English Grammar and Composition with Test and Answers

This booklet in hand is one in the 'RENATA' Series of publications & Graded Battery of Tests which aims at helping Foreign Learners of English carry out assessments of their English Grammar and Vocabulary on their own by comparing their own answers to the answer key provided at the end of each Test. They can only resort to a facilitator when they have to justify and correct their mistakes on their own. This complete Battery of Tests is, certainly, the English Foreign Language Learner's Mecca of workbooks which every foreign learner of English should visit and have on their desktops to refer to as an indispensable tool for review of Graded level objectives, and review of exercises when necessary. The 'RENATA' nomenclature and acronym of the series derives from the word coined and made up from the 1st letter of the recommended nature of work followed to consolidate learning through the review process as underlined, where the student will Review, Enhance (knowledge), Nurture (knowledge thirst), Activate (unleash potentials), and, then, Test (his/her knowledge) & finally, Adjust (where necessary) him/herself to get the most benefit of the exercises in the series of Review exercises. The student may, with or without the help of a facilitator choose the basic review level and proceed to the advanced or skip where he/she thinks an exercise or a level is easy for him or her. He or she may then proceed to the next level or go back to a lower level to ensure that he or she is mastering and consolidating his or her level. For the benefits the process 'RENATA' gives to the foreign learner, I call

it I call this Series of Review and Test booklets the 'Renata' (Rebirth) of Review books as the first letter of each principle indicates. It, really, represents a 'Rebirth' of good research in the objectives taught and learnt at each level for Foreign Learners and applying these in the exercises appropriate for each level. As much as the test booklet is a gift to the user foreign learner, it is also a valuable present to the teachers, developers and writers of grammar books for foreign learners. The reason why I say this is because I am making available to the English Language Syllabus Writer at the beginning of each Test the objectives he or she has to include in each of the English Language levels from beginners to advanced as shown in each of the Test Booklets. and parts of this book. The student may, with or without the help of a facilitator choose any test booklet and follow through and go back and forth to decide if the test is easy for him or her. He or she may then proceed to the next level or go back to a lower level to ensure that he or she is mastering and consolidating his or her level. Certainly, these are test booklets Grammar books that teach, but a measurement that only serves as a consolidation and a correction tool of the whole of the English Grammar and language building blocks learnt to help foreign language learners prepare and pursue college education or apply for a job in today's competitive job market. I have not specifically targeted any geographical area by my Review or Test Booklets and it may well serve students of foreign language learning everywhere, who are planning to undergo academic or industrial training for oil and chemical industries, where I have had the honor to work for a good number of years. It also targets the high school and pre-college applicants, where I spent years of my life teaching and offering consultancy work in program development and I know exactly what those young men and women need in order to establish themselves as successful candidates for academic, industrial trades and for the business market, in general. Finally, it is very important to remember that where student score less than 75%, he/she should ensure that he correct the mistake made so it may not recur and may become a thing of the past. Good luck Sam Christian
