Diana Vreeland

"Called "The High Priestess of Fashion," Diana Vreeland was an American original whose impact on fashion and style in her time was legendary. This volume chronicles fifty years of international fashion and Vreeland's life"--

Diana Vreeland

Here she tells how Buffalo Bill taught her to ride, describes how she redefined the standards of attractiveness with the quirky models she brought to Vogue in the sixties, disparages her own looks, relates her search for the perfect red, and discourses on the nature of elegance. Whatever her subject, from backaches to nostalgia, from Paris to New York, from marriage to dinner parties, from Clark Gable to Swift Lazar, you never want her to stop. For D.

D.v.

This wonderful true story of iconic fashion editor Diana Vreeland teaches young readers that individuality is to be celebrated, and that even extraordinary dreams can come true. Violet Velvet Mittens with Everything captures the dramatic, spectacular world of fashion icon Diana Vreeland, whose legacy at Harper's Bazaar, Vogue, and the Costume Institute of the Metropolitan Museum of Art continues to influence the fashion world today. As a little girl in Paris, Vreeland loved to read and dance, and most of all dress up. Her love of originality persisted through her career in fashion, where her work was colorful, zany, and never, ever boring. Violet Velvet Mittens with Everything captures Vreeland's larger-than-life personality with an infectiously extravagant tone and style, showing young readers that above dazzling and daring, being yourself makes the most lasting impact of all. (Although Violet Velvet Mittens with Everything is a tribute to the life of Diana Vreeland, the book is not authorized by her Estate)

Full Gallop

An outspoken memoir of her life at the top of the fashion world and the height of New York society; she spent thirty-eight years at Vogue and was editor-in-chief for Seventeen.

In and Out of Vogue

The secret diary of Vogue Editor-in-Chief Alexandra Shulman and the real story behind the BBC TV ABSOLUTELY FASHION documentary. 'One of the great social diaries of our time . . . should become a classic.' Sunday Times 'Eye-popping, brilliantly candid' Evening Standard What a year for Vogue! Alexandra Shulman reveals the emotional and logistical minefield of producing the 100th anniversary issue (that Duchess of Cambridge cover surprise), organizing the star-studded Vogue 100 Gala, working with designers from Victoria Beckham to Karl Lagerfeld and contributors from David Bailey to Alexa Chung. All under the continual scrutiny of a television documentary crew. But narrowly-contained domestic chaos hovers - spontaneous combustion in the kitchen, a temperamental boiler and having to send bin day reminders all the way from Milan fashion week. For anyone who wants to know what the life of a fashion magazine editor is really like, or for any woman who loves her job, this is a rich, honest and sharply observed account of a year lived at the centre of British fashion and culture.

Inside Vogue

'Very beautiful and illuminating' Mariella Frostrup Edward Brooke-Hitching, author of the international bestseller *The Phantom Atlas* delivers an atlas unlike any other. *The Devil's Atlas* is an illustrated guide to the heavens, hells and lands of the dead as imagined throughout history by cultures and religions around the world. Packed with colourful maps, paintings and captivating stories, the reader is taken on a compelling tour of the geography, history and supernatural populations of the afterworlds of cultures around the globe. Whether it's the thirteen heavens of the Aztecs, the Chinese Taoist netherworld of 'hungry ghosts', or the 'Hell of the Flaming Rooster' of Japanese Buddhist mythology (in which sinners are tormented by an enormous fire-breathing cockerel), *The Devil's Atlas* gathers together a wonderful variety of beliefs and representations of life after death. These afterworlds are illustrated with an unprecedented collection of images, ranging from the marvellous 'infernal cartography' of the European Renaissance artists attempting to map the structured Hell described by Dante and the decorative Islamic depictions of Paradise to the various efforts to map the Garden of Eden and the spiritual vision paintings of nineteenth-century mediums. *The Devil's Atlas* accompanies beautiful images with a highly readable trove of surprising facts and narratives, from the more inventive torture methods awaiting sinners, to colourful eccentric catalogues of demons, angels and assorted death deities. A traveller's guide to worlds unseen, *The Devil's Atlas* is a fascinating study of the boundless capacity of human invention, a visual chronicle of man's hopes, fears and fantasies of what lies beyond.

