

The Forbidden Universe The Occult Origins Of Science

[#forbidden universe](#) [#occult origins of science](#) [#esoteric knowledge science](#) [#history of science](#) [#mysticism and science](#)

Delve into the enigmatic realm of the forbidden universe, uncovering the profound and often overlooked occult origins of science. This captivating exploration reveals how ancient mysticism, esoteric practices, and hidden knowledge intricately shaped the very foundations of scientific inquiry, challenging conventional perspectives on humanity's quest for understanding the cosmos.

The Forbidden Universe

Were the first scientists hermetic philosophers? What do these occult origins of modern science tell us about the universe today? The Forbidden Universe reveals the secret brotherhood that defined the world, and perhaps discovered the mind of God. All the pioneers of science, from Copernicus to Newton via Galileo, were inspired by Hermeticism. Men such as Copernicus, Galileo, Newton, Leibniz, Bacon, Kepler, Tycho Brahe - even Shakespeare - owed much of their achievements to basically occult beliefs - the hermetica. In this fascinating study, Lynn Picknett and Clive Prince go in search of the Hermetic origins of modern science and prove that not everything is as it seems and that over the past 400 years there has been a secret agenda behind our search for truth. From the age of Leonardo da Vinci, the influence of hermetic thinking upon the greatest minds in history has been hidden, a secret held by a forbidden brotherhood in search of the mind of God. Yet this search does not end in history but can be found in the present day - in the contemporary debates of leading evolutionists and thinkers. The significance of this hidden school can hardly be over-emphasised. Not only did it provide a spiritual and philosophical background to the rise of modern science, but its worldview is also relevant to those hungry for all sorts of knowledge even in the twenty-first century. And it may even show the way to reconciling the apparently irreconcilable divide between the scientific and the spiritual. Picknett and Prince go in search of this true foundation of modern rational thought and reveal a story that overturns 400 years of received wisdom.

Covert Wars and Clash of Civilizations

Oxford-educated historian Joseph P. Farrell delivers the sequel to his best-selling Covert Wars and Breakaway Civilizations, part of his book series on suppressed technology, Nazi survival, secret finance and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control that very few people even suspect exists. Farrell delves deeper into the breakaway civilizations created by the Nazis in South America and other parts of the world. He elaborates on the advanced technology that they took with them at the

“end” of World War II and shows how they created a huge system of hidden finance with the involvement of leading financial institutions around the world. He exposes the secret space programs used by the breakaway civilizations and reveals the clash of civilizations—a virtual secret war going on around us. He investigates the current space secrecy that involves UFOs, suppressed technologies and the hidden oligarchs who control planet Earth for their own gain and profit. Farrell probes the mystery surrounding Dr. Kurt Debus and his links to NASA and Werner von Braun. He uncovers the covert operations of Richard Bissell, the flying saucer designs of Alfred Loedding and T. Townsend Brown, and strange activity on Mars involving UFOs. He explains the magneto-hydrodynamic anti-gravity drives that would easily power such craft. He includes a continued discussion of “emulational” technologies (those that can imitate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of “full spectrum dominance” and the culture of “plausible deniability.” Farrell includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret oligarchies and super technology.

The Digital Mind of Tomorrow

No one knows but you. Our outdated social structure collapses in the digital age. We are ignorant of how technology affects us on a fundamental level. The downgrade of human intelligence is faster than the progress of machine intelligence. Modern thought and beliefs are misguided and powerless in a technology-dominated future. We are going through the most difficult change in history, with people and organizations of all kinds being overwhelmed by unprecedented levels of change and uncertainty. You've come across this book because you're an idealist looking for the meaning and purpose of all your actions. Welcome to the perfect place. Use this book to identify your hunches and expand your connections and imagination. The Digital Mind of Tomorrow is the first book to look at the fast-changing digital world through the lenses of business, sociology, psychology, philosophy, and spirituality. It asks important questions, such as: -How has technology affected society, businesses, and human behavior? -What is the most critical danger that only a few people are well aware of? -What is the truth, confusion, and implication of today's digital world? -Can digital transcendence save humanity from a disruptive, disconnected reality? -How to break through to the next level as a fulfilled individual? Featuring exclusive interviews with visionary thinkers from Fortune 100 companies and high-tech startups. Join the venture to create new pathways outside of our established control, and to discover new ways of thinking and living that restore the significance and aspiration of humanity. Are you in?

