Collecting and Displaying China's "Summer Palace" in the West

In October 1860, at the culmination of the Second Opium War, British and French troops looted and destroyed one of the most important palace complexes in imperial China—the Yuanmingyuan. Known in the West as the "Summer Palace," this site consisted of thousands of buildings housing a vast art collection. It is estimated that over a million objects may have been taken from the palaces in the Yuanmingyuan—and many of these are now scattered around the world, in private collections and public museums. With contributions from leading specialists, this is the first book to focus on the collecting and display of "Summer Palace" material over the past 150 years in museums in Britain and France. It examines the way museums placed their own cultural, political and aesthetic concerns upon Yuanmingyuan material, and how displays—especially those at the Royal Engineers Museum in Kent, the National Museum of Scotland and the Musée Chinois at the Château of Fontainebleau—tell us more about European representations and images of China, than they do about the Yuanmingyuan itself.

The People Have Spoken

The September 2014 elections in Fiji was one of the most anticipated in the history of the country, coming after eight years of military rule and under a radically new constitution that introduced a system of proportional representative (PR) and without any reserved communal seats. The election was won overwhelmingly by FijiFirst, a party formed by 2006 coup leader Frank Bainimarama. He subsequently embarked on a process of shifting the political configuration of Fijian politics from inter-ethnic to trans-ethnic mobilisation. The shift has not been easy in terms of changing people's perceptions and may face some challenges in the longer term, despite Bainimarama's clear victory in the polls. Ethnic consciousness has the capacity to become re-articulated in different forms and to seek new opportunities for expression. This book explores these and other issues surrounding the 2014 Fiji elections in a collection of articles written from varied political, intellectual and ideological positions.

Freedom in the World 1997-1998

The Comparative Survey of Freedom is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 191 nations and 59 related territories. These year-end reviews of freedom began in 1955, when they were called the Balance Sheet of Freedom and, still later, the Annual Survey of the Progress of Freedom. This program was expanded in the early 1970s, and has appeared in Freedom Review since 1973. It has also been issued in a more developed context as a yearbook since 1978. Since 1989, the Survey project has been a year-long effort produced by regional experts, consultants and human rights specialists. The Survey derives its information from a wide range of sources. Most valued of these are the many human rights activists, journalists, editors and political figures around the world who keep us informed of the human rights situation in their countries. Throughout the year, Freedom House personnel regularly conduct fact-finding missions to gain more in-depth knowledge of the vast political transformations affecting our world. During these week-to-month-long investigations, we make every effort to meet a cross-section of political parties and associations, human rights monitors, religious figures, representatives of both the private sector and trade union movement, academics and journalists. During the past year, Freedom House staff traveled to numerous countries throughout most of the world's geographical and political regions. The Survey project team also consults a vast array of published source materials, ranging from the reports of other human rights organizations to often rare, regional newspapers and magazines.

This year's Survey team includes: Adrian Karatnycky, Martin Edwin Anderson, Kristen Guida, Marshall Freeman Harris, Thomas R. Lansner, Arch Puddington, Leonard R. Sussman, and George Zarycky. The general editor of *Freedom in the World* is Roger Kaplan; the managing editor is Tara Kelly. This year's research coordinator was Ch

The Moon Opera

This "gem of a novel . . . gives us a glimpse not only into the Chinese opera world but deep into a woman's heart" (Lisa See, author of *The Tea Girl of Hummingbird Lane*). Twenty years ago, in a fit of diva jealousy, Xiao Yanqiu, star of *The Moon Opera*, violently assaulted her understudy. Spurned by the troupe, she turned to teaching. Now, a rich cigarette-factory boss has offered to underwrite a restaging of the cursed opera—but only on the condition that Xiao Yanqiu return to the role of Chang'e. So she does, this time believing she has fully become the immortal moon goddess . . . Set against the drama, intrigue, jealousy, retribution, and redemption of backstage Peking opera, this "tiny, perfect novel [with] distant echoes of *All About Eve*" is a stunning portrait of women in a world that simultaneously reveres and restricts them (*The Times*, London).

