My Hands

Describes the parts of the hand and all the things our hands help us to do.

My Five Senses

Sight and smell, taste and hearing and touch—our senses teach us about our world. Discover how you use your five senses in this classic Level 1 Let's-Read-and-Find-Out picture book from beloved author-illustrator Aliki. Aliki's simple, engaging text and colorful artwork show young readers how they use their senses to smell a rose or play with a puppy. Now rebranded with a new cover look, this bestselling picture book invites young readers to use each of their five senses to explore the world around them. Both text and artwork were expert-reviewed for accuracy. This is a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades and supports the Common Core Learning Standards and Next Generation Science Standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Children's Literature

Read and find out about rocks and rock collecting in this colorfully illustrated nonfiction picture book. Readers follow two enthusiastic rock hounds around the globe as they add to their collection. Along the way they will learn how sedimentary, metamorphic, and igneous rocks are formed. From the Egyptian pyramids to Roman roads, from the diamond ring on a finger to the pebbles under your feet, rocks are everywhere! This is a Level 2 Let's-Read-and-Find-Out, which means the book explores more challenging concepts for children in the primary grades. The 100+ titles in this leading nonfiction series are: hands-on and visual acclaimed and trusted great for classrooms Top 10 reasons to love LRFOs: Entertain and educate at the same time Have appealing, child-centered topics Developmentally appropriate for emerging readers Focused; answering questions instead of using survey approach Employ engaging picture book quality illustrations Use simple charts and graphics to improve visual literacy skills Feature hands-on activities to engage young scientists Meet national science education standards Written/illustrated by award-winning authors/illustrators & vetted by an expert in the field

Over 130 titles in print, meeting a wide range of kids' scientific interests Books in this series support the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

Let's Go Rock Collecting

Read and find out about what makes something alive, and what all living things need to stay healthy, in this colorfully illustrated nonfiction picture book. A person and a cat have something in common: You are both alive. People and plants and animals are all alive, but is a doll alive? Or your bike? How can you tell? This is a clear and appealing science book for early elementary age kids, both at home and in the classroom. It's a Level 1 Let's-Read-and-Find-Out, which means the book explores introductory concepts perfect for children in the primary grades. The 100+ titles in this leading nonfiction series are: hands-on and visual acclaimed and trusted great for classrooms Top 10 reasons to love LRFOs: Entertain and educate at the same time Have appealing, child-centered topics Developmentally appropriate for emerging readers Focused; answering questions instead of using survey approach Employ engaging picture book quality illustrations Use simple charts and graphics to improve visual literacy skills Feature hands-on activities to engage young scientists Meet national science education standards Written/illustrated by award-winning authors/illustrators & vetted by an expert in the field Over 130 titles in print, meeting a wide range of kids' scientific interests Books in this series support the Common Core Learning Standards, Next Generation Science Standards, and the Science, Technology, Engineering, and Math (STEM) standards. Let's-Read-and-Find-Out is the winner of the American Association for the Advancement of Science/Subaru Science Books & Films Prize for Outstanding Science Series.

What's Alive?

This exciting new activity guide successfully introduces science, math, and nutrition concepts to toddlers. The importance of laying a strong foundation of critical thinking skills is recognized in this book, which details the abilities learned and practiced with each exercise. Thorough explanations of the scientific, mathematic, or nutritional principles accompany each activity, so no outside research is necessary -- it's all included for hassle-free lessons! Developmentally appropriate variations are also listed for reinforcing concepts while adding on to toddlers' knowledge. Each activity is categorized to facilitate integration with older groups. Includes a large annotated bibliography and huge resource list for teachers and homeschoolers.

Science, Math, and Nutrition for Toddlers

Why do some things float and others sink? Does a small, wide container hold more water than a tall, thin one? How can you make a toy boat that floats sink to the bottom of a bathtub? Fun-filled activities encourage young children to use familiar and safe objects found in their homes or classrooms to make observations about the world around them. In this innovative series for young children, acclaimed science writer Seymour Simon and Nicole Fauteux encourage children to explore the world around them as they play. Each book contains tips for parents and caregivers on how to create positive learning experiences for even the littlest of scientists. Innovative series for young children, acclaimed science writer Seymour Simon and Nicole Fauteux encourage children to explore the world around them as they play. Each book contains tips for parents and caregivers on how to create positive learning experiences for even the littlest of scientists.

Lets Try It Out: In the Water

Fun-filled activities that encourage young children to use familiar and safe objects found in their homes or classrooms to make observations about how things work. Whether building a sturdy tower of blocks, creating a solid foundation with clay, or making a paper bridge span short and long distances without falling down, children will have fun while they begin to learn important and basic science concepts. In this innovative series for young children, acclaimed science writer Seymour Simon and Nicole Fauteux encourage children to explore the world around them as they play. Each book contains tips for parents and caregivers on how to create positive learning experiences for even the littlest of scientists. To learn important and basic science concepts. The Elementary School Library Collection, Phases 1-2-3

Accompanying CD-ROM contains: McGraw-Hill children's literature database; a student study guide; and practical resources.

Let's Read and Find Out about General Science Set 3: Physical Science

The invaluable grade-by-grade guide (kindergarten—sixth) is designed to help parents and teachers select some of the best books for children. Books to Build On recommends: • for kindergartners, lively collections of poetry and stories, such as *The Children's Aesop*, and imaginative alphabet books such as Bill Martin, Jr.'s *Chicka Chicka Boom Boom* and Lucy Micklewait's *I Spy: An Alphabet in Art* • for first graders, fine books on the fine arts, such as Ann Hayes's *Meet the Orchestra*, the hands-on guide *My First Music Book*, and the thought-provoking *Come Look with Me* series of art books for children • for second graders, books that open doors to world cultures and history, such as Leonard Everett Fisher's *The Great Wall of China* and Marcia Willaims's humorous *Greek Myths for Young Children* • for third graders, books that bring to life the wonders of ancient Rome, such as *Living in Ancient Rome*, and fascinating books about astronomy, such as Seymour Simon's *Our Solar System* • for fourth graders, engaging books on history, including Jean Fritz's *Shh! We're Writing the Constitution*, and many books on Africa, including the stunningly illustrated story of *Sundiata: Lion King of Mali* • for fifth graders, a version of Shakespeare's *A Midsummer Night's Dream* that retains much of the original language but condenses the play for reading or performance by young students, and Michael McCurdy's *Escape from Slavery: The Boyhood of Frederick Douglass* • for sixth graders, an eloquent retelling of the *Iliad* and the *Odyssey*, and the well-written American history series, *A History of US . . .* and many, many more!

Lets Try It Out: With Towers and Bridges

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Science, Math, and Nutrition for Toddlers: Setting the Stage for Serendipity

Muriel Wiley lives in a broken world. After World War III, planet Earth is left destitute of life. Or so she thought. There is something more. Someone more. Muriel has a secret ability that gets triggered by the Benders, people who live on a magical island. Muriel and her friends get taken to Zilliad, a land full of surprises and strange abilities. But the world isn't as perfect as it seems. Join Muriel as she has adventures in Zilliad, the Land of Light.
