Echoes of my heart

The heart of a woman is a complex thing, and it stands to be the most powerful driving force in our lives. Yet how many women take the time to puncture the superficialities in life to burrow deep into its chambers? How many take the time to understand who they are, where their thoughts originate from, and what the true purpose of their hearts and lives are? Deep within the heart of every woman echoes several yearnings and questions. They are broad, personal, and legitimate; relating to her life, relationships, career, purpose and the like. When her heart isn't tethered to God, she will often find herself seeking to latch on to anything that can afford her a sense of meaning, stability, worth and value, even if frivolous, depthless and fleeting. This may provide momentary satisfaction, but it doesn't rid her of the constant feelings and wanderings that resurface. In order to discover who God has called us to be, The Echoes of Her heart candidly explores the various matters of the heart of a woman from her perspective, and God's, touching upon areas such as: - The heart's physical and spiritual function- The purpose of the heart- A broken heart - A deceitful heart- A healed & restored heart- A surrendered heart and so much more

Echoes from the Heart : Poetry

Echoes Out of My Heart is inspirational poetry on a wide variety of subjects, including poems about Martin Luther King, Jr. (A Man on a Mission), Adrian T. Westney, J. Glen Roberts, nature, love, animals, spirituality, the awesome power of prayer, God's guiding hand, and glimpses of heaven. Take a journey into Echoes Out of My Heart. For peace of mind, one can look down at a garden of tranquil clouds, see land, seawater, and sand; feel the passion in a mother's love; understand why we all live in an old clay house and yet have aspirations to fly; while remembering those who gave you wings to soar and tell the greatest story ever told. In the mind's eye on a tropical island, you will see a live dinosaur rushing out of the sea; smell the fragrance of a variety of tropical spices, then experience a tropical sunset, the constellation of a starry night, the magnificence of a tropical moon; and the forces of nature in volcanic lava and know that God cares.

A man who made a mistake, a woman who picked the wrong man, a couple who listened to naysayers, and two teen crushes severed too soon are the four stories in this anthology. Can the men and women who came together, separated, and regretted it turn back the clock? Will they make the most of a second chance or will they blow it and forever wonder, "what if"?

Inner Sanctum

One of the comic-book greats, Ernie Colon, treats readers by vividly illustrating four chilling mysteries based on the classic radio horror show *Inner Sanctum Mysteries*. Illustrated with his trademark black-and-white style, the terror within includes a doll that cries out the name of the devil, a grotesque enslaver that only one man can see and the story of someone buried alive!

The Official Guide to Inner Sanctum Mysteries

INNER SANCTUM MYSTERY, the radio program broadcast from 1941 to 1952, famous for the signature opening and closing of a creaking door, offered a weekly dose of banshees who wailed through radio speakers while bats would gibber and thump in their belfries. The intended overtone of the stories was almost always one of supernatural dread. On *Inner Sanctum Mystery*, Boris Karloff not only made guest appearances but routinely played a man tormented by demons. He read every line as though he was actually the living, breathing counterpart of the villain in the script. He built up a "hate" atmosphere, regardless of the worry and concern portrayed on the printed page. By comparison with the ghouls and mad scientists he played on the silver screen, Karloff loved performing on radio. The kill-by-kill account over a ghost-to-ghost network quickly became popular and one year after the premiere, INNER SANCTUM MYSTERY was the second highest rated program on the network. This book reprints nine of those radio scripts from the radio's program first year... chilling stories that are not known to exist in recorded form, all of which starred Boris Karloff in the lead. In one episode, Karloff played the weather-beaten waterfront character who murdered a fellow seaman for revenge in "Fog," the dread scourge of men who go down to the sea in ships and served as the eloquent title for a tale of violent death and retribution in the mists off San Francisco. Another, "The Green-Eyed Bat," is a terrifying tale of a man buried alive because of a doctor's error, a man doomed to horrifying entombment. A victim of a catatonic trance, his condition of suspended animation is mistaken for death. As the buried man returns to consciousness and discovers his predicament, a friend races to his rescue. But this provides us with a few pages of suspense: even if he is rescued, will the mental torture undergone in those awful hours have been too much for the victim? In "The Man Who Hated Death," Karloff plays the sympathetic role of a friendless mortician who had to live on the fringe of society merely because he wanted to put death in its place. Things begin to clear when the richest man in town dies and his body is turned over to the humble undertaker. But when the dead man comes to life while the mortician is preparing the body for burial, he has a macabre choice to make. Included with the nine radio scripts is an essay written by Martin Grams, Jr., documenting the historical and cultural significance of the first

year of Inner Sanctum Mystery, and how Boris Karloff's scheduled appearances changed the format of the program... for the better... from old dark house murder mysteries to supernatural chillers. If you can envision the voice of Boris Karloff as you read these radio scripts, you will enjoy the "lost" episodes that do not exist in recorded form. This is a must-have for fans of Boris Karloff and classic horror.

