

Shakespeare And Ovid Clarendon Paperbacks

[#Shakespeare and Ovid](#) [#Classical influences on Shakespeare](#) [#Clarendon Paperbacks literary criticism](#) [#Ovid's Metamorphoses in Shakespeare](#) [#Renaissance literary studies](#)

Delve into the profound classical influences of Ovid on William Shakespeare's iconic works with this insightful volume from Clarendon Paperbacks. Offering a detailed exploration of comparative literature, this study meticulously examines how Ovid's mythology, narrative structures, and poetic artistry shaped Renaissance drama and poetry, making it essential reading for scholars and enthusiasts of both literary giants and classical reception.

Shakespeare and Ovid

This is the first comprehensive account of the relationship between Shakespeare and his favourite poet, Ovid, examining the full range of Shakespeare's works.

Shakespeare and the English Romantic Imagination

Although it is well known that the Romantics were obsessed with Shakespeare, little attention has been paid to the ways in which he influenced their creative practices and their theories of the imagination. This new work finally presents the fascinating picture of how the Romantics read Shakespeare and responded to the implications of his work for their own poetry. The book provides the first full critical discussion of Shakespeare and Wordsworth, explores the influence of the plays on the poetry of Blake and Coleridge, and offers a fresh account of Shakespeare's powerful presence in the letters and poems of Keats and Byron, and in Shelley's dramas. Taking issue with prevalent deconstructionist theories and Harold Bloom's ideas on "the anxiety of influence," Bate instead carefully illustrates the ways in which initial attempts at blind imitation were transformed into graceful poetic echo and allusion.

Shakespeare's Ovid and the Spectre of the Medieval

A study of how the use of Ovid in Middle English texts affected Shakespeare's treatment of the poet.

Ars amatoria

Ovid's *Ars Amatoria* has met with astonishingly varied fortunes down the centuries. Ten years after publication the book became a reason, or more probably a pretext, for the author's banishment from Rome. It was removed from public libraries, and more recently the poem suffered a virtual embargo

in schools and universities. This is the first detailed English commentary on any part of the poem. Examined afresh, it emerges as the wittiest of Ovid's love poems, turning upside down the attitudes and conventions of orthodox love elegy. The work is full of psychological insight and is richly embroidered with details of contemporary Roman social and political life. This new paperback edition intends to bring out the spirit of provocative frivolity which was undeniably meant to irritate Roman traditionalists. The text of Kenney's Oxford Classical Text is reproduced and supplemented with a full introduction to the style and historical background the poem, as well as with a full commentary and appendices.

Shakespeare and Ovid

In this account of the relationship between Shakespeare and his favourite poet, Ovid, Bate examines the full range of Shakespeare's works, identifying Ovid's presence not only in the narrative poems and pastoral comedies, but also in the Sonnets and mature tragedies.

Shakespeare's Reading

Oxford Shakespeare Topics (General Editors Peter Holland and Stanley Wells) provide students, teachers, and interested readers with short books on important aspects of Shakespeare criticism and scholarship, including some general anthologies relating to Shakespeare. Shakespeare's Reading explores Shakespeare's marvelous reshaping of sources into new creations. Beginning with a discussion of how and what Elizabethans read--manuscripts, popular pamphlets, and books--Robert S. Miola examines Shakespeare's use of specific texts such as Holinshed's Chronicles, Plutarch's Lives, and Chaucer's The Canterbury Tales. As well as reshaping other writers' work, Shakespeare transformed traditions--the inherited expectations, tropes, and strategies about character, action and genre. For example, the tradition of Italian love poetry, especially Petrarch, shapes Romeo and Juliet as well as the sonnets; the Vice figure finds new life in Richard III and Falstaff. Employing a traditional understanding of sources as well as more recent developments in intertextuality, this book traces Shakespeare's reading throughout his career, as it inspires his poetry, histories, comedies, tragedies, and romances. Repeated references to the plays in performance enliven and enrich the account.

Shakespeare and the Uses of Antiquity

Against a recent tendency to exaggerate Shakespeare's classical learning, this study examines how the playwright used his relatively restricted knowledge to create an unusually convincing picture of Rome.

