The Partisan and Other Stories

Stories set in Ireland, Slovenia, Slovakia, and India, penetrating stories woven out of Gabriel Rosenstock's own fantastic worlds, some newly translated from the Irish, others appearing in English for the first time. "The Partisan and other stories" has a stunning range of moods, styles, voices and themes - from the quirky and mirth-provoking to the magically lyrical - all inviting the reader to engage in an entrancing and passionate conversation about the nature of reality.

The Partisan

Epic in scope, The Partisan is a thrill ride that takes readers from the hallowed halls of Cambridge to the grimy depths of the Moscow underworld, from 1960s London to the Eastern Front during the Second World War. Summer 1961: The brutal Cold War between East and West is becoming ever more perilous. Two young prodigies from either side of the Iron Curtain, Yulia and Michael, meet at a chess tournament in London. They don't know it, but they're about to compete in the deadliest game ever played. Shadowing them is Greta, a ruthless Lithuanian resistance fighter who is hunting down some of the most dangerous men in the world. Men who are also on the radar of Vassily, perhaps the USSR's greatest spymaster. A man of cunning and influence, Vassily is Yulia's minder during her visit to the West, but even he could not foresee the consequences of her meeting Michael. When the world is accelerating towards an inevitable and catastrophic conflict, what can just four people do to prevent it?

stories which appeared originally, sometimes with slightly different texts in the following magazines: Partisan Review, The Olympia Reader, Audit, Accent, The New Leader, Nugget, Trace, Midstream.

The Night Tony Shot the Lights Out and Other Stories

These eight stories are about the relationships and interactions of ordinary, but interesting, people who find themselves in unusual situations within a recent actual historical context. In some a character confronts, interprets, or comes to terms with, the present by reflecting on the past. Most of the settings are on Vancouver Island -- Nanaimo, the Cowichan Valley, the West Coast -- and feature characters in action, in engagement with their environment. "The Night Tony Shot the Lights Out" three WWII veterans find coming home to be a difficult adjustment. "My Former Yugoslavia" in 1963 a young man travels on foot to a remote village in Bosnia to try to find the estranged sister of a friend in Duncan. "Annie Crook" a woman, age 90, contemplates her life of solitude, with reflections of her childhood and living in hardship in a coal camp 75 years earlier. "Rhymes With Love"; a 60-something white man and a 40-something Chinese woman find themselves living together temporarily in the same house. The inevitable relationship ensues, which is complicated by the fact that she is the daughter of his former lover. "That Good Cahors Wine"; a man walks into the wilderness alone on an overnight pilgrimage to see Canada's highest waterfall. "The Shed" a story of dying man's reconciliation with his former best friend whom he has blamed for a betrayal as the result of a love triangle. "Short Haul"; in a chance encounter, a man finds he is sitting in a barber shop with his childhood hockey hero. "The Interlude"; A businessman befriends an alcoholic street person and finds that they have something in common -- not enough, however, to prevent a sad ending.

The Partisan Review Anthology

The modern Brazilian short story begins with the mature work of Joaquim Maria Machado de Assis (1839-1908), acclaimed almost unanimously as Brazil's greatest writer. Collectively, these nineteen stories are representative of Machado's unique style and world view, and this translation doubles the number of his stories previously available in English. The stories in this volume reflect Machado's post-1880 emphasis on social satire and experimentation in psychological realism. If he had continued to produce the moralistic love stories and parlor intrigues of his earlier fiction, Machado's legacy would have been an entertaining but inconsequential body of work. However, by 1880 he had begun a devastating satirical assault on society through his fiction. In spite of his ruthlessness, Machado does at times reveal an ironic sympathy for his characters. He is not indifferent to human conflict but uses humor and irony to stress the absurdity of these conflicts, acted out against the backdrop of an indifferent universe. Such a spectacle creates a sense of helplessness that can only inspire wistful amusement. In his technical mastery of the short story. Machado was decades ahead of his contemporaries and can still be considered more modern than most of the modernists themselves. That his stories elicit such strong and diverse reactions today is a tribute to their richness, complexity, and significance.