"I think it's terrific." —Diane von Furstenberg, of the original edition of *Cheap Chic* Beloved by designers and style mavens alike, the LBD of fashion guides—with a new foreword by Tim Gunn—is back and more in fashion than ever. Before there were street-style blogs and 'zines, there was *Cheap Chic*. Selling hundreds of thousands of copies when it was originally published in 1975, this classic guide revealed how to find the clothes that will make you feel comfortable, confident, sexy, and happy, whether they come from a high-end boutique, sporting-goods store, or thrift shop. Astonishingly relevant forty years later, *Cheap Chic* provides timeless practical advice for creating an affordable, personal wardrobe strategy: what to buy, where to buy it, and how to put it all together to make your own distinctive fashion statement without going broke. Alongside outfit ideas, shopping guides, and other practical tips are the original vintage photographs and advice from fashion icons such as Diana Vreeland and Yves Saint Laurent. Inspiring decades of fashion lovers and designers, *Cheap Chic* is the original fashion bible that proves you don't have to be wealthy to be stylish.

Change the way you see color forever in this dazzling collection of color palettes spanning art history and pop culture, and told in writer and artist Edith Young's accessible, inviting style. From the shades of pink in the blush of Madame de Pompadour's cheeks to Prince's concert costumes, *Color Scheme* decodes the often overlooked color concepts that can be found in art history and visual culture. Edith Young's forty color palettes and accompanying essays reveal the systems of color that underpin everything we see, allowing original and, at times, even humorous themes to emerge. *Color Scheme*

is the perfect book for anyone interested in learning more about, or rethinking, how we see the world around us.

Color Scheme

A fascinating chronicle of how celebrity has inundated the world of fashion, realigning the forces that drive both the styles we covet and the bottom lines of the biggest names in luxury apparel. From Coco Chanel's iconic tweed suits to the miniskirt's surprising comeback in the late 1980s, fashion houses reigned for decades as the arbiters of style and dictators of trends. Hollywood stars have always furthered fashion's cause of seducing the masses into buying designers' clothes, acting as living billboards. Now, forced by the explosion of social media and the accelerating worship of fame, red carpet celebrities are no longer content to just advertise and are putting their names on labels that reflect the image they—or their stylists—created. Jessica Simpson, Jennifer Lopez, Sarah Jessica Parker, Sean Combs, and a host of pop, sports, and reality-show stars of the moment are leveraging the power of their celebrity to become the face of their own fashion brands, embracing lucrative contracts that keep their images on our screens and their hands on the wheel of a multi-billion dollar industry. And a few celebrities—like the Olsen Twins and Victoria Beckham—have gone all the way and reinvented themselves as bonafide designers. Not all celebrities succeed, but in an ever more crowded and clamorous marketplace, it's increasingly unlikely that any fashion brand will succeed without celebrity involvement—even if designers, like Michael Kors, have to become celebrities themselves. Agins charts this strange new terrain with wit and insight and an insider's access to the fascinating struggles of the bold-type names and their jealousies, insecurities, and triumphs. Everyone from industry insiders to fans of Project Runway and America's Next Top Model will want to read Agins's take on the glitter and stardust transforming the fashion industry, and where it is likely to take us next.

Hijacking the Runway

'Honestly and candidly captures fifty sublime years of fashion' Manolo Blahnik Discover what truly happens behind the scenes in the world of high fashion in this detailed, storied memoir from style icon, bestselling author and former Vogue creative director André Leon Talley.