Globalisation and Governance in the Pacific Islands

"The Pacific Islands are feeling the effects of globalisation. Free trade in sugar and garments is threatening two of Fiji's key industries. At the same time other opportunities are emerging. Labour migration is growing in importance, and Pacific governments are calling for more access to Australia's labour market. Fiji has joined Samoa, Tonga, Tuvalu and Kiribati as a remittance economy, with thousands of its citizens working overseas. Meantime, Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources. The Pacific Islands confront unique problems of governance in this era of globalisation. The modern, democratic state often fits awkwardly with traditional ways of doing politics in that part of the world. Just as often, politicians in the Pacific exploit tradition or invent it to serve modern political purposes. The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives. They come from Papua New Guinea, Solomon Islands, Hawai'i, the Federated States of Micronesia, Samoa, Fiji, New Zealand and Jamaica as well as Australia."--Publisher's description.

Freedom in the World 2005

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The *Freedom in the World* political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Freedom House is a nonprofit, nonpartisan organization that supports democratic change, monitors freedom, and advocates for democracy and human rights.

People of the Rainbow

A fictional re-creation of a day in the life of a Rainbow character named Sunflower begins the book, illustrating events that might typically occur at an annual North American Rainbow Gathering. Using interviews with Rainbows, content analysis of media reports, participant observation, and scrutiny of government documents relating to the group, Niman presents a complex picture of the Family and its relationship to mainstream culture - called "Babylon" by the Rainbows. Niman also looks at internal contradictions within the Family and examines members' problematic relationship with Native Americans, whose culture and spiritual beliefs they have appropriated.

In 1957 a few European avant-garde groups came together to form the Situationist International. Picking up where the dadaists and surrealists had left off, the situationists challenged people's passive conditioning with carefully calculated scandals and the playful tactic of *détournement*. Seeking a more extreme social revolution than was dreamed of by most leftists, they developed an incisive critique of the global spectacle-commodity system and of its "Communist" pseudo-opposition, and their new methods of agitation helped trigger the May 1968 revolt in France. Since then situationist theories and tactics have continued to inspire radical currents all over the world. The Situationist International Anthology is the most comprehensive and accurately translated collection of situationist writings in English. It presents a rich variety of articles, leaflets, graffiti, and internal documents, ranging from experiments in "psychogeography" to lucid analyses of the Watts riot, the Vietnam War, the Prague Spring, the Chinese Cultural Revolution, and other crises and upheavals of the sixties. For this new edition the translations have all been fine-tuned and over 100 pages of new material have been added.

Fred Lewis Pattee was a literary critic and the first-ever professor of American literature. In this work, published in 1915, he gives an account of the developments in American literature in the 70s, 80s, and the beginning of the 90s years of the 19th century.

Illusive Utopia

Cuba faced an economic meltdown of catastrophic proportions in the early 1990s when covert subsidies from the former Soviet Union disappeared. Policies instituted by the island republic's government to handle the worst problems have had inconsistent results. Opening the economy to foreign enterprise has resulted in positive growth in tourism and nickel and cigar exports. However, remnants of the older economy, including the sugar and biotechnological industries, have only experienced a decrease in capital and importance. Basic educational and health services have been maintained surprisingly well, but the standard of living is still far below the highs of the 1980s. With contributions from many leading Cuba scholars, *The Cuban Economy* offers not only an analysis of the economy since 1990, but also a look towards future prospects.

Politics and Neoliberalism

The making and consuming of tourism takes place within a complex social milieu, with competing actors drawing into the 'product' peoples' history, culture and lifestyles. Culture and people thus become part of the tourism product. The implications are not fully understood, though the literature ranges the arguments along a continuum with culture being described on one hand as vulnerable and fixed, waiting to be 'impacted' by tourism and on the other being seen as vibrant and perfectly well capable of dealing with globalization and modernity trends. Some of the answers are likely to focus around ideas of social identities. The intention of this book is to make a contribution to the theoretical framework of tourism through a series of international case studies. The overall purpose of the edited book is to assemble a series of essays enabling the dissemination of ideas on the critical discourse of tourism and tourists as they relate to social and cultural identities.

This book presents the latest knowledge on the still under-researched field of academic tourism, which over the past decade has gained in importance at local and national economic levels as a result of increasing international mobility of students and academic staff in higher education. A wide range of themes are explored from various perspectives, with the focus on Europe. Particular attention is paid to academic tourism demand, expenditure, and economic impact; the relationships between academic tourism and local and regional development, sustainable development, and environmental sustain-

ability; and the importance of academic tourism for the internationalization of higher education and international cooperation and development. Further topics to be considered include the significance of academic tourism for the dynamics of tourism destinations and insights from experimental tourism research. In addition to theoretical chapters and state of the art reviews, readers will find insightful empirical and case studies. The book will be of interest to academics, researchers, students, and practitioners, including policy makers.

