Of the world's 4,000 to 4,500 mammal species, about 1,100 occur in Africa. In this updated and revised edition of Field Guide to the Larger Mammals of Africa, authors Chris and Tilde Stuart concentrate on the more visible and easily distinguished larger mammal species, plus some of the more frequently seen smaller mammals. In all, over 400 color photographs, combined with concise, pertinent information highlighting the diagnostic features of each species, provide a comprehensive source of information on each mammal. The latest information has been incorporated and the distribution maps have been revised to reflect the most up-to-date habitat and distribution patterns for each species. A new feature is the inclusion of the mammals' skulls, grouped together at the back of the book. To aid the reader, color-coding and symbols indicating the habitat and activity period serve as a quick reference to the various mammal groups.

Kay's Anatomy

As the child of peasants, Karen grew up with a pair of simple red shoes. Then, when her parents died, Karen was adopted by a rich old woman who gave Karen a new pair of red shoes that would make princesses green with envy. This newfound wealth causes Karen to forget her humble origins and grow up to become a cruel and vain adult. Then, one day, the red shoes that sparked her greed come to life and steer Karen down a path she never would have imagined in her wildest dreams. This volume also includes Metaphrog's adaptation of the Hans Christian Andersen classic, "The Little Match Girl" and a tale of their own invention, "The Glass Case".

The Red Shoes and Other Tales

A town. A forest. A hero. You can't go far without a quick brain and some rule-bending in a place like Locksley. After its vast car plants shut down, the prosperous town has become a wasteland of empty homes, toxic land and families on the brink. And it doesn't help that the authorities are in the clutches

of profit-obsessed Sheriff of Nottingham, in cahoots with underworld boss Guy Gisborne. When his dad is framed for a robbery, Robin and his brother Little John are hounded out of Locksley and must learn to survive in the Sherwood forest, stretching three hundred kilometres and sheltering the free spirits and outlaws. But Robin is determined to do more than survive. Small, fast and deadly with a bow, he hatches a plan to join forces with Marion Maid, harness his inimitable tech skills and strike a blow against Gisborne and the Sheriff.

Percy Jackson and the Sword of Hades

A NEW YORK TIMES BESTSELLER! Named one of the year's best graphic novels by CNN, Complex, IFC, School Library Journal, Library Journal, and USA Today! "A great, paranoid read for the modern age."-- Cory Doctorow, Boing Boing "Venditti's cat-mouse thriller demands edge-of-your-seat attention while raising serious questions about terrorism, personal privacy, and government responsibility ... excellent writing and plotting, and dead suitable art."-- Library Journal "In exploring the nature of the relation between the individual, society and the state, one would anticipate The Homeland Directive to elevate both the thriller genre and the comics medium. Venditti delivers admirably on both counts."-- Dr. Shathley Q, PopMatters "An addictive page-turner that feels like an edge-of-your-seat theater experience. Huddleston's art puts the focus where it needs to be to wring every drop of tension from the story, and Venditti's script shows that he doesn't need the sci-fi elements of his earlier work to craft a fascinating, fast-paced thriller."-- Rick Marshall, MTV Splash Page "The conspiracy at the heart of this superbly paced thriller makes the Illuminati and the New World Order look like rank amateurs."-- Garrett Martin, Paste Magazine "An exceptionally good graphic novel for the moment... with a sophisticated sense of how government works."-- Alyssa Rosenberg, ThinkProgress "It's unlikely you'll find a book that looks as good as The Homeland Directive this year."-- Graeme McMillan, Robot 6 "Pulse-pounding... well-characterized, the plotting is tight, and the stakes are high. Mike Huddleston's art flips from pen and ink to painterly, but consistently captures the right mood and inspires the gritting of teeth."-- Jeremy Nisen, Under the Radar A new thriller from the author of the New York Times bestseller The Surrogates! As a leading researcher at the Centers for Disease Control and Prevention, Dr. Laura Regan is one of the world's foremost authorities on viral and bacteriological study. Having dedicated her career to halting the spread of infectious disease, she has always considered herself one of the good guys. But when her research partner is murdered and Laura is blamed for the crime, she finds herself at the heart of a vast and deadly conspiracy. Aided by three rogue federal agents who believe the government is behind the frame-up, Laura must evade law enforcement, mercenaries, and a team of cyber-detectives who know more about her life than she does-- all while trying to expose a sinister plot that will impact the lives of every American. Set in the Orwellian present, The Homeland Directive

confronts one of the vital questions of our time: In an era when technology can either doom or save us, is it possible for personal privacy and national security to coexist?
