo of combustion research have increased at an amazing rate introducing new facts and developing new concepts in the science of combustion." --

State of Natural and Human Resources of India
