## Lyndon B. Johnson

This superb, one-volume biography of Lyndon Baines Johnson is by the bestselling author of "An Unfinished Life: John F. Kennedy 1917-1963."

## Lyndon Johnson Remembered

In Lyndon Johnson Remembered: An Intimate Portrait of a Presidency Thomas W. Cowger and Sherwin J. Markman bring together essays by Johnson administration insiders reflecting on his personality, domestic agenda, and legacy.

## Lyndon Johnson and the American Dream

With a new foreword: The New York Times—bestselling biography of President Lyndon Johnson from the Pulitzer Prize—winning author of Team of Rivals. Featuring a 2018 foreword by the Pulitzer Prize—winning political historian that celebrates a reappraisal of Lyndon Johnson's legacy five decades after his presidency, from the vantage point of our current, profoundly altered political culture and climate, Doris Kearns Goodwin's extraordinary and insightful biography draws from meticulous research in addition to the author's time spent working at the White House from 1967 to 1969. After Johnson's term ended, Goodwin remained his confidante and assisted in the preparation of his memoir. In Lyndon Johnson and the American Dream, she traces the 36th president's life from childhood to his early days in politics, and from his leadership of the Senate to his presidency, analyzing his dramatic years in the White House, including both his historic domestic triumphs and his failures in Vietnam. Drawing on personal anecdotes and candid conversation with Johnson, Goodwin paints a rich and complicated portrait of one of our nation's most compelling politicians in "the most penetrating, fascinating political biography I have ever read" (The New York Times).

## Flawed Giant

Lone Star Rising, the first volume in Robert Dallek's biography of LBJ, was hailed as "a triumphant portrait of Lyndon Johnson as rich and oversized and complex as the nation that shaped him." Now, in the final volume, Dallek takes us through Johnson's tumultuous years in the White House,

his unprecedented accomplishments there, and the tragic war that would be his downfall. In these pages Johnson emerges as a character of almost Shakespearean dimensions, a man riddled with contradictions, a man of towering intensity and anguished insecurity, of grandiose ambition and grave self-doubt, a man who was brilliant, crude, intimidating, compassionate, overbearing, driven: "A tornado in pants." Drawing on hundreds of newly released tapes and extensive interviews with those closest to LBJ—including fresh insights from Ladybird and his press secretary Bill Moyers--Dallek takes us behind the scenes to give us a portrait of Johnson that is at once even-handed and completely engrossing. We see Johnson as the visionary leader who worked his will on Congress like no president before or since, enacting a range of crucial legislation, from Medicare, environmental protection, and the establishment of the National Endowment of the Arts and Humanities to the most significant advances in civil rights for black Americans ever achieved. And we see for the first time the depth of Johnson's private anguish as he became increasingly ensnared in Vietnam, a war he did not want to expand and which destroyed his hopes for The Great Society and a second term. Exhaustively researched and gracefully written, *Flawed Giant* reveals both the greatness and the tangled complexities of one of the most extravagant characters ever to step onto the presidential stage.

### The Thirty-first of March

An intimate retelling of Lyndon B. Johnson's politics and presidency by one of his closest advisors. Horace Busby was one of LBJ's most trusted advisors; their close working and personal relationship spanned twenty years. In *The Thirty-First of March* he offers an indelible portrait of a president and a presidency at a time of crisis. From the aftereffects of the Kennedy assassination, when Busby was asked by the newly sworn-in president to sit by his bedside during his first troubled nights in office, to the concerns that defined the Great Society—civil rights, the economy, social legislation, housing, and the Vietnam War—Busby not only articulated and refined Johnson's political thinking, he also helped shape the most ambitious, far-reaching legislative agenda since FDR's New Deal. Here is Johnson the politician, Johnson the schemer, Johnson who advised against JFK's choice of an open limousine that fateful day in Dallas, and Johnson the father, sickened by the deaths of young men fighting and dying in Vietnam on his orders. *The Thirty-first of March* is a rare glimpse into the inner sanctum of Johnson's presidency, as seen through the eyes of one of the people who understood him best.

### Lone Star Rising

Volume one of a two-volume biography follows Johnson's life from his childhood on the banks of the Pedernales to his election as vice president under Kennedy.

