Taking Rights Seriously

A forceful and landmark defence of individual rights, Taking Rights Seriously is one of the most important political philosophical works of the last 50 years.

The Answer Is Still No

The Answer Is Still No is an important, urgent book that compiles interviews with people who live along the route of the proposed Enbridge pipeline in Northern British Columbia. The oil pipeline and supertankers – linking the tar sands of Alberta to the demand of the growing Asian market – are a key component of Canada's strategy of natural resource extraction. But for the people living along the proposed pipeline route, Enbridge poses a massive environmental risk, which threatens their way of life. This edited collection takes the passionate words and voices of twelve citizens and activists and results in one powerful position when it comes to blind economic development at the expense of our environment and communities: The answer is still "no."

pt. 1 At Los Angeles, Calif., August 7, 1934. Hearings No. 73-Calif.-2. 25 p. pt. 2 At New York, N.Y., July 9 to 12, 1934. Hearings, No. 73-NY-7. 259 p. pt. 3 At New York City, N.Y., November 30, 1934, December 5, 1934. Hearings, No. 73-N.Y.-18. 43 p

The winners in life are usually those who have accumulated the most "NOs". Salespeople, actors and writers know rejection well. Reaction to rejection is a learning tool as well as barometer of passion for the true intention of those who strive to higher levels of achievement. It can also be an invisible success killer. It's like a virus, which doesn't announce its presence until the patient is almost dead. The success killer for most people is their unknown sub-conscious fear of being rejected. We can all recall that time when we felt publicly humiliated, that time when our failure was there for the world, and worse, for those close to us, to see. Doing little or nothing, keeping your head down, not rising to any occasion that has a potential for public failure is the hidden and insidious success killer. The realization of this unknown fear can actually propel some people to begin to overcome these fears immediately. This book shows the reader through technique and inspiration how to rise above mediocre circumstances to levels of personal power not realized before. Author, Tom Justin gave the same titled seminar for over 15 years

before he wrote the book. But unlike his seminar, the book is filled with how-tos and inspiration. Here is just some of what is featured in this treasure trove: *How you can become a master problem solver using this technique * How you can move through any rejection or disappointment quickly and easily * 5 Danger signs that can keep you in stress and failure AND how to avoid them * How to take total and complete control of your life - seriously! You'll be surprised to see what real control really means * 3 Ways you can increase your ratio of positive results through all rejections * "Energy is the currency of the universe." Learn how to tap into your own personal energy bank account ...and much more. Jack Canfield, co-author of the Chicken Soup For The Soul series said of this book: "If rejection is like a disease, creeping up, then overcoming us and stopping us cold, then Tom Justin is the 'Jonas Salk' of rejection. His How To Take NO For An Answer And Still Succeed program is the perfect vaccine for every kind of rejection life can throw at us." Most of all this book will prove to you that failure isn't the problem, quitting is.

How to Take No for an Answer and Still Succeed

The 5 powerful and easy-to-learn steps outlined in this book will motivate you to take control of your life. They will show you how to prevail in dealings with your spouse, your neighbor, your boss, your customer, and others. Applying these steps to everyday situations will bring you personal growth and increase your self-confidence. After reading this book, you will be able to get what you want without making enemies, to negotiate solutions that will create winners, and to be assertive without being offensive. Book jacket.

Don't Take No for an Answer!

Are you thinking of studying at university in Britain? Do you feel confused about which course is best for you, which university to choose, and how to apply? Are you wondering about what kinds of challenges you will be faced with, how best to approach them and how to overcome them? If so, this guidebook is for you. The International Student's Guide to UK Education

Outlines an alternative approach for setting boundaries without jeopardizing important relationships, in a guide for women that draws on the insights of celebrities, a former first lady, and two police chiefs to help readers authenticate their true feelings while maintaining their values about caring and generosity. Reprint. 35,000 first printing.

My Answer is No . . . If That's Okay with You

Does music make kids smarter? At what age should a child begin music lessons? Where should you purchase an instrument? What should parents expect from a child's teachers and lessons? How can you get kids to practice? Raising Musical Kids answers these and many other questions as it guides parents through everything from assembling a listening library for kids, to matching a child's personality with an instrument's personality, to finding musical resources in your community. Knowing that children can—and often do—get most of their music education from their school, parent and educator Robert Cutietta explores the features and benefits of elementary and secondary school programs, and shows how parents can work with the schools to provide the best possible music program. Throughout the book, Cutietta emphasizes the joy of participating in music for its own sake. The first edition of Raising Musical Kids delighted and informed parents to equal degrees, and this fully-revised second edition is a book that parents everywhere will treasure as a complete road map for developing their child's musical abilities.