The Mystery of Numbers: Revealed Through Their Digital Root

What is it that brings all these different things together? The subatomic particles and the Vedic square. The hydrogen atom and the golden section. Fibonacci numbers, consciousness, and alchemy. Nikola Tesla, music, and the ether. Electromagnetism, gravity, and the fourth dimension. The procession of the equinox, the Mayan dooms day, the Hindu Brahma cycle, and Atlantis. It is Numbers, or more precisely; their Digital Root. In this book the author examines the amazing world of numbers, particularly those which have intrigued and fascinated ancient and modern mathematicians alike. However, he does it from a very novel point of view; by implementing the digital root operation, in which the individual digits of any of these numbers are summed up until a single digit is left over. The author will show that when applying this simple operation to magical numbers, and to many other groups of numbers, an amazing world of hidden interconnections; repetition cycles; numerical symmetries; and geometrical patterns emerge. Especially when the geometrical (the circle) and the numerical aspects of the digital root world are combined together. It is in this circular/numerical world where numbers, individually and collectively, exist in their most basic, yet perfect and symmetrical states, and where the basic nine numbers are differentiated into three groups of amazing properties, which will be shown to underlie the essence of the whole universe; from the atom and its forces to the solar system and its geometry. This book will take us on a numerical and spiritual journey: starting from prime and figurate numbers; to Fibonacci sequence and the golden section; to alchemy and the Mayan calendar; to the atoms and its forces, along with the ether and the fourth dimension. In addition, the author will show how these new revelations of the digital root world are corroborating the numerological and mystical qualities that have been attributed to numbers by philosophers and mystics throughout the ages. This book will paint a so holistic and meaningful image of the world that will forever change our perception, not only towards numbers, but towards the whole universe as well.

Practical Spirituality and Human Development

This book explores varieties of spiritual movements and alternative experiments for the generation of beauty, dignity and dialogue in a world where the rise of the religious in politics and the public sphere is often accompanied by violence. It examines how spirituality can contribute to human development, social transformations and planetary realizations, urging us to treat each other, and our planet, with evolutionary care and respect. Trans-disciplinary and trans-paradigmatic to its very core, this text opens new pathways of practical spirituality and humanistic action for both scholarship and discourse and offers an invaluable companion for scholars across religious studies, cultural studies and development studies.

The Flat Earth Trilogy Book of Secrets I

This book is an Anthology of Gregory Lessing Garrett's writings and others on the topic of Flat Earth Plane Cosmology of all types, including Enclosed Earth, Hollow Earth, Concave Earth, Infinite Plane Earth, The Enochian Earth Model, etc... The hope is that the ideas expounded in this Flat Earth Trilogy series will provide compelling justifications for the claim that no curvature can be found on the Earth, which points to the empirical conclusion that we live on a plane and not a spinning ball in science fiction outer space. The details regarding the possible topography of the Earth are discussed in depth in this book, but ultimately, the absolute true topography of the Earth is not known by anyone. -Gregory Lessing Garrett

Spirituality and Religion in Organizing

This book contributes to the discussions on the role of spirituality in organizing and leading, taking a philosophically and theologically rigorous perspective. Developing an approach to spirituality informed by Platonist philosophy and classical and mystical streams of Christian theology, the text re-assesses the role of religious insights and beliefs in contemporary theory and practice of management. It also engages critically with the more fundamental questions, such as the validity and limits of scientific method, the shaping of the cultural contexts of organizations, as well as the status of modern materialism. Spirituality and Religion in Organizing further discusses topics such as charismatic leadership, the ethics of martyrdom and the spiritual models of organizing from the perspective of the proposed metaphysical-theological stance.

