High Mysticism

What you will discover in 32 Easy Lessons: - How really simple everything is. - We are all one within a universal field of energy. - Intention: The power behind affirmative prayer. - How our thoughts and beliefs attract like energy and experiences. - The healing power of scientific prayer. - The power of being an observer without expectations. - The deep mystical love underlying all aspects of the universe. - Scientific discoveries rich in spiritual awakening. 32 Easy Lessons reveals the essence of who we are at our most powerful level. When we understand how our mind affects the metaphysical, beyond the physical, it all begins to make sense. There are gold nuggets in this treasure trove to enrich your life's adventure. Mary Mitchell has been an avid student of the science of our mind and metaphysics for over twenty years. Her deep study has resulted in popular classes and lessons that explore the hidden power of what lies beyond the physical, and forces of energy that we can control through the power of our mind. It's true: there is a power for good in the universe, and you can use it.

32 Easy Lessons in Metaphysics and the Science of our Mind

An ambitious history of desire in Anglo-American religion across three centuries. The pursuit of happiness weaves disparate strands of Anglo-American religious history together. In *The Delight Makers*, Catherine L. Albanese unravels a theology of desire tying Jonathan Edwards to Ralph Waldo Emerson to the religiously unaffiliated today. As others emphasize redemptive suffering, this tradition stresses the "metaphysical" connection between natural beauty and spiritual fulfillment. In the earth's abundance, these thinkers see an expansive God intent on fulfilling human desire through prosperity, health, and sexual freedom. Through careful readings of Cotton Mather, Andrew Jackson Davis, William

James, Esther Hicks, and more, Albanese reveals how a theology of delight evolved alongside political overtures to natural law and individual liberty in the United States.

The Delight Makers

With foreword by Rev. Dr. Jane Claypool "...A monumental achievement. Every minister in the field will want to have and use a copy right now!" The definitive cross reference between The Science of Mind by Ernest Holmes and the Holy Bible. With over 750 references to Bible verses, this reference is a must have for ministers, translators, and teachers. Completely revised and updated to include other source references! Compliments existing material on the Allegorical Bible, Rescuing the Bible from Fundamentalism and all entry level classes with the textbook.

Where'd He Get That?

Why do individuals and groups hold distinctive theological views? Why do these beliefs change? In what ways do theological interpretations influence concepts of spiritual and political justice? How and why do these concepts of justice affect policy preferences held by religious liberals and conservatives? Much has recently been written about the relationship between power, conservative politics, and evangelical religious groups, but very little attention has been paid to so-called "progressive" religious groups among Protestants, Catholics, and Jews and their relationship to political thought and action. This wide-ranging and interdisciplinary work, ideal for use in college courses on religion and social issues, explores the impact of theological interpretations about God, the individual, society, church, and government on attitudes toward procedural and distributive justice. Major issues revolve around civil liberties, sexual choice, gender equality, world peace, prison reform, and income distribution

Political Justice and Religious Values

In the nineteenth and early twentieth centuries, Mexicans and Americans joined together to transform the U.S.-Mexico borderlands into a crossroads of modern economic development. This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain. Focusing on a mining region that spilled across the Arizona-Sonora border, this book shows how entrepreneurs, corporations, and statesmen tried to domesticate nature and society within a transnational context. Efforts to tame a 'wild' frontier were stymied by labour struggles, social conflict, and revolution. Fugitive Landscapes explores the making and unmaking of the U.S.-Mexico border, telling how ordinary people resisted the domination of empires, nations, and corporations to shape transnational history on their own terms. By moving beyond traditional national narratives, it offers new lessons for our own border-crossing age.

A Republic of Mind and Spirit

This two-volume set examines women's contributions to religious and moral development in America, covering individual women, their faith-related organizations, and women's roles and experiences in the broader social and cultural contexts of their times. This second edition of Encyclopedia of American Women and Religion provides updated and expanded information from historians and other scholars of religion, covering new issues in religion to better describe and document women's roles within religious groups. For instance, the term "evangelical feminism" is one newly defined aspect of women's involvement in religious activism. Changes are constantly occurring within the many religious faiths and denominations in America, particularly as women strive to gain positions within religious hierarchies that previously were exclusive to men and rise within their denominations to become theologians, church leaders, and bishops. The entries examine the roles that American women have played in mainstream religious denominations, small religious sects, and non-traditional practices such as witchcraft, as well as in groups that question religious beliefs, including agnostics and atheists. A section containing primary documents gives readers a firsthand look at matters of concern to religious women and their organizations. Many of these documents are the writings of women who merit entries within the encyclopedia. Readers will gain an awareness of women's contributions to religious culture in America, from the colonial era to the present day, and better understand the many challenges that women have faced to achieve success in their religion-related endeavors.