The Devil's Church and Other Stories

Born in 1908, Niccolo Tucci is the author of six books (three in Italian, three in English). He first became known in America for his articles and stories published in various leading periodicals--among them *Partisan Review*, *Harper's*, *The Atlantic*, and *The New Yorker*. *The Rain Came Last* is the first collection of Tucci's English-language stories to be published. Mary McCarthy remarks in her introduction that the material Tucci delineates lies "somewhere between excruciated memory and 'happy' invention." He writes of his childhood and adolescence in the remote Tuscany countryside where his family lived, dislocated from its grand and opulent past. Later, in a different dislocation, Tucci's stories spring from his urbane and bohemian adult years in Manhattan, to which he emigrated in the 1930s. Very few other writers for whom English was not a native language have adopted and adapted it in so masterly and personal a fashion--Conrad and Nabokov among the rare exceptions. "He is," comments Mary McCarthy, "an international man, a very unusual thing, and it is that perhaps that has put and kept him in a class by himself."

The Rain Came Last & Other Stories

For the first time in paperback--a volume of thirty-seven diabolically inventive stories, fables, and "impossible interviews" from one of the great fantasists of the 20th century, displaying the full breadth of his vision and wit. Written between 1943 and 1984 and masterfully translated by Tim Parks, the fictions in *Numbers in the Dark* display all of Calvino's dazzling gifts: whimsy and horror, exuberance of style, and a cheerful grasp of the absurdities of the human condition.

Numbers in the Dark

The Book Smugglers is the nearly unbelievable story of ghetto residents who rescued thousands of rare books and manuscripts--first from the Nazis and then from the Soviets--by hiding them on their bodies, burying them in bunkers, and smuggling them across borders. It is a tale of heroism and resistance, of friendship and romance, and of unwavering devotion--including the readiness to risk one's life--to literature and art. And it is entirely true. Based on Jewish, German, and Soviet documents, including diaries, letters, memoirs, and the author's interviews with several of the story's participants, *The Book Smugglers* chronicles the daring activities of a group of poets turned partisans and scholars turned smugglers in Vilna, "The Jerusalem of Lithuania." The rescuers were pitted against Johannes Pohl, a Nazi "expert" on the Jews, who had been dispatched to Vilna by the Nazi looting agency, *Einsatzstab Reichsleiter Rosenberg*, to organize the seizure of the city's great collections of Jewish books. Pohl and his *Einsatzstab* staff planned to ship the most valuable materials to Germany and incinerate the rest. The Germans used forty ghetto inmates as slave-laborers to sort, select, pack, and transport the materials, either to Germany or to nearby paper mills. This group, nicknamed "the Paper Brigade," and informally led by poet Shmerke Kaczerginski, a garrulous, street-smart adventurer and master of deception, smuggled thousands of books and manuscripts past German guards. If caught, the men would have faced death by firing squad at Ponar, the mass-murder site outside of Vilna. To store the rescued manuscripts, poet Abraham Sutzkever helped build an underground book-bunker sixty feet beneath the Vilna ghetto. Kaczerginski smuggled weapons as well, using the group's worksite, the former building of the Yiddish Scientific Institute, to purchase arms for the ghetto's secret partisan organization. All the while, both men wrote poetry that was recited and sung by the fast-dwindling population of ghetto inhabitants. With the Soviet "liberation" of Vilna (now known as Vilnius), the Paper Brigade thought themselves and their precious cultural treasures saved--only to learn that their new masters were no more welcoming toward Jewish culture than the old, and the books must now be smuggled out of the USSR. Thoroughly researched by the foremost scholar of the Vilna Ghetto--a writer of exceptional daring, style, and reach--*The Book Smugglers* is an epic story of human heroism, a little-known tale from the blackest days of the war.

With the Gestapo pounding on every door, no Jew in Athens is safe. At the start of ODYSSEY OF CHAOS, Theo Kantos, a dress shop owner, has a desperate choice to make if he is to save his family. Does he trust the most despicable man he knows to hide them? Or does he place the lives of those he loves in the hands of a communist? And what does he do about his obstinate brother who always has to have the last word? Nearly 90% of Greece's Jews perished in the Holocaust, the highest percentage lost in any country. ODYSSEY OF CHAOS was inspired by the true story of the author's Greek cousins who survived hidden in a cellar by a shepherd. Other cousins joined the partisan resistance. And others died in Auschwitz. SIX CONTEMPORARY SHORT STORIES follow the title novella. All are about dramatic events and choices that alter the course of lives and form who we are.

Odyssey of Chaos

In the final days of World War II, a band of Jewish partisans makes its way from Russia to Italy, moving toward the ultimate goal of Palestine. Based on a true story, the novel chronicles their adventures as they wage a personal war of revenge against the Nazis: blowing up trains, rescuing the last victims of concentration camps, scoring victories in the face of unspeakable devastation. Primo Levi captures the landscape and the people of Eastern Europe in vivid detail, depicting as well the terrible bleakness of war-ridden Europe. But finally, what he gives us is a tribute to the strength and ingenuity of the human spirit.