### The Thirty-first of March

An intimate, compulsively readable memoir by LBJ's closest aide and chief speechwriter. "I have made up my mind. I can't get peace in Vietnam and be President too." So begins this posthumously discovered account of Lyndon Johnson's final days in office. *The Thirty-first of March* is an indelible portrait of a president and a presidency at a time of crisis, and spans twenty years of a close working and personal relationship between Johnson and Horace Busby. It was Busby's job to "put a little Churchill" into Johnson's orations, and his skill earned him a position of trust in Johnson's staff from the earliest days of Johnson's career as a congressman in Texas to the twilight of his presidency. From the aftermath of the Kennedy assassination when Busby was asked by the newly sworn-in President to sit by his bedside during his first troubled nights in office, to the concerns that defined the Great Society, Busby not only articulated and refined Johnson's political thinking, he helped shape the most ambitious, far-reaching legislative agenda since FDR's New Deal. Here is Johnson the politician, Johnson the schemer, Johnson who advised against JFK riding in an open limousine that fateful day in Dallas, and Johnson the father, sickened by the men fighting and dying in Vietnam on his behalf. *The Thirty-first of March* is a rare glimpse into the inner sanctum of Johnson's presidency.

### Portrait of a President

An up-close look at John F. Kennedy by one of his closest confidants, a New York Times–bestselling biographer. Written by a prize-winning historian and biographer of such giants as Winston S. Churchill and Douglas MacArthur, this intimately detailed account provides a rare personal glimpse into the emotions behind the Kennedy administration—from the elation of victory to the frustrating challenges facing a young president at a pivotal turning point in US history. Originally published in 1962—before the assassination of JFK—*Portrait of a President* is William Manchester's first biography of the thirty-fifth

president of the United States. In addition to firsthand encounters with JFK, the biography draws from over forty interviews conducted in the first year of his presidency. In speaking with those closest to the commander-in-chief, both in his administration and his family, Manchester captures a complete portrait of one of the most highly regarded figures of the twentieth century. This edition includes a new introduction and epilogue written by Manchester in the aftermath of November 1963, adding to the mythos by documenting not just how President Kennedy lived, but also the legacy he left behind.

#### The Triumph & Tragedy of Lyndon Johnson

Describes Johnson's obsession with Vietnam and his manipulation of Congress and the economy to achieve his goals.

#### Lyndon B. Johnson

The towering figure who sought to transform America into a "Great Society" but whose ambitions and presidency collapsed in the tragedy of the Vietnam War. Few figures in American history are as compelling and complex as Lyndon Baines Johnson, who established himself as the master of the U.S. Senate in the 1950s and succeeded John F. Kennedy in the White House after Kennedy's assassination on November 22, 1963. Charles Peters, a keen observer of Washington politics for more than five decades, tells the story of Johnson's presidency as the tale of an immensely talented politician driven by ambition and desire. As part of the Kennedy-Johnson administration from 1961 to 1968, Peters knew key players, including Johnson's aides, giving him inside knowledge of the legislative wizardry that led to historic triumphs like the Voting Rights Act and the personal insecurities that led to the tragedy of Vietnam. Peters's experiences have given him unique insight into the poisonous rivalry between Johnson and Robert F. Kennedy, showing how their misunderstanding of each other exacerbated Johnson's self-doubt and led him into the morass of Vietnam, which crippled his presidency and finally drove this larger-than-life man from the office that was his lifelong ambition.

#### America's Presidents

A striking collection of presidential portraits from the National Portrait Gallery, this volume encapsulates the spirit of the most powerful office in the world. *America's Presidents* showcases the nation's largest collection of portraits of all the presidents beyond the White House's own, capturing the permanent exhibition that lies at the heart of the Portrait Gallery's mission to tell the American story through the individuals who have shaped it. The book explores presidential imagery through portraits ranging from the traditional, such as the iconic and newly restored "Lansdowne" portrait of George Washington by Gilbert Stuart, to the contemporary, such as Elaine de Kooning's colorful depiction of John F. Kennedy. Many of the featured portraits reveal much about the sitter, such as the intimate rendering of an informal George W. Bush by Robert Anderson and the fanciful, mosaic-like Chuck Close image of Bill Clinton. Some tell us more about the artist, such as the likeness of Franklin Delano Roosevelt that Douglas Chandor planned to include in a larger work about peace that would commemorate Roosevelt's Yalta meeting with wartime Allied leaders Winston Churchill and Joseph Stalin. Works in other media, including sculptures and daguerreotypes, round out the presidential collection. Lively narratives accompany each piece, exploring the president's background and biography as well as the work's artistic and historical significance. Taken together, the portraits are a powerful visual exploration of the history of the highest office in the land and the diverse men who have held it.