It's a brave new Britain under the New Management. The Prime Minister is an eldritch god of unimaginable power. Crime is plummeting as almost every offense is punishable by death. And everywhere you look, there are people with strange powers, some of which they can control, and some, not so much. Hyperorganised and formidable, Eve Starkey defeated her boss, the louche magical adept and billionaire Rupert de Montfort Bigge, in a supernatural duel to the death. Now she's in charge of the Bigge Corporation, just in time to discover the lethal trap Rupert set for her long ago . . . Wendy Deere is investigating unauthorized supernatural shenanigans. She swore to herself she wouldn't again get entangled with Eve Starkey's bohemian brother Imp and his crew of transhuman misfits. Yeah, right. Mary Macandless has powers of her own. Right now she's pretending to be a nanny in order to kidnap the children of a pair of famous, Government-authorized adepts. These children have powers of their own, and Mary Macandless is in way over her head. All of these stories will come together, with world-bending results... 'For all of Stross's genuine ability to spook and dismay, *The Laundry Files* are some of the most tremendously humane books I've ever read' Tamsyn Muir, author of *Gideon the Ninth*

"This innovative collection explores critical issues in understanding multilingualism as a defining dimension of identity creation and negotiation in contemporary social life. Reinforcing interdisciplinary conversations on these themes, each chapter is co-authored by two different researchers, often those who have not written together before. The combined effect is a volume showcasing unique and dynamic perspectives on such topics as rethinking of language policy, testing of language rights, language pedagogy, meaning-making, and activism in the linguistic landscape. The book explores multilingualism through the lenses of spaces and policies as embodied in Elizabeth Lanza's body of work in the field, with a focus on the latest research on linguistic landscapes in diverse settings. Taken together, the book offers a window into better understanding issues around processes of change in and of languages and societies. This groundbreaking volume will be of particular interest to students and scholars in multilingualism, applied linguistics, and sociolinguistics"--

Quantum of Nightmares

Under the Loving Care of the Fatherly Leader offers in-depth portraits of North Korea's two ruthless and bizarrely Orwellian leaders, Kim Il-Sung and Kim Jong-Il. Lifting North Korea's curtain of self-imposed isolation, this book will take readers inside a society, that to a Westerner, will appear to be from another planet. Subsisting on a diet short on food grains and long on lies, North Koreans have been indoctrinated from birth to follow unquestioningly a father-son team of megalomaniacs. To North Koreans, the Kims are more than just leaders. Kim Il-Sung is the country's leading novelist, philosopher, historian, educator, designer, literary critic, architect, general, farmer, and ping-pong trainer. Radios are made so they can only be tuned to the official state frequency. "Newspapers" are filled with endless columns of Kim speeches and propaganda. And instead of Christmas, North Koreans celebrate Kim's birthday--and he presents each child a present, just like Santa. The regime that the Kim Dynasty has built remains technically at war with the United States nearly a half century after the armistice that halted actual fighting in the Korean War. This fascinating and complete history takes full advantage of a great deal of source material that has only recently become available (some from archives in Moscow and Beijing), and brings the reader up to the tensions of the current day. For as this book will explain, North Korea appears more and more to be the greatest threat among the Axis of Evil countries--with some defector testimony warning that Kim Jong-Il has enough chemical weapons to wipe out the entire population of South Korea.

Collecting and Displaying China's "Summer Palace" in the West

In October 1860, at the culmination of the Second Opium War, British and French troops looted and destroyed one of the most important palace complexes in imperial China—the Yuanmingyuan. Known in the West as the "Summer Palace," this site consisted of thousands of buildings housing a vast art collection. It is estimated that over a million objects may have been taken from the palaces in the Yuanmingyuan—and many of these are now scattered around the world, in private collections and public museums. With contributions from leading specialists, this is the first book to focus on the collecting and display of "Summer Palace" material over the past 150 years in museums in Britain and France. It examines the way museums placed their own cultural, political and aesthetic concerns upon Yuanmingyuan material, and how displays—especially those at the Royal Engineers Museum in Kent, the National Museum of Scotland and the Musée Chinois at the Château of Fontainebleau—tell us more about European representations and images of China, than they do about the Yuanmingyuan itself.