A new edition of the definitive book on the depression-era immigrant experience in New York City. Now with an exciting new preface by Lou Reed (Delmore Schwartz's student at Syracuse), *In Dreams Begin Responsibilities* collects eight of Schwartz's finest delineations of New York's intellectuals in the 1930s and 1940s. As no other writer can, Schwartz captures the speech, the generational conflicts, the mocking self-analysis of educated, ambitious, Depression-stymied young people at odds with their immigrant parents. This is the unique American dilemma Irving Howe described as "that interesting point where intellectual children of immigrant Jews are finding their way into the larger world while casting uneasy, rueful glances over their backs." Afterwords by James Atlas and Irving Howe place the stories in their historical and cultural setting.

How does the American public formulate its opinions about U.S. foreign policy and military engagement abroad? *War Stories* argues that the media systematically distort the information the public vitally needs to determine whether to support such initiatives, for reasons having more to do with journalists' professional interests than the merits of the policies, and that this has significant consequences for national security. Matthew Baum and Tim Groeling develop a "strategic bias" theory that explains the foreign-policy communication process as a three-way interaction among the press, political elites, and the public, each of which has distinct interests, biases, and incentives. Do media representations affect public support for the president and faithfully reflect events in times of diplomatic crisis and war? How do new media--especially Internet news and more partisan outlets--shape public opinion, and how will they alter future conflicts? In answering such questions, Baum and Groeling take an in-depth look at media coverage, elite rhetoric, and public opinion during the Iraq war and other U.S. conflicts abroad.

They trace how traditional and new media select stories, how elites frame and sometimes even distort events, and how these dynamics shape public opinion over the course of a conflict. Most of us learn virtually everything we know about foreign policy from media reporting of elite opinions. In *War Stories*, Baum and Groeling reveal precisely what this means for the future of American foreign policy.

A Protegee of Jack Hamlin's, and Other Stories

This title, developing a University of Cambridge PhD thesis, is based on Soviet archival sources, most previously untapped by Western and Soviet and post-Soviet Russian historians, in addition to German material from the US National Archives. Using this material the author describes the harsh realities of partisan warfare and explains the changing fortunes of the Soviet partisan movement on the territory of north-western Russia occupied by the German Army Group North between 1941 and 1944. The author argues that after the virtual annihilation of the partisan movement of 1941, during the period

from spring 1942 to autumn 1943, despite improvements in partisan combat effectiveness, ruthless German anti-partisan policies, in combination with other measures described, prevented the partisan movement from achieving results hoped for but its leadership. From the autumn of 1943 the prospect of a scorched earth policy in retreat by a German Army clearly on the run, in combination with the military development of the partisan movement and effective propaganda aimed at the civilian population and military collaborators, provided the foundations for increased partisan success.

The prevailing image of European Jews during the Holocaust is one of helpless victims, but in fact many Jews struggled against the terrors of the Third Reich. In *Defiance*, Nechama Tec offers a riveting history of one such group, a forest community in western Belorussia that would number more than 1,200 Jews by 1944--the largest armed rescue operation of Jews by Jews in World War II. Tec reveals that this extraordinary community included both men and women, some with weapons, but mostly unarmed, ranging from infants to the elderly. She reconstructs for the first time the amazing details of how these partisans and their families--hungry, exposed to the harsh winter weather--managed not only to survive, but to offer protection to all Jewish fugitives who could find their way to them. Arguing that this success would have been unthinkable without the vision of one man, Tec offers penetrating insight into the group's commander, Tuvia Bielski. Tec brings to light the untold story of Bielski's struggle as a partisan who lost his parents, wife, and two brothers to the Nazis, yet never wavered in his conviction that it was more important to save one Jew than to kill twenty Germans. She shows how, under Bielski's guidance, the partisans smuggled Jews out of heavily guarded ghettos, scouted the roads for fugitives, and led retaliatory raids against Belorussian peasants who collaborated with the Nazis. Herself a Holocaust survivor, Nechama Tec here draws on wide-ranging research and never before published interviews with surviving partisans--including Tuvia Bielski himself--to reconstruct here the poignant and unforgettable story of those who chose to fight.