#### Lyndon B. Johnson; the Exercise of Power

Mass-market edition of the first authoritative single-volume biography of John F. Kennedy to be written in nearly four decades. Drawing upon first-hand sources and never-before-opened archives, prize-winning historian Robert Dallek reveals more than we ever knew about Jack Kennedy, forever changing the way we think about his life, his presidency and his legacy. Dallek also discloses that, while labouring to present an image of robust good health, Kennedy was secretly in and out of hospitals throughout his life, so ill that he was administered last rites on several occasions. He never shies away from Kennedy's weaknesses, but also brilliantly explores his strengths. The result is a full portrait of a bold, brave and truly human John F. Kennedy.

#### John F. Kennedy

For almost forty years, the verdict on Lyndon Johnson's presidency has been reduced to a handful of harsh words: tragedy, betrayal, lost opportunity. Initially, historians focused on the Vietnam War and how that conflict derailed liberalism, tarnished the nation's reputation, wasted lives, and eventually even led to Watergate. More recently, Johnson has been excoriated in more personal terms: as a player of political hardball, as the product of machine-style corruption, as an opportunist, as a cruel husband and boss. In *LBJ*, Randall B. Woods, a distinguished historian of twentieth-century America and a son of Texas, offers a wholesale reappraisal and sweeping, authoritative account of the LBJ who has been lost under this baleful gaze. Woods understands the political landscape of the American South and the differences between personal failings and political principles. Thanks to the release of thousands of hours of LBJ's White House tapes, along with the declassification of tens of thousands of documents and interviews with key aides, Woods's *LBJ* brings crucial new evidence to bear on many key aspects of the man and the politician. As private conversations reveal, Johnson intentionally exaggerated his stereotype in many interviews, for reasons of both tactics and contempt. It is time to set the record straight. Woods's Johnson is a flawed but deeply sympathetic character. He was born into a family with a liberal Texas tradition of public service and a strong belief in the public good. He worked tirelessly, but not just for the sake of ambition. His approach to reform at home, and to fighting fascism and communism abroad, was motivated by the same ideals and based on a liberal Christian tradition that is often forgotten today. Vietnam turned into a tragedy, but it was part and parcel of Johnson's commitment to civil rights and antipoverty reforms. *LBJ* offers a fascinating new history of the political upheavals of the 1960s and a new way to understand the last great burst of liberalism in America. Johnson was a magnetic character, and his life was filled with fascinating stories and scenes. Through insights gained from interviews with his longtime secretary, his Secret Service detail, and his closest aides and confidants, Woods brings Johnson before us in vivid and unforgettable color.

## LBJ

From the acclaimed author of *John F. Kennedy: An Unfinished Life*, the biography of one of America's greatest presidents, Franklin D. Roosevelt. Roosevelt was the only American president ever to serve four terms. He came from the highest echelons of American society, and though progressively incapacitated by polio from the age of thirty-nine, never showed the slightest self-pity, refusing to allow the disease to constrain his ambition or his place in public life. During the Depression of the 1930s he became the foremost presidential champion of the needy, instituted the famous New Deal and brought about revolutionary changes in America's social and political institutions. Two years into the Second World War he persuaded Americans that it was their unavoidable duty to fight, and brought about a profound reversal in the country's foreign policy. During that titanic conflict he formed a unique friendship with Winston Churchill, and became the central figure in the Western Alliance. Dallek attributes FDR's success to two remarkable political insights. First, more than any other president, he understood that effectiveness in American politics depended on building a national consensus and commanding stable long-term popular support. Second, he made the presidency the central, most influential institution in modern America's political system. In addressing the country's international and domestic problems, Roosevelt recognized the vital importance of remaining closely attentive to the full range of public sentiment around the decisions made by government--perhaps his most enduring lesson in effective leadership. In an era of national and international division, there could be no more timely biography of America's preeminent twentieth-century leader than one that demonstrates his unparalleled ability as a uniter and consensus maker.