The Chiffon Trenches

Diana Vreeland was the fashion editor of the twentieth century. She had an incredible aura of glamour and a genius for enlivening life with enticing fantasy. Diana Vreeland goes behind the scenes to tell her story—how, with innate talent and hard work, the imaginative and ambitious daughter of an old New York society family became a legendary arbiter of fashion and style. It reveals the growth of her professional prowess and details her personal history, as it captures Vreeland's pizzazz, humor, flair, and flamboyance. This beautiful book—with a new preface by Vreeland's protégé and renowned fashion authority André Leon Talley—is lavishly illustrated with more than three hundred drawings and photographs, many by the best fashion photographers of the time: Louise Dahl-Wolfe, Irving Penn, Cecil Beaton, and Brassai. Here, too, are the trendsetters, artists, models, and celebrities with whom Vreeland worked and played, including Coco Chanel, Yves Saint Laurent, Hubert de Givenchy, Oscar de la Renta, Elsie de Wolfe, Andy Warhol, Truman Capote, and Jacqueline Kennedy. The fashion editor of Harper's Bazaar from 1937 to 1962, Vreeland first shook things up with her "Why Don't You...?" column. Working with the legendary editor Carmel Snow, she drastically changed the look of the magazine by using provocative, exciting photography. As editor in chief of Vogue from 1962 to 1971, she brought vitality and beauty to its pages, letting her photographers and editors follow their own creative bents, sending them off to shoots in foreign lands and encouraging them to use their talents in fresh and provocative ways. In 1972, she became special consultant to the Metropolitan Museum of Art's Costume Institute, where she masterminded costume extravaganzas, contributing to the new age of blockbuster museum exhibitions and bringing hundreds of thousands to see costume history. When Vreeland became blind in the mid-1980s she said it was because she had seen so many beautiful things. When she died in 1989 she became a legend. Her story is a vibrant and extraordinary one.

Diana Vreeland

From the award-winning actress herself, Faye Dunaway explores her life and loves in this classic autobiography from Simon & Schuster. In an "intelligent, take-no-prisoners memoir" (Entertainment Weekly), Academy Award-winning actress Faye Dunaway writes candidly of her life, including her many affairs, her two marriages, her professional success, and her poignant failures of photos.

Looking for Gatsby

This evocative collection celebrates the prescience, wit, and enduring relevance of a fashion legend. Diana Vreeland's insightful edicts and evocative aphorisms remain her strongest legacy. She looked at life as a romantic and lived through dreams and imagination. Showing leadership, vision, and timeless wit, this book celebrates her visionary words that not only transformed the world of fashion, but also gave us sage advice to live by. Sourced and edited by her grandson Alexander, *Diana Vreeland: Bon Mots* covers Vreeland's incisive views of subjects such as allure, fashion, and style ("I mean, a new dress doesn't get you anywhere; it's the life you're living in the dress"); beauty ("The neck is the beginning and end of looking like anybody"); age ("The quickest way to show your age is to try to look young"); color ("Black is the hardest color to get right--except for gray"); and her powerfully creative way of thinking ("I'm looking for the suggestion of something I've never seen") Brought to life by illustrator Luke Edward Hall, *Bon Mots* vividly displays Mrs. Vreeland's original thought and speech, which is equally as inspiring and relevant now as it was then.

Diana Vreeland: Bon Mots

An elaborately illustrated, highly personal look at one of the most prominent fashion figures of the 20th century Elsa Schiaparelli is one of the most important couturiers and taste-makers of the 20th century. She numbered among her collaborators the artists Salvador Dalí, Jean Cocteau, Christian Berard, and Marcel Vernet, resulting in such extraordinary couture collaborations as the lobster and parsley dress, based on a print by Salvador Dalí, and the Circus collection of gold-embroidered jackets, based on drawings by Cocteau. These artists also became personal friends of Schiaparelli's and made wonderful screens and other works of applied art for her house in Paris, photographs of the interiors of which have never been published. Now, the actress Marisa Berenson reveals her private archive of pictures of her much-loved grandmother's house in all its wit and eccentricity and pens an affectionate first-hand memoir of "Schiap."