Encyclopedia of American Women and Religion [2 volumes]

American writer, educator, theologian, and feminist pioneer EMMA CURTIS HOPKINS (1849-1925) may well be the most important woman in the history of religion in the United States. Influenced by Mary Baker Eddy and her "Christian Science," Hopkins developed the more metaphysical philosophy of New Thought, an early "New Age" outlook that encouraged its adherents to tap the latent powers of their potent minds. Known as "the teacher of teachers," Hopkins inspired her students, many of whom went on to become influential leaders of the New Thought movement, to give full expression to their creative genius. In this 1888 book, considered by many one of the greatest works of mysticism ever written, Hopkins encourages us all to live life with a greater awareness of the mystery and power of the universe as it is seen through the wisdom of Jesus Christ. No bleak call to celebrate Jesus' suffering or pain, this is a glorious expression of the power within us to triumph over loss, sin, and death to find new avenues to joy. High Mysticism: Ministry (2nd ed. 1921)

During the many years of the active ministry of Emma Curtis Hopkins, over fifty thousand individuals came to her for instruction. Numbered among them were ministers, priests, lawyers, physicians, artists, business men and people from every walk of life. She was known as the "Teacher of Teachers" as so many of her students later became teachers and carried the message of the High Watch to the far corners of the earth. Several of the well known schools of advanced thought in this country were founded by her students. It is said that the glory of her teaching is that it arouses the hidden creative genius in the student so that he goes forth inspired to accomplish some great work of a unique and inimitable sort by the recognition of his own inherent divinity. To awaken this Divine Sense in her readers is the chief aim of the writings which she has left with us. The Studies in High Mysticism contain her latest writings, the full bloom of her spiritual unfoldment. They are acknowledged to be among the finest examples of Mystical writings. Mrs. Hopkins was herself a Mystic, a Mystic of a new type. She sang the song of the Life triumphant over loss, pain, sickness, poverty, sin and death, and the joy that comes from living the Christ Life. Here we have no identifying with suffering and grief, but the fuller doctrine of Jesus Christ—the rise from ignorance to the "Liberty of the Sons of God!" This book is spiritual dynamite. Read it and your life will be transformed forever.

The Emergence of Christian Science in American Religious Life, 1885-1910

Antiquarian Bookman

In 1988 Herb Fitch wrote to Stephen and Lynn Jay about his intent to take four years and write four books. This did not come to pass before his transition on June 13, 1996, but a seed was planted that left the Jays with a deep desire to fulfill Herb's wishes. Condensed Wisdom of Herb Fitch, Volume 2: The Golden Circle of the Soul builds on the Jays' previous work, Condensed Wisdom of Herb Fitch, The Silver Highway to Redemption. Both books are rooted in a work begun in 1988 as a study guide for the Jays that they call The Condensed Wisdom of Herb Fitch, A - Z. This was woven together with the meat of a 1969 transcript of thirty lessons entitled "Know Thyself," given by Herb in San Francisco. This high mysticism is seasoned with private lessons, journal entries, letters, photos, and the Jays' personal experiences with Herb in Bali, and the result is a work of love "with no missing parts or extra pieces," which was, according to Herb, a pure sign of Spirit. This collection, the second of three volumes, gathers writings, recorded knowledge, and personal narratives from mystic revelator Herb Fitch and charts their journey of friendship and love.

Wisdom was in abundance in the ancient societies of Greece and India, but today it seems to be in short supply. Why is that? Where did wisdom go? This book was written to help us rediscover that lost wisdom and to incorporate the concepts of the sages and the mystics into our lives. The next parts are some of the new manuscripts I have included which talk about some of the differences between eastern and western religious thought and the ideas of the Islamic mystics, in which their thoughts and ideas could help us all solve our problems with radical Islamic ideology.

Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971

This edition of *The Cloud of Unknowing* has been adapted from the 1923 version which was written in a dialect of early modern English. The original text suffers from two flaws that this edition attempts to correct with as little intervention as possible. 1. Verb endings. Archaic verb forms are used. While this can occasionally be emphatic, it mostly interrupts the possible understanding of the text, and so forms have been edited to their contemporary word endings. 2. Mystical and magical sections. In the middle ages, there was a significant trend of magical reasoning and mysticism within Christianity, which was later removed. As such, large sections of the original text are magical spells - repeated chants or phrases which have lost their possible context and meaning. These sections have been significantly reduced. Please note that, even with these revisions, this is a complex mystical and gnostic work, like the *Dao De Jing* or the *Niche For Lights*. As such, it is a difficult but personally rewarding read. *The Cloud of Unknowing* is a work of Christian mysticism. It was penned in Middle English during the latter-half of the fourteenth century. Then, Christian mystics had come to arrive at many of the same conclusions as those from very different faiths, and Christianity had much in common with Buddhism and other Eastern philosophies. As a spiritual guide, *The Cloud of Unknowing* focuses on using contemplative prayer to know God, making a compelling case for why one should abandon trying to comprehend God's attributes or *raison d'être*--one's mind and ego--in favour of a knowledge which embraces the unknown. As described by the book's anonymous author, "We can not think our way to God. He can be loved but not thought." By embracing the unknown, it is believed that one might glimpse the nature of God, yet this understanding is also premised on the belief that "God's pedagogy is always personal." It is perhaps for this reason that prayer--poetically defined by the author as "a naked intent for God"--is understood to necessarily differ from one person to the next, suggesting that "If you want to find your soul, look at what you love."

