John McDonnell on Labour's Economic Policy - John McDonnell on Labour's Economic Policy by LSE 10,311 views 8 years ago 1 hour, 18 minutes - Date: Tuesday 16 February 2016 Time: 6.30-7.30pm Venue: Sheikh Zayed Theatre, New Academic Building Speaker: John ...

Some of You May Remember It Was a Speech I Made Where I Repeated Embarrassing Five Times and It Was Embarrassment for Actually Humility Is Good for the Politicians Soul every Now and Again so from Now On from There on the Labour Party Became Anti-Austerity Party Which Rejects

the Failed Approach to Macroeconomics That Has Done So Much Damage in this Country and across Europe and I'M Proud of It Immensely Proud but this Is Just the Beginning It's Not Just Bad Macroeconomic Policy That Which Holds Back the Potential of the Uk We'LI Be Inviting People to a Conference on the an Annual Conference on the State of Our Economy Please Come Along from the Effect of Technology on Working Patterns to the Importance of a Balanced Economy or the Framing of Economic Narratives We'Re Opening Up the Debate and We'Re Listening to the Brightest Minds on the Biggest Topics Again I Just Hope Many of You Here Today Will Join Us for One or More of the Events They'Re all Free and They'Re Advertised on the New Economics

The Message Which Comes through Time and Time Again from All the Post-Mortems of Last Year's Election Defeat for Us Is that the Public Don't Trust Labour with the Economy and the Public Finances so We'Ve Got a Fight on Our Hands and We Understand that To Win Back Economic Credibility It's Possibly the Most Important Fight in for Our Party in a Generation We Need To Begin to by Underlining Our Commitment to Bringing the Government's Day to Day Spending into Balance We Also Know the Importance of Borrowing for Investment Which Lays the Foundations for a Future We CanNot Prosperity a Few Things Are More Important than Delivering the Infrastructure Our Economy Is Trying Out for Infrastructure

We Need a Tax System Which Is Fit for the 21st Century in the Era of Globally Mobile Capital We Need To Look Deeper at the Fundamentals of Our Economy How Assets Are Owned and Shared How Wealth Is Created and by Whom Moving Away from the Image of a Party Which Thinks Only about How Much It Can Spend to a Party Which Focuses on How We Earn in the Autumn I Spoke at Imperial College about the Tremendous Possibilities Being Opened Up by Technology and the So Called Gig Economy

We Need To Go Much Further Further than Simply Offering a Defense of What We Already Have New Labor Offered a Political Settlement in Which the Private Sector and Its Major Vested Interests Would Remain Largely Untouched but Public Spending Would Be Maintained that Political Settlement Came to a Crashing Halt in 2008 and We as the Labour Party We Have To Be Honest about that That Is the Only Way We Can Clean Up To Have Learned the Lessons of the Great Financial Crisis So To Be Frank We CanNot Turn the Clock Back to 1997 However all Labor Solutions Won't Work Now either Demanding a Higher and Higher Rate of Public Spending from an Economy

And We as the Labour Party We Have To Be Honest about that That Is the Only Way We Can Clean Up To Have Learned the Lessons of the Great Financial Crisis So To Be Frank We CanNot Turn the Clock Back to 1997 However all Labor Solutions Won't Work Now either Demanding a Higher and Higher Rate of Public Spending from an Economy with the Uk Structural Weaknesses Is Unsustainable and nor Can We Simply Demand Top-Down Nationalization as a Panacea the Old Moroso Neom Model of Nationalization Centralised Too Much Power in a Few Hands in Whitehall

By the Information Processing Demands of Complex Modern Societies His Preferred Solution Was To Allow the Market To Act Isn't the Information Processor but I Believe It Was Equally Unviable and Proved To Be so Markets Can Be Crude Information Processors At Best as the Crash of 2008 Showed and They Still Create Unviable Bureaucracies As Well so We Should Look Instead to How Different Forms of Organization Can Operate in the Economy Not Just the Capitalist Firm or the Nationalized Industry but Many Different Ways of Organizing Ownership and Production We Need a Far More Sophisticated Argument about Ownership That Doesn't Just Fall into a Caricature We'Ve Got To Find a Different Way to the Future So Tonight Make this Work We Need a Wider Conversation about the Major Institutions in British Society without Addressing How these Institutions Charged with Managing the Economy Operate Will Not Be Able To Implement a Path to the Future What Are the Best Ways for the Bank of England and the Treasury To Oversee the Economy How Should these Relationships Function How Can We Democratize these Institutions How Can Our Joint Financial Institutions Function for the Good of the Whole of Society