Shakespeare and the Classics

This book offers the most rounded and comprehensive treatment of Shakespeare's classicism currently available.

Sir Henry Neville Was Shakespeare

Who really wrote the plays of Shakespeare?

Uncommon Tongues

Uncommon Tongues explores the tension between the political value of eloquence and its classical definition in sixteenth-century English literature, locating eccentricity and unfamiliarity at the heart of pedagogical, rhetorical, and literary culture.

The Oxford Anthology of Tudor Drama

The first comprehensive anthology of English drama in the long Tudor century, The Oxford Anthology of Tudor Drama contains sixteen of the most important plays from the long Tudor century (1485-1603) newly edited in accessible modern spelling.

An introduction to the sonnets of shakespeare

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been

scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Clarendon Press Series. Shakespeare Select Plays. Julius Caesar

By transferring terms from contemporary disciplines, such as 'media studies' and 'creative writing', or the technology of computing, to earlier cultural contexts, Rhodes aims both to invite further reflection on the nature of the practices themselves, and also to offer new ways of thinking about their relationship to the discipline of English. *Shakespeare and the Origins of English* not only attempts an explanation of where English came from, but suggests how some of the things that we do now in the name of 'English' might usefully be understood in a wider historical perspective. By extending our view of its past, we may achieve a clearer view of its future.

Shakespeare and the Origins of English

Mestizo: a person of mixed blood; specifically, a person of mixed European and American Indian ancestry. Serge Gruzinski, the renowned historian of Latin America, offers a brilliant, original critique of colonization and globalization in *The Mestizo Mind*. Looking at the fifteenth-century colonization of Latin America, Gruzinski documents the *mélange* that resulted: colonized mating with colonizers; Indians joining the Catholic Church and colonial government; and Amerindian visualizations of Jesus and Perseus. These physical and cultural encounters created a new culture, a new individual, and a phenomenon we now call globalization. Revealing globalization's early origins, Gruzinski then fast forwards to the contemporary *mélange* seen in the films of Peter Greenaway and Wong Kar-Wai to argue that over 500 years of intermingling has produced the mestizo mind, a state of mixed thinking that we all possess. A masterful alchemy of history, anthropology, philosophy and visual analysis, *The Mestizo Mind* definitively conceptualizes the clash of civilizations in the style of Homi Bhabha, Gayatri Spivak and Anne McClintock.

The Mestizo Mind

Although a third of his plays are set in the ancient world and he constantly used classical mythology, history, and ideas, Shakespeare received a simple grammar school education and did not have a scholar's knowledge of the classics. The critical implications of this are the subject of *Shakespeare and the Uses of Antiquity*. Against a recent academic tendency to exaggerate Shakespeare's learning, the authors investigate how he used his comparatively restricted knowledge to create, for example, an unusually convincing picture of Rome, and analyse, by presenting us with careful readings of specific passages, the styles Shakespeare employed under the influence of classical writers, especially Ovid, Seneca, and (in translation) Homer and Plutarch.

Studies in Elizabethan Drama

"This book grew from the inaugural E. H. Gombrich Lectures in the Classical Tradition that I delivered in the autumn of 2013 at the Warburg Institute of the University of London, under the title, "Ancient Strength: Shakespeare and the Classical Tradition"--Preface, page ix.

Shakespeare and the Uses of Antiquity

Publisher Description

How the Classics Made Shakespeare

Ovid's great poem, *Metamorphoses*, was a source of life long fascination and inspiration for Shakespeare. He drew on its great myths throughout his career: in early works like *Venus and Adonis* and *Titus Andronicus*, works of the middle period like *A Midsummer Night's Dream* and *Twelfth Night*, and late plays such as *The Winter's Tale* and *The Tempest*. This book provides a comprehensive examination of his use of Ovid's poem with contributions from international scholars. It begins by examining the use of Ovid's myth in early Elizabethan literature, a use dramatically changed by Marlowe and Shakespeare himself. It then offers detailed readings of Shakespeare's use of Ovid in a wide range of plays and poems, placing emphasis on several important but often underestimated features. The book also provides a survey of twentieth-century criticism and methodology in the field.

Shakespeare, National Poet-Playwright

Provides insight into the poems & sonnets of William Shakespeare along with a brief biography.