Transhumanism

The ultimate question is no longer "who am I" or "why am I here." These questions were answered in the earliest civilizations by philosophers and priests. Today we live in an age of such rapid advances in technology and science that the ultimate question must be rephrased: what shall we be? This book investigates what may become of human civilization, who is setting the agenda for a trans-humanistic civilization, and why. The modern Victor Frankenstein holds a high political office, carries diplomatic immunity, and is most likely funded by the largest corporations worldwide. His method is ancient: alchemy. His fraternities are well known and their secrets are well kept, but his goal of times past and present is the same; he dares to become as god, genetically manipulating the seeds of the earth, the beasts on the fields, and to claim legal ownership over humanity by re-creating it in his own image. This is no fairy tale, science fiction, or conspiracy theory ... it simply is! Transhumanism, a Grimoire of Alchemical Agendas by Dr.'s. Joseph P. Farrell and Scott D. de Hart lifts the veil from the macabre transhumanistic monster being assembled and exposes the hidden history and agenda that has set humanity on a collision course for the Apocalypse. Joseph P. Farrell is the author of the best-selling Genes, Giants, Monsters, and Men: The Surviving Elites of the Cosmic War and Their Hidden Agenda.

Occult Science in India and Among the Ancients

Reveals the tradition of goddess worship in early Judaism and how Jesus attempted to restore the feminine side of the faith • Provides historical and archaeological evidence for an earlier form of Hebrew worship with both male and female gods, including a 20th-century discovery of a Hebrew temple dedicated to both Yahweh and the warrior goddess Anat • Explores the Hebrew pantheon of goddesses, including Yahweh's wife, Asherah, goddess of fertility and childbirth • Shows how both Jesus and his great rival Simon Magus were attempting to restore the ancient, goddess-worshipping religion of the Israelites Despite what Jews and Christians--and indeed most people--believe, the ancient Israelites venerated several deities besides the Old Testament god Yahweh, including the goddess Asherah, Yahweh's wife, who was worshipped openly in the Jerusalem Temple. After the reforms of King Josiah

and Prophet Jeremiah, the religion recognized Yahweh alone, and history was rewritten to make it appear that it had always been that way. The worship of Asherah and other goddesses was now heresy, and so the status of women was downgraded and they were blamed for God's wrath. However, as Lynn Picknett and Clive Prince reveal, the spiritual legacy of the Jewish goddesses and the Sacred Feminine lives on. Drawing on historical research, they examine how goddess worship thrived in early Judaism and included a pantheon of goddesses. They share new evidence for an earlier form of Hebrew worship that prayed to both male and female gods, including a 20th-century archaeological discovery of a Hebrew temple dedicated to both Yahweh and the goddess Anat. Uncovering the Sacred Feminine in early Christianity, the authors show how, in the first century AD, both Jesus and his great rival, Simon Magus, were attempting to restore the goddess-worshipping religion of the Israelites. The authors reveal how both men accorded great honor to the women they adored and who traveled with them as priestesses, Jesus's Mary Magdalene and Simon's Helen. But, as had happened centuries before, the Church rewrote history to erase the feminine side of the faith, deliberately ignoring Jesus's real message and again condemning women to marginalization and worse. Providing all the necessary evidence to restore the goddess to both Judaism and Christianity, Picknett and Prince expose the disastrous consequences of the suppression of the feminine from these two great religions and reveal how we have been collectively and instinctively craving the return of the Sacred Feminine for millennia.

When God Had a Wife

In the course of their investigations into Leonardo da Vinci and the Turin Shroud, Lynn Picknett and Clive Prince found clues in the work of the great Renaissance artist that pointed to the existence of a secret underground religion. More clues were found in a twentieth-century London church. These were the beginnings of a quest through time and space that led the authors into the mysterious world of secret societies and such bodies as the Freemasons, the Knights Templar and the Cathars and finally back to the ideas and beliefs of the first century AD and a devastating new view of the real character and motives of the founder of Christianity and the roles of John the Baptist and Mary Magdalene. They reveal nothing less than a secret history, preserved through the centuries but encoded in works of art and even in the great Gothic cathedrals, whose revelation could shake the foundations of the Church.

The Templar Revelation

An accessible new exploration of the vibrant world of early modern Europe through a focus on magic, science, and religion.