## Franklin D. Roosevelt

Chief of Staff to the President is perhaps the most important political appointment in our nation's government. Aside from handling the myriad of day to day details that keep the White House running, the Chief of Staff is often the President's closest confidante and gatekeeper--anyone who wants access to the Oval Office goes through the Chief of Staff. President Lyndon Johnson bestrode the American political scene as a colossus of energy, ambition, and purpose. He attempted to achieve no less than the total eradication of poverty and expended every last ounce of his political capital with Congress to pass Civil Rights legislation. And, throughout, he was--as he knew better than anyone else--being destroyed by a war he inherited, detested, and could do nothing to stop. With W. Marvin Watson, his Chief of Staff and most intimate adviser, finally revealing what he knows about this extraordinary figure, readers are taken, firsthand, inside the presidential life and times of Lyndon Johnson.

## Chief of Staff

Contains primary source material.

### Taking Charge

Opposites in almost every way, mortally suspicious of each other at first, Lyndon Baines Johnson and Martin Luther King, Jr., were thrust together in the aftermath of John F. Kennedy's assassination. Both men sensed a historic opportunity and began a delicate dance of accommodation that moved them, and the entire nation, toward the historic Civil Rights Act of 1964 and the Voting Rights Act of 1965. Drawing on a wealth of newly available sources -- Johnson's taped telephone conversations, voluminous FBI wiretap logs, previously secret communications between the FBI and the president -- Nick Kotz gives us a dramatic narrative, rich in dialogue, that presents this momentous period with thrilling immediacy. *Judgment Days* offers needed perspective on a presidency too often linked solely to the tragedy of Vietnam. We watch Johnson applying the arm-twisting tactics that made him a legend in the Senate, and we follow King as he keeps the pressure on in the South through protest and passive resistance. King's pragmatism and strategic leadership and Johnson's deeply held commitment to a just society shaped the character of their alliance. Kotz traces the inexorable convergence of their paths to an intense joint effort that made civil rights a legislative reality at last, despite FBI director J. Edgar Hoover's vicious whispering campaign to destroy King. *Judgment Days* also reveals how this spirit of teamwork disintegrated. The two leaders parted bitterly over King's opposition to the Vietnam War. In this first full account of the working relationship between Johnson and King, Kotz offers a detailed, surprising account that significantly enriches our understanding of both men and their time.

### The Johnson Presidency

The author of *Lincoln's Boys* takes us inside Lyndon Johnson's White House to show how the legendary Great Society programs were actually put into practice: *Team of Rivals* for LBJ. The personalities behind every burst of 1960s liberal reform - from civil rights and immigration reform, to Medicare and Head Start. "Absorbing, and astoundingly well-researched -- all good historians do their homework, but Zeitz goes above and beyond. It's a more than worthwhile addition to the canon of books about Johnson." --NPR "Beautifully written...a riveting portrait of LBJ... Every officeholder in Washington would profit from reading this book." --Robert Dallek, Author of *An Unfinished Life: John F. Kennedy, 1917-1963* and *Franklin D. Roosevelt: A Political Life* LBJ's towering political skills and his ambitious slate of liberal legislation are the stuff of legend: the Civil Rights Act of 1964, the Voting Rights Act of 1965, Medicare, Medicaid, Head Start, and environmental reform. But what happened after the bills passed? One man could not and did not go it alone. Joshua Zeitz reanimates the creative and contentious atmosphere inside Johnson's White House as a talented and energetic group of advisers made LBJ's vision a reality. They desegregated public and private institutions throughout one third of the United States; built Medicare and Medicaid from the ground up in one year; launched federal funding for public education; provided food support for millions of poor children and adults; and launched public television and radio, all in the space of five years, even as Vietnam strained the administration's credibility and budget. Bill Moyers, Jack Valenti, Joe Califano, Harry McPherson and the other staff members who comprised LBJ's inner circle were men as pragmatic and ambitious as Johnson, equally skilled in the art of accumulating power or throwing a sharp elbow. Building the Great Society is the story of how one of the most competent White House staffs in American history - serving one of the most complicated presidents ever to occupy the Oval Office - fundamentally changed everyday life for millions of citizens and forged a legacy of compassionate and interventionist government.

