disconnect electrical power at the fuse box or circuit breaker box

recommend applying moisture barrier tape to the underside of the countertop

drill access holes in the cabinet for the electrical wiring

power the appliance through a ul listed power cord

extends through the right side of the cabinet opening

set the appliance on a blanket or a large piece of cardboard

unthread the four mounting screws securing the toe kick

measure the height of the cabinet opening from the underside

extend the legs out from the dishwasher base

applying thread seal tape to a 90 degree elbow

unthread the top screws securing the terminal

the strain relief screws are facing to the front

secure the green grounding wire with the screw

connect the grounding wire with the screw

secure them using an approved wire nut

tighten the strain relief screws to secure

re-thread the screw

return the dishwasher to its upright position
place cardboard under the appliance to protect
remove the cardboard
remove the plug buttons from the sides of the tub
a template for the pilot hole thread the phillips flathead screws to secure the mounting brackets to the cabinet or countertop
secure the mounting brackets to the cabinet
reinstall the plug buttons at the sides of the tub warning
secure the power wires and grounding wire using approved wire
connect the water supply line to the inlet valve
slide a retaining clamp onto the drain hose
prevent the drain water from siphoning back to the dishwasher
plug the power cord into the outlet
complete the installation by placing the inner access panel
tighten the four mounting screws