Cobbett's Parliamentary Debates

'Philosopher Kings' examines the attempts by courts to sort out conflicts involving freedom of expression, including religious expression on the one hand and rights to privacy and other important social values on the other.

Raising Musical Kids

An accessible introduction to the complex topic of Myth. Ellwood examines theories, meanings and interpretations, all of which are structured around a typical programme of study.

Philosopher Kings?

Vygotsky's Developmental and Educational Psychology aims to demonstrate how we can come to a new and original understanding of Vygotsky's theories through knowledge of their cultural, philosophical and historical context.

Myth

In this classic study, Alan Brudner investigates the basic structure of the common law of transactions. For decades, that structure has been the subject of intense debate between formalists, who say that transactional law is a private law for interacting parties, and functionalists, who say that it is a public law serving the collective ends of society. Against both camps, Brudner proposes a synthesis of formalism and functionalism in which private law is modified by a common good without being subservient to it. Drawing on Hegel's legal philosophy, the author exhibits this synthesis in each of transactional law's main divisions: property, contract, unjust enrichment, and tort. Each is a whole composed of private-law and public-law parts that complement each other, and the idea connecting the parts to each other is also latently present in each. Moreover, Brudner argues, a single narrative thread connects the divisions of transactional law to each other. Not a row of disconnected fields, transactional law is rather a story about the realization in law of the agent's claim to be a dignified end-master of its body, its acquisitions, and the shape of its life. Transactional law's divisions are stages in the progress toward that goal, each generating a potential developed by the next. Thus, contract law fulfils what is incompletely realized in property law, negligence law what is germinal in contract law, public insurance what is seminal in negligence law, and transactional law as a whole what is underdeveloped in public insurance. The end point is the limit of what a transactional law can contribute to a life sufficient for dignity. Reconfigured and expanded with a contribution by Jennifer Nadler, *The Unity of the Common Law* stands out among contemporary theories of private law in that it depicts private law as purposive without being instrumental and as autonomous without being empty formal.

Westminster Chess Club Papers

Here, Philip Bobbitt studies the basis for the legitimacy of judicial review by examining six types of constitutional argument--historical, textual, structural, prudential doctrinal, and ethical--through the unusual method of contrasting sketches of prominent legal figures responding to the constitutional crises of their day.

An Answer to Mr. Jefferson's Justification of His Conduct in the Case of the New Orleans Batture.

The first half of 'Religion and the Natural Sciences' is an introduction to the discussion of science and religion. Here the reader learns why there is any debate at all and what resources exist for responding to it. The second half deals with specific issues that arise in the individual sciences, from astronomy and physics to biology and ecology. Any project hoping to connect science and religion must supply the categories of connection, which are found primarily, although not exclusively, in philosophy. The simplicity of the arrangement and the nature of the selections are intended to make 'Religion and the Natural Sciences' available to as wide an audience as possible, including students from the sciences and technology, the professions, the humanities and liberal studies, and theology.

The Law Times Reports

This series of lectures treats certain amusing and interesting aspects of rational function approximations, striving for variety and diversity rather than depth or thoroughness. Graduate students and faculty, knowledgeable in the elements of real and complex analysis, should gain insight into recent developments in the field.

Railway Signal

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Federal Decisions

Vygotsky's Developmental and Educational Psychology

Includes the decisions of the Supreme Courts of Massachusetts, Ohio, Indiana, and Illinois, and Court of Appeals of New York; May/July 1891-Mar./Apr. 1936, Appellate Court of Indiana; Dec. 1926/Feb. 1927-Mar./Apr. 1936, Courts of Appeals of Ohio.

A Homiletic Encyclopaedia of Illustrations in Theology and Morals

The financial services world is changing. Technology is enabling an automated approach to investing that should bring down the cost of commodity services. No longer do you have to fund the lifestyle of a broker or advisor to have him tell you how to diversify or where to find the next investment that cannot be missed. This book will provide the tools for calculators that tell you most of what you need to know; from how much insurance you need to have to how you should diversify. The book will help readers with the following: Understand what you have Plan your long-term goals Start to save (maximizing your 401k) Reduce debt Run your Monte Carlo Simulation Determine the appropriate asset allocation Set up your auto-rebalancing and periodically (annually, perhaps) re-examining your asset allocation to account for globalization Deploy the asset mix through low cost, tax-efficient strategies Look at it once per year This book will provide a better understanding of your investment decisions. But, we all cannot be do-it-yourselfers. Advisors serve as an important resource for consumers when they are both capable and understand their duty to serve you, the customer, first. To complement their moral station, they must have the skills to deliver appropriate advice. The book, much like the company Steve founded, will simplify standards for consumers and audit advisors to those standards.

