This book is based on true experience of Author and devoted to guide readers, how to have Astral projection (Out of body Experience) with fully awareness. It focuses on practical OBE exit training and advice rather than on covering everything related to history. As this book elaborates the Technic of Astral projection, so it was also necessary to understand about our physical body and its behavior, so that we can understand the behavior of astral body. So author has also given profound knowledge about physical body behavior at subtle levels. Author himself has done lots of study on Astral Projection (OBE) and practice the same. And finally I (Author) got the result as desired. I took almost 10 years to get clear understanding about successful Astral Projection. And I was amazed with what I found. I wanted to share my experience and knowledge to others, so that they can also take benefit of it. I invested almost 10 years in this subject and surmised the main basic Technics for others, so that they don't have to waste their extra effort and time.

Astral Travel

For people who want an incredible level of control over their mind and body... For the first time, two books, Astral Projection by Nicole Harrington and Astral Projection by Joy Martel, are being offered in one collection. Discover how to tap into a new metaphysical realm with your body's inner power, and change your life forever. Description from Astral Projection by Nicole Harrington We have all heard stories about people who have mysteriously left their bodies and gone on journeys to faraway lands. Strangely these stories have not just appeared in modern times but have been occurring throughout history for thousands of years. People who have achieved Astral Projection often say that the experience resembled leaving their bodies and existing in a different dimension, often referred to as the Astral Plane. For years, I have studied historical texts in order to hone my techniques and skills in astral travel. There is no greater thrill than being able to hand this knowledge about astral projection down to those who are looking to achieve out of body experiences. These experiences can be life-changing, opening a person up to look at the world in a whole new light. Come and learn the secret techniques needed for these out of body experiences in Astral Projection. Description of Astral Projection by Joy

How to Experience Safe and Fulfilling Astral Projection

The astral projection is a unique way of living great adventures without moving from your bed (or your chair)...This phenomenon is known as astral travel, but it doesn't imply any "movement" in the physical sense of the word. In fact, the astral projection (or astral travel) is a temporary separation of your astral body from your physical body. It is a transfer from a physical plane to an astral plane. But WHO travels, if it's not the physical body? Let's take a look at the "subtle" composition of a human being: just like the universe is made up of different planes, or levels (the physical plane, the astral plane, etc.), every human being is made up of several bodies that form a layered structure. Different layers surround the physical body in the following order: - the physical body- the etheric body- the astral body- the mental body- the causal body- the Buddhist body (or supra mental)- the divine body (or atmic body) When we make the decision to astral project, it is of course the astral body that "travels" alone, leaving the physical body behind. This is why the phenomenon is also known as "out of body" experience. You might want to know that the astral entities that you come across during your journey are not "auras," as some people think: they are the astral bodies of different (living or deceased) beings. They can be human beings or animals for that matter.****Do you find this intriguing but also a little worrying? Well, you are not the only one. I don't think any astral traveler could claim they never felt the slightest apprehension...***The first fear everyone faces is not being able to "return" to one's physical body. Making bad encounters is also a major concern to most people. Although in theory accidents may happen, this book will show you that in reality, if you follow the proper techniques, it is impossible for these unwanted events to occur during your astral projection. If you feel an apprehension, don't try to deny it: it's a natural reaction. But mastering a few safe techniques will make the fear disappear, just as naturally as it appeared. The purpose of this book is to teach you the right methods for safely undertaking out-of-body experiences. It's a guide to traveling in the astral plane in a completely safe way, even if you have NEVER tried it before.- You will learn how to start an astral projection without having any prior experience (it's quite possible for a total beginner to embark on this new adventure. However, don't take things too lightly. You don't start an astral projection as easily as you start a car

...)- You will learn the easiest and fastest projecting techniques, but you will also be warned about those you must avoid if you are tired or under pressure (at the end of a stressful day for example).- You will read about the possible encounters in the astral realm, how to deal with them and how to make sure that nothing and no-one can ever disturb you.- Most importantly, you will learn everything about the unknown benefits of astral projection, what they are and how you can empower yourself and literally improve your everyday life using this extraordinary experience.*** This is the english version of one of Richard Armand's best selling ebooks (he is a French author, his books on astral traveling and extrasensory phenomena have been a great success in France in the past years) **