### Judgment Days

The political biography of our time, now available in a four-volume hardcover set. Robert A. Caro's life of Lyndon Johnson is one of the richest, most intensive and most revealing examinations ever undertaken of an American president. It is the magnum opus of a writer perfectly suited to his task: the Pulitzer Prize-winning biographer-historian, chronicler also of Robert Moses in *The Power Broker*, whose inspired research and profound understanding of the nature of ambition and the dynamics of power have made him a peerless explicator of political lives. "Taken together the installments of Mr. Caro's monumental life of Johnson . . . form a revealing prism by which to view the better part of a century in American life and politics during which the country experienced tumultuous and divisive social change. . . Gripping." --Michiko Kakutani, *The New York Times* "By writing the best presidential biography the country has ever seen, Caro has forever changed the way we think, and read, American history . . . It's his immense talent as a writer that has made his biography of Johnson one of America's

most amazing literary achievements . . . As absorbing as a political thriller . . . A masterpiece, unlike any other work of American history published in the past. It's true that there will never be another Lyndon B. Johnson, but there will never be another Robert A. Caro, either." –NPR "One of the truly great political biographies of the modern age. A masterpiece" --The Times (London) The Path to Power reveals the genesis of the almost superhuman drive, energy, and urge to power that set LBJ apart. Chronicling the startling early emergence of Johnson's political genius, it follows him from his Texas boyhood through the years of the Depression in the Texas Hill Country to the triumph of his congressional debut in New Deal Washington, to his heartbreaking defeat in his first race for the Senate, and his attainment, nonetheless of the national power for which he hungered. National Book Critics Circle Award in Nonfiction Means of Ascent follows Johnson through his service in World War II to the foundation of his long-concealed fortune and the facts behind the myth he created about it. The explosive heart of the book is Caro's revelation of the true story of the fiercely contested 1948 senatorial election, which Johnson had to win or face certain political death, and which he did win--by "87 votes that changed history." Caro makes us witness to a momentous turning point in American politics; the tragic last stand of the old politics versus the new—the politics of issue versus the politics of image, mass manipulation, money and electronic dazzle. National Book Critics Circle Award in Biography Master of the Senate carries Johnson's story through his twelve remarkable years in the Senate. It is an unprecedented revelation of how legislative power works in America, how the Senate works, and how Johnson, in his ascent to the presidency, mastered the Senate as no political leader before him had ever done. In a breathtaking tour de force, Caro details Johnson's amazing triumph in maneuvering to passage the first civil rights legislation since 1875. Pulitzer Prize in Biography Los Angeles Times Book Award in Biography National Book Award in Nonfiction The Passage of Power is an unparalleled account of the battle between Johnson and John Kennedy for the 1960 presidential nomination, of the machinations behind Kennedy's decision to offer Johnson the vice presidency, of Johnson's powerlessness and humiliation in that role, and of the savage animosity between Johnson and Robert Kennedy. In Caro's description of the Kennedy assassination, which The New York Times called "the most riveting ever," we see the events of November 22, 1963, for the first time through Lyndon Johnson's eyes. And we watch as his political genius enables him to grasp the reins of the presidency with total command and, within weeks, make it wholly his own, surmounting unprecedented obstacles in order to fulfill the highest purpose of the office. National Book Critics Circle Award in Biography "Brilliant . . . Important . . . Remarkable . . . In sparkling detail, Caro shows Johnson's genius for getting to people—friends, foes, and everyone in between—and how he used it to achieve his goals. . . With this fascinating and meticulous account, Robert Caro has once again done America a great service."—President Bill Clinton, The New York Times Book Review (front cover) "The politicians' political book of choice. . . An encyclopedia of dirty tricks that would make Machiavelli seem naïve." London Literary Review "Making ordinary politics and policymaking riveting and revealing is what makes Caro a genius. Combined with his penetrating insight and fanatical research, Caro's Churchill-like prose elevates the life of a fairly influential president to stuff worthy of Shakespeare. . . Robert Caro stands alone as the unquestioned master of the contemporary American political biography." The Boston Globe

### Building the Great Society

This biography introduces readers to the life of Lyndon B. Johnson including his military service, early political career, and key events from Johnson's administration including the Civil Rights Act, the Vietnam War, and the Voting Rights Act. Information about his childhood, family, personal life, and retirement years is included. A timeline, fast facts, and sidebars provide additional information. Aligned to Common Core Standards and correlated to state standards. Big Buddy Books is an imprint of Abdo Publishing, a division of ABDO.

### Robert A. Caro's The Years of Lyndon Johnson Set

A portrait of this president that does not omit the ruthless side of his character.

