The managerial context of OB can viewed from the perspective of basic management functions, critical management skills, and overall human resource management.

MANAGEMENT FUNCTIONS Most find it useful to conceptualize the activities performed by managers as reflecting one or more of four basic functions.

PLANNING Planning, the first managerial function, is the process of determining the organization's desired future position and deciding how best to get there.

ORGANIZING The process of designing jobs, grouping jobs into manageable units, and establishing patterns of authority among jobs and groups of jobs.

LEADING Leading, the third major managerial function, is the process of motivating members of the organization to work together toward the organization's goals.

CONTROLLING The process of monitoring and correcting the actions of the organization and its people to keep them headed toward their goals.

The managerial context of OB can viewed from the perspective of basic management functions, critical management skills, and overall human resource management.

MANAGEMENT FUNCTIONS Most find it useful to conceptualize the activities performed by managers as reflecting one or more of four basic functions.

PLANNING Planning, the first managerial function, is the process of determining the organization's desired future position and deciding how best to get there.

ORGANIZING The process of designing jobs, grouping jobs into manageable units, and establishing patterns of authority among jobs and groups of jobs.

LEADING Leading, the third major managerial function, is the process of motivating members of the organization to work together toward the organization's goals.

CONTROLLING The process of monitoring and correcting the actions of the organization and its people to keep them headed toward their goals.