Astral Travelling

"Astral travel or astral projection, abbreviated OBE (out-of-body-experience), means travelling through subtle planes. It does not really matter if it is doubted that this possibility exists – what is important is that these experiences are highly exciting and allow us to grow inside as a person. With a perceptible and visible body, we experience an unknown environment that seems to be as real as the physical world. Sometimes we are even more awake and we experience everything with more intensity than in everyday life. We step into a world full of wonder and beauty. In this, we are not simply passive observers, but instead we are able to knock on someone's door, to go in and speak with the people who live there. Through astral travel, my inner life has been enriched enormously. In repeated experiences on the astral plane, encounters with deceased and highly evolved beings, I could strengthen my own

belief in a world beyond and in afterlife. Life has gained a deeper meaning – it is not only for short-lived pleasure and fun. Instead, higher goals are pursued, and it becomes possible to evolve as a person." This book presents and explains different phenomena and methods of astral travelling. It also contains considerations on lucid dreaming vs. astral travelling. People who are studying the phenomena of astral travelling will find plenty of information here.

Astral Projection for Beginners

Do you have hidden superpowers and don't know it? For thousands of years, religion and spiritual beliefs from cultures all over the world have pointed to the idea that there is more to life than just the physical dimension. The idea of having a "Spirit." Or "Soul." Of some kind is prevalent among all of them. It seems only in recent times that we have been led to believe that life is simply made of the material world and nothing more. Let alone you and I have any sort of control of what we can't see or touch. But is that true? Many would say yes. But I'm asking you to suspend disbelief for just a moment and ponder the idea that maybe we might be missing something. Something that science hasn't quite caught up to. That maybe you are not just an evolved meat sack, programmed to eat, sleep, work, procreate and die. That you are something more. That there is a part of you that came with you from before you were born. That you are more than your physical body. And to take things one step further, that you have direct access and control of that non-physical part of your being. What would that mean to you? How would that change your life? And not in a way that you just "Believe it to be true." But you got to experience it every day. How would that make you feel? Excited? Scared? Joyful? Concerned? Free? Peaceful? Curious? Frustrated that nobody told you? In 2005 I started my journey into the unknown, first by accident, but then by design, and I can tell you I felt all the above at some time during this. So while my job is not to convince you that you are more than just your physical body, I hope that you will at least start your journey to find out for yourself. There is a light inside of you (and in everyone else in the world) which I have seen that I hope you and everyone will become aware of one day. In 2009 a study by Masaki Kobayashi (Department of Electronics and Intelligent Systems, Tohoku Institute of Technology, Sendai, Japan) and Hitoshi Okamura (Department of Brain Science, Kobe University Graduate School of Medicine, Kobe, Japan) found that. While the article doesn't suggest, it's our "Light or spirit body." That's emitting this light; it opens up a can of worms that there is an energetic (and not just physical) part of our being we are not aware of just yet. Is science on its way to finding out that we all have a spirit? Suppose you did learn that you were energy first, physical second, and that. Your consciousness survived after death. That you could travel in spirit. That there were other dimensions that you had access to. That you could get higher guidance from spiritual masters directly. And that you aren't just here to work, eat and pay taxes. What would you do with that information? Would you run and hide from it? Would you want the world to be the same as before you knew it? Or would you want to know more about it? As you go to bed tonight, ask this question. And just consider that for a while. With courage and curiosity, you might just start your journey into the impossible and find out if you do have hidden superpowers, and you can do it now.

Rudolf Steiner and the Founding of the New Mysteries

In this revised and expanded edition of his classic debut, Sergei O. Prokofieff investigates the deepest mysteries of Rudolf Steiner's life and individuality, from 'the years of apprenticeship' and 'the great Sun period' to 'the path of the Teacher of Humanity' and 'the birth of the New Mysteries'. He discusses the earthly and supersensible aspects of the first Goetheanum, the implications of the Christmas Conference of 1923-24, and the Foundation Stone meditation that Steiner left as a legacy to members of the Anthroposophical Society. In his very personal Introduction, Prokofieff describes, in moving detail,

the events in his life which led to his discovery of anthroposophy whilst living in Communist Russia, and how eventually he came to write this extraordinary study of Rudolf Steiner. The resulting volume – a work of secondary anthroposophical literature unprecedented in its depth and significance – was first published in Germany in 1982, meeting with equal amounts of acclaim, astonishment and controversy. It is published in this paperback edition to mark the 35th anniversary of the original publication.