Shakespeare's Ovid

A Midsummer Night's Dream is perhaps the best-loved of Shakespeare's plays, and certainly the one that children are likely to encounter first; its mixture of aristocrats, workers, and fairies meeting in a wood outside Athens has a magic of its own. Simple and engaging on the surface, it is nonetheless a highly original and sophisticated work, remarkable for both its literary and its theatrical mastery. The fact that it is one of the very few of Shakespeare's plays not to draw on a narrative source suggests the degree to which it reflects his deepest imaginative concerns. In his Introduction, defining the play in both the literary and theatrical traditions to which it belongs, Peter Holland pays particular attention to dreams and dreamers, tracing the materials out of which Shakespeare constructs his world of night and shadows in the strange but enchanting amalgam he makes of them. Both here and in the detailed commentary he draws freely upon the play's extensive performance history to illustrate the wide range of interpretations of which it is capable.

Shakespeare's Poems and Sonnets

Situated within the Oxford Handbooks to Literature series, the group of Oxford Handbooks to Shakespeare are designed to record past and present investigations and renewed and revised judgments by both familiar and younger Shakespearean specialists. Each of these volumes is edited by one or more internationally distinguished Shakespeareans; together, they comprehensively survey the entire field. An essential resource for the study of Shakespeare, *The Oxford Handbook of Shakespeare* is edited by esteemed scholar Arthur Kinney and contains forty specially written essays. It provides fresh and imaginative readings of his plays and poems, reflects on the current state of Shakespeare Studies, and suggests the likely future directions it will take. The Handbook is divided into five sections: 'Texts' explores how Shakespeare wrote, who he collaborated with, the ways in which his works were transmitted, and the reactions of his early readers; 'Conditions' examines the economic, social, artistic, and linguistic forces at play on Shakespeare; 'Works' discusses the various stages of his career; 'Performances' is concerned with issues such as the reception of his plays, the theatre business, and film adaptations; and 'Current Speculations' includes essays on topics ranging from the role of philosophical thought and the influence of classical sources to the relevance of empire, technology, religion, and law. By covering the range of Shakespeare's work in his time and ours, this myriad-minded book deepens and enriches our understanding of the great poet and unparalleled playwright's accomplishments.

The Oxford Shakespeare: *A Midsummer Night's Dream*

This study explains that Shakespeare's use of Ovidian text as source material produces an intrinsic theme when viewed through the scope of a writer whose primary aim was to provide his audience with a uniquely English dramatic product.

Metamorphoses: Books I-VIII

Marking the 400th anniversary of his death, leading Shakespeareans reflect back on key developments in criticism and look forward to new areas of study

The Oxford Handbook of Shakespeare

The critical essays collected in this volume reflect Greenaway's relocation of *The Tempest* along the fundamentally unstable boundaries between different discursive formations.

Elegiac Poems of Ovid: The earlier poems, selected from the *Heroides*, the *Amores*, the *Ars amatoria* and the *Remedia amoris*

This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. This ebook is a static version of an article from *Oxford Bibliographies Online: Renaissance and Reformation*, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries. *Oxford Bibliographies Online* covers most subject disciplines within the social science and humanities, for more information visit www.oxfordbibliographies.com.

Notes and Queries

The second Oxford edition of Shakespeare's *Complete Works* reconsiders every detail of their text and presentation in the light of modern scholarship. The nature and authority of the early documents are re-examined, and the canon and chronological order of composition freshly established. Spelling and punctuation are modernized, and there is a brief introduction to each work, as well as an illuminating and informative General Introduction. Included here for the first time is the play *The Reign of King Edward the Third* as well as the full text of *Sir Thomas More*. This new edition also features an essay on Shakespeare's language by David Crystal, and a bibliography of foundational works.

The Influence of the Roman Poet Ovid on Shakespeare's *A Midsummer Night's Dream*

Twenty-one essays provide lively and authoritative approaches to the literary, historical, cultural and performative aspects of Shakespeare works.

Shakespeare in Our Time

This is the first collection to use adaptation studies in connection with other contemporary theoretical approaches in analysing early modern transformations of Ovid.