Magic, Science, and Religion in Early Modern Europe

Challenges the scientific theories on the establishment of civilization and technology • Contains 42 essays by 17 key thinkers in the fields of alternative science and history, including Christopher Dunn, Frank Joseph, Will Hart, Rand Flem-Ath, and Moira Timmes • Edited by Atlantis Rising publisher, J. Douglas Kenyon In Forbidden History writer and editor J. Douglas Kenyon has chosen 42 essays that have appeared in the bimonthly journal Atlantis Rising to provide readers with an overview of the core positions of key thinkers in the field of ancient mysteries and alternative history. The 17 contributors include among others, Rand Flem-Ath, Frank Joseph, Christopher Dunn, and Will Hart, all of whom challenge the scientific establishment to reexamine its underlying premises in understanding ancient civilizations and open up to the possibility of meaningful debate around alternative theories of humanity's true past. Each of the essays builds upon the work of the other contributors. Kenyon has carefully crafted his vision and selected writings in six areas: Darwinism Under Fire, Earth Changes--Sudden or Gradual, Civilization's Greater Antiquity, Ancestors from Space, Ancient High Tech, and The Search for Lost Origins. He explores the most current ideas in the Atlantis debate, the origins of the Pyramids, and many other controversial themes. The book serves as an excellent introduction to hitherto suppressed and alternative accounts of history as contributors raise questions about the origins of civilization and humanity, catastrophism, and ancient technology. The collection also includes several articles that introduce, compare, contrast, and complement the theories of other notable authors in these fields, such as Zecharia Sitchin, Paul LaViolette, John Michell, and John Anthony West.

The Origins of Self-Consciousness in The Secret Doctrine

Reveals the thread that unites the spiritual paths that have opposed orthodox religion over the centuries and the challenge they provide to the status quo • Contains 40 essays by 18 key investigators of

heresies and suppressed spiritual traditions, including Steven Sora, Ian Lawton, Jeff Nisbet, P.M.H. Atwater, John Chambers, and Vincent Bridges • Edited by Atlantis Rising publisher, J. Douglas Kenyon Following the model of his bestselling *Forbidden History*, J. Douglas Kenyon has assembled from his bi-monthly journal *Atlantis Rising* material that explores the hidden path of the religions banned by the orthodox Church--from the time before Christ when the foundations of Christianity were being laid to the tumultuous times of the Cathars and Templars and the Masons of the New World. Revealed in this investigation of the roots of Western faith are the intimate ties of ancient Egyptian religion to Christianity, the true identities of the three magi, the link forged by the Templars between early Christianity and the Masons, and how these hidden religious currents still influence the modern world. This book serves as a compelling introduction to the true history of the heretical religious traditions that played as vital a role in society as the established faiths that continuously tried to suppress them. Born in the same religious ferment that gave birth to Christianity, these spiritual paths survived in the "heresies" of the Middle Ages, and in the theories of the great Renaissance thinkers and their successors, such as Isaac Newton and Giordano Bruno. Brought to the New World by the Masons who inspired the American Revolution, the influence of these forbidden religions can be still found today in "The Star Spangled Banner" and in such Masonic symbols as the pyramid on the back of the dollar bill.

Forbidden History

In 1988, carbon dating of the world's most famous Christian relic revealed that it was a mediaeval or Renaissance forgery. Yet many questions remained. How could a hoaxer of 500 or more years ago have created an image that appears so astonishingly lifelike when seen in photographic negative? How was such an image formed? And who would have dared fake the Holy Shroud of Jesus? Setting out to answer these questions, Lynn Picknett and Clive Prince discovered that the faker was none other than Leonardo da Vinci, the Renaissance artist, scientist, inventor - and hoaxer - whose innovations are acknowledged to have been centuries ahead of his time. They also reconstructed Leonardo's secret technique - becoming the first ever to recreate the Shroud image. Now revised and updated, sensationally the new 2006 edition of *Turin Shroud* presents the long-lost hard evidence to link the Shroud of Turin directly with Leonardo da Vinci. Perhaps this is even his 'confession' to having faked Christianity's most sacred relic, which will astonish both believers and sceptics alike, and present a new challenge to historians of both art and photography.