The Longest Day and Other Stories

"Calvino . . . managed effortlessly what no author in English could quite claim: his novels and stories and fables were both classically modernist and giddily postmodern, embracing both experiment and tradition, at once conceptual and humane, intimate and mythic." — Jonathan Lethem, *New York Times Book Review* Blending reality and illusion with elegance and precision, the stories in this collection take place in a World War II-era and postwar Italy tinged with the visionary and fablelike qualities. A trio of gluttonous burglars invades a pastry shop; two children trespass upon a forbidden garden; a wealthy family invites a rustic goatherd to lunch, only to mock him. In the title story, a compact masterpiece of shifting perspectives, a panicked soldier tries to keep his wits—and his life—when he faces off against a young partisan with a loaded rifle and miraculous aim. Select stories from *Last Comes the Raven* have been published in translation, but the collection as a whole has never appeared in English. This volume, including several stories newly translated by Ann Goldstein, is an important addition to Calvino's legacy.

The Man of Letters as a Man of Business, and the Parlor Car (Dodo Press)

William Dean Howells (1837-1920) was an American realist author and literary critic. He wrote his first novel, *Their Wedding Journey*, in 1871, but his literary reputation really took off with the realist novel *A Modern Instance*, published in 1882, which describes the decay of a marriage. His 1885 novel *The Rise of Silas Lapham* is perhaps his best known, describing the rise and fall of an American entrepreneur in the paint business. His social views were also strongly reflected in the novels *Annie Kilburn* (1888) and *A Hazard of New Fortunes* (1890). While known primarily as a novelist, his short story "Editha" (1905) - included in the collection *Between the Dark and the Daylight* (1907) - appears in many anthologies of American literature. Howells also wrote plays, criticism, and essays about contemporary literary figures such as Ibsen, Zola, Verga, and, especially, Tolstoy, which helped establish their reputations in the United States. He also wrote critically in support of many American writers. It is perhaps in this role that he had his greatest influence.

The Man of Letters as a Man of Business, and The Parlor Car (Esprios Classics)

William Dean Howells (March 1, 1837 - May 11, 1920) was an American realist novelist, literary critic, and playwright, nicknamed "The Dean of American Letters". He was particularly known for his tenure as editor of *The Atlantic Monthly*, as well as for his own prolific writings, including the Christmas story "Christmas Every Day" and the novels *The Rise of Silas Lapham* and *A Traveler from Altruria*. In 1856, Howells was elected as a clerk in the State House of Representatives. In 1858, he began to work at the *Ohio State Journal* where he wrote poetry and short stories, and also translated pieces from French, Spanish, and German. He avidly studied German and other languages and was greatly interested in Heinrich Heine.

An extraordinary masterpiece written from personal experience, *Middlemarch* is a deep psychological observation of human nature that revolves around the issues of love, jealousy, and obligation. Eliot's feminist views are apparent through the novel: she stresses the fact that women should control their own lives....

Middlemarch

He was cursed, it seemed, with a fatal fascination. Women might be practically engaged to other men; they might be at the altar's hinges; but he could not stroll among them with his devilish gift without scattering ruin amid the troths. If he was not openly rude to them, they took it as direct encouragement; if he was civil, from him they viewed it as wooing; and when actually crowned with the deliberate kiss...-from *Angela's Business* Would he be seduced by the ultrafeminine wiles of old-fashioned Angela

Flower? Or would writer and oh-so modern man Charles King Garrott come to recognize the charms of independent-minded schoolteacher Mary Wing? This 1915 novel, a bestseller in its day, wrings drama and ironic humor from the social upheaval of the early 20th century, as women began to assert the personhood and enjoy their autonomy... and men barely knew what to make of it. Author Henry Sydnor Harrison was a rarity in his time—a vocal male feminist—and this perceptive work is an excellent example of his fictional championing of a very real character: the New Woman of the new century. American author HENRY SYDNOR HARRISON (1880-1930) is best remembered for his novels *Queed* (1911) and *Captivating Mary Carstairs* (1914).