Peter Greenaway's *Prospero's Books*

The organization of Shakespeare's plays has challenged, even baffled audiences and critics since the 17th century. *Cymbeline* has been dismissed as "incoherent." *Hamlet* "is of no clear shape." And *Antony and Cleopatra* "bewilders the mind." These judgments result from an incomplete understanding of Shakespeare's constructive practice. It is not the narrative arc alone that organizes the plays but a complex structure of interwoven narrative and thematic actions. While the narrative varies from play to play, thematic actions are invariably created in mirroring pairs around the central scene: A-B-C-B-A. This symmetrical pattern, which can be visualized as an arch with a focal keystone, is the foundation of all of Shakespeare's mature work, as shown through an analysis of the 26 plays in this book. This arch illuminates the structure of plays that have long been puzzling, demonstrating that they are thematically organized and rigorously crafted. It also reveals subtleties otherwise invisible.

Caesar Augustus

This book presents seven fresh and original views of Caesar Augustus, as the authors of the papers collected here consider the image which he presented of himself, how poets and historians reacted to him, the nature of his rule, and the representation of the newly established monarch among his subjects in the provinces. The contributors are well-known historians and scholars: Zvi Yavetz (Tel Aviv), Fergus Millar (Oxford), Claude Nicolet (Paris), Emilio Gabba (Pavia), Werner Eck (Cologne), Glen Bowersock (Princeton), and Jasper Griffin (Oxford). These papers were first given at a colloquium held at Wolfson College, Oxford, to celebrate the eightieth birthday of the late Sir Ronald Syme, author of *The Roman Revolution* (OUP 1939) and other seminal works. A substantial amount of documentation has been added in the notes, but the main texts retain the form in which they were given as lectures, and with it a freshness and immediacy in approaching a central moment in history from a number of new angles.

Augustus Caesar

Revised throughout, the second edition of this successful book takes the most recent research in the field into account and reviews the evidence in order to place Augustus firmly in the context of his own times. History sees Augustus Caesar as the first emperor of Rome, whose system of ordered government provided a firm and stable basis for the expansion and prosperity of the Roman Empire. Hailed as 'restorer of the Republic' and regarded by some as a deity in his own lifetime, Augustus was emulated by many of his successors. Key topics discussed include: the background to Augustus Caesar's spectacular rise to power his political and imperial reforms the creation of the Republic of Augustus the legacy Augustus Caesar left to his successors. Including more coverage of the social and cultural aspects of this complex character's reign, together with an expanded guide to further reading, students will not miss a beat if this book is included on their course reading lists.

The Failure of Augustus

Augustus did not mean to become the "Founder of the Roman Empire". We only say this to make sense of what happened later. At the time, there were indeed suspicions. However, Augustus plugged on with his propaganda, with a proud and clear aim in mind. In the end, though, his own persistence defeated him. In all history, we must first find out what was true at the time. This book focuses always on the particular words of Augustus, and how his mind could be read from them. It is not concerned with any contemporary focus of research in Augustan studies, but offers, rather, a sustained argument over the primacy of the original sources in any historical interpretation. Behind that lies the question of truth itself in any history.

The First Christians in the Roman World

Collection of previously published essays and lectures.

Caesar

"Why were Rome's first emperors—the good, the bad, and the ugly—so vulnerable to conspiracies and assassination? . . . an expert analysis . . . compelling." —Adrienne Mayor, author of *The Poison King: The Life and Legend of Mithradates and Rome's Deadliest Enemy* Exploring the history of internal security under the first Roman dynasty, this groundbreaking book answers the enduring question: If there were 9,000 men guarding the emperor, how were three-quarters of Rome's leaders assassinated? Rose Mary Sheldon traces the evolution of internal security mechanisms under the Julio-Claudians, evaluating the system that Augustus first developed to protect the imperial family and the stability of his dynasty. Yet in spite of the intensive precautions taken, there were multiple attempts on his life. Like all emperors, Augustus had a number of competing constituencies—the senate, the army, his extended family, the provincials, and the populace of Rome—but were they all equally threatening? Indeed, the biggest threat would come from those closest to the emperor—his family and the aristocracy. Even Roman imperial women were deeply involved in instigating regime change. By the fourth emperor, Caligula, the Praetorian Guards were already participating in assassinations, and the army too was becoming more politicized. Sheldon weighs the accuracy of ancient sources: Does the image of the emperor presented to us represent reality or what the people who killed him wanted us to think? Were Caligula and Nero really crazy, or did senatorial historians portray them that way to justify their murder? Was Claudius really the fool found drooling behind a curtain and made emperor, or was he in on the plot from the beginning? These and other fascinating questions are answered as Sheldon concludes that the repeated problem of "killing Caesar" reflected the empire's larger dynamics and turmoil.