Astral Odyssey

Astral travel-what is it and how does it fit in our lives? Eby explains the differences and similarities between astral projection, out-of-body experiences (OBEs), ordinary dreams, creative inspiration, mental projection, and clairvoyance. With OBEs defined and placed in the context of consciousness continuum, these various states of awareness can provide entryways to alternate realities. Astral Odyssey guides us through the pathways of consciousness that lead to the invisible worlds around us, giving step-by-step procedures on how to do actual, voluntary, conscious astral projection. But Eby does more than just teach astral travel--she provides instructions for attaining all the necessary states of consciousness, tells how each may be used to derive valuable benefits in daily life, such as improved psychological balance, solutions to problems, increased creativity, and enhanced powers of extrasensory perception. Included are never-before-published examples of OBEs and an OBE diary that describes, in vivid detail, the sights, sounds, sensations, and thoughts associated with actual visits to the astral plane. We discover that astral travel allows a new perspective of both the universe and the role that human experience plays in it. With this first-hand knowledge of the existence of nonphysical worlds and their entities, physical life can become more meaningful, creative, and joyful!

EXPLORE ALL OF CREATION. LEARN THE TRUE MEANING OF LIFE. LET ME SHOW YOU.

This book was previously published as: "Astral Travel & Aura Viewing: Many Effective & Easy Astral Projection Techniques -- Astral Projection Made Doable." The main topics of my book are: (1) the astral projection experience and how to accomplish it. The astral plane is examined as well as the astral projection techniques necessary to enter. (2) aura viewing. A very simple technique to view your own aura is given. I believe it will help with astral projection because you will realize part of you already is projecting. Reading my book and following the suggested techniques will change your life forever. It explains in detail how you can have exciting, unbelievable adventures to future, past and alternate lifetimes, to astral counterparts of physical objects and places, to high spiritual places called Heaven, and to see your own magnificent aura. These things are doable without sniffing glue, eating hallucinogenic mushrooms, or taking drugs. It takes no special talent to have these awesome, life-changing experiences only some time and determination. My methods involve deep breathing, calling out to God through chanting, and sacred meditation. The book is concise and basic. Here are some quotes: Part One, Definitions: "The astral plane is a vibration of life that is highly emotional and visiting it can be a nightmare world of hell, a blissful journey to heaven, or one of many, many places in between. When we have an astral projection we are traveling in an astral body. We possess different energy bodies of all vibrations; and will, without realizing or making any effort, choose just the correct combination depending on the vibration of light needed for the journey. This astral energy can sometimes be seen and is called the aura." Part One, Astral Travel Basics: "Don't get hung up with tedious, drawn-out methods to leave your physical body one body part at a time. You don't need to project an astral counterpart of your entire physical self. I suggest you simply project that part of you located between your eyes, that's where your true self is located anyway. The fastest and easiest way is to just be wherever it is you want to be. Don't even think about what you look like, that will just bring you back to the physical." Part Two, Two Methods to Project to Wooded Areas: "When you are in the air and you feel like you are flying, you might not be. It took me a long time to realize that I was really located in a point in the sky. I had no body so I was not subject to gravity. However, the Earth was rotating on its axis. I just had the sensation of moving. It's like when you're in a car wash seated in your car. The big brushes come forward and you have the sensation of moving even though you are not." Part Three, My Experiences, Holy and Wonderful: "The separation was in a whole different manner, I remained in my physical body while I felt energy projecting. I became a being of white light energized by my heart chakra." Part Three, My Experiences, Holy and Wonderful: "While meditating on a violet crystal, I asked to see my spiritual guides. Amazing spheres of brilliant colored light appeared. I saw a pink spirit and a golden-flame baby which I brought to my heart chakra. The face of a happy young man, looked Arabic, smiled at me. My tunnel rotated very fast and pointed very high." The New Experience of the Supersensible

According to Rudolf Steiner's spiritual science, the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds. The force that leads to this development--called by various names in different cultural and religious traditions--is called the "Christ impulse" by Anthroposophy, in accordance with Christian terminology. Because of new, naturally endowed suprasensory faculties, human beings are increasingly able to experience and perceive, through an act of grace, the great spiritual force of the Christ impulse. This experience is said to be a naturally given initiation, and today we increasingly hear of such suprasensory experiences. Today, however, a healthy approach to these "natural" phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking. This book builds an all-important bridge between the naturally given suprasensory experience and its conscious cognition. As a result, empirical suprasensory research "can investigate the different aspects of Christ's etheric becoming and appearance in a way that, both methodically and experientially, fulfils the justified cognitive and scientific requirements of our age." This new paperback edition adds a new introductory chapter.