Afoot in England

More than any other writer, Raymond Chandler (1888-1959) is responsible for raising detective stories from the level of pulp fiction to literature. Chandler's hard-boiled private eye Philip Marlowe set the standard for rough, brooding heroes who managed to maintain a strong sense of moral conviction despite a cruel and indifferent world. Chandler's seven novels, including *The Big Sleep* (1939) and *The Long Goodbye* (1953), with their pessimism and grim realism, had a direct influence on the emergence of film noir. Chandler worked to give his crime novels the flavor of his adopted city, Los Angeles, which was still something of a frontier town, rife with corruption and lawlessness. In addition to novels, Chandler wrote short stories and penned the screenplays for several films, including *Double Indemnity* (1944) and *Strangers on a Train* (1951). His work with Billy Wilder and Alfred Hitchcock on these projects was fraught with the difficulties of collaboration between established directors and an author who disliked having to edit his writing on demand. *Creatures of Darkness* is the first major biocritical study of Chandler in twenty years. Gene Phillips explores Chandler's unpublished script for *Lady in the Lake*, examines the process of adaptation of the novel *Strangers on a Train*, discusses the merits of the unproduced screenplay for *Playback*, and compares Howard Hawks's director's cut of *The Big Sleep* with the version shown in theaters. Through interviews he conducted with Wilder, Hitchcock, Hawks, and Edward Dmytryk over the past several decades, Phillips provides deeper insight into Chandler's sometimes difficult personality. Chandler's wisecracking Marlowe has spawned a thousand imitations. *Creatures of Darkness* lucidly explains the author's dramatic impact on both the literary and cinematic worlds, demonstrating the immeasurable debt that both detective fiction and the neo-noir films of today owe to Chandler's stark vision.

The Little Story that Started the Civil War “Any mind that is capable of a real sorrow is capable of good.” Harriet Beecher Stowe, *Uncle Tom's Cabin* *Uncle Tom's Cabin*; or *Life Among the Lowly*, is one of the most famous anti-slavery works of all time. Harriet Beecher Stowe's novel helped lay the foundation for the Civil War and was the best selling novel of the 19th century. While in recent years, the book's role in creating and reinforcing a number of stereotypes about African Americans, this novel's historical and literary impact should not be overlooked. Reader be assured this narrative is no fiction. I am aware that some of my adventures may seem incredible; but they are, nevertheless, strictly true. I have not exaggerated the wrongs inflicted by Slavery; on the contrary, my descriptions fall far short of the facts. I have concealed the names of places, and given persons fictitious names. I had no motive for secrecy on my own account, but I deemed it kind and considerate towards others to pursue this course. ""I wish I were more competent to the task I have undertaken. But I trust my readers will excuse deficiencies in consideration of circumstances. I was born and reared in Slavery; and I remained in a Slave State twenty-seven years.""

Incidents in the Life of a Slave Girl

The egotism that fuels the desire for greatness has been associated exclusively with men, according to one feminist view; yet many women cannot suppress the need to strive for greatness. In this forceful and compelling book, Alison Booth traces through the novels, essays, and other writings of George Eliot and Virginia Woolf radically conflicting attitudes on the part of each toward the possibility of feminine greatness. Examining the achievements of Eliot and Woolf in their social contexts, she provides a challenging model of feminist historical criticism.

Captains Courageous

In their youth, Manni and Franzi, together with their brothers, Ziggy and Sebastian, captured Germany's collective imagination as the Flying Magical Loerber Brothers -- one of the most popular vaudeville acts of the old Weimar days. The ensuing years have, however, found the Jewish brothers estranged and ensconced in various occupations as the war is drawing near its end and a German surrender is imminent. Manni is traveling through the Ruhr Valley with Albert Speer, who is intent on subverting Hitler's apocalyptic plan to destroy the German industrial heartland before the Allies arrive; Franzi has become inextricably attached to Heinrich Himmler's entourage as astrologer and masseur; and Ziggy and Sebastian have each been employed in pursuits that threaten to compromise irrevocably their own safety and ideologies. Now, with the Russian noose tightening around Berlin and the remnants of the Nazi government fleeing north to Flensburg, the Loerber brothers are unexpectedly reunited. As Himmler and Speer vie to become the next Führer, deluded into believing they can strike a bargain with Eisenhower and escape their criminal fates, the Loerbbers must employ all their talents -- and whatever magic they possess -- to rescue themselves and one another. Deftly written and darkly funny, *Germania* is an astounding adventure tale -- with subplots involving a hidden cache of Nazi gold, Hitler's miracle U-boats, and Speer's secret plan to live out his days hunting walrus in Greenland -- and a remarkably imaginative novel from a gifted new writing talent.

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's *Book of the Damned* was originally published, the strange phenomenon presented in this book remains largely unexplained by modern

science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Even when Adams first wrote his memoir of Falls Road in 1982, many of these places were still around--a point Adams makes very clearly in his foreword to this most recent edition.