Forbidden Religion

What we consider our Big Bang, and start, was actually the cataclysmic end to a war in The Old Universe.

Turin Shroud: How Leonardo Da Vinci Fooled History

This scholarly and accessible study presents "a provocative new reading" of the late sixteenth- and seventeenth-century advances in scientific inquiry (Kirkus Reviews). In *The Scientific Revolution*, historian Steven Shapin challenges the very idea that any such a "revolution" ever took place. Rejecting the narrative that a new and unifying paradigm suddenly took hold, he demonstrates how the conduct of science emerged from a wide array of early modern philosophical agendas, political commitments, and religious beliefs. In this analysis, early modern science is shown not as a set of disembodied ideas, but as historically situated ways of knowing and doing. Shapin shows that every principle identified as the modernizing essence of science—whether it's experimentalism, mathematical methodology, or a mechanical conception of nature—was in fact contested by sixteenth- and seventeenth-century practitioners with equal claims to modernity. Shapin argues that this contested legacy is nevertheless rightly understood as the origin of modern science, its problems as well as its acknowledged achievements. This updated edition includes a new bibliographic essay featuring the latest scholarship. "An excellent book." —Anthony Gottlieb, *New York Times Book Review*

The Occult World

The Original Anunnaki Bible! Discover the secret library of Sumerian cuneiform tablets kept by the oldest Babylonian mystery school of Mesopotamia and preserving the most ancient writings on the planet. The revised and updated 10th Anniversary Commemorative Edition of the Mardukite underground classic available in paperback for the first time! The Anunnaki Bible of Mesopotamia... Sumerians... Star-Gates of Babylon... The "Ancient Alien Gods...". Igigi "Watchers" of the Judeo-Christian Old Testament scriptures... Religion, mythology and magic of a long-lost forgotten age... all of it preserved

and presented in this much anticipated 10th Anniversary revised and updated infinity edition of the complete Mardukite "Anunnaki Bible." Joshua Free's "Anunnaki Bible" is quite simply a masterpiece of Mesopotamian magic, spirituality and history, providing a complete collection--a grand symphony of correlated materials--of the most ancient writings on the planet. The oldest Sumerian and Babylonian records reveal detailed accounts of cosmic history in the universe and on earth, the development of human history and descriptions of world order--all of which were used to maintain spiritual and physical control of humanity--proving to be the predecessor and foundation of global scripture-based religious and mystical traditions thereafter. These raw underground materials have shaped the existence of man's beliefs and traditions for thousands of years; right from the heart of the Ancient Near East: Sumer, Babylon and even Egypt! Nearly a decade since the modern Mardukite inception--and thousands of copies in print--the "Anunnaki Bible" is a revolutionary "New Age" advancement in authentic historical, spiritual and mystical research drawn from a unique unparalleled combination of archaeological findings and esoteric mystical magical traditions. Sumerian, Babylonian, Akkadian, Assyrian, Chaldean, Egyptian, Yezidic, Zoroastrian... and more. The heart and soul of humanity, from the cradle of civilization, is laid out clearly for the "Truth Seeker" to see--in its pure and undefiled state. A wellsprings of hidden information and historical research, cuneiform tablet transliterations and translations, and mystical and spiritual experimentation may all be found within the leaves of this new anniversary edition of the underground bestselling classic Mardukite "Anunnaki Bible." Newly revised prefaces and tablet introductions guide the "Truth Seeker" through a beautiful presentation of the Ancient Mystery Tradition accessible to anyone with any background. You will discover the original secrets of Hermetic Tradition, the "Books of the Dead" and Underworld Mysteries, the origins of the books of Genesis and Enoch... You will, if you dare, unlock the forgotten and forbidden power of the Anunnaki Babylonian Star-Gates--lore that predates and is a basis of Hebrew Kabbalah mysticism, from which much of the Western Magical Tradition is rooted. Join thousands of others and take a Self-honest moment in life now, to invest yourself in the path of "true knowledge," where you may find the empowerment and enlightenment of "true experience" - true Gnosis.