Elsa Schiaparelli's Private Album

A Financial Times Book of the Year 'The first time I opened *What Artists Wear*, I gasped with pleasure. Imagine it as a kind of punk cousin to John Berger's *Ways of Seeing*, liberally illustrated with the most astonishing images of artists, decked out in finery or rags ... It transported me to somewhere glamorous, exciting, even revolutionary' Olivia Laing, *Guardian* Most of us live our lives in our clothes without realizing their power. But in the hands of artists, garments reveal themselves. They are pure tools of expression, storytelling, resistance and creativity: canvases on which to show who we really are. In *What Artists Wear*, style luminary Charlie Porter takes us on an invigorating, eye-opening journey through the iconic outfits worn by artists, in the studio, on stage, at work, at home and at play. From Yves Klein's spotless tailoring to the kaleidoscopic costumes of Yayoi Kusama and Cindy Sherman; from Andy Warhol's signature denim to Charlotte Prodger's casualwear, Porter's roving eye picks out the magical, revealing details in the clothes he encounters, weaving together a new way of understanding artists, and of dressing ourselves. Part love letter, part guide to chic, and featuring generous photographic spreads, *What Artists Wear* is both a manual and a manifesto, a radical, gleeful, inspiration to see the world anew-and find greater pleasure and possibility in the clothes we all wear.

What Artists Wear

A volume of magnificent proportions, *Art + Fashion* is as exciting and elegant as the creative partnerships it celebrates. Spanning numerous eras, men and women's fashion, and a wide range of art mediums, these 25 collaborative projects reveal the astonishing work that results when luminaries from the art world (such as Pollock, Haring, and Hirst) come together with icons of the fashion world (including Saint Laurent, Westwood, McQueen). From 20th-century legends such as Elsa Schiaparelli and her famous lobster dress painted by Salvador Dalí to 21st-century trailblazers such as Cindy Sherman and her self-portraits in vintage Chanel, these electric and provocative pairings—represented

in lavish visuals and thoughtful essays reflecting on the history of each project—brim with the energy and possibility of powerful forces uniting.

Art + Fashion

Gorgeously repackaged, this reissue of the classic book presents the iconic photographer's expert and witty reminiscences of the personalities who inspired fashion's golden eras, and left an indelible mark on his own sense of taste and style. "The camera will never be invented that could capture or encompass all that he actually sees," Truman Capote once said of Cecil Beaton. Though known for his portraits, Beaton was as incisive a writer as he was a photographer. First published in 1954, *The Glass of Fashion* is a classic—an invaluable primer on the history and highlights of fashion from a man who was a chronicler of taste, and an intimate compendium of the people who inspired his legendary eye. Across eighteen chapters, complemented by more than 150 of his own line drawings, Beaton writes with great wit about the influence of luminaries such as Chanel, Balenciaga, and Dior, as well as relatively unknown muses like his Aunt Jessie, who gave him his first glimpse of "the grown-up world of fashion." Out of print for decades but recognized and sought after as a touchstone text, *The Glass of Fashion* will be irresistible to a new generation of fashion enthusiasts and a seminal book in any Beaton library. It is both a treasury and a treasure.

La Belle Epoque

Vogue: The Editor's Eye celebrates the pivotal role the fashion editor has played in shaping America's sense of style since the magazine's launch 120 years ago. Drawing on *Vogue*'s exceptional archive, this book focuses on the work of eight of the magazine's legendary fashion editors (including Polly Mellen, Babs Simpson, and Grace Coddington) who collaborated with photographers, stylists, and designers to create the images that have had an indelible impact on the fashion world and beyond. Featuring the work of world-renowned photographers such as Richard Avedon, Irving Penn, and Annie Leibovitz and model/muses, including Marilyn Monroe, Verushka, and Linda Evangelista, *The Editor's Eye* is a lavishly illustrated look at the visionary editors whose works continue to reverberate in the culture today. Praise for *Vogue: The Editor's Eye*: Selected in "Guide to coffee table books as holiday gifts." --Associated Press "What makes a great fashion image? A new book, *The Editor's Eye*, celebrates the work of *Vogue*'s boundary-pushing fashion editors." --*Vogue* "*Vogue: The Editor's Eye* is the perfect gift book for anyone with an interest in fashion or photography or brilliant book design. No electronic tablet yet created can duplicate the sheer visual pleasure of paging through this gorgeous book." --Connecticut Post "Told via in-depth interviews with each of these visionaries, *Vogue: The Editor's Eye* gives a glimpse into the process, proving that the magazine's cutting-edge fashion spreads are as much about editorial point of view as they are about model-photographer-designer collaboration." --BookPage.com "*Vogue: The Editor's Eye* tells how the vision, creativity (and let's not forget lavish budgets) possessed by eight fashion editors from 1947 to the present have produced the striking layouts that are the magazine's signature." --The Denver Post