### Lyndon B. Johnson

They were perhaps the most powerful, ruthless, flawed and fascinating duo in modern times: President Nixon and his secretary of state, Henry Kissinger. Both had risen from nothing to conquer the world stage, both were ambitious, manipulative, relentlessly driven and plagued by inner demons. And both mistrusted everyone around them - including each other. Tapping into a host of recently declassified documents, Nixon and Kissinger is the most revealing account ever of an extraordinary partnership:

their rivalry, plotting, insults and paranoia, their deals with power breakers at home and abroad - from China to Chile, Vietnam to the Soviet Union - and their nemesis, Watergate.

### The President from Texas, Lyndon Baines Johnson

"Marriage is the most underreported story in political life and yet is often the key to its success. This is the idea driving a revealing new portrait of Lady Bird as the essential strategist, fundraiser, barnstormer, peacemaker, and ballast for Lyndon...[A] biography of a political partnership that helps explain how the wildly talented but deeply flawed Lyndon Baines Johnson ended up making history..."--P. [2] of jacket.

### Lyndon Johnson

This era witnessed some of the most frustrating moments of Johnson's career, but also some of the most triumphant. His battle with the Kennedy brothers over the 1960 Democratic nomination for president was a bitter one, and the ensuing years of Johnson's vice-presidency were marked with humiliation. But, thrust into power following the assassination of J. F. Kennedy, Johnson grasped the presidential role with unprecedented skill.

### Nixon and Kissinger

Public Papers of the Presidents of the United States

### Lady Bird and Lyndon

Riding in an open-topped convertible through Dallas on November 22, 1963, Lyndon B. Johnson heard a sudden explosive sound at 12:30 PM. The Secret Service sped him away to safety, but not until 1:20 PM did he learn that John F. Kennedy had been assassinated. Sworn in next to a bloodstained Jackie Kennedy at 2:40 PM, Johnson worked feverishly until 3:00 in the morning, agonizing about the future of both his nation and his party. Unbeknownst to him, his actions had already determined the tragic outcome of his presidency. In November 22, 1963, historian Steven Gillon tells the story of how Johnson consolidated power in the twenty-four hours following the assassination. Based on scrupulous research and new archival sources, this gripping narrative sheds new and surprising light on one of the most written-about events of the twentieth century.

### The Years of Lyndon Johnson

This biography tells the story of the rise to national power of a desperately poor young man from the Texas Hill Country. The book is part of a four-volume biography of Lyndon Baines Johnson - the successor to President John F. Kennedy.

### Public Papers of the Presidents of the United States: Lyndon B. Johnson, 1968-1969

Sophocles is one of three ancient Greek tragedians, at least one of whose plays has wholly survived. For nearly fifty years, he was the most renowned playwright in the dramatic competitions of the city-state of Athens, during the religious festivals. This collection features the seven tragedies by him that have survived in full. Contents include: Oedipus the King` Oedipus at Colonus` Antigone` Ajax` Electra` Trachiniae` Philoctetes`

### THE CHOICES WE FACE

This companion offers an overview of Lyndon B. Johnson's life, presidency, and legacy, as well as a detailed look at the central arguments and scholarly debates from his term in office. Explores the legacy of Johnson and the historical significance of his years as president Covers the full range of topics, from the social and civil rights reforms of the Great Society to the increased American involvement in Vietnam Incorporates the dramatic new evidence that has come to light through the release of around 8,000 phone conversations and meetings that Johnson secretly recorded as President

### The Kennedy Assassination--24 Hours After

One of "Five Best Books about Wartime Presidents"—Michael Bechloss, *The Wall Street Journal* From Lyndon Johnson's closest domestic adviser during the White House years comes a book in which "Johnson leaps out of the pages in all his raw and earthy glory" (*The New York Times Book Review*) that's been called "a joy to read" (Stephen Ambrose, *The Washington Post Book World*). And now, a

