Promises to Keep

This book is a comprehensive and unique guide on how to write one's own wedding vows. In the U.S. alone, there are over 2.4 million weddings every year -- and no two will be exactly alike. Yet whatever the differences, the exchanging of vows is often the most anticipated and memorable moment in the ceremony. Personalizing one's wedding vows is a growing trend in America, but it can be a very stressful experience. This book will help couples by answering some essential questions in preparing for their ceremony: How much of your religion's traditional vows should you include? Is your favorite poem appropriate for the setting you are in, or should you just memorize a couple of lines? Are you stuck on what to say after "I knew you were the one the moment we met?" Are your favorite Led Zeppelin song lyrics an appropriate expression of how you feel about your fiancé? Should you share your vows at the rehearsal?

Wedding Vows

You believe that God loves the world... but sometimes you wonder if He truly loves you. For many of us, moving the truth of God's love from our heads to our hearts is a lifelong process. As we consider our inadequacies or grieve our shattered dreams, we find it difficult to believe that God cares for us personally. In this life-giving book, Joanna Weaver shows you how to embrace the truth that Jesus loves you apart from anything you accomplish, apart from anything you bring. Just as He called Lazarus forth to new life, Jesus wants to free you to live fully in the light of His love, unbound from the graveclothes of fear, regret, and self-condemnation. Love is calling your name. Combining unforgettable real-life illustrations with unexpected biblical insights, Joanna Weaver invites you to experience a spiritual resurrection that will forever change your understanding of what it means to be the one Jesus loves. Includes 10-week Bible study (adaptable for 8 weeks) for both individual reflection and group discussion.

I finally discovered that the reasons behind her betrayal were far different from the ones I'd created years ago in my mind. The most flamboyant, consistently dishonest racketeer was Supervisor of Internal Revenue John McDonald, whose organization defrauded the federal government of millions of dollars. When President Grant was asked why he appointed McDonald supervisor of internal revenue he responded, "I was aware that he was not an educated man, but he was a man that had seen a great deal of the world and of people, and I would not call him ignorant exactly, he was illiterate." McDonald organized and ran the Whiskey Ring but he always credited Grant with the initiation of the Ring declaring that the president "actually stood god-father at its christening." The demise of the Ring rivals anything that the real or fictional Elliot Ness and his "Untouchables" ever accomplished during the prohibition era in America.

Numerology and the Divine Triangle

At last a truly comprehensive and authoritative text on numerology! Part I is a complete introduction to esoteric numerology. Part II includes extensive delineations of each of the numbers 1 to 78 and,

for the first time in book form, a synthesis of numerology, astrology and the Tarot. Each number is explained as personal number vibrations, as a temporary number vibration, in terms of its astrological correspondence and in terms of its Tarot symbolism. Each of the Tarot cards is illustrated. Numerology and the Divine Triangle is the book to which all books on the subject will be compared from now on.

Numerology and the Divine Triangle

At last a truly comprehensive and authoritative text on numerology!

Numerology and Divine Triangle

In this book, Dusty Bunker will help you predict future trends through the Personal Cycles revealed by numbers. Topics include: Your Four Personal Numbers. Your Personal Year Month, and Day Cycles. How to determine your time of birth. Number delineations for character analysis as well as for prediction. This book is an indispensable companion to Numerology and the Divine Triangle, but it requires no previous knowledge of numerology. Ms. Bunker substantiates her system with extensive evidence from the past, as a basis for prediction of the future.

Numerology and Your Future

Discover the science of self-discovery To the conventional scientist, numbers are merely symbols of comparative quantities, but in the broader, metaphysical sense, they assume a deeper, more profound significance. The Complete Book of Numerology reveals the underlying meaning behind the numbers in your life and enables you to understand the connection between your numerological patterns and your degree of abundance, health, and general well-being. Overall, delving into the world of numbers will provide you with a simple and accurate way to decipher your experiences in the same manner that a road map helps you navigate a route that you haven't previously traveled.

The Complete Book of Numerology

Using numerology, there are two important numbers worth knowing. The first is the sum of one's month + day + year of birth. The other is one's North Node number(s). In this book, you are walked step by step how to obtain your astrological birth chart, and from there how to determine your North Node number(s). Please note: effective use of this book requires either some skill with astrology or access to someone with some skill with astrology, and the chart on page 264 of the book Numerology and the Divine Triangle by Faith Javane and Dusty Bunker.

North Node Numbers

Dusty Bunker examines the interrelationships between numerology, astrology and dreams. Using numerology, she shows you how to discover your Personal Year Cycles and interpret the types of dreams you are likely to have during these important and predictable life cycles. She also reveals the meanings of numbers and their corresponding geometric symbols when they appear in dreams. From an astrological perspective, she explains how your birth chart influences your world view, then shows you how to understand your dreams within the context of your natal horoscope.

