Introduction

Bernardo's journey from materialism to idealism

Materialism vs Analytical idealism

Dissociative identity disorder (multiple personality disorder) and consciousness

Why does life has a separate consciousness and not, say, a rock?

What does it mean to "explain" without reductionism?

Why not start with "nothing"? What would a theory like that look like?

What does it mean to "exist"? Do abstractions exist?

Theories of "truth" other than correspondence

Randomness doesn't exist fundamentally

If the mind is deceptive then what do we trust?

Is "Mind At Large" God? Can you pray to it?

Morality and purpose

On disagreements with Joscha Bach

On disagreements with Daniel Dennett

On disagreements with Dawkins

On disagreements with Douglas Hofstadter

If everything is "in the mind" then why are objects independently verified and exert an influence when I'm gone?

On disagreements with Donald Hoffman and Thomas Campbell

The distinction between "in your head" and "in your mind" is crucial

On disagreements with Carl Jung

On disagreements with Roger Penrose

Why parsimony in assumptions? Why not many assumptions?

Curt says Bernardo's theory isn't better than the Flying Spaghetti Monster

On Schopenhauer

How to properly read Jung

Bernardo and Curt speak about the "new age" and "woo"

On Deepak Chopra

Does Bernardo fear death? (a story about ego death)

If this reality is a "dream", how much can we control it?

Choice, free will, and becoming a slave voluntarily

The intellect is a bouncer of the heart

The East vs the West have different answers to the suffering of life

The "self" is an illusion worth saving

Bernardo almost killed himself twice, and later found meaning in the suffering

On the pain of writing

Should you ever regret? (Buddhism vs Christianity)

If consciousness is all there is, and the self is an illusion, why did the East get that and not the West?

Can you have morality / ethics within materialism?

What's the weakest point of Bernardo's model?

Is there anything special about biological life?

Logic

What beats rationality? What's the "game of all games"?

How does Bernardo write? What's the process look like?

Bernardo gives Curt advice

Don't feel like "others have it worse." Honor your suffering.

Don't take yourself seriously but take life seriously

Disagreements with Tony Robbins and self-help

Brain as a radio tuner (Plastic Pears)

How to falsify Bernardo's theory? What predictions does his model make?

Other audience questions

The relationship between universal consciousness and the Platonic Realm (Sessaly)

These metaphysical questions are dangerous questions