American Women of Style

A captivating selection of images by the world's leading photographers celebrating one of the most recognized faces in fashion and film. Dubbed an "It Girl" by Yves Saint Laurent in the early 1970s, Marisa Berenson is the original modern muse-inspiring fashion designers, photographers, stylists, and fashion editors for over thirty years. Born of noble lineage—and the granddaughter of the famed fashion designer Elsa Schiaparelli—Berenson's meteoric rise began formally at age sixteen, leading to numerous covers and editorials in *Vogue*, *Harper's Bazaar*, and countless other high-end fashion and society magazines. Her timeless beauty and chameleonlike talent for transformation soon led to her entry into film, where she landed leading roles in the period films *Cabaret*, *Death in Venice*, and Stanley Kubrick's lavish production of *Barry Lyndon*. This captivating collection of fashion editorials, magazine covers, film stills, and candid photos were captured by the leading photographers and filmmakers of the day, including Richard Avedon, Irving Penn, David Bailey, Hiro, Helmut Newton, Henry Clarke, Norman Parkinson, Robert Mapplethorpe, and Steven Meisel, among many others. This lavish yet intimate volume details a visual biography of Berenson, and demonstrates the lasting resilience that continues to make her an enthralling and legendary visage.

The Glass of Fashion

In *Love, Cecil*, Lisa Immordino Vreeland offers an evocative portrait of this talented whirlwind whose creative work captured many facets of the 20th century. Using photography, drawings, letters, and scrapbooks by Beaton and his contemporaries, along with excerpts from his sparkling diaries and other writings, Immordino Vreeland brings his spirit to life in a way that no previous book has been able to do. Immordino Vreeland organizes her book around the circles of Beaton's daily life: the people who inspired and influenced him, his colorful friends, his fellow photographers, his Hollywood conquests, his wartime service, and his English roots. This cavalcade offers a shimmering vision of high style, but it also captures often-troubled souls struggling to create the open, tolerant, creative worlds of art and culture that we have inherited today.

"The style-centric Amazon.com book has some memorable vignettes." "Some really great stories." *Women's Wear Daily*; read the *Women's Wear Daily* review at wwd.com. "Oh, how I wished I'd met Bart's great aunt May, and sat next to him as he whisked Perry Ellis through the city, and stopped by for a visit with him and Ted in their cheerful nest on Jane Street, but in fact having just read his charming and inspiring memoir of an American boy-to-manhood, I have!" - Mary Randolph Carter, best-selling author and longtime creative director for Ralph Lauren *Style is the art of living, and it's always changing and evolving. This evocative jewel of a memoir tells the story of one writer's adventures and experiences, and how they shaped his own sense of personal style and taste. From growing up in upstate New York to summers on Martha's Vineyard to life in Greenwich Village in New York City, this book recounts in words and pictures the places and people that have influenced the author. What emerges in his story, accompanied by approximately 130 black and white photos, is the theme of American style, which is elegant and easy-going, and refined and relaxed at the same time. And so this story of self-discovery and invention is also an ode to American style. Elegant, educational, entertaining, and inspiring, the book explores how the writer actually looks, and how he looks at the world. Visit Bart Boehlert's Beautiful Things at bartboehlert.com.*