China's Lost Imperial Garden

Built in 1707, the Old Summer Palace (Yuan Ming Yuan) is a masterpiece integrating the classic garden-building arts of China. It is reputed as the "Garden of all Gardens," due to its rich and incomparable landscaping. The beautiful and expansive gardens were known to the world, and triggered the craze of Chinese gardens in 18th century Europe. Victor Hugo, one of the best and greatest known French writers, described it as "Achievements generated from the imagination of a super nation." The Old Summer Palace was also the second political center in addition to the Forbidden City in the Qing Dynasty (1636–1911). Five emperors chose the Old Summer Palace as their venue for administrative governance. They felt it expressed an ideal of state governing and an appeal of aesthetics. Meanwhile, it was the base for turning out important national policies while serving as an important venue for the exchange between Chinese and foreign envoys. Having gone through a span of over 150 years, the Old Summer Palace reflects the history of the rise and fall of the Qing Dynasty. Deserving its honor as the largest royal art museum, the Old Summer Palace contained calligraphic works and paintings of many noted artists, numerous rarities such as secret and valuable books, ancient bells, tri-pots, precious articles, gold and silver wares, jewelry and jade as well as rare flowers and trees of that time. In 1860, the Old Summer Palace was destroyed by British-French Allied Forces and all the collections inside were looted, resulting in a terrible disaster in the history of international culture. Today, the Old Summer Palace represents an important piece of cultural history for human civilization. At the end of the 20th century, Guo Daiheng, the author of this book, led over 80 experts, scholars and professionals in starting a project of Digital Reconstruction of the Old Summer Palace, an unprecedented task in the history of international historic parks. Over the past 15 years, the project has included an orderly development in 3D molding, digital restoration, and digital experience. Scenes of the Old Summer Palace in this book are the exact results from a digitalized Old Summer Palace, which reveals the magnificence of the garden in its prime.

Empress Dowager Cixi

Discover the extraordinary story of the woman who brought China into the modern age, from the bestselling author of *Wild Swans* In this groundbreaking biography, Jung Chang vividly describes how Empress Dowager Cixi – the most important woman in Chinese history – brought a medieval empire into the modern age. Under her, the ancient country attained virtually all the attributes of a modern state and it was she who abolished gruesome punishments like 'death by a thousand cuts' and put an end to foot-binding. Jung Chang comprehensively overturns the conventional view of Cixi as a diehard conservative and cruel despot and also takes the reader into the depths of her splendid Summer Palace and the harem of Beijing's Forbidden City, where she lived surrounded by eunuchs – with one of whom she fell in love, with tragic consequences. Packed with drama, fast-paced and gripping, it is both a panoramic depiction of the birth of modern China and an intimate portrait of a

woman: as the concubine to a monarch, as the absolute ruler of a third of the world's population, and as a unique stateswoman. 'Powerful' Simon Sebag Montefiore 'Truly authoritative' New York Times 'Wonderful' Sunday Times **Shortlisted for the James Tait Black Biography Prize**

Cracking the Elements

This authoritative volume examines the two main faiths, Confucianism and Daoism, that developed before China had meaningful contact with the rest of the world. Aspects of Buddhism later joined features of these faiths to form elements of Chinese ideology and, with the beliefs in immortals and the worship of ancestors, they led to a popular religion. The narrative describes the gods and goddesses that dominated China's mythology and folk culture, roughly from the 3rd millennium to 221 BCE, including the Baxian (Eight Immortals), Chang'e (moon goddess), Guandi (god of war), the Men Shen (door spirits), and Pan Gu (first man).

