chose the pc components

chose a compatible motherboard

align the golden triangle on the edge of the cpu

fit it into place the cpu is installed

check the position of the notch on the ram

install the ssds

insert the hardware with a little bit of an angle

install the power supply inside the case

removed the front panel

installing the power supply

moving the motherboard into the case

installed the screws of the cooler

installing the cooler

put the motherboard

installed the cooler on the side of the case

align the graphics card pin into the slot of the motherboard

connected the big cable coming from the power supply into the motherboard

put the pci power cables into the graphics card

connected the cables coming from the radiators

connect to the bottom of the motherboard except for the usb 3

connected the keyboard monitor and mouse

removed the plastic protection from the glass