Marisa Berenson

The first book from acclaimed Australian interior designer Tamsin Johnson, known for her fresh interiors that evoke luxurious ease and coastal elegance. Tamsin Johnson's international high-end residential projects reflect her signature ability to combine pieces from across decades and continents in ways that feel understated and natural. This knack for appearing effortless brings the ultimate level of sophistication to her work. Johnson favors elements of surprise and a sense of play in her designs, as evident in contrasts of scale, the bold use of art, and the sculptural nature of the furniture she selects or commissions. Her spaces celebrate comfort, character, and user-friendly design, and this philosophy is tangible in her showroom, where a veneration of European heritage is balanced with characteristics of modern coastal Australia. Under Johnson's artful eye, traditional pieces become unexpectedly lighter, and a sense of luxurious ease pervades. In a trade which requires an eye for historical value, the objects Johnson sources and collects to accent her interiors have contemporary appeal—everything feels relevant and persuasive, as if even the most formal of objects could sit comfortably by your bedside. Johnson gracefully shares her ideas, images, and stories to illustrate these principles for readers, resulting in a book that is both a rich visual resource and design reference.

Love, Cecil

This book will broaden readers' understanding of the links between the music and fashion industries. It highlights the challenges currently facing the fashion industry in terms of hyper-competition, definition of ever-faster trends, changing consumer demands etc. In fact, the fashion industry is heavily influenced by the digital revolution in the music industry, which has changed the face of individual music consumption and social reference, and therefore, also has impacts on fashion consumption and social reference. This understanding is crucial in order to realign any fashion company's strategies to the demands of modern fashion consumers. In terms of content, the book first discusses the social perspective of fashion and music. This includes an analysis of music as a key influencer of fashion trends, both theoretically and on the basis of a case study on grunge music. Then the role of music in the fashion business is addressed, and covers in-store music and the role of music in fashion communication. Following up, the role of fashion in the music business is analyzed. This includes the trend of co-design of fashion collections, music artists' role of differentiation by style, and the market for music fashion merchandise articles (both theoretically and drawing on a case study). In closing, potential lessons

learned from the music industry are developed for the fashion industry. This includes an analysis of the digital revolution and the advent of the crowdfunding idea (both theoretically and in a case study).

How I Look

What can you uniquely give the world? We often sell ourselves short with self-limiting beliefs, but most of us would be amazed and delighted to know that we do have something special - our distinctive passions and talents - to offer. And what if I told you that what you have to give will also enable you to live a life of true contentment? How is that possible? It happens when you embrace and curate your own simply luxurious life. We tend to not realize the capacity of our full potential and settle for what society has deemed acceptable. However, each of us has a unique journey to travel if only we would find the courage, paired with key skills we can develop, to step forward. This book will help you along the deeper journey to discovering your best self as you begin to trust your intuition and listen to your curiosity. You will learn how to: - Recognize your innate strengths - Acquire the skills needed to nurture your best self - Identify and navigate past societal limitations often placed upon women - Strengthen your brand both personally and professionally - Build a supportive and healthy community - Cultivate effortless style - Enhance your everyday meals with seasonal fare - Live with less, so that you can live more fully - Understand how to make a successful fresh start - Establish and mastermind your financial security - Experience great pleasure and joy in relationships - Always strive for quality over quantity in every arena of your life Living simply luxuriously is a choice: to think critically, to live courageously, and to savor the everyday as much as the grand occasions. As you learn to live well in your everyday, you will elevate your experience and recognize what is working for you and what is not. With this knowledge, you let go of the unnecessary, thus simplifying your life and removing the complexity. Choices become easier, life has more flavor, and you begin to feel deeply satisfying true contentment. The cultivation of a unique simply luxurious life is an extraordinary daily journey that each of us can master, leading us to our fullest potential.