Kill Caesar!

First Published in 2004. Routledge is an imprint of Taylor & Francis, an informa company.

Augustus Caesar

AugustusHe was the first emperor of one of the greatest empires ever known to man. He commanded unmatched authority in the ancient world and was always one step ahead of his opponents. He had an intellect and a sharp wit that could cut down his foes just as easily as the steel of his sword. The life of Octavian-later known as Augustus-is so rich and full, it would take several volumes to cover all of his exploits. Although he lived and died over 2,000 years ago, this founder of the Roman Empire is as intriguing as ever. Inside you will read about... The Adoptive Son of Julius Caesar Defeating Mark Antony The Second Triumvirate The Suicide Pact The First Roman Emperor And much more! Learn the riveting history and the inspirational life of the most noble Roman of them all-Augustus.

The World of Juba II and Kleopatra Selene

Political science interpretations of international relations tend to focus on abstract terms of economic interest, domination, rights and justice. Trapped within this limited horizon, the discipline fails to explain why nations of similar economic structure would have variant ideas for their foreign policies, and why nations with different economic structures and ideologies could develop a similar global posture during certain periods of their histories. This innovative study examines imperialism from a cultural and linguistic perspective, portraying the rise and fall of ancient Greek, Roman, medieval Islamic, modern British, Russian and American empires as a part of the natural life of world civilizations. As these imperial cultures matured through centuries of literary accumulation and interaction with other cultures, they finally found their confidence on the world stage and transitioned from an aggressive policy towards others to a more tolerant one.

Augustus Caesar

This is a collection of eleven essays, laced with humor and irony, on the Dawn of Man, Mesopotamia, Egypt, Hebrews, Minoans and Mycenaens, classical Greece, Alexander the Great, the Hellenistic world, Rome's Republic and Empire, and several church fathers (Irenaeus, Tertullian, Jerome, and Augustine) who influenced the Primitive Church. Tinsley highlights current research while showcasing themes of contemporary as well as ancient significance - misogyny, the manipulation of rhetoric to justify privilege, the contributions of the anonymous to the well-being of the famous, the paradox of progress, the distortion of prophecy, the use and misuse of myth and other media, the exploitation of spiritual, intellectual, physical, and sexual resources, the comforts and perils of provincialism versus the dangers and benefits of organization - spiritual, imperial, or both.

Julius Caesar

Shedding new light on the history of the book in antiquity, *Empire of Letters* tells the story of writing at Rome at the pivotal moment of transition from Republic to Empire (c. 55 BCE-15 CE). By uniting close readings of the period's major authors with detailed analysis of material texts, it argues that the physical embodiments of writing were essential to the worldviews and self-fashioning of authors whose works took shape in them. Whether in wooden tablets, papyrus bookrolls, monumental writing in stone and bronze, or through the alphabet itself, Roman authors both idealized and competed with writing's textual forms. The academic study of the history of the book has arisen largely out of the textual abundance of the age of print, focusing on the Renaissance and after. But fewer than fifty fragments of classical Roman bookrolls survive, and even fewer lines of poetry. Understanding the history of the ancient Roman book requires us to think differently about this evidence, placing it into the context of other kinds of textual forms that survive in greater numbers, from the fragments of Greek papyri preserved in the garbage heaps of Egypt to the Latin graffiti still visible on the walls of the cities destroyed by Vesuvius. By attending carefully to this kind of material in conjunction with the rich literary testimony of the period, *Empire of Letters* exposes the importance of textuality itself to Roman authors, and puts the written word back at the center of Roman literature.