The Kind of Things You Think the Labour Party Needs To Do Now To Make It Win Back the Confidence of the Electorate Which You'Ve Just Said It Didn't Have in 2015 this Is the Debate We'Ve Been Having at Shadow Cabinet Which Was Meant To Be Confidential but as Everything Leaks I Might As Well Tell You that It's Interesting We'Ve Been Trying To Brainstorm the Ideas about Why We Lost in 2015 and It Was You Know the Clinton Thing It's the Economy Stupid and It Was about Economic Credibility The One That Really Gets Up My Nose Is Fixing the Roof while the Sun Shines We Heard that One and Then the Next Bit Was the Economy They Wanted Higher Wages Low Taxes Etc and They Just Repeated that Continuously and People Believed Them so the Issue for Us Now Is I Think We'Ve Got To Do both We'Ve Got To both Demonstrate Economic Credibility through Competence but You'Ve Also Got To Get the Narrative Right As Well so a Lot of Our Work that We'Re Doing at the Moment Is

in All the Meetings That We'Re Doing around the Country Is Talking about What How What People Feel about the Economy

So a Lot of Our Work that We'Re Doing at the Moment Is in All the Meetings That We'Re Doing around the Country Is Talking about What How What People Feel about the Economy and What the Narrative Is for Them and I Think the Greatest Lesson for Us Is that that Propaganda Issue Narrative Beats Competence Believe It or Not but Eventually Competence Does Catch Up on You so We'Ve Got To Get both Right We'Ve Got To Demonstrate We Understand the Economy We'Ve Got Ideas for the Future That Are Practical Pragmatic and Realistic and We'LI Be Successful in Gaining that Prosperity That's Shared by all but We'Ve Also Got To Get the Narrative Right and a Lot of the Work We'Re Doing Now Is around that Narrative What's Interesting as Well You Can You Can Blame the Media for a Lot of this and

And that's Why I Chose Imperial College with the Greatest Respect When I Did that Lecture because if You Remember When I Spoke I Was Surrounded by All these Startup Firms in New Technologies That Were Developing There so Research and Developments Absolutely Critical and It's the One Thing That the One Thing That Suffered under this Government in Recent Years and the Cutbacks That Have Taken Place and We'Ve Offered a Party Approach on this To Try and Look at How You Get Long-Term Investment Patient Investment beyond the Life of One Parliament so It's Not All this Stop and Start Particular Data Research

And We'Ve Offered a Party Approach on this To Try and Look at How You Get Long-Term Investment Patient Investment beyond the Life of One Parliament so It's Not All this Stop and Start Particular Data Research and Development and Particularly the Guard to Investment in Our Academic Institutions Most of Which Now Working Very Closely with the Private Sector To Do that on the Tax Reliefs I Don't Have Frightened People but What Seem Is Doing Is Going through this Sample of Tax Reliefs and these Tax Expenditures Which Are the Release Mentor Shade Change Behavior Just To See What's Effective and What's Not Consulting

As I Said in My Speech We'Re Asking Quite Challenging Questions about the Solutions of the Past Haven't Worked So How Do We Look at New New Ideas and Part about that Is about Democratizing Our Economy in the 1980s There Was a Big Discussion in the Labor Party about What What Do What Was the Meaning of Socialism and I Remember Neil Kinnock Sent Bernie Quick Off around the Corner To Say What Was Socialism He Came Back with Similar Phrases about the Achievement of Equality through Democracy and I Think Our Democratizing Our Economy Is Part and Parcel of that and in that Way You Can Avoid the the Inherent Crisis Crisis-Ridden Nature of Capitalism or At Least Avoid Its Worst Effects