Bible and Cinema: An Introduction is a comprehensive examination of how the Bible has been used and represented in mainstream cinema to develop its plots, characters, and themes. The book considers two general types of films: Bible movies that retell biblical stories, such as the Exodus and the life of Jesus, and Bible-related movies that make use of biblical books, stories, verses, and figures, and Bibles themselves to tell non-biblical, often fictional, narratives. Topics covered include: the contribution of Bible and Bible-related movies to the history of the Bible's reception; the ways in which filmmakers make use of scripture to address and reflect their own time and place; the Bible as a vehicle through which films can address social and political issues, reflect human experiences and emotions, explore existential issues such as evil and death, and express themes such as destruction and redemption; the role of the Bible as a source of ethics and morality, and how this role is both perpetuated and undermined in a range of contemporary Hollywood films; and film as a medium for experiences of transcendence, and the role of the Bible in creating such experiences. This thoroughly updated second edition includes insightful analysis of films such as Noah, Gods and Men, Mary Magdalene, and The Shawshank Redemption, paying attention to visual and aural elements as well as plot, character, and dialogue. The book also includes pedagogical resources including discussions of film theory, as well as key words and discussion questions. Teachers, students, and anyone interested in the intersection of Bible and cinema will find this an invaluable guide to a growing field.

Living the Simply Luxurious Life

Once they were portrayed as the salt of the earth. Nowadays, they take to the streets when paedophiles and asylum seekers are in their midst; they expose their lives in TV documentaries; they love Gucci and hate the Euro; the broadsheets cast them as xenophobes and exhibitionists and mock their tastes and attitudes. But who are the white working class and what have they done to deserve this portrayal? The Likes of Us is a fascinating and wholly original examination of London's white working class.

“Enchanting . . . Diana Athill, 98, still has a few things to teach us about growing old with dignity and humor and grace . . . Astute and sparkling.”—Associated Press Several years ago, Diana Athill accepted that she could no longer live entirely independently, and moved to a retirement home in Highgate. Released from the daily anxieties of caring for her own property and free to settle into her remaining years, she reflects on what it feels like to be very old, and on the moments in her long life that have risen to the surface and which sustain her in these last years. What really matters in the end? Which memories stand out? As she approaches her 100th year, Athill recalls in sparkling, precise detail the exact layout of the garden of her childhood, a vast and beautiful park attached to a large house; relates with humor, clarity and honesty her experiences of the First and Second World Wars and her trips to Europe as a young woman; and in the remarkable title chapter, describes her pregnancy at the age of forty-three, losing the baby and almost losing her life—and her gratitude and joy on discovering that she had survived. Alive, Alive Oh! is “so beautifully written and exquisitely detailed . . . [Athill] mines her memories of a life well-lived and generously lays them out on the page for the rest of the world to enjoy” (Star Tribune). “Witty, candid . . . If you haven’t read Athill, and open her latest book expecting serene reflections from a nonagenarian sipping tea in her garden, you’re in for a surprise.”—San Francisco Chronicle

This collection of contributions was created to prove both the complexity of the contemporary fashion system as well as the richness and openness of an interdisciplinary approach to the field, that is the same that inspires the Master programme in Fashion Studies at Sapienza, University of Rome. All the authors – either scholars or professionals in their fields – are deeply involved in this educational project and they have conceived each contribution as a pedagogic tool for supporting students in better understanding the social, cultural, economic, technological, creative, environmental aspects of fashion. Therefore, this collection aimed at providing readers with a kaleidoscopic approach, a multitude of voices and perspectives; a set of blended methodologies as well as theories that try to address the challenges of the permanent and accelerating transformations of the fashion system. To understand the future of fashion we have to foster creative as well as critical thinking, working on the knowledge we got from the past and identifying changes in advance, in order to be ready – and prepared – for the challenges that are in front of us.

Directed Energy Deposition (DED) is a complex 3D printing process

It can be implemented on a multi-axis machine for more accurate printing percision

This technology is also known as Engineered Net Shaping (LENS)

Metal is usually used in the form of either powder or a wire

That includes titanium and titanium alloys, inconel, tantalum, tungsten, niobium, stainless steel, and aluminium

The wire used typically ranges from 1-3 mm in diameter

The powder used is similar to powder metallurgy processes, between 50 and 150 microns.

offering three different printers, all using lasers as a heat source