Language and Culture in the Growth of Imperialism

Not much has happened in the Roman Empire since 1994 that required the first edition to be updated, but Bunson, a prolific reference and history author, has revised it, incorporated new findings and thinking, and changed the dating style to C.E. (Common Era) and B.C.E. (Before Common Era). For the 500 years from Julius Caesar and the Gallic Wars in 59-51 B.C.E. to the fall of the empire in the west in 476 C.E., he discusses personalities, terms, sites, and events. There is very little cross-referencing.

Reconstructing Western Civilization

This book gives serious consideration to the relationship between Ovid's *Fasti* and the Roman calendar. The poem treats the calendar, recently revised by Caesar and Augustus, as its most important cultural model and as a quasi-literary 'intertext.'

Empire of Letters

In *Legendary Rivals* Jaclyn Neel argues for a new interpretation of the foundation myths of Rome. Instead of a negative portrayal of the city's early history, these tales offer a didactic paradigm of the correct way to engage in competition.

Encyclopedia of the Roman Empire

Throughout history, every culture has had its own ideas on what growing up and growing old means, with variations between chronological, biological and social ageing, and with different emphases on the critical stages and transitions from birth to death. This volume is the first to highlight the role of age in determining behaviour, and expectations of behaviour, across the life span of an inhabitant of ancient Rome. Drawing on developments in the social sciences, as well as ancient evidence, the authors focus on the period c.200BC - AD200, looking at childhood, the transition to adulthood, maturity, and old age. They explore how both the individual and society were involved in, and reacted to, these different stages, in terms of gender, wealth and status, and personal choice and empowerment.

Founding the Year: Ovid's *Fasti* and the Poetics of the Roman Calendar

Containing 250 entries, each volume of the *Dictionary of World Biography* contains examines the lives of the individuals who shaped their times and left their mark on world history. Much more than a 'Who's Who', each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements, and conclude with a fully annotated bibliography. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. Any student in the field will want to have one of these as a handy reference companion.

Legendary Rivals: Collegiality and Ambition in the Tales of Early Rome

Napoleon I employed a myriad of media through which to promote his propaganda and his universal hegemony. Classical Rome - home to the great Caesars - was central to his ambitious visions for the transformation of Paris into an imperial metropolis of unprecedented magnitude. Exploring the interrelationship between antiquity, the display of power and the reinvention of Paris, this volume evaluates how the Roman world and post-antique exploitations of Rome influenced Napoleonic Paris, and how Napoleon promoted his authority by appropriating Rome's triumphal architecture and its associated symbolism to relocate 'Rome' in his own times. The volume shows how consideration of Louis XIV's legacy is crucial to understanding the evolution of Napoleon's fascination with imperial Rome. It also charts Napoleon's manipulation of the populist rhetoric of Republican France (and Rome) as he moved from being a general fighting for the Revolutionary cause to become the 'absolute' ruler of a new empire.

Growing Up and Growing Old in Ancient Rome

The Oxford Encyclopedia of Ancient Greece and Rome is the clearest and most accessible guide to the world of classical antiquity ever produced. This multivolume reference work is a comprehensive overview of the major cultures of the classical Mediterranean world--Greek, Hellenistic, and Roman--from the Bronze Age to the fifth century CE. It also covers the legacy of the classical world and its interpretation and influence in subsequent centuries. The Encyclopedia brings the work of the best classical scholars, archaeologists, and historians together in an easy-to-use format. The articles, written by leading scholars in the field, seek to convey the significance of the people, places, and historical events of classical antiquity, together with its intellectual and material culture. Broad overviews of literature, history, archaeology, art, philosophy, science, and religion are complimented by articles on authors and their works, literary genres and periods, historical figures and events, archaeologists and archaeological sites, artists and artistic themes and materials, philosophers and philosophical schools, scientists and scientific areas, gods, heroes, and myths. Areas covered include: · Greek and Latin Literature · Authors and Their Works · Historical Figures and Events · Religion and Mythology · Art, Artists, Artistic Themes, and Materials · Archaeology, Philosophers, and Philosophical Schools · Science and Technology · Politics, Economics, and Society · Material Culture and Everyday Life

The Ancient World

Employs the metaphor of the body politic in Ancient Rome to rethink the transition from the Republic to Principate.

