Introduction

... of goods and services **Operations management**, (OM) is ...

OM is one of three major functions of any organization, we want to study how people organize themselves for productive enterprise

Basic Management Functions

Table 1.2 Ten Strategic **Operations Management**, ...

1. Design of goods and services - Defines what is required of operations - Product design determines quality, sustainability and

Process and capacity design - How is a good or service produced? - Commits management to specific

technology, quality

Layout strategy - Integrate capacity needs, personnel levels

Supply chain management - Integrate supply chain into the firm's strategy - Determine what is to be purchased from whom, and

Scheduling - Determine and implement intermediate and short

... 1.4 Significant Events in **Operations Management**, ...

Productivity is the ratio of outputs (goods and services) divided by the inputs (resources such as labor and capital)

1. Basic education appropriate for the labor force 2. Diet of the labor force 3. Social overhead that makes labor available

Challenges facing operations managers: • Develop and produce safe, high-quality green products • Train, retrain, and motivate employees in a safe workplace

Stakeholders