Madman, tyrant, animal—history has given Adolf Hitler many names. In *Mein Kampf* (My Struggle), often called the Nazi bible, Hitler describes his life, frustrations, ideals, and dreams. Born to an impoverished couple in a small town in Austria, the young Adolf grew up with the fervent desire to become a painter. The death of his parents and outright rejection from art schools in Vienna forced him into underpaid work as a laborer. During the First World War, Hitler served in the infantry and was decorated for bravery. After the war, he became actively involved with socialist political groups and quickly rose to power, establishing himself as Chairman of the National Socialist German Worker's party. In 1924, Hitler led a coalition of nationalist groups in a bid to overthrow the Bavarian government in Munich. The infamous Munich "Beer-hall putsch" was unsuccessful, and Hitler was arrested. During the nine months he was in prison, an embittered and frustrated Hitler dictated a personal manifesto to his loyal follower Rudolph Hess. He vented his sentiments against communism and the Jewish people in this document, which was to become *Mein Kampf*, the controversial book that is seen as the blue-print for Hitler's political and military campaign. In *Mein Kampf*, Hitler describes his strategy for rebuilding Germany and conquering Europe. It is a glimpse into the mind of a man who destabilized world peace and pursued the genocide now known as the Holocaust.

Mein Kampf

Lady Hyegyong's memoirs, which recount the chilling murder of her husband by his father, form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece, depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate, fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, *The Memoirs of Lady Hyegyong* is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.

Athenaeum

The classic work on the music of Afrofuturism, from jazz to jungle *More Brilliant than the Sun: Adventures in Sonic Fiction* is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, *More Brilliant than the Sun* is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

Ming porcelain is widely regarded among the world's finest cultural treasures. From ordinary household items patiently refined for imperial use, porcelain became a dynamic force in domestic consumption in China and a valuable commodity in export trade. In the modern era, it has reached unprecedented heights in art auctions and other avenues of global commerce. This book examines the impact of consumption on the evolution of porcelain and its transformation into a foreign cultural icon. The book begins with an examination of ways in which porcelain was appreciated in Ming China, followed by a discussion of encounters with Ming porcelain in several global regions including Europe and the Americas. The book also looks at the invention of the phrase and concept of 'the Ming vase' in English-speaking cultures and concludes with a history of the transformation of Ming porcelain into works of art.

'Richly documented and convincingly presented' -- New Society Mods and Rockers, skinheads, video nasties, designer drugs, bogus asylum seekers and hoodies. Every era has its own moral panics. It was Stanley Cohen's classic account, first published in the early 1970s and regularly revised, that brought the term 'moral panic' into widespread discussion. It is an outstanding investigation of the way in which the media and often those in a position of political power define a condition, or group, as a threat to societal values and interests. Fanned by screaming media headlines, Cohen brilliantly demonstrates how this leads to such groups being marginalised and vilified in the popular imagination, inhibiting rational debate about solutions to the social problems such groups represent. Furthermore, he argues that moral panics go even further by identifying the very fault lines of power in society. Full of sharp insight and analysis, Folk Devils and Moral Panics is essential reading for anyone wanting to understand this powerful and enduring phenomenon. Professor Stanley Cohen is Emeritus Professor of Sociology at the London School of Economics. He received the Sellin-Glueck Award of the American Society of Criminology (1985) and is on the Board of the International Council on Human Rights. He is a member of the British Academy.

Nineteen Eighty-Four

The Mahabharata is the more recent of India's two great epics, and by far the longer. First composed by the Maharishi Vyasa in verse, it has come down the centuries in the timeless oral tradition of guru and sishya, profoundly influencing the history, culture, and art of not only the Indian subcontinent but most of south-east Asia. At 100,000 couplets, it is seven times as long as the Iliad and the Odyssey combined: far and away the greatest recorded epic known to man. The Mahabharata is the very Book of Life: in its variety, majesty and, also, in its violence and tragedy. It has been said that nothing exists that cannot be found within the pages of this awesome legend. The epic describes a great war of some 5000 years ago, and the events that led to it. The war on Kurukshetra sees ten million warriors slain, brings the dwapara yuga to an end, and ushers in a new and sinister age: this present kali yuga, modern times. At the heart of the Mahabharata nestles the Bhagavad Gita, the Song of God. Senayor ubhayer madhye, between two teeming armies, Krishna expounds the eternal dharma to his warrior of light, Arjuna. At one level, all the restless action of the Mahabharata is a quest for the Gita and its sacred stillness. After the carnage, it is the Gita that survives, immortal lotus floating upon the dark waters of desolation: the final secret! With its magnificent cast of characters, human, demonic, and divine, and its riveting narrative, the Mahabharata continues to enchant readers and scholars the world over. This new rendering brings the epic to the contemporary reader in sparkling modern prose. It brings alive all the excitement, magic, and grandeur of the original-for our times.