The Unity of the Common Law

New edition (previously 1971) of an anthology for an undergraduate course. Comprises four parts: theories, explanation and causality, confirmation of scientific hypotheses, selected problems of particular sciences. Annotation copyrighted by Book News, Inc., Portland, OR

Constitutional Fate

Leadership Academy is a stellar collection of successful leadership books by two renowned business writers, Can Akdeniz and Jonas Stark. Collectively, these four books – Cool Boss: Master 11 Qualities of Today's Greatest Leaders, Happy Company: How to Create a Happy, Trustable and Successful Business, The 9 Routines of Successful People: A Guidebook for Personal Change, and Go Nuts: The Art of Creativity and Innovation – will help you steer both yourself and your company in a more successful direction. As you'll learn, leadership skills can be developed in some pretty surprising ways – and innovation, positivity, and happiness all play major roles.

Hansard's Parliamentary Debates

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Religion and the Natural Sciences

Here is the book that guides the President of the United States from the first in the Oval Office and to the day he (or she?) walks out for the last time. In fact, the strategies and mindset recommended in these pages are essential tools for capturing the Presidency, much less wielding it. The international scene today is either a madhouse or the product of extraordinarily cynical techniques such as these, applied with cold cunning, by our nations leaders. This handbook provides a comparison of the world's premier intelligence agencies, discusses tactics of surveillance, war, and public persuasion, practical advice on political maneuvering at the local, national and international levels. A rational, results-based handbook, it is destined to be a secret favorite of politicians, agents of the special services, CEOs and corporate boards for the next hundred years to come. And for the many other ambitious contenders in the world of winner-take-all bare-knuckles capitalism. The author, who cites decades of insider knowledge at the KGB and the CIA, says he originally compiled this book upon a request from Washington anonymous, of course. - Publisher.

The True Latter-Day-Saints' Herald

Ten minibooks in one get you thoroughly caught up on Windows 8.1! With new improvements and changes, Windows 8.1 offers a refreshed user interface, better integration between the new and traditional Windows interfaces, and more. This updated top-selling guide is what you need to get up to speed on everything Windows 8.1. Nine minibooks in one cover such essential topics as navigating the new Start Screen, understanding Windows 8.1 apps, securing Windows 8.1, and much more. Take the guesswork out of Windows 8.1 from day one with this complete, all-in-one resource. Helps you get up to speed on the Windows 8.1 operating system, including its Start Screen, which is a feature sure to please traditional Windows users Provides top-notch guidance from trusted and well-known Windows expert and author Woody Leonhard Covers Windows 8.1 inside and out, including how to customize the Start screen, manage apps, and control privacy Delves into core Windows 8.1 apps such as e-mail, people, and SkyDrive Shows you how to connect online, add hardware, back up and update, and secure Windows 8.1 Discover new improvements, old favorites, and everything in between with Windows 8.1 All-in-One For Dummies.

Approximation with Rational Functions

"On the eve of the twentieth century, Mary Mallon emigrated from Ireland at age fifteen to make her way in New York City. Brave, headstrong, and dreaming of being a cook, she fought to climb up from the lowest rung of the domestic-service ladder. Canny and enterprising, she worked her way to the kitchen, and discovered in herself the true talent of a chef. Sought after by New York aristocracy, and with an independence rare for a woman of the time, she seemed to have achieved the life she'd aimed for when she arrived in Castle Garden. Then one determined 'medical engineer' noticed that she left a trail of disease wherever she cooked, and identified her as an 'asymptomatic carrier' of Typhoid Fever. With this seemingly preposterous theory, he made Mallon a hunted woman."--

Publications

Services to older people with mental health problems have gone through radical change in recent years. Legislation has had a profound effect by dictating how care to older people is delivered both within hospital and within the community. The recent government agenda emphasizes cost effectiveness, value for money and accountability. This, too, is an important driving force in re-evaluating the service, although not everyone would agree with many of the proposed strategies and there are clearly different views as to the appropriateness of many of the services. One thing is certain, however - the move towards interdisciplinary working is here to stay. Not all change has been led by legislation, and many innovations have been founded in the day-to-day practices in the care of older people with mental health problems. A service, of course, does not become integrated merely by imposing joint working on a number of professionally based disciplines, and in many ways this may not be desirable. At its worst it produces duplication, where people from different background are all doing the same job. This is not the intention of joint-working, instead it should attempt to improve the quality of service by a rich mix of skills and experience from a number of related disciplines.