Europe

European thought and culture has had an enduring impact worldwide – but Europe has also been a focus of conflict and war on a global scale. With its international influence, Europe bears a responsibility, in example and practise, for humanity's further development. First published in English in 1975, this

timely facsimile reprint of Maria Schindler's classic work provides valuable spiritual insight into Europe's contribution to human civilisation – its past as well as its future tasks – at a critical time in the continent's destiny. Based on decades of first-hand experience and multi-lingual study, the author weaves a pictorial tapestry of Europe's biographical history in all its human, earthly and cosmic content. In past centuries, says Schindler, world-changing events were centred in the destinies of single countries or nations. Today, the individual needs of nations must be brought into harmony with the requirements of mankind as a whole. The enormity of humanity's problems demand fresh insights based on new solutions with firm foundations. The author presents her intimate knowledge of European folklore and languages in connection with Willi Sucher's 'star wisdom', the researches of Dr W. J. Stein and Dr Eugen Kolisko, and the inspiration of Rudolf Steiner and his cosmological and spiritual science of the universe and humanity. Featuring 52 illustrations and numerous diagrams

The Anthroposophical Soul Calendar and the Incarnation Cycle of Man

This book takes a completely new look at the Anthroposophical Soul Calendar. It is about the deeper meaning of the fifty-two weekly verses, which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner. A dense veil of Isis was spread over them, of which is well known that no mortal person can lift it. Only the immortal, psycho-spiritual human being, who knows himself at home in the extrasensory, higher worlds, is capable of doing this. Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual-cosmic realms until he reaches the experience of God, from where he gradually descends again into a new life on Earth, enriched in spirit and fertilized in his soul. If the reader embarks on this journey, the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ. By many quotations from Rudolf Steiner's lectures and books, the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses.

How to Travel Beyond the Time and Space

My book contains a wide variety of techniques for entering the astral plane. This was not done by chance - despite all the efforts, I was not able to develop a single, universal technique. As a rule, a person can learn to "leave" the physical body in several ways, and at least one of them will suit you. Before proceeding to specific exercises, I would advise you to read the entire book and only with repeated, more careful reading, begin to master the proposed methods. Some exercises may seem too easy and ineffective. However, you should not skip from one chapter to another (this especially applies to chapter nine), since the methods presented in the book have proved their practical effectiveness in this sequence. So, be consistent, do not be afraid to lose the extra ten minutes, and the results will not belong in coming. Since time immemorial, people have experienced an inexplicable craving for astral travel. How did a man manage to leave his physical shell and rush into unknown distances, going beyond the boundaries of time and space? Was this ability inherent only to the elect, or did each person have such an opportunity from birth? It is quite obvious that it was beneficial for shamans to keep people in the dark about such brilliant and unique opportunities: to keep abreast of upcoming events, or even influence them. That is why the technique of astral exit was shrouded in mystery. Nevertheless, there are many examples of how some people acquired the gift of astral exit spontaneously. In most cases, the astral experience left a good impression. However, some stories terrified people, forming a misconception about this phenomenon. Some people believe that leaving the physical body is fraught with serious risk. In fact, astral travel is much safer than driving a car. In this book, I give recommendations that virtually eliminate all adverse effects. For many years I taught people and was their guide to another dimension, and all of them claim that astral travel enriches life, filling it with new colours and pleasant experiences. What is astral travel? In practice, this type of journey means leaving the physical body, visiting any place of your choice and returning to the body shell. People had astral experience in prehistoric times. The descriptions of astral travel were left by the ancient civilizations of Egypt, India, China and Tibet. In the Tibetan tradition, people capable of astral exit were called "delogs"