The Old Universe

NOW A MAJOR SKY TV SERIES. THE NUMBER ONE INTERNATIONAL AND SUNDAY TIMES BESTSELLER. A Discovery of Witches is the first novel in the must-read ALL SOULS series. It begins with absence and desire. It begins with blood and fear. It begins with a discovery of witches. --- A world of witches, daemons and vampires. A manuscript which holds the secrets of their past and the key to their future. Diana and Matthew - the forbidden love at the heart of it. When historian Diana Bishop opens an alchemical manuscript in the Bodleian Library, it's an unwelcome intrusion of magic into her carefully ordered life. Though Diana is a witch of impeccable lineage, the violent death of her parents while she was still a child convinced her that human fear is more potent than any witchcraft. Now Diana has unwittingly exposed herself to a world she's kept at bay for years; one of powerful witches, creative, destructive daemons and long-lived vampires. Sensing the significance of Diana's discovery, the creatures gather in Oxford, among them the enigmatic Matthew Clairmont, a vampire geneticist. Diana is inexplicably drawn to Matthew and, in a shadowy world of half-truths and old enmities, ties herself to him without fully understanding the ancient line they are crossing. As they begin to unlock the secrets of the manuscript and their feelings for each other deepen, so the fragile balance of peace unravels... Fall under the spell of Diana and Matthew in the stunning first volume of the No.1 internationally bestselling ALL SOULS series. --- Five reasons to read A Discovery of Witches and the All Souls series: 'Rich, thrilling . . . A captivating and romantic ripping yarn' E L James 'Intelligent and off-the-wall . . . irresistible to Twilight fans' Sunday Times 'I could lose myself in here and never want to come out . . . Utterly enchanting on every level' Manda Scott 'Exciting amounts of spells, kisses and battles, and is recounted with enchanting, page-turning panache' Marie Claire 'A bubbling cauldron of illicit desire . . . an assured saga that blends romance with fantasy' Daily Mail

A History of the Warfare of Science with Theology in Christendom

Science fiction is a literary genre based on scientific speculation. Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings. Science Fact and Science Fiction examines in one volume how science has propelled science-fiction and, to a lesser extent, how science fiction has influenced the sciences. Although coverage will discuss the science behind the fiction from the Classical Age to the present, focus is naturally on the 19th century to the present, when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science-fiction works speculating

on the future. As scientific developments alter expectations for the future, the literature absorbs, uses, and adapts such contextual visions. The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction, but rather to study the ongoing flow and counterflow of influences, including how fictional representations of science affect how we view its practice and disciplines. Although the main focus is on literature, other forms of science fiction, including film and video games, are explored and, because science is an international matter, works from non-English speaking countries are discussed as needed.

The Scientific Revolution

Psychic Self-Defense Dion Fortune - "Psychic Self-Defense" is one of the best guides to detection and defence against psychic attack from one of the leading occult writers of the 20th century. After finding herself the subject of a powerful psychic attack in the 1930's, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defence guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of defence. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in mental illness and how to recognise them.

Occult science in India and among the ancients, with an account of their mystic initiations, and the history of spiritism, tr. by W.L. Felt

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle

The Complete Anunnaki Bible

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

A Discovery of Witches

From its earliest days, America served as an arena for the revolutions in alternative spirituality that eventually swept the globe. Esoteric philosophies and personas—from Freemasonry to Spiritualism, from Madame H. P. Blavatsky to Edgar Cayce—dramatically altered the nation's culture, politics, and religion. Yet the mystical roots of our identity are often ignored or overlooked. Opening a new window on the past, *Occult America* presents a dramatic, pioneering study of the esoteric undercurrents of our history and their profound impact across modern life.

Science Fact and Science Fiction

Acting as a historical detective, the author of this text strips away the layers of deception and propaganda that surround the Christian story in a quest to find the real Mary Magdalene, asking such questions as was she a reformed prostitute who spent the rest of her life in penitence; or was she merely one of the women who followed Jesus?

Psychic Self-Defense

The authors of "The Templar Revelation" expose the truth about the shadowy organization known as the Priory of Sion, answering questions such as whether the Priory actually exists to protect the sacred bloodline of Jesus and Mary Magdalene or if the group's history is an elaborate hoax.

