Excerpt from Ralph Waldo Emerson: His Life, Genius, and Writings; A Biographical Sketch; To Which Are Added Personal Recollections of His Visits to England, Extracts From Unpublished Letters and Miscellaneous Characteristic Records The reader of the following pages will find in them many illustrative passages in connection with Emerson, without which any account of his life and work, however brief, would be inadequate. Among them may be named - his friendly relations with Margaret Fuller, per haps the most remarkable woman of culture of her time exercising, during her unfortunately brief life, an acknow ledged influence on the best thought of New England, his connection with The Dial, the most remarkable organ of high thought published in our time, -an account of that singular social experiment, The Brook Farm Community, idealized by the weird genius of Hawthorne in that saddest of fictions, The Blithedale Romance, the resignation of his pastoral charge in 1832, and his sermon and farewell letter in connection therewith, - his addresses on Robert Burns and Walter Scott, - and his notable speech in Manchester in 1847, in which he gave utterance to his confidence in, and admiration of, England. Among the Miscellaneous Characteristic Records and Anecdotes will be found some impressions and glimpses that enable us, by a side-light, as it were, to see Emerson almost face to face. Excerpt from book: RECOLLECTIONS Emerson's Visits To England In 1833, 1847-8, And 1872-3. It was in the month of August, 1833?nearly fifty years ago?that I had the singular good fortune to make the acquaintance of Mr. Emerson, and to enjoy the privilege of several days' intercourse with him. I was then residing in Edinburgh, my native city, and he was on his way home, after his first visit to Europe. He had with him a letter of introduction to a friend of mine, who, luckily for me, was then so much engaged in professional duties, that he was unable to spare even a few hours to do the honours of the old Scottish metropolis; so the young American traveller was handed over to me, and I thus became an entertainer of angels unawares. In those early days Mr. Emerson was about thirty years of age, and his name was then utterly unknown in the world of letters; for the period to which I refer was anterior, by several years, to his delivery of those remarkable addresses which took by surprise the most thoughtful of his countrymen, as well as of cultivated English readers. Neither had he published any of those addresses or essays which afterwards stamped him as the most original thinker in America. On Sunday, the 18th of August, 1833, I heard him deliver a discourse in the Unitarian Chapel, Young Street, Edinburgh, and I remember distinctly the effect which it produced on his hearers. It is almost needless to say that nothing like it had ever been heard by them before, and many of them did not know what to make of it. The originality of his thoughts, the consummate beauty of the language in which they were clothed, the calm dignity of his bearing, the absence of all oratorical effort, and the singular directness and simplicity of his manner, free from the least shadow of dogmatic assumption, made a d...

Ralph Waldo Emerson

This late 19th-century work is a biography of American thinker Ralph Waldo Emerson.

Ralph Waldo Emerson

Letters and Social Aims, published in 1875, contains essays originally published early in the 1840s as well as those that were the product of a collaborative effort among Emerson, his daughter Ellen Tucker Emerson, his son Edward Waldo Emerson, and his literary executor James Eliot Cabot. The volume takes up the topics of Poetry and Imagination, Social Aims, Eloquence, Resources, The

Comic, Quotation and Originality, Progress of Culture, Persian Poetry, Inspiration, Greatness, and, appropriately for Emerson's last published book, Immortality. The historical introduction demonstrates for the first time the decline in Emerson's creative powers after 1865; the strain caused by the preparation of a poetry anthology and delivery of lectures at Harvard during this time; the devastating effect of a house fire in 1872; and how the Emerson children and Cabot worked together to enable Emerson to complete the book. The textual introduction traces this collaborative process in detail and also provides new information about the genesis of the volume as a response to a proposed unauthorized British edition of Emerson's works. Delphi Complete Works of Ralph Waldo Emerson (Illustrated)

Drawing primarily from previously unpublished manuscripts in the Ralph Waldo Emerson Memorial Association Collection in the Houghton Library at Harvard University, recent editions of Emerson's correspondence, journals and notebooks, sermons, and early lectures have provided authoritative texts that inspire readers to consider Emerson's place in American culture afresh. The two-volume *Later Lectures of Ralph Waldo Emerson, 1843–1871*, presents the texts of forty-eight complete and unpublished lectures delivered during the crucial middle years of Emerson's career. They offer his thoughts on New England and “Old World” history and culture, poetic theory, education, the history and uses of intellect—as well as his ideas on race relations and women's rights, subjects that sparked many debates. These final volumes contain some of Emerson's most timelessly relevant work and are sure to engage and inform any reader interested in discovering one of our country's greatest intellectuals. The following sections, although appearing only in the volume designated, contain information that pertains to both volumes and are available on the University of Georgia Press website. Life of Ralph Waldo Emerson