new introductory essay brings the reader up to date on Johnson's impact on America today. Califano takes us into the Oval Office as the decisions that irrevocably changed the United States were being crafted to create Johnson's ambitious Great Society. He shows us LBJ's commitment to economic and social revolution, and his willingness to do whatever it took to achieve his goals. Califano uncorks LBJ's legislative genius and reveals the political guile it took to pass the laws in civil rights, poverty, immigration reform, health, education, environmental protection, consumer protection, the arts, and communications. President Lyndon Johnson was bigger than life—and no one who worked for him or was subjected to the "Johnson treatment" ever forgot it. As Johnson's "Deputy President of Domestic Affairs" (The New York Times), Joseph A. Califano's unique relationship with the president greatly enriches our understanding of our thirty-sixth president, whose historical significance continues to be felt throughout every corner of America to this day. A no-holds-barred account of Johnson's presidency, *The Triumph & Tragedy of Lyndon Johnson* is an intimate portrait of a President whose towering ambition for his country and himself reshaped America—and ultimately led to his decision to withdraw from the political arena in which he fought so hard.

#### The Years of Lyndon Johnson: The path to power

"Chef Matthew Wendel provides a first-hand account of his years working for President George W. Bush and his family at Camp David and at their Texas home on Prairie Chapel Ranch. He offers a collection of recipes, photographs, stories, and memories of daily life as senior advance representative in the Office of Presidential Advance and as the personal chef and personal assistant to the president. Included with recipes of the author's signature hot cinnamon rolls and fried chicken are the Bush family's favorite dishes, meals that world leaders were served, and a behind-the-scenes look at how he prepared for head of state visits and shopped for the first family. Wendel's account reveals a unique window into the hard work, detail, and protocol involved in working for the first family and reveals how the president welcomed world leaders using both his home and the power of sharing a meal in an intimate setting as a bridge-building diplomatic tool. Smoked beef tenderloin, stacked enchiladas, hot rolls, soups, and plenty of fresh salads were staples for the Bushes, but cheeseburgers became a tradition for their luncheons with world leaders at Prairie Chapel Ranch. Providing wholesome, delicious, comforting food to guests was their way of saying "Welcome. We're glad you are here." -- Amazon.com.

#### The Tragedies of Sophocles

The recent declassification of "top secret" Vietnam War papers of the Johnson administration provides an unusually intimate portrait of presidential decision making and fills an important gap in the literature on presidents and on the Vietnam War. For years, the Pentagon Papers served as the most influential published collection of Vietnam-era policy making documents. However, as Vietnam scholar George McT. Kahin has written, the Pentagon Papers are "generally very sketchy and inadequate with respect to the political dimension; and for the critical years, 1964–1968, the gaps are particularly extensive." Drawing upon the newly declassified documents and many other Vietnam papers, David Barrett's *Lyndon Johnson's Vietnam Papers* fills the need for a one-volume collection detailing interaction and confrontations concerning the dilemmas of Vietnam policy. He chronologically presents notes of meetings and phone calls between President Johnson and advisers, as well as meetings with some war critics; memoranda to and from the president; and notes and letters written by friends and associates of Johnson describing his thinking and concerns about the war. This volume offers a first-hand documentation of how and why the United States fought in Indochina in the 1960s; an introduction to the archival holdings for future researchers; and documentary evidence of the major players and their roles in making policy.

#### A Companion to Lyndon B. Johnson

This is a must-have anthology of the milestone speeches, manifestos, court decisions, and ground-breaking journalism of the Sixties. No other period in American history has been more liberating, more confusing, more unforgettable, and had a more direct impact on the way we navigated the profound changes that swept over the country in the following three decades. From Betty Friedan to Barry Goldwater, from the formidable presence of the Kennedy brothers to the unimaginable influence of Woodstock, Pulitzer prize-winning author Irwin Unger and journalist Debi Unger present the complexities of a volatile and tumultuous decade, while explaining how and why each significant event took place and how it shifted the country's consciousness. From the antiwar movement to the moon race, from the burgeoning counterculture to the Warren and Berger courts, and from the civil rights

movement to the 1968 presidential campaign, *The Times Were a Changin'* will tantalize and confound readers, while inspiring and enraging them as well. The Ungers provide us with a better understanding of the strategy and maneuvering of the 1960s war games--from the Bay of Pigs to the Tet Offensive. And the pieces they have chosen help us define the current of social intolerance that plagues our country to this day. Balancing the controversial issues of the times with an even hand, the Ungers give equal time to William F. Buckley and Abbie Hoffman, Barry Goldwater and Hubert Humphrey, the Black Panthers and Martin Luther King, Jr., compiling an anthology that supplies rhyme and reason to a decade that never ceases to amaze us, endless in its capacity to be explored and understood.