The Demon-Haunted World

Contents: The Magic and Occultism of India; Hindu and Egyptian Crystal Gazing; The Hindu Magic Mirror; Astral and Spirit Sight; Clairvoyance; Inner Sight; Interior Focalization of the Mind; State of Introspection; Interior Concentration; Astral Auras; Reading in the Astral Light; Telepathy.

Strengthening Forensic Science in the United States

This book shows that many of our understandings about scientific thought can be corrected once we realise just how "unnatural" science actually is. Quoting scientists from Aristotle to Einstein, the author argues that scientific ideas are, with rare exceptions, counter-intuitive and that common sense often makes no sense at all. A passionate advocate of the beauty and importance of science, the author examines a range of issues, including why science and technology are quite different, why psychoanalysis is not properly scientific and why philosophers and sociologists have made so little contribution to understanding science's true nature. He demonstrates the folly of holding scientists responsible for many of society's problems, and the equal folly of looking to science for a miracle cure.

Occult America

"Looking closely at the sixteenth through eighteenth centuries, Ball vividly brings to life the age when modern science began, a time that spans the lives of Galileo and Isaac Newton. In this entertaining and illuminating account of the rise of science as we know it, Ball tells of scientists both legendary and lesser known, from Copernicus and Kepler to Robert Boyle, as well as the inventions and technologies that were inspired by curiosity itself, such as the telescope and the microscope. The so-called Scientific Revolution is often told as a story of great geniuses illuminating the world with flashes of inspiration. But *Curiosity* reveals a more complex story, in which the liberation--and subsequent taming--of curiosity was linked to magic, religion, literature, travel, trade, and empire. Ball also asks what has become of curiosity today: how it functions in science, how it is spun and packaged for consumption, how well it is being sustained, and how the changing shape of science influences the kinds of questions it may continue to ask"--OCLC

Mary Magdalene

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

The Sion Revelation

This book is not intended as an attack on Christianity or the Christ of faith, but is an assessment of all the historical evidence about Jesus Christ. Although there is a huge literature on the subject - theological, historical, mythical, New Age and speculative - almost all of it is aimed at a niche market. *The Masks of Christ* is very different, being a mainstream book aimed at everyone. For the first time, all the various theories and facts about Jesus are considered between the covers of one accessible book. As the

phenomenal sales of The Da Vinci Code continue to fuel a growing global appetite for questioning the old certainties and assumptions about Christianity and what it says about its founder, never has there been a more perfect time to launch The Masks of Christ.

The Mystic Test Book of the Hindu Occult Chambers

As the title testifies, students were sworn to secrecy before being given access to this magic text, and only a few manuscripts have survived. Bits of its teachings, such as the use of the magic whistle for summoning spirits, are alluded to in other texts. Another key element of its ritual, the elaborate "Seal of God," has been found in texts and amulets throughout Europe. Interest in The Sworn Book of Honorius has grown in recent years, yet no modern translations have been attempted—until now. Purporting to preserve the magic of Solomon in the face of intense persecution by religious authorities, this text includes one of the oldest and most detailed magic rituals. It contains a complete system of magic including how to attain the divine vision, communicate with holy angels, and control aerial, earthly, and infernal spirits for practical gain. Largely ignored by historians until recently, this text is an important witness to the transmission of Kabbalah and Jewish mysticism to European Hermeticists.

The Unnatural Nature of Science

"This complete self-study course in modern Wicca is a treasured classic - an essential and trusted guide that belongs in every witch's library."---Back cover

A New and Complete Illustration of the Occult Sciences: Or, The Art of Foretelling Future Events and Contingencies

The ultimate guide to the history, background and meaning of whether UFOs really exist, plus associated phenomena such as alien abduction, crop circles and cattle mutilations. There is also a comprehensive overview of the many conspiracy theories which surround UFOs and abductions - from the craft as secret Nazi technology to weird CIA plots. Written by a ufologist with many years in the field, this exciting and highly provocative book at times reads like a thriller. What messages do UFOs hold for us and for the future of life on earth?

Curiosity

The Rosicrucian Cosmo-conception