Wisdom of the Sages and the Mystic Decalogue

A classic work of spiritual truth and profound wisdom Emma Curtis Hopkins was one of the key leaders of the New Thought movement in the 20th century. Known as "the teacher of teachers," she instructed many of the spiritual leaders that would continue to write and teach based on her philosophy. *Scientific Christian Mental Practice* is known as her master work and a pivotal text in the New Thought tradition. In it, she shares twelve perspectives on the teachings of Christ that demonstrate the transformational power of mystical wisdom. In addition to *Scientific Christian Mental Practice*, this edition also includes Hopkins' later book, *High Mysticism*. *Scientific Christian Mental Practice* is part of *The Library of Spiritual Wisdom*, a beautifully designed series of curated classics written by some of the greatest spiritual teachers of all time. With books covering topics ranging from prosperity and motivation to the occult and metaphysical thought, *The Library of Spiritual Wisdom* is the definitive collection of texts from some of the most revolutionary thought leaders of the last two centuries and belongs on the shelves of home libraries everywhere.

High Mysticism

Organized chronologically, starting with Buddha and ending with contemporary seekers, this book focuses on the moment of enlightenment in the lives of saints and masters that led to their witnessing divine reality.

High Mysticism

This will be the fourth in an influential series of volumes on mysticism edited by Steven T. Katz, presenting a basic revaluation of the nature of mysticism. Each presents a collection of solicited papers by noted experts in the study of religion. This new volume will explore how the great mystics and mystical traditions use, interpret, and reconstruct the sacred scriptures of their traditions.

Here is comprehensive proof that the symbolism of many ancient texts, canons, and concepts is an advanced and extremely ancient spiritual and philosophical technology that predates all extant religions and mystery schools. Consequently, here is proof, beyond disproof, that all three so-called "Faiths of Abraham" are purposeful deceptions. Accordingly, related esoterica, mystery schools, and the New Age are rife with error caused by undue reliance upon the assertions of these religions and their leaders. Throughout this book, I present verifiable proof that ancient sages and prophets opposed religion and wisely never trusted religious leaders. As comprehensive validation of this, they redundantly encoded

stunning proof of why throughout pivotal symbolic narratives and related concepts. The ancient sages and prophets hid vital secrets from religious leaders throughout the previous several millennia. When these decoded details are compared to the history, words, and deeds of these religions and their leaders, they finally prove the truth about many long-hidden things. These religions have always purposely imposed ignorance based on the deceptive recasting of earlier symbolic concepts and narratives; that also expertly encoded the keys to ancient wisdom as redundant proofs of the truth. Arrogant religious leaders, while hypocritically lecturing others about morality, have long overlooked that the ancient sages and prophets were painfully aware of their then-current and future misdeeds and deceptions, and patiently and expertly prepared for them !!!

The Encyclopedia of American Religious History

This book contains entries from thousands of publications whether in English, Hebrew, Yiddish, and German-books, research reports, educational and general periodicals, synagogue histories, conference proceedings, bibliographies, and encyclopedias-on all aspects of Jewish education from pre-school through secondary education.

Religious Books, 1876-1982

This book presents important topics regarding the more mystical trend of Kabbalah—the ecstatic Kabbalah. It includes the mystical union, the world of imagination, and concentration as a spiritual technique. The emphasis in the text is on the interaction between the "original" Spanish stage of Kabbalah and Muslim mysticism in the East, mainly in the Galilee. The influence of the Kabbalistic-Sufic synthesis on the later developments of Jewish mysticism is traced, thereby providing a more precise understanding of the history of Kabbalah as an interplay between the theosophical and ecstatic mystical experiences.

Condensed Wisdom of Herb Fitch Volume Two

"The Oxford Dictionary of the Jewish Religion has been the go-to resource for students, scholars, and researchers in Judaic Studies since its 1997 publication. Now, The Oxford Dictionary of the Jewish Religion, Second Edition focuses on recent and changing rituals in the Jewish community that have come to the fore since the 1997 publication of the first edition, including the growing trend of baby-naming ceremonies and the founding of gay/lesbian synagogues. Under the editorship of Adele Berlin, nearly 200 internationally renowned scholars have created a new edition that incorporates updated bibliographies, biographies of 20th-century individuals who have shaped the recent thought and history of Judaism, and an index with alternate spellings of Hebrew terms. Entries from the previous edition have been revised, new entries commissioned, and cross-references added, all to increase ease of navigation research." -- Provided by publisher.