Boris Karloff Presents Lost Tales from the Inner Sanctum

Peter Lorre described himself as merely a 'face maker'. His own negative attitude also characterizes traditional perspectives which position Lorre as a tragic figure within film history: the promising European artist reduced to a Hollywood gimmick, unable to escape the murderous image of his role in Fritz Lang's *M*. This book shows that the life of Peter Lorre cannot be reduced to a series of simplistic oppositions. It reveals that, despite the limitations of his macabre star image, Lorre's screen performances were highly ambitious, and the terms of his employment were rarely restrictive. Lorre's career was a complex negotiation between transnational identity, Hollywood filmmaking practices, the ownership of star images and the mechanics of screen performance.

Peter Lorre: Face Maker

The early years of television relied in part on successful narratives of another medium, as studios adapted radio programs like *Boston Blackie* and *Defense Attorney* to the small screen. Many shows were adapted more than once, like the radio program *Blondie*, which inspired six television adaptations and 28 theatrical films. These are but a few of the 1,164 programs covered in this volume. Each program entry contains a detailed story line, years of broadcast, performer and character casts and principal production credits where possible. Two appendices ("Almost a Transition" and "Television to Radio") and a performer's index conclude the book. This first-of-its-kind encyclopedia covers many little-known programs that have rarely been discussed in print (e.g., *Real George*, based on *Me and Janie*; *Volume One*, based on *Quiet, Please*; and *Galaxy*, based on *X Minus One*). Covered programs include *The Great Gildersleeve*, *Howdy Doody*, *My Friend Irma*, *My Little Margie*, *Space Patrol* and *Vic and Sade*.

The average American listens to the radio three hours a day. In light of recent technological developments such as internet radio, some argue that the medium is facing a crisis, while others claim we are at the dawn of a new radio revolution. The *Concise Encyclopedia of American Radio* is an essential single-volume reference guide to this vital and evolving medium. It brings together the best and most important entries from the three-volume *Museum of Broadcast Communications Encyclopedia of Radio*, edited by Christopher Sterling. Comprised of more than 300 entries spanning the invention of radio to the Internet, *The Concise Encyclopedia of American Radio* addresses personalities, music genres, regulations, technology, programming and stations, the "golden age" of radio and other topics relating to radio broadcasting throughout its history. The entries are updated throughout and the volume includes nine new entries on topics ranging from podcasting to the decline of radio. *The Concise Encyclopedia of American Radio* include suggestions for further reading as complements to most of the articles, biographical details for all person-entries, production credits for programs, and a comprehensive index.

Tracing the development of horror entertainment since the late 18th century, this study argues that scientific discovery, technological progress, and knowledge in general have played an unparalleled role in influencing the evolution of horror. Throughout its many subgenres (biological horror, cosmic horror and others) and formats (film, literature, comics), horror records humanity's uneasy relationship with its own ability to reason, understand, and learn. The text first outlines a loose framework defining several distinct periods in horror development, then explores each period sequentially by looking at the scientific and cultural background of the period, its expression in horror literature, and its expression in horror visual and performing arts.

Produced in association with the Museum of Broadcast Communications in Chicago, the Encyclopedia of Radio includes more than 600 entries covering major countries and regions of the world as well as specific programs and people, networks and organizations, regulation and policies, audience research, and radio's technology. The 1940s is a lost decade in horror cinema, undervalued and written out of most horror scholarship. This book deconstructs persistent scholarly discourse by re-evaluating the historical, political, economic, and cultural factors of 1940s horror cinema to recover a decade of horror.

The early eras of radio storytelling have entered and continue to enter the public domain in large quantities, offering unprecedented access to the Golden Age of Radio. Author and Professor John Pavlik mines the best this age of radio has to offer in *Masterful Stories*, an examination of the masterpieces of audio storytelling. This book provides a chronological history of the best of the best from radio's Golden Age, outlining a core set of principles and techniques that made these radio plays enduring examples of storytelling. It suggests that, by using these techniques, stories can engage audiences emotionally and intellectually. Grounded in a historical and theoretical understanding of radio drama, this volume illuminates the foundational works that proceeded popular modern shows such as *Radiolab*, *The Moth*, and *Serial*. *Masterful Stories* will be a powerful resource in both media history courses and courses teaching audio storytelling for modern radio and other audio formats, such as podcasting. It will appeal to audio fans looking to learn about and understand the early days of radio drama.

A symbol of counterculture worldwide, Ernesto "Che" Guevara is one of the most, if not the most, recognizable and influential revolutionary figures of the twentieth century. From the pages of history textbooks to silk-screened T-shirts at Urban Outfitters, his mythologized face is positively unavoidable. But what, exactly, does this glorified image stand for? During his life, and perhaps even more since his death, Che has elicited controversy and wildly divergent opinions as to who he was and what he represented. In *Che: A Graphic Biography*, Sid Jacobson and Ernie Colón—the graphic duo who made the 9/11 Commission Report understandable in their bestselling *The 9/11 Report: A Graphic Adaptation* and who most recently explained the ongoing war on terror in *After 9/11*—have come together again to give a real portrait of Ernesto Guevara de la Serna. Following Che from his fabled motorcycle journeys with Alberto Granado as a young medical student to his eventual execution at the hands of Bolivian soldiers and CIA operatives, *Che: A Graphic Biography* not only provides a concrete time line of his life but also gives a broader understanding of his beliefs, his legacy, and Latin American politics during the mid-twentieth century.