Astral Projection Made Easy

Man's greatest fear is of death. Because of this, a lot of energy goes into defending ourselves against this reality whether it be through illicit or recreational drugs, business or work. **Astral Projection Made Easy** is an attempt to eliminate this fear through approaching the whole concept of life beyond and outside the physical body through Near-Death Experiences (NDEs) Lucid Dreaming and the technique of Out-of-Body experiences (OBEs). The author draws from a rich source of information, including her own experiences of astral projection over 20 years. Within this context, she includes Eastern teaching and explores astral projection from a scientific, spiritual and psychic perspective. She includes a chapter on consciousness as well as what precipitates an altered state of consciousness. In order to support her work she includes historical case studies of other writers and contemporary ones as well as her own. There is a section on how to identify an out-of-body experience, what it may feel like, and the very real 'symptoms' experienced on a somatic level. More than anything, the Work is engaging, accessible and rich in content. ,

Handbook for Rhythmical Einreibungen

Rhythmic Einreibungen consist of gentle forms of therapeutic massage by nurses, caregivers, and therapists familiar with the methods and principles of Anthroposophy. The German word Einreibung refers to the application of oil or liniments to the body. The methods, first developed eighty years ago by doctors Ita Wegman and Margarethe Hauschka, were initially used only in medicine and nursing. They have since been applied more broadly in other areas of healthcare, nursing homes, hospitals, clinics, special education, and social therapies. This clear, comprehensive manual is intended for all those who wish to use rhythmical Einreibungen professionally or to renew and deepen their knowledge; those who have had some training in the field and want to deepen their knowledge; those who teach rhythmical Einreibungen; and those who would like an in-depth introduction to this effective healing method. The book describes aspects of the anthroposophic image of the human being that are relevant within the context. It discusses important concepts for the application and effectiveness of rhythmical Einreibungen. The book also distinguishes between rhythmical massage and rhythmical Einreibungen and offers details on how the rhythmic quality is created for this particular therapy. The authors also describe the techniques most important in nursing and offer specific exercises that help develop the particular skills needed for this procedure. Dr. Margarethe Hauschka Stavenhagen, (1896-1980) encountered Anthroposophy before becoming a medical doctor. She learned techniques of massage during her initial employment in her uncle's clinic. As a preparation for her work in Dr. Husemann's clinic, and on his suggestion, she studied therapeutic eurythmy and, later, helped Dr. Ita Wegman develop the method of the rhythmic massage. In 1942, she married Dr. Rudolf Hauschka in Vienna. Until her death in 1980, she taught and lectured on rhythmic massage and art therapy.

PARAPSYCHOLOGY BROUGHT ON RATIONAL PEDESTAL

In a series of short studies enlivened with colour illustrations, Henk van Oort takes the reader on a spiritual journey through a variety of topics relating to everyday experience. With chapters as diverse as 'The Human Will', 'Quantum Physics' and 'Good and Evil', the book's common theme is the dynamic nature of human consciousness. This unique spiritual 'travel guide' opens up surprising new vistas to the ever-changing reality in which we live, helping us understand who we really are as human beings. The author demonstrates how our knowledge of the world is in a constant process of evolution. Tying together the disparate elements of the book is the inexhaustible spiritual source from which we receive inspiration and energy for life. Van Oort shows that our familiar material world finds its origins in the world of spirit. With a focus on Rudolf Steiner's insights supplemented with the work of many other thinkers, Your Spiritual Journey reveals new pathways to our life's earthly adventure.

Your Spiritual Journey

Previously published as At the Gates of Spiritual Science, these lectures offer a fine introduction to the whole of Rudolf Steiner's teaching, as well as including valuable material which is not to be found elsewhere. With great clarity and precision, Steiner speaks of the fundamental nature of the human being in relation to the cosmos, the evolution of the Earth, the journey of the soul after death, reincarnation and karma, good and evil, the modern path of meditative training, as well as giving answers to individual questions. Throughout, Steiner's emphasis is on a scientific exposition of spiritual phenomena. As he says in the final lecture: "the highest knowledge of mundane things is thoroughly compatible with the highest knowledge of spiritual truths."