Numerology, Astrology, and Dreams

Never before have the master numbers - 11, 22, 33, through 99 - been examined in such depth and detail. Faith Javane, one of the most respected numerologists in the country, reveals the significance of these power indicators, both in our personal lives and in a historical and cosmic sense. She looks at the progression of the master numbers as the journey the soul takes as it seeks to master the different levels of understanding. Javane also analyzes the two single-digit numbers that, when added together, equal a master number, for example $2+9=11$. These numbers within numbers "test" how well we have learned the lessons of the master numbers and whether we are ready to move on to the next level.

Master Numbers

People who succeed do so not only because they are determined but because they know when to take action! Find out the importance of timing and how you can use number cycles to plan what's ahead and prosper in unbelievable ways.

In a stroke of divine comparison, you'll find the accuracy of the predictions Dusty made in 1979 for the 1980 decade and then what's to come beyond that through the trends she reveals for the 2020s--what she calls "A Decade of Privacy Due to Burnout: Ransomware, the Internet, Social Media, Deepfake, Facebook, Politics, Robocalls, and Sex." And . . . for the first time, she unveils a repeating cycle that will occur in the 2020 decade that suggests three major world-shifting events. Cheiro's Book of Numbers

A comprehensive guide to the inner psychology revealed by the hand • Details how to interpret the entire hand--the shape of the palm and fingers, mounts, lines, fingerprints, flexibility, nails, and skin texture • Reveals the personality archetypes, strengths, and weaknesses connected with each of the seven mounts and how the rest of the hand modifies these traits • Explains how lines change and the decisive influence of the person's own mind in healing defects found on the lines Palmistry is a science and a universal language. The hand tells a story about your talents, relationships, health, and how you feel about yourself. It reveals periods of ease or challenge in your life, and it speaks about your weaknesses and the traits you need to develop. As you change, so do your hands, reflecting the progress you have made. In this comprehensive guide to hand reading, based on Ellen Goldberg's 40 years of teaching palmistry and the Western Mystery tradition, the authors make the powerful insights of the hand accessible in an inviting and user-friendly manner. The book presents the character traits and personality archetypes associated with each of the seven mounts of the palm and shows how to determine which are most influential in the nature of the individual. The mount archetypes reveal the lifestyle, love, sex, and marriage preferences; the best career choices; and the unique strengths and

weaknesses for each person. The book also examines other factors that enhance the qualities revealed by the mount types, including the flexibility of the hand, texture of the skin, and the shapes of the fingers, fingertips, and nails. The meaning of each major and minor line is described in detail as well as the influence the person's own mind has in healing defects and obstacles found on their lines. The authors also provide accurate timing guides for each line, making it possible to locate specific events and to see how your lines change over time. Presenting the hand as a guide to self-fulfillment, *The Art and Science of Hand Reading* incorporates correspondences to other mystical sciences such as astrology, Kabbalah, the Hermetic teachings, and archetypal psychology. It also includes practical examples and more than 600 illustrations to show how to integrate the meanings of each part of the hand to form a complete picture of your inner psychology and your ever-changing destiny.

Why were the Allies worried about an atom bomb attack by the Germans in 1944? Why did the Soviets threaten to use poison gas against the Germans? Why did Hitler in 1945 insist that holding Prague could win the war for the Third Reich? Why did US General George Patton's Third Army race for the Skoda works at Pilsen in Czechoslovakia instead of Berlin? Why did the US Army not test the uranium atom bomb it dropped on Hiroshima? Why did the Luftwaffe fly a non-stop round trip mission to within twenty miles of New York City in 1944? Reich of the Black Sun takes the reader on a scientific-historical journey in order to answer these questions. Arguing that Nazi Germany actually won the race for the atom bomb in late 1944, Reich of the Black Sun then goes on to explore the even more secretive research the Nazis were conducting into the occult, alternative physics and new energy sources. The book concludes with a fresh look at the "Nazi Legend" of the UFO mystery by examining the Roswell Majestic-12 documents and the Kecksburg crash in the light of parallels with some of the super-secret black projects being run by the SS. Reich of the Black Sun is must-reading for the researcher interested in alternative history, science, or UFOs!

In *Quintiles and Tredeciles*, the author explores the little-known 72-degree and 108-degree aspects and explains their cosmic significance in the individual chart. The true meaning of these aspects was said to have been known only to initiates of the Chaldean mysteries. The numerological and astrological relevance of quintiles and tredeciles unfolds in four chapters and a wealth of diagrams and charts. Historical details on the meanings of numbers - taken from numerology; sacred geometry; masonic, religious, and Egyptian symbology; and astrology - transport the reader to times when numbers did not simply designate quantities but were an "extreme reduction of philosophic thought" and "concrete definitions of energetic formative principles of nature." This fascinating work is necessary reading for novice and experienced astrologers and provides a wonderful and tempting introduction to those with a budding interest in astrology and numerology.