Paris: The 'New Rome' of Napoleon I

Winner of the 1973 National Book Award, Augustus tells the story, through fictional letters, memoranda, and dispatches, of Octavian, the shy scholarly, youth who became Caesar Augustus.

Caesar

Teaching World History Through Wayfinding, Art, and Mindfulness approaches world history instruction through standards-based arts- and story-telling prompts. Each chapter provides contextualization through stories along with unique pieces of art from around the globe along with inquiries for teachers to examine by themselves and/or with their students through a mindfulness lens. By providing frameworks that support social studies instruction as well as social and emotional skill development. This book uses a wayfinding methodology to explore world history stories through art and provides pathways for instruction through reciprocal dialogues, and art- and mindfulness-based experiences.

Ancient History

Historical Dictionary of Democracy contains a chronology, an introduction, a glossary, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries. This book is an excellent resource for students, researchers, and anyone wanting to know more about democracy.

The Oxford Encyclopedia of Ancient Greece and Rome

Inventing Ancient Culture discusses aspects of antiquity which we have tended to ignore. It asks the reader how far we have reinvented antiquity, by applying modern concepts and understandings to its study. Furthermore, it challenges the common notion that perceptions of the self, of modern societal and institutional structures, originated in the Enlightenment. Rather, the authors and contributors argue,

there are many continuities and marked similarities between the classical and the modern world. Mark Golden and Peter Toohey have assembled a lively cast of contributors who analyse and argue about classical culture, its understandings of philosophy, friendship, the human body, sexuality and historiography

The Body Politic in Roman Political Thought

Combines biographies of the Roman emperors from Julius Caesar to the sack of Rome, 410 A. D. with a study of how the office of emperor changed during the era.

Augustus. [A Novel.] (This Ed. 1. Publ.)

An old, bloodthirsty tyrant hears from a group of Magi about the birth of the Messiah, king of the Jews. He vengefully sends his soldiers to Bethlehem with orders to kill all of the baby boys in the town in order to preserve his own throne. For most of the Western world, this is Herod the Great -- an icon of cruelty and evil, the epitome of a tyrant. Adam Kolman Marshak portrays Herod the Great quite differently, however, carefully drawing on historical, archaeological, and literary sources. Marshak shows how Herod successfully ruled over his turbulent kingdom by skillfully interacting with his various audiences -- Roman, Hellenistic, and Judaeian -- in myriad ways. Herod was indeed a master in political self-presentation. Marshak's fascinating account chronicles how Herod moved from the bankrupt usurper he was at the beginning of his reign to a wealthy and powerful king who founded a dynasty and brought ancient Judaea to its greatest prominence and prosperity.

Teaching World History Through Wayfinding, Art, and Mindfulness

Analyzes how Tacitus contributed to our current understanding of history and reveals the themes that permeated his writing

Historical Dictionary of Democracy

This 2006 book examines hostage-taking in ancient Rome, which was a standard practice of international diplomacy. Hundreds of foreign hostages, typically adolescents, were detained as the empire grew in the Republic and early Principate.

Inventing Ancient Culture

This book presents Cicero's natural law theory, including valuable definitions of the state, the ideal state, the ideal ruler, and the laws for the ideal state. Explanations are offered of the Greek sources of Cicero's republican philosophy, his influence on the Principate of Augustus, and his role in the development of modern political philosophy. As all the ages of the world have not produced a greater statesman and philosopher united than Cicero, his authority should have great weight (John Adams, 1787).

Caesar's Gallic war

The first Emperor of Rome holds a perennial fascination for anyone with an interest in the Romans and their Empire. Augustus was a truly remarkable man who brought peace after many years of civil wars and laid the foundations of an Empire that lasted for nearly five centuries. Even today the Roman world still underpins modern society. This revised edition of Augustus incorporates new thinking on many aspects of his rule, and how he achieved such power. The image that he projected of himself and his achievements was benign, hopeful, and heroic, but behind this carefully orchestrated self-promotion he was subtle, clever, scheming and ruthless. He has been labelled as a saviour and as a mafia boss. This account of his life shows how he successfully combined the two extremes.