A Companion to American Gothic

Bram Stoker Award nominee for Best First Novel! "This claustrophobic, horror-leaning tour de force is highly recommended for fans of Jeff VanderMeer's Annihilation and Andy Weir's The Martian." -- Publishers Weekly (starred review) A thrilling, atmospheric debut with the intensive drive of The Martian and Gravity and the creeping dread of Annihilation, in which a caver on a foreign planet finds herself on a terrifying psychological and emotional journey for survival. When Gyre Price lied her way into this expedition, she thought she'd be mapping mineral deposits, and that her biggest problems would be cave collapses and gear malfunctions. She also thought that the fat paycheck—enough to get her off-planet and on the trail of her mother—meant she'd get a skilled surface team, monitoring her suit and environment, keeping her safe. Keeping her sane. Instead, she got Em. Em sees nothing wrong with controlling Gyre's body with drugs or withholding critical information to "ensure the smooth operation" of her expedition. Em knows all about Gyre's falsified credentials, and has no qualms using them as a leash—and a lash. And Em has secrets, too . . . As Gyre descends, little inconsistencies—missing supplies, unexpected changes in the route, and, worst of all, shifts in Em's motivations—drive her out of her depths. Lost and disoriented, Gyre finds her sense of control giving way to paranoia and anger. On her own in this mysterious, deadly place, surrounded by darkness and the unknown, Gyre must overcome more than just the dangerous terrain and the Tunneler which calls underground its home if she wants to make it out alive—she must confront the ghosts in her own head. But how come she can't shake the feeling she's being followed?

The Inner Sanctum

Ray Barfield has done something quite new in media studies. Rather than trace the history of radio through the usual route, he has sought out a body of oral history from those who grew up with and listened to radio. He has not only collated the responses of his informants but placed their comments in a larger cultural and historical context and thus provided a kind of history from the ground up. He demonstrates thereby just how important and influential radio was in the lives of ordinary Americans. General readers and scholars alike will learn something from Barfield's engaging narrative about why radio was once such a compelling force in our culture. (From the Foreword by Thomas Inge.) This fresh and engaging account of early radio's contributions to U.S. social and cultural life brings together

varied perspectives of listeners who recall the programs that delighted and entranced them. The first electronic medium to enter the home, radio is examined as a chief purveyor of family entertainment and as a bridge across regional differences. Barfield draws from over 150 accounts, providing a forum and a context for listeners of early radio to share their memories—from their first impressions of that magical box to favorite shows. Opening chapters trace the changing perceptions of radio as a guest or an invader in U.S. homes during the exuberant 1920s, the cash-scarce 1930s, and the rapidly changing World War II and post-war years. Later chapters offer listener responses to every major program type, including news reporting and commentary, sportscasts, drama, comedy series, crime and terror shows, educational and cultural programs, children's adventure series, soap operas, audience participation shows, and musical presentations. Listening to Radio, 1920-1950

From the golden age of art movies and underground cinema to X-rated porn, splatter films, and midnight movies, this breathtaking thriller is a tour de force of cinematic fact and fantasy, full of metaphysical mysteries that will haunt the dreams of every moviegoer. Jonathan Gates could not have anticipated that his student studies would lead him to uncover the secret history of the movies—a tale of intrigue, deception, and death that stretches back to the 14th century. But he succumbs to what will be a lifelong obsession with the mysterious Max Castle, a nearly forgotten genius of the silent screen who later became the greatest director of horror films, only to vanish in the 1940s, at the height of his talent. Now, 20 years later, as Jonathan seeks the truth behind Castle's disappearance, the innocent entertainments of his youth—the sexy sirens, the screwball comedies, the high romance—take on a sinister appearance. His tortured quest takes him from Hollywood's Poverty Row into the shadowy lore of ancient religious heresies. He encounters a cast of exotic characters, including Orson Welles and John Huston, who teach him that there's more to film than meets the eye, and journeys through the dark side of nostalgia, where the Three Stooges and Shirley Temple join company with an alien god whose purposes are anything but entertainment.

Revised and updated since its first publication in 1990, this acclaimed critical survey covers the classic chillers produced by Universal Studios during the golden age of hollywood horror, 1931 through 1946. Cause of Death

This book explores the major cultural forms of 1940s America - fiction and non-fiction; music and radio; film and theatre; serious and popular visual arts - and key texts, trends and figures, from Native Son to Citizen Kane, from Hiroshima to HUAC, and from Dr Seuss to Bob Hope. After discussing the dominant ideas that inform the 1940s the book culminates with a chapter on the 'culture of war'. Rather than splitting the decade at 1945, Jacqueline Foertsch argues persuasively that the 1940s should be taken as a whole, seeking out links between wartime and postwar American culture.