Founding a Science of the Spirit

"Dimensional Gateways - A Practical Guide to Astral Projection" is another excellent book written by Pane Andov. It gives step by step instructions for awakening human latent astral potentials, how to visit other dimensions, what to do and what not to do there. Among many other things, Andov is a lifetime astral traveler with over 30,000 out of body experiences and thousands of students worldwide. His knowledge and experience are always a valuable asset to anyone who studies or practice the art of astral projection. Andov clearly explains that the physical dimension that we are currently living in, is not the only one that exists and that there are other six dimensions that our soul essence can visit and manifest on. In other words, our soul essence - which is the consciousness itself, is capable of multidimensional presence. What the Astral Plane is a concern, as with any other living forms in the Universe, the same principle applies for the human beings - the length and the reachable distance while out of physical bodies, will vary on the amount of life force the consciousness has during the process of astral departure or separation from the biological host. During the sleeping time, the astral body of the human being departs from the physical host and enters the Astral Plane where it starts collecting life force energy that is essential for biological existence. The entire recharging process is fully explained, which gives valuable clues to the student, of how the dynamics of the energy transfer between the astral, etheric and physical body works. A part in the book deals with dreaming programs of holographic nature; why we are perceiving them inside the Astral Plane or how they are artificially manifested inside our consciousness. A complete elaboration of four sources that the dreaming programs can originate from are given and how one can break the dreaming hologram and regain a full awareness on the Astral Plane. During the sleeping time, many people experience something that is called a "Sleep paralysis" phenomenon. Sleep paralysis is a phenomenon during which an individual is unable to move physically during falling asleep or awakening, but is aware of his/hers surroundings. The author provides the techniques of how to safely exit the Sleep paralysis state and to use it as an advantage to raise the Kundalini energy and achieve high-quality astral traveling. The entire training manual is given how one can tune into a progressive meditative state and by learning Andov's five system method, can achieve remote viewing, astral travel and a lot more. A complete guide book for those who are practicing these arts, which saves years of useless experimentation. For all the beginners, many shortcuts are given how to get them from a starting level to a very advanced one. A book that will change your life in six months if the techniques and instructions are followed correctly and as advised. Once one becomes an astral traveler, he/she starts learning about the Dimensional Gates and the ultimate exploration of the Universe begins...

Timeless Life: The 365 Day Self-improvement Plan

Reference to the astral plane, or Kâmaloka as it is called in Sanskrit, has frequently been made by Theosophical writers, and a good deal of information on the subject of this realm of nature is to be found scattered here and there in our books; but there is not, so far as I am aware, any single volume to which one can turn for a complete summary of the facts at present known to us about this interesting region. The object of this manual is to collect and make some attempt to arrange this scattered information, and also to supplement it slightly in cases where new facts have come to our knowledge. It must be understood that any such additions are only the result of the investigations of a few explorers, and must not, therefore, be taken as in any way authoritative, but are given simply for what they are worth. On the other hand every precaution in our power has been taken to ensure accuracy, no fact, old or new, being admitted to this manual unless it has been confirmed by the testimony of at least two independent trained investigators among ourselves, and has also been passed as correct by older students whose knowledge on these points is necessarily much greater than ours. It is hoped, therefore, that this account of the astral plane, though it cannot be considered as quite complete, may yet be found reliable as far as it goes.

The Astral Plane

Have ever an Astral Projection took place on your body? Would you like to experience this type of separation between body and spirit? Also called Astral Travel, the expression Astral projection refers to an "Out of Body Experience" (also called OBE) during which the astral body leaves the physical body and travels to the "astral plane". It can occur naturally, as part of the sleep process, or it can be performed through lucid dreaming or deep meditation. Basically, the concept of astral projection hinges on the belief that there is something called an "astral plane," and that it is one of the seven planes of being, and humans generally live on the material plane. The mythicized "astral plane" is considered to be the home of not only souls finding their way to their next life or final resting place, but also angels and spirits that are more than human. Astral projection is the personal gateway into the realms of the consciousness exploration. If you want to experience an OBE (Out of Body Experience) it is a good idea before you give it a try to understand all the risks that are coming alongside an astral projection. A complete and clear guide is "ASTRAL PROJECTION: How to travel the astral plane and having a willful out of body experience lucid dreaming, hypnogogic state, meditation, proving your immortality, exploring your inner reality" by Karen Cooper, also author of other five books about meditation, chackras and healing.