By the end of the nineteenth century, Ralph Waldo Emerson was well on his way to becoming the “Wisest American” and the “Sage of Concord,” a literary celebrity and a national icon. With that fame came what Robert Habich describes as a blandly sanctified version of Emerson held widely by the reading public. *Building Their Own Waldos* sets out to understand the dilemma faced by Emerson's early biographers: how to represent a figure whose subversive individualism had been eclipsed by his celebrity, making him less a representative of his age than a caricature of it. Drawing on never-before-published letters, diaries, drafts, business records, and private documents, Habich explores the making of a cultural hero through the stories of Emerson's first biographers—George Willis Cooke, a minister most recently from Indianapolis who considered himself a disciple; the English reformer and newspaper mogul Alexander Ireland, a friend for half a century; Moncure D. Conway, a Southern abolitionist then residing in London, who called Emerson his “spiritual father and intellectual teacher”; the poet and medical professor Oliver Wendell Holmes, with Emerson a member of Boston's gathering of literary elite, the Saturday Club; James Elliot Cabot, the family's authorized biographer, an architect and amateur philosopher with unlimited access to Emerson's unpublished papers; and Emerson's son Edward, a physician and painter whose father had passed over him as literary executor in favor of Cabot. Just as their biographies reveal a complex, socially engaged Emerson, so too do the biographers' own stories illustrate the real-world perils, challenges, and motives of life-writing in the late nineteenth century, when biographers were routinely vilified as ghoulish and disreputable and biography as a genre underwent a profound redefinition. *Building Their Own Waldos* is at once a revealing look at Emerson's constructed reputation, a case study in the rewards and dangers of Victorian life-writing, and the story of six authors struggling amidst personal misfortunes and shifting expectations to capture the elusive character of America's “representative man,” as they knew him and as they needed him to be.

The Complete Writings of Ralph Waldo Emerson

Excerpt from A Biography of Ralph Waldo Emerson: Set Forth as His Life Essay Emerson's total round of years does not quite run up to four score (1803-1882). A superficial view will trace in it many turns, tortuosities, even shrilling contradictions; so the first biographic problem emerges: how is this involved refractory mass to be set forth in some kind of transparent order, and its chaotic dispersion unified? A mere chronologic record of successive events in human life is not light-bringing, even if needful as the prime material foundation. Some way or other we must be led to see and to express the man's ultimate process as revealed in his character and stamped upon the whole of it and the parts. A very intricate piece of humanity is our Emerson, labyrinthine, and somewhat gnarled in spots perchance; but when seen and felt in the entirety of his existence, he integrates all its recalcitrant fragments, and attunes to one key-note its varied discords. His wholeness makes him whole in all his seeming deflections and his differences. Can a biography show this his order in its order? The Later Lectures of Ralph Waldo Emerson, 1843-1871

By 1888, twenty years after the publication of *Little Women*, Louisa May Alcott (1832-1888) was one of the most popular and successful authors America had yet produced. In her pre-*Little Women* days, she concocted blood-and-thunder tales for low wages; post-*Little Women*, she specialized in domestic novels and short stories for children. Collected here for the first time are the reminiscences of people who knew her, the majority of which have not been published since their original appearance in the 19th and early 20th centuries. Many of the printed recollections in this book appeared after Alcott became famous and showcase her as a literary lion, but others focus on her teen years, when she was living the life of Jo March; these intimate glimpses into the life of the Alcott family lead the reader to one conclusion: the family was happy, fun, and entertaining, very much like the fictional Marches. The recollections about an older and wealthier Alcott show a kind and generous, albeit outspoken, woman little changed by her money and status. From Annie Sawyer Downs's description of life in Concord to Anna Alcott Pratt's recollections of the Alcott sisters' acting days to Julian Hawthorne's neighborly portrait of the Alcotts, the thirty-six recollections in this copiously illustrated volume tell the private and public story of a remarkable life.
